ACC — ACCOUNTING

ACC 106  Office Accounting I  3 credits
Basic accounting course designed for non-transfer students. Emphasizes the techniques of double-entry bookkeeping: journalizing; posting; adjusting and closing entries; and financial statement preparation.  3 lecture hours

ACC 108  Hospitality Accounting  3 credits
Introductory accounting course integrating the special accounting requirements of the hospitality industry with generally accepted accounting principles.  3 lecture hours
ACC 109 Food, Beverage, and Labor Cost Control  
**3 credits**

*Prerequisite: ACC 108 with a minimum C grade*

Principles and theories underlying cost control as it applies to the hospitality industry. Problem-solving using spreadsheet software is integral component of instruction.  
*3 lecture hours*

ACC 111 Principles of Financial Accounting  
**4 credits**

*Prerequisite: MAT 037 (or MAT 037A and 037B) or equivalent proficiency*

Study of the accounting cycle and how accounting data impacts business decisions. Emphasis on understanding the "why" of accounting as well as the "how."  
*4 lecture hours*

ACC 112 Principles of Managerial Accounting  
**4 credits**

*Prerequisite: ACC 111 with a minimum C grade*

Study of the uses of accounting information for managerial decision-making. Areas covered include manufacturing, merchandising, and service cost systems; cost-volume-profit analysis; and budgeting and capital investment decision-making.  
*4 lecture hours*

ACC 201 Intermediate Accounting I  
**3 credits**

*Prerequisite: ACC 111 with a minimum C grade*

Detailed study of accounting theory and practice as they relate to cash; receivables; inventories; investments; property, plant and equipment; and intangible assets.  
*3 lecture / 1 laboratory hours*

ACC 202 Intermediate Accounting II  
**3 credits**

*Prerequisite: ACC 201 with a minimum C grade*

Continuation of ACC 201. Topics in the study of accounting theory and practice include liabilities, stockholder equity, cash flows, and leases.  
*3 lecture / 1 laboratory hours*

ACC 203 Federal Income Taxation  
**3 credits**

*Prerequisite: ACC 111 with a minimum C grade*

Study of income taxation as it applies to small businesses and individual taxpayers. Topics include gross income, exclusions, deductions, credits, exemptions, and capital gains. Computer software is used to prepare tax returns.  
[Fall offering]  
*3 lecture hours*

ACC 204 Auditing  
**3 credits**

*Prerequisite: ACC 201 with a minimum C grade*

Investigation into and application of the objectives and procedures governing auditing requirements, standards, and examinations.  
[Spring offering]  
*3 lecture / 1 laboratory hours*

ACC 205 Office Accounting II  
**3 credits**

*Prerequisite: ACC 106 with a minimum C grade*

Continuation of ACC 106. Topics include receivables and payables; merchandise inventory; plant and equipment; corporations; partnerships; and internal control.  
*3 lecture hours*

ACC 207 Computerized Accounting  
**3 credits**

*Prerequisite: ACC 111 with a minimum C grade*

Introduction to general ledger accounting on PCs. Students acquire a working knowledge of software packages currently used in industry.  
*2 lecture / 2 laboratory hours*

ACC 214 Accounting for Non-Profit Organizations  
**3 credits**

*Prerequisite: ACC 111 with a minimum C grade*

Study of generally accepted accounting principles as they apply to non-profit organizations, with emphasis on governmental agencies. Additional focus includes accounting for colleges and universities as well as hospitals and health organizations.  
*3 lecture hours*

ACC 215 Cost Accounting  
**3 credits**

*Prerequisite: ACC 112 with a minimum C grade*

Examination of the accounting practices to record and control material, labor, and overhead costs. Study includes job-order, process cost and standard cost systems for manufacturing and service firms.  
*3 lecture / 1 laboratory hours*
## ADV — ADVERTISING + GRAPHIC DESIGN

### ADV 101 Advertising Design I
**Prerequisite:** DMA 115 or divisional permission
Study of the principles and concepts of layout and design as applied to a variety of advertising and graphic design assignments: ads, brochures, logos, posters, book jackets, and sales promotion material. Promotes familiarity with advertising agency and studio procedures as well as professional techniques for producing layouts, comprehensives, and finished art. [Spring and Summer offering] 1 lecture / 4 studio hours

### ADV 110 Typography I: Basics of Graphic Design
Introduction to basic layout and typography as the fundamental language to graphic communication. No previous knowledge of layout and typography is presumed. Addresses the use of different typefaces to communicate visually desired effects, type forms, type indication and basic graphic design with type for layouts. 1 lecture / 4 studio hours

### ADV 201 Advertising Design II
**Prerequisites:** ADV 101, DMA 115 or divisional permission
Study of the advanced concepts and design principles used in planning visualizations and layouts for advertising and editorial presentations using art, photography, type, and illustrations. Survey of methods for developing ideas into graphic presentations and the intangibles that provide originality and variety in a creative field using the Macintosh computer. [Fall offering] 1 lecture / 4 studio hours

### ADV 202 Advertising Design III: Portfolio
**Prerequisites:** ADV 101, ADV 201, DMA 105 or divisional permission
Exploration and survey of a variety of methods for presenting art, design, and photography in a professional manner. Using traditional tools and the Macintosh computer, students prepare individual portfolios suitable for presentation to a client or for a job interview. [Spring offering] 1 lecture / 4 studio hours

### ADV 210 Publication Design
Advanced study of the use of type as it relates to page layout, graphic communication and publication design using Macintosh electronic publishing technology. Students use page makeup software that integrates text and graphics for a variety of projects. 1 lecture / 4 studio hours

### ADV 220 Illustration I
**Prerequisites:** ART 102 and ART 104 with a minimum C grade or divisional permission
Introduction to the concepts, techniques, and skills of the contemporary illustrator, emphasizing that good illustration – product or journalistic – is a means of communication. Assignments involve book and magazine illustration, visualization, and exercises in rendering light and shadow, plus production of comprehensive art in various media. 1 lecture / 4 studio hours

### ADV 222 Illustration II: Digital Drawing
**Prerequisites:** ART 102, ART 104, DMA 115
Interdisciplinary course combining illustration with other fine art and advertising design skills to create a professional commercial art portfolio. 1 lecture / 4 studio hours

### ADV 230 History of Graphic Design
**Prerequisites:** ENG 101 or permission of instructor; Internet access for web-based instruction
A survey of the history of graphic design from its origins to present day. This overview of graphic design develops visual vocabulary, provides a cultural and historical context, and instructs students in researching areas of interest to broaden their knowledge of contemporary graphic design. 3 lecture hours

## AMT — ADVANCED MANUFACTURING TECHNOLOGY

### AMT 101 Machine Shop Techniques I
Introduces students to manufacturing careers, shop safety, manufacturing operations. Topics include shop safety, mechanical hardware and shop tools, sawing, grinding, layout, hole making, and thread cutting. Corresponding labs reinforce lectures with practical examples. 2 lecture / 3 laboratory hours

ANT 222  The Anthropology of Myths, Magic and Witchcraft  3 credits

Prerequisite: ENG 101 or college-level eligibility
Examines the supernatural belief systems and practices of various cultures. Myths, rituals, animism, witchcraft, magic, shamanism, and syncretic religions are critically analyzed to understand the integrative effects of the sacred world. From that foundation, study progresses with a cross-cultural, anthropological comparison of religion and the supernatural. 3 lecture hours

ARB — ARABIC

Note: Students who have taken two or more years of a foreign language, and have done so in the last two years, should begin that language at the 200 level or switch to a new language. If there is doubt, placement will be determined by testing or consultation with the academic division.

Humanities
ARB 101  Beginning Arabic I  3 credits
The first in a sequence of courses designed for students with little or no prior knowledge of Arabic. Spoken communication in Arabic is both the end goal and the means of instruction. Emphasizes the four communicative skills in a culturally authentic context. Reading and writing are assigned out of class to facilitate effective listening and speaking practice in class. Basic grammar skills are also introduced. 3 lecture hours

Humanities
ARB 102  Beginning Arabic II  3 credits
Prerequisite: ARB 101 with a minimum C grade, placement by exam, or permission of instructor
The second in a sequence of courses designed for students with little or no prior knowledge of Arabic. Spoken communication in Arabic is both the end goal and the means of instruction. Emphasizes the four communicative skills in a culturally authentic context. Reading and writing are assigned out of class to facilitate effective listening and speaking practice in class. Basic grammar skills are also introduced. 3 lecture hours

Humanities
ARB 201  Intermediate Arabic I  3 credits
Prerequisite: ARB 102 with a minimum C grade, placement by exam, or permission of instructor
The first in a sequence of courses designed for students with a mid to high novice level of competency in Arabic. Spoken communication in Arabic continues to be the end goal and the means of instruction. The four communicative skills of reading, writing, listening and speaking are applied to discussions and debates involving Arab culture, politics, and history. Fundamental grammar points are reviewed. 3 lecture hours

ARC — ARCHITECTURE

ARC 102  Graphic Communication for Architecture  3 credits
Corequisite: ARC 121
A lecture / studio course aimed at developing architecture students’ graphic communication skills. Analytic and descriptive drawings of buildings, everyday objects, trees, plantings, and people are rendered using pencil, pen and ink, as well as through an introduction to digital imaging and computer-aided design software. 1 lecture / 4 laboratory hours

ARC 104  Computers in Architecture  3 credits
Prerequisite: ARC 121
Corequisite: ARC 123
Introduction to the use of the computer in architecture as a three-dimensional design/drawing tool. Students build 3-D models using parametric modeling software and manipulate three-dimensional forms, scenes, colors, textures, lighting and cameras to design effective compositions. Applicable to Windows-based computers. 1 lecture / 4 laboratory hours
ARC 105  Architectural Basic Design I      3 credits
Corequisite: ARC 102 or divisional permission
Explores fundamental principles and elements of design: form, space, composition, systems, context, imagery, as well as functional and structural organizations. Solutions to architectonic design projects explored through critical analysis, sketching, process drawings, and study models. Traditional and digital media tools are used as a means of communicating architectural ideas. [Fall offering] 1 lecture / 4 studio hours

ARC 122  History of Architecture        3 credits
Survey of the development of architecture from ancient civilizations to 1860. Social, religious, economic, technological, and aesthetic factors are explored to understand fully their influence on the development of buildings and cities. 3 lecture hours

ARC 123  Architecture Basic Design II    5 credits
Prerequisite: ARC 121 with a minimum C grade
Further study of the fundamental principles and elements of architectural design through a series of projects having increased complexity and depth of expression using more advanced presentation graphic techniques. Emphasis continues on the development of process drawing and model-building skills to explore design ideas. [Spring offering] 1 lecture / 8 studio hours

ARC 124  History and Theory of Modern Architecture 3 credits
Explores the social conditions and major personalities that influenced architectural developments from the Industrial Revolution to the present. 3 lecture hours

ARC 125  Architecture and the Environment 3 credits
Introductory course exploring the various relationships between the man-made world and the natural world. Human perceptions of the physical environment are studied relative to their effects on architectural design and human behavior. Analysis of the urban environment reveals the impact of architecture on quality of life. 3 lecture hours

ARC 134  Building Construction Systems    3 credits
Corequisites: ARC 227, sophomore standing in Architecture or divisional permission
Introductory survey of general concepts of sustainable design as they relate to building construction. Includes site, structural, environmental, envelope systems, materials and building systems. Focus is primarily on low-rise wood and steel structures. 3 lecture hours

ARC 140  Field Studies in Architecture and Urban Planning: America 3 credits
Prerequisite: ENG 101 and approval of instructor
Investigation of architectural characteristics and urban planning patterns in select regions. Extended travel in groups creates an "immersion experience." Students study/draw buildings, analyze physical characteristics of different environments, and consider the built environment’s impact on quality of life. [occasional offering]

ARC 141  Architecture and Culture: International 3 credits
Prerequisite: ENG 101 and approval of instructor
Exploration of the history, culture, technology, and quality of life as revealed and understood through the architecture and town planning in selected regions overseas. Travel to the selected region is a major component of the course, providing the student with the opportunity to experience the subjects introduced in the lectures prior to the trip. [occasional offering] 24 lecture / 21 lab (overseas) hours

ARC 227  Architecture Design I         5 credits
Prerequisite: ARC 123 with a minimum C grade
Sophomore-level design course emphasizing the exploration and development of architectural design concepts and their translation into physical form. Three to four major design problems challenge the student's preconceptions about architecture and stimulate the growth of an architectural vocabulary. [Fall offering] 1 lecture / 8 studio hours
ARC 228  Architecture Design II        5 credits

Prerequisite: ARC 227 with a minimum C grade
Corequisite: ARC 124
Builds on the foundation of ARC 227. More advanced design challenges help the student to sharpen design skills and to continue expanding an architectural vocabulary. [Spring offering] 1 lecture / 8 studio hours

ARC 285  Special Studies in Architecture Design        3 credits

Prerequisites: ARC 228 with a minimum C grade and divisional permission
Opportunity for students who have completed regular course offerings to continue their studies at advanced levels. Individual students and faculty develop a project contract that sets forth objectives, standards of quality, evaluation guidelines, and deadlines. [occasional offering] 3 lecture hours

ART — FINE ARTS, ART HISTORY

ART 101  Art and Culture        3 credits

Introduction to major movements of Western art as they relate to cultural influences, expanding knowledge, technological change, and effects on modern society. Through studio work, students investigate the intellectual aspects of traditional drawing, painting and mixed media techniques. 2 lecture / 2 studio hours

ART 102  Basic Drawing        3 credits

Examines the fundamentals of seeing line and value through studies of nature, still-life arrangements, the human figure, and concepts of perspective. Various media are used including ink, charcoal, and graphite. 1 lecture / 4 studio hours

ART 103  Freehand Drawing for Architects        3 credits

A lecture / studio course for developing the architecture student's freehand drawing skills, with emphasis on analytic and descriptive drawings of buildings, everyday objects, trees, plantings and people. Media used are pencil, pen and ink, and felt tip pen. 1 lecture / 4 studio hours

ART 104  Life Drawing        3 credits

Prerequisite: ART 102
Experience in drawing the human figure and developing an understanding of form, volume, structure, and anatomy. Exercises include gesture drawing and sustained poses. Various media are used. 1 lecture / 4 studio hours

ART 105  Two-Dimensional Design        3 credits

Intensive investigation of such essential principles as form, line, space, color, balance, and unity in two-dimensional design. Projects are assigned in sequence leading to specific visual solutions. Various media are used. 1 lecture / 4 studio hours

ART 106  Three-Dimensional Design        3 credits

An intensive investigation of the use of the formal elements of art and design according to the principles of organization in three-dimensional composition. Various media, techniques, and equipment are introduced. 1 lecture / 4 studio hours

ART 121  History of Art I        3 credits

A survey of Western art from the prehistoric through the late Medieval period, with an emphasis on stylistic analysis within the historical, cultural, and global context. 3 lecture hours

ART 122  History of Art II        3 credits

A survey of Western art from the Renaissance through the World War II period, with an emphasis on stylistic analysis within the historical, cultural, and global context. 3 lecture hours
**Humanities**

**ART 123  History of Modern Art** 3 credits
Comprehensive survey of the modern period in art beginning with Manet and continuing through the varied styles, schools, and movements of the 20th century. Color slides are analyzed and discussed.

