MERCER HONORS PROGRAM
SELF-RECOMMENDATION FORM

Recommending yourself for honors courses initiates an investment in your own learning that will be matched by a commitment from honors faculty, the honors director, honors advisors, and other students. Give some thought to each item below and check those that apply to you. **Nobody is expected to check all of these, but to place in the Mercer Honors Program you must believe you have at least 6 of the characteristics below.**

☐ I do assigned readings/homework and come to class prepared.

☐ I want to figure things out more than just remembering them or looking them up.

☐ I can embrace working with peers whose worldview may be different than my own.

☐ I am good at working independently and following through on academic projects.

☐ I am a strong reader.

☐ I am a fairly confident writer.

☐ I am curious about a lot of subjects.

☐ I believe in being a proactive, initiative-seeking person.

☐ I like sharing my ideas with others or am ready to work on presenting my ideas more.

☐ I welcome an interesting challenge.

☐ I am willing to take risks and try new approaches when I learn.

Elementary Statistics Self-Recommendation Addendum
(Only required for students interested in honors MAT 125/126. Both must be checked.)

☐ I appreciate the importance of math, and while it challenges me at times, I don't fear it.

☐ I want to be able to apply my understanding of statistics in practical ways.
