

HONORARY DEGREES

The Board recognizes that certain outstanding individuals deserve special recognition for their accomplishments in business, industry or technology; for scholarly or cultural contributions; or for humanitarian and public service efforts, and the award of honorary degrees is an appropriate way to recognize such outstanding individuals.

The Board approves the award of a Honorary Associate in Arts, Associate in Science, or Associate in Applied Science degree to such outstanding individuals annually at commencement exercises with appropriate ceremony. The President shall recommend individuals to be so honored.

Approved: Board of Trustees