3 lecture hours

**Humanities / Diversity and Global Perspective**

**ART 124  History of Non-Western Art** 3 credits
Focus on the aesthetic and historical evaluation of artists, styles, and cultures from India, China, Japan, Indonesia, Thailand, Cambodia, and pre-Columbian America. Color slides are analyzed and discussed.

3 lecture hours

**Humanities**

**ART 125  Topics in Contemporary Art** 3 credits
Prerequisite: ENG 101 or divisional permission
Exploration of trends and topics in contemporary art from 1945 to the present, involving a diverse range of artists who challenge preconceived notions of the role of art in today's society. Students learn to identify, analyze, and write about art through multi-media presentations, discussions, artists' talks, and a field trip.

3 lecture hours

**Diversity and Global Perspective**

**ART 126  African American Art** 3 credits
Comprehensive survey of the aesthetic and historical evaluation of African American art, artists and culture from colonial times to the present. Includes slide analysis, discussion, and museum visits.

3 lecture hours

**ART 130  Painting I** 3 credits
Prerequisite: ART 102 or ART 105 or divisional permission
Examination of the relationships of materials, media, and techniques in both figurative and abstract art. The elements of color and composition are introduced and explored. At the discretion of the instructor, students are advised to work in either acrylic or oil color.

1 lecture / 4 studio hours

**ART 141  Sculpture I** 3 credits
Prerequisite: ART 106
Introduction to sculptural practices and forms. Develops basic understanding of vocabulary of form while mastering technical skills. Acquaintance with several media, content, and organizing form and space.

1 lecture / 4 studio hours

**ART 145  Beginning Ceramics: Handbuilding** 3 credits
Introduction to basic clay experience, devoted to the handbuilding techniques of pinch, drape, press, slab, and coil to produce functional and sculptural ceramic objects. Introduces the technical aspects of colored slips and glazing. Stresses development of a personal appreciation of form.

1 lecture / 4 studio hours

**ART 146  Beginning Ceramics: Wheel-Throwing** 3 credits
Introduction to basic clay experience, devoted to clay-forming techniques on the potter's wheel to produce functional and sculptural ceramic objects. Introduces the technical aspects of colored slips and glazing. Stresses development of a personal appreciation of form and function.

1 lecture / 4 studio hours

**ART 150  Printmaking I** 3 credits
Study of the basic concepts, techniques, tools, and materials required to work in the production of surface, relief, and intaglio prints. Paper selection, preparation of ink, and operation of the presses are discussed and demonstrated.

1 lecture / 4 studio hours

**ART 230  Painting II** 3 credits
Prerequisite: ART 130 with a minimum C grade
Training and experience in the observation and application of painting media, acrylic or oil. Involves guidance in transforming what is observed or conceived into graphic and plastic forms, including traditional challenges of painting and composition, working with light, color, weight, and dimension.

1 lecture / 4 studio hours
ART 232  Advanced Painting and Drawing  3 credits
**Prerequisites:** ART 104, ART 230 with a minimum C grade
Intensive course designed for the advanced student, making drawing and painting a unique and personal experience. Through instructor guidance, the student develops a personalized approach to composition, color, and technique. Includes classroom critiques, outside assignments, and possible field trips. [Spring offering]
1 lecture / 4 studio hours

ART 233  Watercolor Painting  3 credits
**Prerequisite:** ART 102 with a minimum C grade or permission of instructor
Combining technical knowledge with practice, introduces the beginning watercolor painter to the materials and techniques of the past and present. The student studies various approaches to painting with watercolor, tempura, and wash and acquires a basic understanding of the proper selection of paper, brushes, paints and equipment. 1 lecture / 4 studio hours

ART 240  Raku Workshop  3 credits
**Prerequisite:** previous ceramics experience
Introduction to the Raku process. Students spend an intensive six-week period creating, glazing, and firing functional and sculptural ceramic objects. 1 lecture / 4 studio hours

ART 241  Sculpture II  3 credits
**Prerequisite:** ART 141
Continuation of ART 141 with refinement of presentation of where, when, and how the object is viewed. Concentration on a complete statement of form, space, and content. Further exploration of several media. 1 lecture / 4 studio hours

ART 250  Printmaking II  3 credits
**Prerequisite:** ART 150 with a minimum C grade
Continued exploration and development of surface, relief, and intaglio techniques. 1 lecture / 4 studio hours

ART 280  Special Studies in Drawing  3 credits
**Prerequisites:** ART 102, ART 104 with a minimum 3.0 GPA and/or divisional permission

ART 283  Special Studies in Painting  3 credits
**Prerequisites:** ART 232 and divisional permission

ART 284  Special Studies in Ceramics  3 credits
**Prerequisites:** ART 146 and divisional permission

ART 285  Special Studies in Sculpture  3 credits
**Prerequisites:** ART 241 and divisional permission

ART 286  Special Studies in Printmaking  3 credits
**Prerequisites:** ART 250 and divisional permission
Special courses in specific art forms allow students who have completed regular course offerings to continue their studies at advanced levels. Individual students and faculty develop a project contract that sets forth objectives, standards of quality, evaluation guidelines, and deadlines. [occasional offerings]

ART 281  Special Studies in Art History  3 credits
**Prerequisites:** completion of 15 credits of art/architecture history with minimum 3.0 GPA, sophomore status and divisional permission
Special course in museum/gallery work for art history students who have completed regular course offerings and desire a supervised apprenticeship. Individual students and faculty develop a project contract that sets forth objectives, standards of quality, evaluation guidelines, and deadlines. [occasional offering]

ART 291  Cooperative Education – Visual Arts  3 credits
Integration of classroom study and lab work with specific planned period of learning through job experience. Based on an individualized learning contract, designed for Advertising Design and Digital Media Arts majors who have demonstrated advanced skill levels and for those who have potential to perform professionally in a work environment. 270 work experience hours
### ASL — AMERICAN SIGN LANGUAGE

**Humanities**

**ASL 101** American Sign Language I  
3 credits  
The first in a sequence of courses designed for students with little or no prior knowledge of ASL. Voiceless communication in ASL is both the end goal and the means of instruction. Communicative skills and basic grammar are introduced in a culturally authentic context. [satisfies foreign language requirement]  
3 lecture hours

**ASL 102** American Sign Language II  
3 credits  
Prerequisite: ASL 101 with a minimum C grade or permission of instructor  
The second in a sequence of courses designed for students with little or no prior knowledge of ASL. Voiceless communication in ASL is both the end goal and the means of instruction. Communicative skills and basic grammar are introduced in a culturally authentic context. [satisfies foreign language requirement]  
3 lecture hours

### AUT — AUTOMOTIVE TECHNOLOGY

**AUT 110** Introduction to Automotive Electronics  
3 credits  
Prerequisite: MAT 033 or MAT 041  
Corequisite: AUT 111  
An introduction to voltage, current and resistance, series and parallel circuits, batteries, and electronic components. Also covers wiring schematics, wire repair, and circuit troubleshooting. For automotive students.  
3 lecture / 1 laboratory hours

**AUT 111** Automotive Service Fundamentals  
5 credits  
Corequisite: AUT 110  
Introduction to the automobile and its operating systems. Emphasizes theories of operation, service facility practices and current servicing procedures, with detailed attention to each individual system including diagnosis and repair. Personal safety policies in the work environment are stressed in detail.  
2 lecture / 6 laboratory hours

**AUT 112** Automotive Fuel Systems  
3 credits  
Prerequisites: AUT 110, AUT 111  
An examination of gasoline and diesel automotive fuel systems, including fuel basics, electronic fuel injection systems, gasoline direct injection, diesel fuel delivery systems, and On-Board Diagnostics II (OBD II). Lessons focus on theory of operation, driveability diagnostic procedures, and the use of diagnostic equipment.  
2 lecture / 3 laboratory hours

**AUT 113** Suspension, Steering and Alignment  
4 credits  
Prerequisites: AUT 110, AUT 111 with a minimum C grade  
Theory of operation and service of vehicular suspension and steering systems, with emphasis on component inspection and replacement. Addresses four-wheel alignment with lab activities using a drive-on alignment rack and computer alignment machine.  
2 lecture / 4 laboratory hours

**AUT 114** Automotive Electricity and Electronics  
3 credits  
Prerequisites: AUT 110, AUT 111  
An examination of electrical/electronic principles applied to current automotive systems. Subjects include electronic control systems, starting and charging systems, wiring diagrams, chassis wiring service, vehicle communication networks, passive restraints, electrical power management, infotainment, navigation, and electrical accessories. Diagnostic skills, testing procedures, and proper service and repair of components emphasized.  
2 lecture / 3 laboratory hours

AUT 225 Automatic Transmission Service 3 credits
Prerequisites: AUT 110, AUT 111, AUT 224 with a minimum C grade
Principles of operation and proper diagnostic and repair procedures for current automatic transmissions and transaxles, including electronic computer-controlled designs. Covers basic hydraulic theory with emphasis on the use of test equipment for diagnosis and in-car service. Each student is required to disassemble, overhaul, and assemble several automatic transmissions and transaxles. 2 lecture / 3 laboratory hours

AVI — AVIATION TECHNOLOGY

All flight training courses involving the use of an aircraft are taught in conjunction with Infinity Flight Group at Trenton-Mercer Airport.

AVI 101 Aerospace Development 3 credits
Historical approach to U.S. and international aviation development including man’s first efforts to fly, the development of aircraft, modern growth of the aerospace industry and the impact of aviation and flight on mankind. 3 lecture hours

AVI 102 Aviation Transportation 3 credits
Study of transportation systems and the aviation industry as they exist today, including applicable government organizations, controls, and regulations as well as career opportunities in aerospace. 3 lecture hours

AVI 105 Aviation Weather 3 credits
Study of the structure of the atmosphere and weather patterns. Examines weather hazards encountered by commercial pilots, including thunderstorms, turbulence, wind shear, visibility restrictions, icing, and hydroplaning. Coded weather reports, forecasts, weather charts and prognostic charts are utilized in class for flight planning and in-flight decision-making. 3 lecture hours

AVI 111 Flight Concepts 2 credits
Principles of flight and air navigation, evolution of modern aviation (civil and military), and the basic physiological difficulties experienced in flight. [occasional offering] 2 lecture hours

AVI 113 Flight I 2 credits
Prerequisites: FAA medical, proof of U.S. citizenship or TSA approval
Corequisite: AVI 131
Flight training required to complete the private pilot program by acquiring the aeronautical skills necessary to meet the requirements for the private pilot certificate. Consists of approximately 50 hours of flight training. Special fee required. 1 lecture / 3 laboratory hours

AVI 114 Flight II 2 credits
Prerequisites: AVI 113 with a minimum C grade, proof of U.S. citizenship or TSA approval
Corequisite: AVI 132
Required flight training for the commercial pilot certificate, for the student who has met the requirements for the private pilot certificate in Flight I. Special fee required. 1 lecture / 3 laboratory hours

AVI 131 Commercial Pilot I 3 credits
Essentials to pass the Federal Aviation Administration private pilot examination. Subjects include introduction to airplane systems, airports, communications and air traffic control, weight and balance, meteorology, Federal Aviation Regulations, aeronautical charts, radio navigation, Aeronautical Information Manual, flight computer, medical factors of flight and cross-country flying. 3 lecture hours

AVI 132 Commercial Pilot II 3 credits
Prerequisites: AVI 131, successful grade on FAA private pilot computer exam – airplanes
Corequisite: AVI 131 or AVI 132
Basic knowledge to pass the Federal Aviation Administration commercial pilot examination. Includes multi-engine advanced performance control, advanced meteorology, advanced multi-engine airplane systems, advanced radio navigation, commercial pilot FARS, physiology of flight, environmental systems, flight planning and commercial flight maneuvers. 3 lecture hours

**AVI 203 Aircraft Components**
Explores basic components and systems of the aircraft including air frames, power plants, wings and empennage, plus elementary concepts of engine operating theory and construction. **3 lecture hours**

**AVI 208 Aviation Seminar**
Guest speakers explain their role in the industry and share insights concerning prerequisite experience, the interview process, and prospects for employment. **1 lecture hour**

**AVI 213 Flight III**
*Prerequisite:* AVI 114 with a minimum C grade
*Corequisite:* AVI 231 or MAT 115
Continuation of flight training to obtain the commercial flight certificate, and beginning of instrument flight training. Student completes the solo cross-country requirements and develops a high degree of proficiency in commercial and primary maneuvers. Special fee required. **1 lecture / 4 laboratory hours**

**AVI 214 Flight IV**
*Prerequisite:* AVI 213 with a minimum C grade
Students develop a high degree of proficiency in single-engine commercial maneuvers and instrument flying. All flight requirements for the single-engine commercial and instrument rating are completed, and performance meets or exceeds the current FAA instrument and commercial Practical Test Standards. Special fee required. **1 lecture / 4 laboratory hours**

**AVI 215 Aerodynamics**
*Corequisite:* MAT 115
Analysis of the fundamental theory and elements of applied aerodynamics provides the knowledge and background for safe and effective flying. Lab explores the basic concepts of airfoil angle of attack and lift/drag characteristics. **2 lecture / 2 laboratory hours**

**AVI 216 Flight V**
*Prerequisites:* Helicopter Commercial Certificate with Instrument Rating; FAA-approved Medical; proof of U.S. citizenship or TSA approval
Students are expected to acquire the aeronautical skill necessary to meet requirements for the Single Engine Land and Commercial Certificate with Instrument Rating. Consists of 70 hours of flight training or the time needed to meet FAA Practical Test Standards and Airman Certification Standards. Be advised additional time may be needed to meet the minimum standards. Fee required. **1 lecture / 3 laboratory hours**

**AVI 217 Flight VI**
*Prerequisites:* Single Engine Land Commercial Pilot Instrument Rating; FAA-approved Medical; proof of U.S. citizenship or TSA approval
An independent study course involving self-study, ground instruction, simulation, and flight training. Students develop the proficiency, knowledge, and skills to complete the required practical examination to add a multi-engine class instrument rating to their single-engine commercial certificate and instrument rating. This training and assessment consists of 12.5 hours in a multi-engine aircraft. **1 lecture / 1 laboratory hour**

**AVI 231 Commercial Pilot III**
*Prerequisite:* AVI 132
*Corequisite:* MAT 115
Complements Flight III and Flight IV courses, with basic information to pass the Federal Aviation Administration Instrument Pilot Examination. Subject areas include altitude instrument flying, instrument flight charts, IFR clearances, and IFR regulations. **3 lecture hours**

**AVI 233 Flight Instructor / Airplane**
*Prerequisites:* must have passed the FAA Commercial Pilot and Instrument Rating written tests and possess FAA Private Pilot Certificate, or permission of instructor
*Corequisite:* AVI 214
Prepares students to pass the Federal Aviation Administration FOI (Fundamentals of Instruction) and FIA (Flight Instructor / Airplane) computer examinations. Includes basic theory of learning and human behavior pertaining to flight instruction, flight instructor's responsibilities, flight training maneuvers, plus review of FARs flight planning and performance. **3 lecture hours**
AVI 250  Airline Transport Pilot (ATP) Prep I  6 credits
Prerequisite: AVI 216
An independent study course involving self-study, ground instruction, use of simulation devices, and flight training. Students develop the proficiency, knowledge, and skills to complete the required day and night, VFR and IFR, cross-country hours for graduation to the ATP Prep II course. This training and assessment consists of 112.5 hours in single-engine aircrafts. Fee required. 2 lecture / 6 laboratory hours

AVI 251  Airline Transport Pilot (ATP) Prep II  3 credits
Prerequisite: AVI 250
An independent study course involving self-study, ground instruction, use of simulation devices, and flight training. Students develop the proficiency, knowledge, and skills to complete the required day and night, VFR and IFR, cross-country hours for graduation of the Airline Transport Pilot certificate program. This training and assessment consists of 72 hours in single- and multi-engine aircrafts. Fee required. 1 lecture / 3 laboratory hours

BCT — BUILDING CONSTRUCTION TECHNOLOGY

BCT 101  Construction Graphics  3 credits
Corequisite: BCT 110 or divisional permission
Introduction to the interpretation of construction drawings for residential and light commercial projects, cultivating an understanding of how plans, elevations, sections, and details relate to each other. Students render basic architectural drawings by hand as well as with CAD software, and consistently practice and apply informal sketching techniques. 2 lecture / 2 laboratory hours

BCT 104  Codes for Construction and Design  3 credits
Prerequisites: BCT 110, BCT 120
An overview of regulations for design and/or construction of residences and small buildings, including their applicability and intent subject to the interpretations imposed by the State of New Jersey. 2 lecture / 2 laboratory hours

BCT 110  Building Construction Materials and Methods I  3 credits
A survey of materials and methods in building construction, emphasizing common construction systems primarily on low-rise light wood and steel structures. Addresses the fundamental processes, organization, and constraints of the construction industry. The building envelope, enclosure systems for thermal insulation, vapor retarders, air barriers, and moisture control are explored with an introduction to the general concepts of sustainable design. 3 lecture hours

BCT 112  Building Construction Materials and Methods II  3 credits
Prerequisites: BCT 110, BCT 120
Continued study of materials and methods in building construction with emphasis on concrete and steel frame structures and masonry load-bearing walls. Exterior wall cladding and curtain wall systems are examined relative to concepts of sustainable design. 3 lecture hours

BCT 232  Construction Estimating  3 credits
Prerequisites: BCT 104, BCT 110, BCT 120, ENG 101 or divisional permission
Examination of the role of construction documents for producing construction job estimates, as well as the roles and responsibilities of the construction cost estimator for both residential and light commercial applications. Along with contracts and various bid types, computer estimating software applications are introduced. 3 lecture hours

BCT 234  Construction Contracts and Specifications  3 credits
Prerequisites: BCT 104, BCT 110, BCT 120, ENG 101 with a minimum C grade, or divisional permission
A detailed examination of construction documents along with methods for producing general, special, and technical sections of construction specifications. Case studies and class discussions contribute toward analysis of construction contracts and practices with regard to business law and liability, as well as contractor, architect, and engineer responsibilities. Students prepare several technical sections for a small commercial building. 3 lecture hours
BCT 236  Construction Project Administration and Management  3 credits  
Prerequisites: BCT 232, BCT 234, or divisional permission  
Introduction to the design/construction process, contract documents, organization of the construction firm, subcontractor relationships, records and reports, construction safety, and quality control. Bar chart and critical path method scheduling are introduced along with several commonly used computer applications for construction administration and management. 3 lecture hours

BIO — BIOLOGY

BIO 100  Introductory Biology  3 credits  
Prerequisite: ENG 034  
Corequisite: MAT 037 or MAT 042 or proficiency in basic algebra  
Selected fundamental principles of biology for students who have not had high school biology or who need a review before taking other courses in biology, horticulture and the life sciences. Topics include scientific inquiry, chemistry of living organisms, techniques of observation, data gathering and analysis. [Does not fulfill any requirements for the Biology A.S. degree.] 3 lecture hours

BIO 101  General Biology I  4 credits  
Prerequisites: high school biology or BIO 100; high school chemistry or CHE 100; MAT 038 or MAT 044 or equivalent  
Corequisite: ENG 101  
Introduces fundamental concepts and principles of biology. Topics include biological chemistry, cell biology, metabolism and energy, cell reproduction, molecular biology, and inheritance. Investigative laboratory exercises develop skills in basic techniques and reinforce lecture material. Required for biology majors. 3 lecture / 3 laboratory hours

BIO 102  General Biology II  4 credits  
Prerequisite: BIO 101 with a minimum C grade  
Introduces fundamental concepts, principles, and applications of biology. Topics include photosynthesis; plant structure, growth and reproduction; animal diversity, form and function; evolution; population ecology; community ecology; and ecosystem dynamics. Investigative laboratory exercises develop skills in basic techniques and reinforce lecture material. Required for biology majors. 3 lecture / 3 laboratory hours

BIO 103  Anatomy and Physiology I  4 credits  
Prerequisites: proficiency in basic algebra; high school biology or BIO 100  
Corequisite: ENG 101  
Systematic approach to the structure and function of the human body; general terminology and organization; cells and tissues; integumentary, muscular, skeletal, and nervous systems. Lab involves microscopy, the study of human anatomy via computer software and preserved specimens, and studies of physiological processes. [Does not fulfill any requirements for the Biology A.S. degree.] 3 lecture / 3 laboratory hours

BIO 104  Anatomy and Physiology II  4 credits  
Prerequisite: BIO 103 with a minimum C grade or permission of course coordinator  
Continuation of BIO 103, covering digestive, circulatory, urinary, reproductive, respiratory, and endocrine systems. Lab includes cat dissection, human anatomy study via computer software, and quantitative studies of physiological processes. [Does not fulfill any requirements for the Biology A.S. degree.] 3 lecture / 3 laboratory hours

</tbody>
</table>
### Science

#### BIO 204 Ecology
- **Prerequisite:** BIO 101 with a minimum C grade
- **Corequisite:** BIO 102
- Fundamental concepts, theoretical principles, and practical applications of modern ecology: the study of the interactions of organisms with each other and their environment. Laboratory classes of this introductory course involve field work and research projects geared towards ecological application.
  - 3 lecture / 3 laboratory hours

#### BIO 208 Genetics
- **Prerequisite:** BIO 101 with a minimum C grade or permission of course coordinator
- Explores gene activity at the molecular and organismal levels. Topics include inheritance, chromosome structure and function, gene mapping, genomics, prokaryotic and eukaryotic gene expression, molecular biology, and population genetics. Includes lab exercises in biotechnology, bioinformatics, and classical genetics.
  - 3 lecture / 3 laboratory hours

#### BIO 215 Principles of Microbiology
- **Prerequisites:** CHE 100 and BIO 103, BIO 104 or BIO 106
- Designed for funeral education students, an introduction to the morphology, taxonomy, physiology, and control of microbes. Emphasizes those microbes which cause disease in humans and presents elements of organic chemistry and biochemistry.
  - 3 lecture hours

#### BIO 217 Pathophysiology
- **Prerequisites:** RN licensure or BIO 103 and BIO 104 or permission of course coordinator
- Study of the fundamental changes in body physiology due to disease. Covers the basics of cell biology, inflammation, mechanisms of body defense, specific body systems, and common disorders, with emphasis on disease processes, manifestations, and treatment.
  - 3 lecture hours

#### BIO 293 Honors Research in Biology I
- **Prerequisites:** BIO 102 and CHE 102, minimum 3.0 GPA in biology and chemistry courses, and faculty approval
- Under the guidance of an area sponsor in an industrial or academic environment, students participate in a biology research project. Requires a written report and oral presentation to students and faculty at the conclusion of the project period. [Fulfills a technical elective requirement in the Biology and Chemistry programs.]
  - 5 laboratory hours per week

#### BIO 294 Honors Research in Biology II
- 2 credits

#### BIO 295 Honors Research in Biology III
- 2 credits

#### BIO 296 Honors Research in Biology IV
- 2 credits

### BUS — BUSINESS

#### BUS 101 Introduction to Business
- **Corequisite:** ENG 101
- Survey course of the American business system. Topics include forms of business ownership, financing, economic impacts, human resource management, marketing, management, accounting, the role of government, international issues, workplace ethics, legal concerns, and social responsibility.
  - 3 lecture hours

#### BUS 102 Introduction to Sports Management
- **Prerequisite:** ENG 101 with a minimum C grade
- Examination of issues impacting the world of sports and management. Topics include the complexity of leadership, group dynamics, strategic and master planning, risk management, current social issues, Title IX and their effects on professional, intercollegiate, youth and other areas of sport.
  - 3 lecture hours
BUS 105  Business Writing  3 credits  
Intense coverage of grammar, punctuation, and word usage skills. Emphasizes realistic application of current usage and style in today's work world.  3 lecture hours

BUS 107  Business Law I  3 credits  
Foundation course dealing primarily with contracts: the making of contracts, contractual elements, contracts in action, discharge of contracts, and remedies. Orientation to the legal system includes examination of law history and purpose. Uniform Commercial Code applications are stressed.  3 lecture hours

BUS 108  Business Law II  3 credits  
*Prerequisite: BUS 107 with a minimum C grade*

The law of agency and employment and labor-management relations. Regulation of business organizations: sole proprietorships, partnerships, and corporations. Addresses property law, bailments, personal property, intellectual property, real property, landlord-tenant relationships, wills, estates and trusts, and the evolving role/impact of the global business environment.  3 lecture hours

BUS 109  Personal Finance  3 credits  
*Prerequisite: MAT 125*

Basics of budgeting, buying, income tax, investments, home ownership, and insurance along with emphasis on wills and trusts.  3 lecture hours

BUS 111  Sports Law  3 credits  

Examines legal issues that impact the world of sports and sports management. Affecting professional, intercollegiate and other areas of athletics, matters explored include those involving agencies, contracts, torts, crimes, gender, disabilities, antitrust, internationalism, drugs, intellectual property, and alternative dispute resolution.  3 lecture hours

BUS 202  Customer Orientation  3 credits  

Explores the fundamentals of customer service, with focus on the “human” side of business and the importance of understanding and supporting those who depend on your business. Students develop core competencies necessary for providing excellent customer service, including an appreciation of diversity, developing loyalty, and dealing with customers.  3 lecture hours

BUS 205  Business Statistics I  3 credits  
*Prerequisite: MAT 038 or MAT 044 or MAT 140 with a minimum C grade*

Emphasis on the application of statistical inference in business and economics, with attention to descriptive statistics, probability theory, sampling distribution and inference statistics. Additionally includes testing of hypotheses and confidence intervals.  3 lecture hours

BUS 206  Business Statistics II  3 credits  
*Prerequisite: BUS 205 with a minimum C grade*

Further testing of hypotheses and confidence intervals, plus coverage of regression analysis, chi-square, analysis of variance, and non-parametric measurements with use of several computer-based statistical packages.  3 lecture hours

BUS 209  Business Communications  3 credits  
*Prerequisite: ENG 101 with a minimum C grade or equivalent background*

Practical strategies for developing a clear writing style: organizing ideas, choosing effective words and composing concise paragraphs that make writing clear and persuasive. Includes letters of inquiry, claim, collection, and adjustment as well as resumes and cover letters. Requires oral and written business report.  3 lecture hours

BUS 210  Principles of Management  3 credits  
*Prerequisite: ENG 101 with a minimum C grade*

Provides a framework for managing an organization, including discussion of the key management functions of planning, organizing, staffing, influencing and controlling, with emphasis on ethics and international management issues.  3 lecture hours

Prerequisite: eligibility determined by Director of Funeral Service Programs and is limited to students who are registered as interns with the New Jersey State Board of Mortuary Science or student trainees with the Pennsylvania State Board of Funeral Directors. These sequential courses in the Funeral Service Preparatory program combine business cooperative education (75 percent) and professional work (25 percent) in a cooperating funeral home, where students work under the direction of a licensed funeral director for 16 hours each week. Courses are supervised by the Director of Funeral Service Programs, a field supervisor, and the sponsoring funeral director.

16 work experience / 1 seminar hour per week

Prerequisite: BUS 230. Study of how management activities in a global enterprise differ from those in a purely domestic company. Emphasis on cross-cultural interaction and its effects on planning, organizing, staffing and controlling the operations of a multinational company. [occasional offering] 3 lecture hours
BUS 299 Business Cooperative Work Experience 3 credits
Prerequisites: sophomore standing and permission of coordinator
For MCCC degree students only. Integration of classroom study with specific planned periods of learning through job experience, designed for all business students. Seminars teach job-specific skills which can be practiced on the job. Course includes employer evaluation. 1 lecture / 180 work experience hours

CHE — CHEMISTRY

CHE 100 Introductory Chemistry 3 credits
Prerequisite: MAT 037 or MAT 042 or proficiency in basic algebra
Selected fundamental principles of general chemistry for students who have not had high school chemistry and for those who need a review before taking other chemistry courses. [Does not include laboratory instruction and does not fulfill any requirements in the Chemistry program.] 3 lecture hours

CHE 101 General Chemistry I 4 credits
Prerequisites: high school chemistry or CHE 100; MAT 038 or MAT 044
Corequisite: ENG 101
Basic concepts and theoretical principles of modern chemistry. Topics include stoichiometry; atomic theory and the structure of matter; periodic table; chemical bonding; kinetic-molecular theory and the states of matter; gas laws; solutions; oxidation-reduction; and acid-base systems. Lab work introduces the use of computers for data collection and analysis. 2 lecture / 1 recitation / 3 laboratory hours

CHE 102 General Chemistry II 4 credits
Prerequisite: CHE 101 with a minimum C grade or permission
Corequisite: MAT 146 or approved equivalent
Theoretical and practical aspects of kinetics; simple and ionic chemical equilibria; thermodynamics; spectrophotometry; electrochemistry; nuclear chemistry; and the major families of chemical elements with emphasis on the transition elements. Lab work includes qualitative cation and anion analysis plus additional computer applications for data collection and analysis. 2 lecture / 1 recitation / 3 laboratory hours

CHE 106 Chemical Science Concepts 3 credits
Prerequisite: MAT 037 or MAT 042 or proficiency in basic algebra
Corequisite: ENG 101
Fundamental topics in chemistry and biology are introduced utilizing forensics to explore basic science concepts. Topics include general, organic, and biochemistry, and general and molecular biology. Lab experiments integrate case-study analyses and modern instrumentation with techniques in enzymology, chromatography, microscopy, fingerprinting, DNA analysis, and serology. Prepares the student for informed engagement in society by providing scientific knowledge on which attitudes and opinions can be developed. 2 lecture / 2 laboratory hours

CHE 107 General and Physiological Chemistry 4 credits
Prerequisites: high school chemistry or CHE 100; MAT 037 or MAT 042 or equivalent
Introduction to basic chemical and physical principles and their applications to life processes. Lab exercises illustrate these principles and the behavior of physiologically significant materials. 2 lecture / 1 recitation / 2 laboratory hours
CHE 201 Organic Chemistry I 5 credits
Prerequisite: CHE 102 with a minimum C grade
Theoretical principles of reaction mechanisms and the synthesis of important classes of organic compounds. Topics include stereoisomerism; alcohols; ethers; nucleophilic substitution; elimination reactions; and instrumental methods. Lab work introduces the synthesis, purification, separation and identification of organic compounds. 3 lecture / 4 laboratory hours.

CHE 202 Organic Chemistry II 5 credits
Prerequisite: CHE 201 with a minimum C grade
Follows CHE 201 with increased emphasis on spectroscopy and mechanisms. Topics include aromatic compounds; electrophilic substitution reactions; carbonyl chemistry; carboxylic acid derivatives, amines, carbohydrates and proteins. Lab work includes methods of synthesis, purification, and spectroscopic identification of organic compounds. 3 lecture / 4 laboratory hours.

CHE 293 Honors Research in Chemistry I 2 credits
Prerequisites: BIO 102 and CHE 102, minimum 3.0 GPA in biology and chemistry courses, and faculty approval
CHE 294 Honors Research in Chemistry II 2 credits
CHE 295 Honors Research in Chemistry III 2 credits
CHE 296 Honors Research in Chemistry IV 2 credits
Under the guidance of an area sponsor in an industrial or academic environment, students participate in a chemistry research project. Requires a written report and oral presentation to students and faculty at the conclusion of the project period. [Fulfills a technical elective requirement in the Biology and Chemistry programs.] 5 laboratory hours per week

Note: Students who have taken two or more years of a foreign language, and have done so in the last two years, should begin that language at the 200 level or switch to a new language. If there is doubt, placement will be determined by testing or consultation with the academic division.

CHI 101 Beginning Chinese I 3 credits
The first in a sequence of courses designed for students with little or no prior knowledge of Mandarin Chinese. Spoken communication in Chinese is both the end goal and the means of instruction. Emphasizes the four communicative skills in a culturally authentic context. Reading and writing in both Pinyin and Chinese characters are assigned out of class to facilitate effective listening and speaking practice in class. Basic grammar skills are also introduced. 3 lecture hours

CHI 102 Beginning Chinese II 3 credits
Prerequisite: CHI 101 with a minimum C grade or permission of instructor
The second in a sequence of courses designed for students with little or no prior knowledge of Mandarin Chinese. Spoken communication in Chinese is both the end goal and the means of instruction. Emphasizes the four communicative skills in a culturally authentic context. Reading and writing in both Pinyin and Chinese characters are assigned out of class to facilitate effective listening and speaking practice in class. Basic grammar skills are also introduced. 3 lecture hours
**CIS — COMPUTER INFORMATION SYSTEMS**

**CIS 105** Excel Basics  
*Prerequisites: ENG 033, MAT 037*
Learn how to increase productivity by designing and organizing worksheets to solve problems. Students acquire a working knowledge of Excel with emphasis on formulas, charts, data analysis, printing, managing large worksheets, and integrating Excel charts and worksheets into Word documents and PowerPoint presentations.  
1 lecture / 1 laboratory hours

**CIS 112** Introduction to PC Business Applications  
*Prerequisite: OST 111 or equivalent proficiency*
Students become proficient in use of Microsoft Office – including Word, Excel, Access, and PowerPoint – to complete practical business projects.  
2 lecture / 2 laboratory hours

**CIS 173** PC Applications: Database  
*Prerequisite: IST 101 or equivalent proficiency*
Students acquire a working knowledge of Access, a relational database, with emphasis on creating tables, queries, reports, and forms.  
2 lecture / 2 laboratory hours

**CIS 175** PC Applications: Spreadsheets  
*Prerequisite: IST 101 or equivalent proficiency*
Students acquire a working knowledge of Excel with emphasis on formulas, charts, and managing worksheets and lists.  
2 lecture / 2 laboratory hours

**CIS 280** PC Applications: Project Management  
*Prerequisite: IST 209*
Explores frequently used tools for project management. Addresses usage of a major software package to build project plans complete with tasks and resources, to format project reports, to track actual work against the plan, and to take corrective action when things get off track.  
2 lecture / 2 laboratory hours

**CIV — CIVIL ENGINEERING TECHNOLOGY**

**CIV 101** Surveying I  
*Corequisites: MAT 115 or divisional permission; ENT 116 or prior drafting experience: DRA 190*
Introduces the three basic surveying tools – the tape, level, and transit/theodolite – along with proper field procedures for basic surveying. These include taking field notes, taping and EDM, leveling, bearings and azimuths, topography, and mapping – the latter including an introduction to computer-aided design.  
2 lecture / 3 laboratory hours
CIV 102  Surveying II  3 credits
Prerequisite: CIV 101 or permission of instructor
Application of the fundamentals and techniques achieved in elementary surveying to solve additional problems in vertical curves, horizontal curves, traversing computations and profiles. Computations include bearings and azimuths, latitudes and departures, areas, and use of the planimeter. Applies AutoCAD and land development software, plus "Total Station" survey equipment for traversing, radial stakeout, and layout of horizontal curves. 2 lecture / 3 laboratory hours

CIV 103  Statics  3 credits
Prerequisites: MAT 146 with a minimum C grade; one semester of high school or college physics
Corequisite: MAT 151
Calculus-based introduction to the basic principles of engineering statics, including terminology and types of force systems, for engineering science students. Topics include the resultant force of a force system; distributed and concentrated forces; force systems in equilibrium, trusses, frames and machines; friction; centroids; and moments of inertia. 3 lecture hours

CIV 104  Applied Mechanics  3 credits
Prerequisite: MAT 115 or divisional permission
Introduction to the basic principles of engineering mechanics for study of applied technology. Topics include terminology, types of force systems, determination of the resultant force of force systems, analysis of coplanar force systems in equilibrium, centroids, and moments of inertia and friction. [Spring offering] 3 lecture hours

CIV 105  Introduction to Engineering  1 credit
Provides an introduction to the practice of engineering including disciplines, work environment, and competencies. Outlines project management topics such as scope, budget, schedule, effective communication, and proposal preparation. Also includes career planning topics such as resumes, interviews, internships, transferring to four-year institutions, and professional licensure. 1 lecture hour

CIV 106  Mechanics  3 credits
Prerequisite: MAT 115 or divisional permission
Introduction to the basic principles of engineering mechanics, including terminology and types of force systems, for engineering technology students. Topics include the resultant force of a force system, distributed and concentrated forces, force systems in equilibrium, trusses, frames and machines, friction, centroids, and moments of inertia. 3 lecture hours

CIV 216  Highway Engineering  3 credits
Prerequisites: MAT 115 and ENT 116
Corequisites: CIV 102, DRA 190, or divisional permission
Explores the planning, design, construction, and characteristics of highways and city streets, including layout, traffic requirements, safety and control, drainage, subgrade structure, base courses, and surface pavements. Problems to be solved include geometric design, traffic volume, channelization, and hydrology. Lab projects involve roadway designing. [Spring offering] 2 lecture / 2 laboratory hours

CIV 223  Fluid Mechanics  4 credits
Prerequisite: MAT 115
Introduction to the field of fluid mechanics. Topics include the properties of fluids, buoyancy, basic fluid power, closed pipe flow, open channel flow, forces due to fluids in motion, flow measuring devices, and the energy balances of fluid systems. Lab experiments (requiring written reports) on non-compressible fluids illustrate the theoretical concepts. [Fall offering] 3 lecture / 3 laboratory hours

CIV 224  Soil Mechanics  3 credits
Prerequisite: MAT 115
Study of the characteristics and performance of soils: volumetry and gravimetry, moisture-density relations, consistency, identification and classification, ground water, capillary action, permeability, frost action, shear strength, stress distribution, earth pressure, and soil sampling and exploration. Individual and group reports are required for lab tests. 2 lecture / 2 laboratory hours
CIV 227 Structural Steel Design       3 credits
Corequisite: CIV 229
Application of basic principles of material mechanics to the analysis and design of structural steel members that occur most commonly in bridge and building construction. Requires thorough knowledge of the American Institute of Steel Construction Code as well as orderly computational procedures. Lab work involves the design of a building. [Fall offering] 2 lecture / 3 laboratory hours

CIV 228 Reinforced Concrete Design       3 credits
Prerequisite: CIV 227
Examines the design of basic reinforced concrete structural members including rectangular beams, slabs, columns, footings, and retaining walls. Requires thorough knowledge of the ACI Standard Code. Covers field inspection procedures. Lab projects involve designing, mixing, and evaluating concrete cylinders and beams, adhering to alternate design and strength design approaches. [Spring offering] 2 lecture / 3 laboratory hours

CIV 229 Mechanics of Materials       4 credits
Prerequisite: CIV 106 with a minimum C grade
With an introduction to engineering materials and their mechanical properties, examines strains that occur in elastic bodies subjected to direct and combined stresses, shear and bending moment diagrams, deflections of beams, and stresses due to torsion. Lab testing involves various materials such as cast iron, steel, brass, aluminum, and wood to determine their physical properties and to demonstrate various testing techniques. [Fall offering] 3 lecture / 3 laboratory hours

CIV 230 Mechanics of Solids       4 credits
Prerequisites: CIV 103 and MAT 151 with a minimum C grade
Calculus-based introduction to engineering materials and their mechanical properties, examining strains that occur in elastic bodies subjected to direct and combined stresses, shear and bending moment diagrams, deflections of beams, and stresses due to torsion. Lab testing involves various materials such as cast iron, steel, brass, aluminum, and wood to determine their physical properties and demonstrate various testing techniques.

CIV 237 Mechanics of Materials Fundamentals       4 credits
Prerequisite: CIV 104 with a minimum C grade
Study of the fundamental concepts of stress and strain of elastic bodies when subjected to axial or bending loads. Analyzes shear and bending moment diagrams, considers compression members, and introduces principles of torsion. The lab introduces various testing procedures to determine the physical properties of such materials as steel, aluminum, brass, cast iron, and wood. [Fall offering] 3 lecture / 3 laboratory hours

CIV 281 Cooperative Education I – Civil Engineering Technology       2 credits
Relevant experiences to complement classroom instruction with practical on-the-job application of engineering practices in local industry for constructional/civil engineering students. Additional expenses for travel, clothing, and equipment may be incurred. 1 lecture / 90 work experience hours

CIV 282 Cooperative Education II – Civil Engineering Technology       1 credit
Continuation of CIV 281. Students may also enroll in CIV 281 concurrently. 90 work experience hours

CMN — COMMUNICATION

CMN 101 Mass Media       3 credits
Corequisite: ENG 101
Survey of the growth and development of books, newspapers, magazines, film, radio, television, cable, the Internet, and new media delivery systems. Analysis of the mass media’s impact on society and individuals, and whether the media effectively fulfill their functions as deliverers of information, persuasion, entertainment, and culture. 3 lecture hours
CMN 102 Media Issues and Ethics       3 credits
**Prerequisite:** ENG 101 with a minimum C grade
An examination of current issues and ethical dilemmas in mass media such as sensationalism, press censorship, violence, political coverage, rights of privacy, and photo manipulation. The implications of recent developments in mass media and current regulation of broadcast and cable media are discussed. Students read, evaluate and analyze media ethical case studies.  
3 lecture hours

CMN 107 Cinema         3 credits
Study of artistic achievement in the film medium from the point of view of the director (author). Classic and contemporary feature films are viewed, analyzed and discussed, including the works of such directors as Griffith, Eisentein, Chaplin, Hitchcock, Bergman, DeSica, and Welles.  
3 lecture hours

CMN 111 Speech: Human Communication      3 credits
**Prerequisite:** eligibility for placement in ENG 101
Exploration of the fundamental elements, characteristics, and processes of communication, including communicating in a multicultural society, interpersonal, intrapersonal, as well as small group contexts. Oral presentation experiences are heavily integrated throughout the course with a focus on public speaking design and delivery.  
3 lecture hours

CMN 112 Public Speaking        3 credits
**Corequisite:** ENG 101
Introduction to principles and practice of audience-centered, credible, confident messages for diverse audiences. Includes a variety of presentations: special occasion, personal experience, impromptu, panel, informative, and persuasive. Special focus on communication anxiety management, organizational patterns, supporting research, visual aids, and dynamic delivery. Sustained reading, writing, and testing are also part of the course.  
3 lecture hours

CMN 122 Organizational Communication      3 credits
**Prerequisite:** ENG 101
Study of the knowledge, skills, sensitivity, and values associated with the variety of communications within and between organizations. An exploration of various methods, channels, and audiences of organizational communication in the corporate world.  
3 lecture hours

CMN 125 Public Relations        3 credits
**Prerequisite:** ENG 101 with a minimum C grade
Comprehensive study of public relations including identifying and reaching internal and external publics, dealing with print and electronic media, advertising, printing, direct mail, and preparing a public relations plan and budget. Also involves the writing of news releases, public service announcements, and advertising copy.  
[occasional offering] 3 lecture hours

CMN 141 Introduction to Television Production      3 credits
Basic theory and operation of TV production equipment including camera, switcher, character generator, prompter, audio console, and lighting. Following study of studio procedure, students plan, produce, write, and direct several short video productions.  
2 lecture / 2 studio hours

CMN 142 Introduction to Field Production        3 credits
Production of programming with complete formats such as news, interview, music, drama, and fashion. Students plan, produce, write, and direct 15-minute interview/demonstration programs.  
2 lecture / 2 studio hours
CMN 143  Graphics and Effects for Video  3 credits
*Prerequisite: CMN 141 with a minimum C grade
*Corequisite: CMN 142
Techniques for using graphics and visual effects to enhance video productions through the use of digital imaging and compositing software. A variety of multimedia production projects reinforces proper file management and image compression techniques. 2 lecture / 2 laboratory hours

CMN 144  Screenwriting  3 credits
*Prerequisites or Corequisites: ENG 101, ENG 102
Aimed at the conception, planning and writing of screenplays. Through a series of writing exercises, scenes, short scripts and treatments, the student is expected to complete a 20-page short film script. The basics of character development, narrative, structure, texture, genre, and the ability to visualize in writing are explored. 2 lecture / 2 laboratory hours

CMN 145  Acting/Directing for the Camera  3 credits
*Corequisite: ENG 101
Focuses on the application of acting and directing actors for single-camera film production. This hands-on course addresses the aesthetics, theory and practice of camera placement, shot execution, and the many aspects of directing the actor. 2 lecture / 2 laboratory hours

CMN 146  Social Media Technologies  3 credits
Extensive exploration of current social media technologies, utilizing the Mac platform, for storytelling and narrative purposes. With emphasis on usability, management and distribution, topics include multimedia development and design; the media elements of text, graphics, sound and video; and trends in emerging hardware and software. Multimedia projects demonstrate technical understanding and coherent narratives. 2 lecture / 2 laboratory hours

CMN 147  Introduction to Story  3 credits
Aimed at the analysis, deconstruction, and construction of story. Analyzing a series of films, television shows, graphic novels, video games and transmedia properties, students explore the basics of character development, narrative, arc, structure, and genre. 2 lecture / 2 laboratory hours

CMN 148  Introduction to Editing  3 credits
Covers the art of composing space and time through the arrangement and assembly of images and sounds, including basic concepts of editing, storytelling, and emotion. Students develop their editing skills utilizing current and professional non-linear editing software and tools. 2 lecture / 2 laboratory hours

CMN 151  Introduction to Radio  3 credits
Orientation to commercial radio in the United States. Topics include historical development, ownership, management, programming, music, sales, promotion, radio journalism, commercial copy writing, audience measurement, the ethics of broadcasting, and government regulation. Students learn the hands-on technical skills necessary to operate both analog and digital consoles and audio editing software. Production projects include newscasts, commercials, and music programs. 2 lecture / 2 studio hours

CMN 153  Digital Audio Production I  3 credits
Students practice and develop audio production techniques used in broadcasting and other commercial applications. Theory of audio fundamentals combines with lab exploration of digital editing, digital multi-tracking, digital music creation, synchronizing audio with video. Students write and/or produce commercials, documentaries and short soundtracks for video and other entertainment venues. 2 lecture / 2 studio hours

CMN 161  Writing for Media  3 credits
*Prerequisite: ENG 101
Overview of written formats commonly used in radio and television. Writing assignments include 30- and 60-second radio and television commercials, broadcast news copy, interviews, public service announcements, and dramatic teleplays. 3 lecture hours

CMN 201  Persuasion and Propaganda  3 credits
*Prerequisite: CMN 111 or CMN 112
Inquiry into the forces of persuasion and propaganda as they exist in a technological society and how they influence beliefs, attitudes and actions. 3 lecture hours
CMN 211  Interpersonal Communication in Human Relations  3 credits
Prerequisite: CMN 111 or CMN 112
Combining theory and practice, examines the nature and skills of interpersonal communication. Emphasizes the uniqueness of interpersonal communication as opposed to other forms of human communication.
3 lecture hours

Diversity and Global Perspective
CMN 214  Issues in Intercultural Communication in the U.S.  3 credits
Examines communication that bridges diverse cultures, values and realities. Explores racial, sexual, and class identities and the impact of privilege on the ability to relate to others. Develops effective communication skills for addressing obstacles to global citizenship. 3 lecture hours

Diversity and Global Perspective
CMN 215  Communication and Gender  3 credits
Prerequisite: ENG 101 or equivalent English skills
Critically analyzes issues of gender and communication. Examines theoretical perspectives used to explain gender phenomena, gender socialization, male and female interactions and stereotypes, with an emphasis on improving communication skills. 3 lecture hours

CMN 241  Applied Field Production  3 credits
Prerequisites: CMN 141, CMN 142
Develops practical skills and knowledge of video production while executing a project for a community client in a professional atmosphere. Pre-production, production, and post-production activities center around the realities of client expectations, professional deadlines, and working together as one production unit. Advanced post-production techniques are implemented utilizing professional-level software and applications. 2 lecture / 2 laboratory hours

CMN 242  Advanced Film Production  3 credits
Prerequisites: CMN 141, CMN 142, CMN 241
Advanced television students enhance knowledge and skills while writing, editing, producing and marketing a short film or documentary. Students apply pre-production, production, and post-production skills with the goal of competing in a television program film festival. 2 lecture / 2 studio hours

CMN 243  Cinematography  3 credits
Prerequisites: CMN 141, CMN 142
Covers directing, lighting, and camera work through lecture and text materials. Includes an overview of cinematic production with attention to the art of lighting and cinematography. Additionally introduces steadicam camera technique, camera lens systems, cinema lighting techniques, and hi-definition image acquisition. 2 lecture / 2 studio hours

CMN 250  Announcing for Media  3 credits
Students explore, practice and develop announcing techniques used in broadcasting and other media applications. Practical assignments provide training for a variety of professional roles such as radio disc jockey, talk show host, podcast host, broadcast journalist, and voice-over announcer. Students produce commercials, public service announcements, interview programs, and corporate/industrial voice-overs and host a radio show. 2 lecture / 2 laboratory hours

CMN 252  Applied Radio Programming and Production  3 credits
Prerequisites: CMN 153 and CMN 250 with a minimum C grade
Study of the development and nature of current radio formats, programming philosophies, and group ownership. Students analyze and critique current radio formats and create a commercially-viable format of their own. Students apply advanced production techniques to produce station “imagers,” format demos, and an audition CD suitable for entry-level positions. 2 lecture / 2 studio hours
CMN 253  Digital Audio Production II  3 credits
Prerequisite: CMN 153
An overview of multitrack recording techniques using state-of-the-art digital audio workstations. Topics include mastering techniques, digital signal processing, auto-tune, session management, and techniques for real-time and processed audio plug-ins including reverb, delay, sampling, automation, MIDI sequencing, and virtual instruments. Students produce multilayered recordings using live talent in a studio environment.
2 lecture / 2 laboratory hours

CMN 254  Live Sound Reinforcement  3 credits
Prerequisite: ETT 102 or permission of coordinator
Basic principles of the behavior of sound in various environments, with emphasis on signal flow, acoustics, sound reinforcement setups and installation, signal processing, as well as microphone selection and placement. Includes setting up sound systems and mixing live music. Topics include microphones, recording equipment, control consoles, reproduction techniques, amplification, distribution, loudspeaker systems, frequency response, decibels, and dynamic range. 2 lecture / 2 laboratory hours

CMN 255  Sound Design for the Entertainment Industry  3 credits
Prerequisites: CMN 153, CMN 254
Examines audio production techniques, technologies, and aesthetics related to the development of a compelling soundtrack for theatre, television, radio or the Internet. Through training in all phases of digital sound recording, editing and mixing, students work with location and field recording equipment and use advanced editing and mixing techniques associated with digital audio workstations.
1 lecture / 4 laboratory hours

CMN 256  Digital Audio Production III  3 credits
Prerequisite: CMN 253
Continues the study of multitrack recording techniques using state-of-the-art digital audio workstations. Topics include advanced mastering techniques, digital signal processing, auto-tune, session management, techniques for real-time and processed audio plug-ins including reverb, delay, sampling, automation, MIDI sequencing, and virtual instruments. Students produce multiple multilayered recordings using live talent in a studio environment acting as a producer, engineer, mixer, and mastering engineer.
2 lecture / 2 laboratory hours

CMN 257  Podcasting  3 credits
[DETAILS AVAILABLE FROM PROGRAM COORDINATOR / ACADEMIC DIVISION]

CMN 260  Convergence Newsroom  3 credits
Prerequisite: CMN 131
A multimedia capstone course in convergence media. Students complete all elements of online and print news including writing a variety of journalistic articles, taking photographs, making and editing video footage, designing info graphics, learning the fundamentals of marketing and preparing all content for both online and print formats. 2 lecture / 2 laboratory hours

CMN 275  TV Technology and Culture  3 credits
Prerequisite: ENG 102
Critical survey of the key areas of television studies: technology and media ownership, textual analysis, and audiences. Topics include federal regulations, audience measurement, distribution and programming strategies, and cultural theory. Promotes industry networking skills through field trips, meeting with media professionals, and creating a resume/portfolio. 3 lecture hours

CMN 285  Special Studies in Television Production  3 credits
Prerequisites: CMN 290, minimum 3.0 GPA, and divisional permission
Opportunity for students who have completed all regular television writing and production courses to continue their studies at an advanced level. Individual students and faculty develop a project contract that sets forth objectives, standards of quality, evaluation guidelines, and deadlines. [occasional offering]
CMN 286 Special Studies in Radio Production 3 credits
Prerequisites: CMN 151, CMN 153, CMN 161, CMN 250, CMN 253, minimum 3.0 GPA, and divisional permission
Opportunity for students who have completed all regular radio writing and production courses to continue their studies at an advanced level. Individual students and faculty develop a project contract that sets forth objectives, standards of quality, evaluation guidelines, and deadlines. [occasional offering]

CMN 287 Special Studies in Communication 3 credits
Prerequisites: second-year standing as a Communication program major at MCCC and permission of the program coordinator; minimum 3.0 GPA
Opportunity for students who have completed all regular communication and communication writing courses to continue their studies at an advanced level. Individual students and faculty develop a project contract that sets forth objectives, standards of quality, evaluation guidelines, and deadlines.

CMN 290 Internship: Communications 3 credits
Prerequisites: second-year standing and coordinator approval
Work experience at a radio station, TV station, cable system, industrial or instructional TV facility, or other allied business. 1 lecture / 180 work experience hours

COS — COMPUTER SCIENCE

COS 101 Introduction to Computer Science 4 credits
Prerequisite: MAT 037 (or MAT 037A and 037B) or proficiency in basic algebra
Introduces both majors and non-majors to the concepts and topics of computer science, including computer architecture, algorithm analysis, operating systems, and programming languages. Students develop algorithmic thinking and abstraction using a 3-D animation programming language and MATLAB, a numerical programming tool for scientists and engineers. 3 lecture / 2 laboratory hours

COS 102 Computer Science I – Algorithms and Programming 4 credits
Prerequisite: COS 101, IST 107, IST 108, IST 109, or IST 123
Corequisite: MAT 146 or higher
Algorithm design and object-oriented programming in the Java language. Topics include data representation, input/output, control structures, exception handling, classes, methods, inheritance, polymorphism, encapsulation, overloading and dynamic memory. 3 lecture / 2 laboratory hours

COS 204 Discrete Mathematical Structures 4 credits
Prerequisite: MAT 151 or equivalent
Primarily intended for Computer Science majors, covers wide variety of topics serving as the mathematical framework for the design and analysis of algorithms. Topics include induction and recursion, relations, functions, sets, propositional logic, Boolean algebra, grammars, permutations and combinations, and finite state machines. 4 lecture hours

COS 210 Computer Science II – Data Structures 4 credits
Prerequisites: COS 102 or equivalent and MAT 146 or MAT 151
Study of advanced programming topics focused on logical structures of data as well as the design, implementation and analysis of algorithms operating on these structures. Topics include linked lists, stacks, trees, queues, graphs and analysis of efficiency. Also covers searching, sorting and hashing techniques. 3 lecture / 2 laboratory hours

COS 231 Fundamentals of Computer Architecture 4 credits
Prerequisites: COS 102 or equivalent and MAT 146 or MAT 151
Explores the levels of organization in digital computers: logic circuit design, integrated circuits, and assembly language coding. 3 lecture / 2 laboratory hours

## DAN — DANCE

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>DAN 101</td>
<td>Introduction to Dance and Culture</td>
<td>3</td>
<td><em>Humanities / Diversity and Global Perspective</em>&lt;br&gt;Introductory study of dance as an art form, investigating the impact of gender, politics, religion, and culture on how dance is perceived. Develops a fuller appreciation of how dance has been used over the course of human history in western and non-western cultures to communicate human needs and to express what words cannot communicate. [Fall and Spring offering] <em>3 lecture hours</em></td>
</tr>
<tr>
<td>DAN 102</td>
<td>Ballet I</td>
<td>2</td>
<td>Introduces traditional or classic ballet terminology, forms, and techniques. Emphasizes body alignment and physical skill needed for proper classical ballet movements. [Spring offering] <em>1 lecture / 2 studio hours</em></td>
</tr>
<tr>
<td>DAN 103</td>
<td>Modern Dance I</td>
<td>2</td>
<td>Introduces the techniques and motor skills of modern dance, including basic body skills, placement, alignment, and continuity. [Fall offering] <em>1 lecture / 2 studio hours</em></td>
</tr>
<tr>
<td>DAN 105</td>
<td>Jazz Dance I</td>
<td>2</td>
<td>Fundamentals of jazz dance techniques with emphasis on syncopated rhythms and isolations of the body. [Fall and Spring offering] <em>1 lecture / 2 studio hours</em></td>
</tr>
<tr>
<td>DAN 112</td>
<td>Ballet II</td>
<td>2</td>
<td>Prerequisite: DAN 102 or permission of instructor&lt;br&gt;Study of ballet technique on an intermediate level. [Spring offering] <em>1 lecture / 2 studio hours</em></td>
</tr>
<tr>
<td>DAN 113</td>
<td>Modern Dance II</td>
<td>2</td>
<td>Prerequisite: DAN 103&lt;br&gt;Study of modern dance techniques on an intermediate level, and an introduction to repertory. [Fall offering] <em>1 lecture / 2 studio hours</em></td>
</tr>
<tr>
<td>DAN 115</td>
<td>Jazz Dance II</td>
<td>2</td>
<td>Prerequisite: DAN 105 or permission of instructor&lt;br&gt;Study of jazz dance techniques on an intermediate level, with emphasis on syncopated rhythms and isolations of the body. [Fall and Spring offering] <em>1 lecture / 2 studio hours</em></td>
</tr>
</tbody>
</table>
DAN 116  Studio Dance Technique I     3 credits
DAN 117  Studio Dance Technique II    3 credits
DAN 118  Studio Dance Technique III   3 credits
DAN 119  Studio Dance Technique IV    3 credits

A sequence of courses required of all students in the dance program, provides an intensive approach to skill development, discipline, and knowledge for mastery of the three concert dance styles: ballet, jazz, and modern. Daily technique classes cater to specific needs and abilities. Related issues of career planning, personal health, and ensemble work are also addressed. [Fall and Spring offering] 6 studio hours

DAN 120  Choreography I              3 credits
Prerequisite: DAN 116 or divisional permission
Introduces several choreographic strategies used to develop an idea into a dance structured for the stage. Students are exposed to the tools of choreography beginning with basics – time, space, and force – and then move on to more complex issues faced by intermediate choreographers: form, style, abstraction, compositional structures, and choreographic devices. [Spring offering] 2 lecture / 2 studio hours

DAN 285  Special Studies in Dance    3 credits
Prerequisites: DAN 101, DAN 116, DAN 117, DAN 120 and permission of program coordinator
Opportunity for students who have completed regular course offerings to continue their studies at an advanced level. Individual students and faculty develop a project contract that sets forth objectives, standards of quality, evaluation guidelines, and deadlines. [Fall offering] 6 studio hours

DMA — DIGITAL MEDIA ARTS

DMA 110  Digital Imaging              3 credits
Designed to meet the needs of artists and designers in diverse fields, involves the leading professional paint and photo retouching software. Addresses the practical and creative aspects of producing art and illustrations and manipulating photographs and other images through a series of hands-on assignments.
1 lecture / 4 laboratory hours

DMA 115  Vector Drawing               3 credits
Acquaints with the basics of production and use of vector graphics for use in print and illustration, web-based media, and animation. Skill development concentrates on the use of tools and transformation options of Adobe Illustrator, with emphasis on digital drawing for both text and graphics, use of Wacom pen tablet, key tools within Illustrator, and production of standard industry graphics for use in print, web, and animation.
1 lecture / 4 laboratory hours

DMA 120  3-D Modeling I               3 credits
Develops visual problem-solving abilities using computers as art and design tools. Students create and manipulate three-dimensional forms and scenes, their colors, surface textures, lighting and cameras to design effective compositions in virtual 3-D space. Useful for graphic arts, communications, interior design and architectural professions, prepares students for Animation I and 3-D Modeling II. Windows-based PC computers, scanners, and current professional software are used.
1 lecture / 4 laboratory hours

DMA 125  Pre-Production Design        3 credits
Prerequisites: ART 102, ART 105, and DMA 105 with minimum C grades or divisional permission
Corequisite or Prerequisite: ART 104
Pre-production planning and design for animation and interactive media. Without use of computers, students learn to apply creative thinking, design principles and production processes essential to the creation of successful animations and multimedia programs. Practical experience in concept generation, concept drawing, storyboarding, and project organization.
1 lecture / 4 studio hours

DMA 135  Digital Narrative            3 credits
Prerequisite: DMA 115 with a minimum C grade
Exploration of narrative art, its structure and approaches as it applies to time-based graphics. Students investigate narrative in a variety of formats – from comics to animation to film editing and various “artistic” permutations in between – with emphasis on current digital practices.
1 lecture / 4 studio hours
DMA 140 Interactive Web Animation 3 credits

Prerequisite: DMA 144 or DMA 145

Introduction to two-dimensional animation using the professional software application Flash to create short animations for the web or television and simple web games and interfaces. Specific instruction includes how to draw and animate vector graphics, import audio, create buttons and symbols, and use Actionscripting to create nonlinear interactivity and animation. 1 lecture / 4 studio hours

Technology

DMA 144 Internet Tools and Techniques 3 credits

Introduction to the tools and techniques used to create blogs, commercial websites and Internet applications. Topics include the history of the Internet, Internet software and hardware, ethical issues surrounding privacy, accessibility and ownership on the Internet, information architecture and content strategies, and the tools used for blogging, creating web pages and rich web applications. Students research, analyze, diagram, and create Internet applications and websites. 1 lecture / 4 studio hours

DMA 145 Web Design I 3 credits

Prerequisites: DMA 110, placement in college-level English

Introduction to web design using a professional software application. Focuses on principles of design and interactivity. Students learn how to create images for the web, manage files, organize imagery using tables, style text using cascading style sheets, create animated gifs, and add interactivity using basic JavaScript behaviors. 1 lecture / 4 studio hours

DMA 210 Motion Graphics 3 credits

Prerequisite: CMN 141 or DMA 135 with a minimum C grade or divisional permission

Digital art in motion: concepts and techniques of visual storytelling emphasizing issues of pacing, continuity and dramatic structure. 2-D graphics, video and sound are combined using new media tools to explore the possibilities of new media art. Course content is applicable to the fields of 3-D animation, film and television title sequences, commercials, multimedia design and music videos. [Spring offering] 1 lecture / 4 studio hours

DMA 220 3-D Modeling II 3 credits

Prerequisite: DMA 120 with a minimum C grade or divisional permission

Covers advanced concepts and materials of 3-D modeling and virtual scene creation for those who wish to explore 3-D modeling and illustration in depth. Topics include environment creation, 3-D paint, modeling for games, character models, modeling with nurbs/patches and compositing. [Fall offering] 1 lecture / 4 studio hours

DMA 224 Rigging for Animation and Games 3 credits

Prerequisite: DMA 120 with a minimum C grade

Corequisite: DMA 225

Character rigging and design techniques for gaming, broadcast and feature film industries. Topics include node-based hierarchies, forward and inverse kinematics, constraints, user interfaces, skinning, and melscripting. Utilizing both PC and Mac computers with professional digital content creation software, students design and construct armatures for different object types. 1 lecture / 4 studio hours

DMA 225 Computer Animation I 3 credits

Prerequisites: DMA 120 and DMA 135 with a minimum C grade or divisional permission

Using 3-D animation software and video interface, students produce special effects and character animations from storyboard to output. Windows-based personal computers and current professional software are used. [Fall offering] 1 lecture / 4 studio hours

DMA 226 Computer Animation II 3 credits

Prerequisite: DMA 225 with a minimum C grade or divisional permission

Advanced 3-D character animation and special effects involving character animation, inverse kinematics, and particle systems. Students produce a recording of their work and develop presentation skills. Windows-based personal computers and current professional software are used. [Spring offering] 1 lecture / 4 studio hours
DMA 245  Web Design II  3 credits
Prerequisite: DMA 145 with a minimum C grade or divisional permission
Intermediate skills in web design using a professional software application. Focuses on principles of organization, interface design and usability. Students learn how to create a site map, design navigational systems, integrate Flash and video content, batch process images, create templates, insert forms, design pages using XHTML cascading style sheets, and add advanced interactivity using JavaScript.  
1 lecture / 4 studio hours

DMA 246  Web Design III: Advanced Project  3 credits
Prerequisites: DMA 110 and DMA 245 with a minimum C grade or divisional permission
Develops practical skills and knowledge of web design while executing a project for a community client in a professional atmosphere. Visual design, information architecture, and web production are all based on client goals, messages, and deadlines outlined during the project definition phase. Advanced web design techniques are implemented utilizing professional-level software and applications. [Spring offering]  
1 lecture / 4 studio hours

DMA 247  Web Application Development  3 credits
Prerequisite: DMA 245
Builds upon previous web development knowledge by introducing concepts of server-side programming and database integration. Emphasizes use of server space and client-side processing to enhance the collation and delivery of information to the viewer. Programming languages covered include PHP, MySQL and JavaScript (jQuery library).  
1 lecture / 4 studio hours

DMA 250  Digital Portfolio Seminar  3 credits
Prerequisite: DMA 115 or ART 105 or PHO 203 or CMN 241 or CMN 250 with a minimum C grade or divisional permission
Introduction to the culture, technologies, history, and theories of new media. Advanced digital media arts students explore topics in digital media while developing a digital portfolio to present their work.  
1 lecture / 4 studio hours

DMA 275  Interdisciplinary Studio  3 credits
Prerequisite: DMA 115 with a minimum C grade or divisional permission
Students explore the possibilities and implications of combining digital and traditional tools and techniques in the service of personal expression as fine art. Focuses on exploring each individual's aesthetic expression and the development of individual style. A variety of techniques, software, and theoretical issues are presented. Students are expected to create a series of pieces for exhibition, with emphasis on the printed output. [occasional offering]  
1 lecture / 4 studio hours

DMA 285  Special Studies in Digital Media Arts  3 credits
Prerequisites: DMA 226 or DMA 245 and divisional permission
Special courses in specific art forms allow students who have completed regular course offerings to continue their studies at advanced levels. Individual students and faculty develop a project contract that sets forth objectives, standards of quality, evaluation guidelines, and deadlines. [occasional offering]  
1 lecture / 4 studio hours

DMA 290  Digital Media Arts Internship  3 credits
Prerequisite: coordinator approval
Work experience at participating animation studios, advertising agencies, design firms, and film and video effects houses.  
1 lecture / 180 work experience hours

DRA — DRAFTING / COMPUTER-AIDED DESIGN

DRA 132  Architectural Computer Drafting  3 credits
Prerequisites: BCT 110, BCT 120, DRA 190 or divisional permission
Using architectural software, students produce professional drawings; compile contract documents; and date, store and retrieve information on both two- and three-dimensional projects. Involves creation of walls, doors, windows and roofs as well as implementation of symbols for structural, electrical, mechanical, plumbing, furnishing, and site work.  
2 lecture / 2 laboratory hours
DRA 190  Introduction to Computer-Aided Drafting  2 credits
Introduction to the use of the computer as a drafting tool. Includes concepts, terminology, and basic commands necessary to prepare drawings using CAD software. Requires basic knowledge of the computer keyboard. 1 lecture / 2 laboratory hours

DRA 191  Introduction to Building Information Modeling  2 credits
Introduction to the use of the computer using building information modeling software. Topics include basic terminology and concepts of modeling, geometry, and the basic commands necessary to prepare a building model and several drawings. 1 lecture / 2 laboratory hours

DRA 216  Heating, Refrigeration and Air Conditioning Drafting  3 credits
Prerequisites: ENT 116 or permission of instructor, HRA 102
Study of the aspects of drawing needed by a drafter in order to prepare finished drawings for the installation of heating, refrigeration, and air conditioning systems. Intended primarily for students in the Heating, Refrigeration and Air Conditioning program. [occasional offering] 1 lecture / 4 laboratory hours

DRA 217  Structural Steel Design and Drafting  3 credits
Prerequisites: ABT 120, DRA 190
Corequisite: CIV 237
Examines the problems common to structural design of steel and similar materials relative to the architectural frame of a structure. Relies heavily on the principles of mechanics and mechanics of materials fundamentals. Requires familiarity with general steel design codes and the preparation of structural drawings. 2 lecture / 3 laboratory hours

DRA 218  3-D Modeling / 3-D Printing  3 credits
Prerequisite: MET 122 or advisor permission
An introduction to 3-D solids modeling and printing software. Students build a prototype model using SolidWorks software and print a 3-D model to explore the basic size and look of a product or machine part. Orthographic drawings with dimensions are also produced for part building using traditional machining techniques. 2 lecture / 2 laboratory hours

DRA 238  Advanced Computer-Aided Design  3 credits
Prerequisite: DRA 190
Advanced computer drafting course using CAD software. Includes a review of basic command options, display options, hatching and sectioning, text, and dimensioning. Introduces 3-D drawing and surface modeling. 2 lecture / 2 laboratory hours

DRA 248  Advanced Building Information Modeling  3 credits
Prerequisite: DRA 191 with a minimum C grade
Advanced computer-aided design and drafting using BIM software. Students build intelligent 3-D models of designs using parametric, feature-based modeling software. After refinement, 2-D drawings are created from the 3-D model. 2 lecture / 2 laboratory hours

DRA 251  Solids Modeling  3 credits
Prerequisite: DRA 238 with a minimum C grade
An introduction to solids modeling and rendering software. Students explore the capabilities and potentials of computer software used to construct solids models then render the resulting image. 2 lecture / 2 laboratory hours

ECO — ECONOMICS

ECO 103  Basic Economics  3 credits
Prerequisites: ENG 101 and MAT 037 (or MAT 037A and 037B) with a minimum C grade or placement in college-level mathematics
Basic economics concepts enable students to better understand, analyze, and discuss current economic events and problems. Includes demand, supply and prices, measures of gross domestic product, the circular flow of income, market structures, government fiscal policy, monetary policy, the national banking system, and international trade. 3 lecture hours
**ECO 111 Macroeconomics** 3 credits

*Prerequisites: ENG 101 and MAT 038 or MAT 044 or MAT 140 with a minimum C grade*

Analysis of the determinants of aggregate income, output, employment and price level under various market conditions. Includes national income and product account, consumption and investment theory, government stabilization via fiscal and monetary policy, macroeconomic impact of international trade and finance, and inflation/unemployment trade-off controversies. *3 lecture hours*

**ECO 112 Microeconomics** 3 credits

*Prerequisites: ENG 101 and MAT 038 or MAT 044 or MAT 140 with a minimum C grade*

Introduction to economic principles and their application to major issues of public policy: concepts of supply and demand, nature and operation of market structures, analysis of costs and revenues, theory of production, selected problems of public policy in relation to agriculture, antitrust policy, labor relations and microeconomic aspects of world trade. *3 lecture hours*

**EDU — EDUCATION**

**EDU 102 Introduction to Exceptional Children** 3 credits

Introduction to the field of special education and to exceptionality. Inclusion, an approach to teaching students with special needs in general education, is emphasized. Topics include historical overview, legislation, consideration of specific disabilities, instructional techniques and equipment, as well as teaching gifted students and non-native speakers. *3 lecture hours*

**EDU 109 Introduction to Education: Foundations, History, and Trends of American Education** 3 credits

Introduction to American education and the teaching/learning process for future educators. Topics include history and philosophy of education, curriculum, teaching strategies, school law, diversity, technology and recent trends. Students are involved in creative activities, research, and analysis of current literature. Requires 25 hours of field observation in an educational setting. *3 lecture hours*

**EDU 120 Introduction to Early Childhood Education** 3 credits

Emphasizes the needs of young children in conjunction with appropriate care and educational programs. Topics include environment, developmentally appropriate practices, emerging literacy, cognitive development, learning through play, and school/home relationships. Observation and/or participation in a childcare setting are required. *3 lecture hours*

**EDU 130 Infant/Toddler Social and Emotional Well-Being** 3 credits

Designed for students interested in a career in a childcare or nursery school environment. A component of the New Jersey Infant/Toddler Credential, the course supports practitioners working with infants and toddlers to strengthen their capacity as caregivers of the very young. *3 lecture hours*

**EDU 131 Supervised Field Experience in Infant/Toddler Settings** 3 credits

*Prerequisite or Corequisite: EDU 130*

A companion course to EDU 130, designed for students interested in a career in a childcare or nursery school environment. Student field experiences critically evaluated by both students and teachers serve as a forum for discussion. A component of the New Jersey Infant/Toddler Credential, the course supports practitioners working with infants and toddlers to strengthen their capacity as caregivers of the very young. *2 lecture / 60 practicum hours*
EDU 210   Education Field Experience       6 credits

Prerequisites: minimum C grade in EDU 109 and SOC 104, or minimum C grade in EDU 102 and EDU 201, and divisional permission
Corequisite: EDU 211
Internship of 15-20 hours per week in a New Jersey school approved by the coordinator of the Education / Special Education Assistant program. The student performs the duties of an education assistant under the supervision of cooperating teachers. Assignments to schools are made on the basis of the student's interests and occupational goals; arrangements must be made during the preceding semester. [Spring offering] 4 days per week

EDU 211   Education Seminar        3 credits

Prerequisites: minimum C grade in EDU 109 and SOC 104, or minimum C grade in EDU 102 and EDU 201, or divisional permission
Corequisite: EDU 210
Examines the correlation between educational theory and practice. Students engage in research with professional journals, demonstration classes illustrating varied methods and materials, teaching units, and observation visits to area schools. [Spring offering] 3 lecture hours

EDU 214   Curriculum and Methods for Early Childhood     3 credits

Prerequisite: EDU 120
Exposes students to a variety of methods for the planning and implementation of quality instruction in an early childhood setting. Students study strategies for creating positive learning environments while developing curricula for various subjects and learning styles. 3 lecture hours

EET — ELECTRONICS ENGINEERING TECHNOLOGY

EET 130   Fundamentals of Electronics       3 credits

Prerequisite or Corequisite: MAT 037 (or MAT 037A and 037B)
Introduction to DC and AC circuits, electromagnetic devices, electronic components, and analog and digital circuits. For non-electronics majors. 2 lecture / 2 laboratory hours

EET 138   Introduction to Electronics I       4 credits

Prerequisite or Corequisite: MAT 038 or MAT 044
Focuses on direct current (DC) devices and circuits. Progresses from the fundamentals of electricity, Ohm's Law, Kirchoff's Law, series and parallel circuits to the study of resistors, capacitors, inductors, batteries, transistors, and diodes as they pertain to DC circuits. 3 lecture / 3 laboratory hours

EET 139   Introduction to Electronics II       4 credits

Prerequisite: EET 138 or equivalent
Continuation of EET 138. Covers the basics of AC circuits and devices including resistors, capacitors, inductors and semiconductors. Introduces fundamental waveforms such as sine waves and pulses and their behavior in solid state circuits. 3 lecture / 3 laboratory hours

EET 140   Electronic Construction       2 credits

Teaches the use of hand tools, drilling and other metalworking methods as well as correct soldering and repair techniques. Students apply these skills to chassis construction and wiring, and also gain experience in working with printed circuit boards. 1 lecture / 3 laboratory hours

EET 141   Electrical Wiring and Cabling       3 credits

Prerequisite: EET 130
Focus on electrical wiring techniques starting with 120/240 volts. Instruction for adding connectors to and installing coax, CAT5/6, and fiber optic cables emphasizes the codes and standards to be followed along with the correct tools to be used. Class time allots equally between lectures reinforced by hands-on practice. 2 lecture / 2 laboratory hours
EET 145  Fiber Optics  3 credits
Prerequisites: EET 130 or EET 138; MAT 038
A study of fiber optics as it pertains to the communications process. Topics include the physics and behavior of light in a fiber. Skills learned include connectorization of fiber and the use of the special tools and test equipment required. Successful completion of this course can lead to FOA certification.  
2 lecture / 3 laboratory hours

EET 214  Communications Electronics  4 credits
Prerequisite: EET 219
Study of information transmission and reception involving both digital and analog systems. Topics include AM, FM, noise, spectra, receivers, transmitters, lines and cables, and antennas.  
3 lecture / 3 laboratory hours

EET 219  Electronic Networks  4 credits
Prerequisite: EET 139 or EET 144
Analysis and design considerations for electronic circuits, including power supplies using semiconductor diodes and zener diodes, and Class A amplifiers using bipolar and FET transistors.  
3 lecture / 3 laboratory hours

EET 230  Linear Integrated Circuits  4 credits
Prerequisite: EET 219 or EET 131
Covers the basic building blocks of linear systems, such as inverting and non-inverting amplifiers, comparators, and filters.  
3 lecture / 3 laboratory hours

EET 251  Digital Circuit Fundamentals  4 credits
Prerequisite: EET 130 or EET 139 or EET 144
Introduces the basic theory, concepts and devices behind digital circuitry and computers, including gates, registers, flip-flops, counters, decoders and encoders, half- and full-adders, and clocks. The electrical characteristics, limitations, and connections of digital integrated circuit packages are explored. Corresponding labs reinforce lecture materials through practical examples.  
3 lecture / 3 laboratory hours

EET 263  Digital Technology – Introduction to Microprocessors and Assembly Language  4 credits
Prerequisite: EET 251
Introduces the operation of a simple computer at the physical (electrical) level using gates, registers, and other basic circuits introduced in the prerequisite course. Students gain experience building and programming a simple computer. Covers memory, basic microprocessor architecture, assembly language programming, and analog-to-digital as well as digital-to-analog converters.  
3 lecture / 3 laboratory hours

EET 266  Programmable Logic Controllers  4 credits
Prerequisite: EET 251
Introduces the theory and practical concepts of programmable logic controllers and their applications within industrial or manufacturing environments. Topics include PLC components, digital logic, ladder logic design, and software programming. Corresponding labs reinforce lectures with practical hands-on programming of Allen-Bradley PLC units using RSLogix software.  
3 lecture / 3 laboratory hours

ENG 023  Introduction to College Composition I  4 credits
First-level developmental course designed to help students write 400- to 650-word essays on topics in various academic disciplines. Students are guided in developing a writing process that improves essay development, coherence, grammar, and punctuation. Prepares students for Introduction to College Composition II, a second-level foundation course.  
4 lecture hours
ENG 024 Introduction to College Composition II 4 credits
Prerequisite: ENG 023 or placement test
Second-level developmental course. Students write 400- to 750 word essays about concepts in various academic disciplines. Focus is on developing a writing process that helps student writers to form positions and analyze and evaluate their own and other writers’ ideas. Students also improve their sentence and essay structure, tone, and overall coherence. 4 lecture hours

ENG 033 Introduction to College Reading I 4 credits
Prerequisite: placement test
Intended to help students become better readers and thinkers who take ownership of their learning. Students read, analyze, discuss, and write on the material presented in the course. Introduction to intermediate college-level readings (both fiction and non-fiction) builds comprehension and study skills to succeed in college-level courses. 4 lecture hours

ENG 034 Introduction to College Reading II 4 credits
Prerequisite: ENG 033 or placement test
Intended to help students become better readers and thinkers who take ownership of their learning. Exposed to the beginning principles of critical reading and thinking, students analyze text to identify facts, fallacies, claims, premises, and arguments. Students are expected to take notes, improve vocabulary, and independently interpret text. 4 lecture hours

ENG 101 English Composition I 3 credits
Prerequisite: placement test or minimum C grade in ENG 024 and ENG 034
College-level composition course designed to assist students in writing 750- to 1500-word essays on topics in various academic disciplines. Focuses on development and support of ideas, essay structure, critical thinking, analysis of readings, and other aspects of writing. Students are introduced to research techniques and documentation. 3 lecture hours

ENG 102 English Composition II 3 credits
Prerequisite: ENG 101 with a minimum C grade
Second-level composition course designed to assist students in writing 1500- to 3000-word essays, including a formally documented research paper. Readings introduce students to literature and the analysis of concepts, language, and formal elements. 3 lecture hours

ENG 112 English Composition II with Speech 3 credits
Prerequisite: ENG 101 with a minimum C grade
A variation on standard ENG 102, differing with its focus on the interpretation, analysis and creation of a broad spectrum of workplace documents rather than on literature. Construction of a lengthy, well-supported research paper and accompanying PowerPoint presentation is central. Speech component is fulfilled through multiple in-class presentations. 3 lecture hours

ENG 131 Journalism I 3 credits
Corequisite: ENG 101
Introduction to the news media with particular emphasis on the newspaper and newswriting, the history of the press, and controversial issues facing the press. Active participation with the student paper, The College Voice, is integral. 3 lecture hours

ENG 201 Introduction to Literature: Drama 3 credits
Prerequisite: minimum C grade in ENG 102 or divisional permission
Examines the evolution of staged presentations from religious ritual to secular theater, covering works from the classical Greek period to the present day. Focuses on Elizabethan theater, Restoration comedy, 19th century realism, and contemporary theater. [Spring offering - alternate semesters] 3 lecture hours

<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENG 202</td>
<td>Introduction to Literature: Novel</td>
<td>3</td>
<td>Study of novels from various periods selected for their intrinsic value and as representative types of fiction. [Spring offering] 3 lecture hours</td>
</tr>
<tr>
<td>ENG 203</td>
<td>World Literature I</td>
<td>3</td>
<td>A survey of important literary works from cultures around the world dating from ancient times through the 17th century. [Fall offering] 3 lecture hours</td>
</tr>
<tr>
<td>ENG 204</td>
<td>World Literature II</td>
<td>3</td>
<td>A survey of important literary works from cultures around the world from the 17th century through the present day. [Spring offering] 3 lecture hours</td>
</tr>
<tr>
<td>ENG 205</td>
<td>American Literature I</td>
<td>3</td>
<td>Introduction to and selective study of authors representing the enduring traditions and styles of American literature from the Puritan period through the Civil War. [Fall offering] 3 lecture hours</td>
</tr>
<tr>
<td>ENG 206</td>
<td>American Literature II</td>
<td>3</td>
<td>Survey of American literature from 1865 to the present, including authors whose work represents the traditions and styles of American literature. Short stories, novels, poetry, and essays cover topics such as regionalism, realism, naturalism, modernism, and postmodernism. [Spring offering] 3 lecture hours</td>
</tr>
<tr>
<td>ENG 208</td>
<td>Modern American Novel</td>
<td>3</td>
<td>Traces the triumph of prose Realism over Naturalism and the recurrent forms and techniques of the contemporary novel in the American idiom. Emphasizes the novel as the dominant modern American literary art form, as a social document, and as a portrait of time and place. [Fall offering] 3 lecture hours</td>
</tr>
<tr>
<td>ENG 211</td>
<td>Shakespeare</td>
<td>3</td>
<td>A survey of Shakespeare’s tragedies, comedies, and histories – a body of work whose characters, themes, and language influence and permeate literature worldwide, and is essential to cultural literacy. [occasional offering] 3 lecture hours</td>
</tr>
<tr>
<td>ENG 212</td>
<td>Introduction to Literature: Poetry</td>
<td>3</td>
<td>Explores poetry as imagery, figurative language, allusion, tone, rhythm, meter, rhyme and stanza form. Students read major English and American poetry as well as verse from a variety of cultures to provide background for reading poems more incisively. [Fall offering - alternate semesters] 3 lecture hours</td>
</tr>
</tbody>
</table>
ENG 213  African American Literature  3 credits
Prerequisite: minimum C grade in ENG 102 or divisional permission
A survey of literary works by writers of the African Diaspora produced in the Americas from the 18th century to the present. Proceeds chronologically, starting with African-born producers of the literature, oral and written, continuing with the folk tradition, moving through the slave narratives, the Harlem Renaissance, the Black Arts Movement and ending with contemporary works and the immigrant experiences. [Spring offering] 3 lecture hours

ENG 215  Creative Writing I  3 credits
Prerequisite: minimum C grade in ENG 102 or divisional permission
Develops writing skills in various genres, such as fiction, poetry, and essay. Recognized models in literary modes are analyzed for craftsmanship. Through workshop framework, students benefit from peer and instructor criticism and are encouraged to find individual voice under instructor guidance. [not a Literature elective] 3 lecture hours

ENG 216  Literature Into Film  3 credits
Prerequisite: minimum C grade in ENG 102 or divisional permission
Focuses on the marriage of two art forms – literature and film – and pays particular attention to how the medium affects the writer and the writer the medium. Examines selected novels, short stories, plays, essays and/or memoirs as original works and as each evolves into film. [Fall and Spring offering] 3 lecture hours

ENG 218  Creative Writing II  3 credits
Prerequisite: minimum C grade in ENG 102 or divisional permission
Promotes continuing development of creative writing skills; analyzes recognized models by major modern writers. Through workshop framework, peers and instructor critique student work. Students are encouraged to hone their writing voices under instructor guidance. [not a Literature elective] 3 lecture hours

ENG 220  Science Fiction Literature  3 credits
Prerequisite: minimum C grade in ENG 102 or divisional permission
Explores science fiction through a study of genre elements and the challenges these genres present. By examining a diverse selection of speculative literature, participants better appreciate and interpret such works and how they both reflect and change our culture. [Spring offering] 3 lecture hours

ENG 221  Women in Literature  3 credits
Prerequisite: minimum C grade in ENG 102 or divisional permission
A discussion-based course that explores literature by women writers. Texts cover a variety of authors and genres as well as themes, issues and theories concerning the production of gender in literary works. Further develops the literary analysis and academic writing skills acquired in ENG 102. [Fall offering] 3 lecture hours

ENG 222  Children’s Literature  3 credits
Prerequisite: minimum C grade in ENG 102 or divisional permission
Critical evaluation of the various genres of literature written for children. Examines ancient folk tales like Aesop's Fables, modern picture books such as those by Maurice Sendak, and classic fiction such as the masterpieces of Lewis Carroll and Mark Twain. [Fall and Spring offering] 3 lecture hours

ENG 227  English Literature I  3 credits
Prerequisite: minimum C grade in ENG 102 or divisional permission
Survey of representative English literature from the Middle English period through the Neoclassical period. Particular attention to the works of Chaucer, Shakespeare, Milton, Donne, Dryden and Pope. [Fall offering - alternate semesters] 3 lecture hours

ESL — ENGLISH AS A SECOND LANGUAGE

Note: Initial selection of an ESL course is determined by results of ESL placement testing.

ESL 041   ESL Foundation in Speech Concepts        4 credits
Prerequisite: score of 60 or lower on ESL Accuplacer Listening Test
Corequisites: ESL 042, ESL 043
Students begin to use basic speaking and listening strategies in English as a foreign language. Activities involve markers, syllables, high-frequency words, recognition of question words, intonation, stress, pronunciation, and dialogue. Listening to audio CDs improves aural comprehension and creates discussion points for stimulating conversation and language practice. Global topics initiate speaking and listening lessons. 4 lecture hours

ESL 042   ESL Foundation in Reading Concepts       4 credits
Prerequisite: score of 60 or lower on ESL Accuplacer Reading Test
Corequisites: ESL 041, ESL 043
Introduces a foundational understanding of language form and meaning through the study of vocabulary and reading content-based text. Reading lessons are initiated with global topics. 4 lecture hours

ESL 043   ESL Foundation in Grammar Concepts       4 credits
Prerequisite: score of 60 or lower on ESL Accuplacer Language Test
Corequisites: ESL 041, ESL 042
Introduces students to basic grammar connected in an American cultural context. Provides learners with useful and meaningful skills to apply beginning grammar necessary to communicate verbally and in writing. 4 lecture hours

ESL 051   ESL Speech Concepts I                    4 credits
Prerequisite: score of 61-75 on ESL Accuplacer Listening Test or successful completion of ESL 041
Develops speaking and listening skills for high-beginner students. Emphasis on expanding vocabulary, accent reduction, and gaining fluency and confidence using English spontaneously. Idioms, grammatical forms, morphology, phonology and etymology stressed. 4 lecture hours

ESL 052   ESL Reading and Critical Thinking I      4 credits
Prerequisite: score of 61-75 on ESL Accuplacer Reading Test or successful completion of ESL 042
Emphasis on increasing reading fluency and comprehension, improving vocabulary, and relying on context clues to understand texts. 4 lecture hours

ESL 053   ESL Writing Concepts I                   4 credits
Prerequisite: score of 61-75 on ESL Accuplacer Language Test or successful completion of ESL 043
Emphasis on orienting students to basic sentence patterns and types, writing topical paragraphs, and organizing one-page essays. Critical reading and application of grammar stressed. 4 lecture hours

ESL 061   ESL Speech Concepts II                   4 credits
Prerequisite: score of 76-88 on ESL Accuplacer Listening Test or successful completion of ESL 051
Spontaneous oral English for intermediate-level students. Reinforces ability to speak and listen effectively in a second language with stress on building fluency and vocabulary, accent reduction, word syntax, idioms, grammatical forms, morphology, phonology, and etymology. 4 lecture hours

ESL 062   ESL Reading and Critical Thinking II     4 credits
Prerequisite: score of 76-88 on ESL Accuplacer Reading Test or successful completion of ESL 052
Emphasis on developing and using academic and idiomatic vocabulary through reading narrative, expository and argumentative essays as well as longer readings. Exposure to critical analysis and interpretation of English texts. 4 lecture hours
ESL 063  ESL Writing Concepts II  4 credits
Prerequisite: score of 76-88 on ESL Accuplacer Language Test or successful completion of ESL 053
Sentence patterns, sentence sequences, and the development of a paragraph are emphasized. The student learns to correct errors in grammar and punctuation to produce standard English sentences which support a topic. Outstanding performance in this course may qualify the student to enroll in ENG 101, English Composition I. 4 lecture hours

ESL 071  ESL Speech Concepts III  4 credits
Prerequisite: score of 89-108 on ESL Accuplacer Listening Test or successful completion of ESL 061
Advanced speaking and listening. Themes of intercultural communication and global issues provide centerpiece of conversations and interactions. Developing higher skills in verbal and non-verbal communication, colloquial and idiomatic expressions and fluency, students present formal speeches, critiques, and feedback. 4 lecture hours

ESL 072  ESL Reading and Critical Thinking III  4 credits
Prerequisite: score of 89-108 on ESL Accuplacer Reading Test or successful completion of ESL 062
Further reinforces and refines reading skills, comprehension, vocabulary expansion and enhancing oral presentation and interpretation techniques as well as analytical thinking skills. 4 lecture hours

ESL 073  ESL Writing Concepts III  4 credits
Prerequisite: score of 89-108 on ESL Accuplacer Language Test or successful completion of ESL 063
Stresses spontaneous, fluent, and idiomatic writing. Includes practice in various forms of writing, from personal to more formal, using various source materials ranging from magazines to works of fiction. Students who successfully complete this course qualify to enroll in ENG 101, English Composition I. 4 lecture hours

ESL 080  ESL TOEFL iBT Prep Course  3 credits
Prerequisite: minimum score of 60 on TOEFL test or a minimum intermediate level of English to be determined by the ESL program coordinator
Corequisites: 06 and 07 level ESL courses at MCCC
Online course prepares ESL students for TOEFL iBT (Internet-based test). Material covered offers many opportunities to practice in the Reading, Listening, Speaking, and Writing sections of the exam. Students may repeat this course up to three times to achieve desired TOEFL iBT score. Grade of “credit” / “no credit” based on time spent online.

ETT — ENTERTAINMENT TECHNOLOGY

ETT 102  Introduction to the Entertainment Industry  3 credits
Prerequisite: eligibility for placement in ENG 101
An introduction to terminology, working methods, processes, equipment, and facilities for various entertainment industry venues with a particular emphasis on theatre and music technology and production. Laboratory work includes an introduction to various lighting programs and digital audio production software. Related current events and career opportunities are discussed. Attendance at several applicable events is required. 2 lecture / 2 laboratory hours

ETT 200  Technical Production  1 credit
Prerequisites: ETT 102, THR 102, and prior advisor approval
Supervised laboratory in the technical areas of production including planning, construction, and running of productions. Emphasizes careful pre-planning and appropriate safety procedures along with follow-up critiques and evaluation of the work done. Graded on pass-fail basis. 90 hours minimum
ETT 205  Arts and Entertainment Management  3 credits
Prerequisite: ETT 102 with a minimum C grade
An introduction to common issues and best practices in the management of arts and entertainment organizations. Students gain a basic understanding of business requirements and challenges in producing entertainment. Topics include common management structures in not-for-profit and for-profit arts and entertainment organizations, marketing, public relations, fundraising, budgeting, and human resources. Legal concerns addressed include contracts, copyright, licensing, and royalties. 3 lecture hours

ETT 290  Entertainment Technology Internship  2 credits
Prerequisites: ETT 200 and prior advisor approval
Work experience at a professional scenery fabrication shop, rental/supply house, off-Broadway theater, or any entertainment-related organization. Serves to bridge the student’s academic and commercial careers by cultivating professional work experience and industry contacts. Each student, supervised by faculty and a manager at the internship site, creates a portfolio and keeps a log/journal to be shared in group seminars. Graded on pass-fail basis. 1 class hour every other week. 190 internship hours

FAS — FASHION

FAS 105  Fashion: The Global Marketplace  3 credits
Prerequisite: placement in college-level English
An overview of the fashion industry beginning with a historical perspective that covers both domestic and international influences. Integrates creative fashion concepts with business concepts commonly used in general marketing. Topics include international sourcing and trade, and retailing. 3 lecture hours

FAS 110  Introduction to Fashion Drawing  3 credits
Prerequisite: ART 102
Coordinated with Fashion Design I, develops techniques, skills, and knowledge needed to produce fashion drawings that are clear, accurate, realistic and attractive. Vocabulary of various clothing styles and details are introduced. 1 lecture / 4 laboratory hours

FAS 120  Introduction to Fashion Industries  3 credits
Corequisite: FAS 130
Coordinated with Introduction to Fashion Drawing, emphasizes development of color stories, concepts and fabrications. Study includes exploration of visual sensitivity, mastering fashion terminology, developing original design concepts, as well as storyboard compiling and design research. 1 lecture / 4 laboratory hours

FAS 130  Introduction to Textiles for Fashion  3 credits
Prerequisite or Corequisite: ENG 101
Explores how textiles are produced and how appropriate performance characteristics are incorporated into materials and products. Students make informed decisions regarding materials and products to communicate effectively with team members in the workplace, suppliers, contractors and buyers. Careers in the global textile industry are discussed. 3 lecture hours

FAS 140  Fashion Technology  3 credits
Corequisite: FAS 110
Covers two computer software applications used in the fashion design industry to design and create apparel and accessories. Projects explore a range of fashion designing and related drawings in both vector and pixel-based applications. 1 lecture / 4 laboratory hours

FAS 150  Technical Skills for Apparel Production I  3 credits
Introduces muslin draping techniques on the dress form, flat pattern making, and garment construction on the sewing machine. Based on the scope of a student’s project or level of study, additional costs for materials and supplies are required. 1 lecture / 4 laboratory hours

FAS 205  Fashion Visual Merchandising and Display  3 credits
Prerequisites: BUS 101, ENG 101, MKT 101, MKT 230
An integrated and customer-centered approach to merchandising. Covers strategic planning, product objectives and categories, industry zones, and product life cycles. Topics include pricing, positioning, placement, market research, environments, demographics, geographics, and psychographics. Emphasizes fashion forecasting with the buying-selling cycle for retail buyers. 3 lecture hours

FIR 204  Fire Fighting Tactics   3 credits
Examines pre-fire planning, fire ground organization and problem-solving, and proper utilization of manpower and equipment.  

FIR 205  Fire Department Organization   3 credits
Study of the history, methods, types, and principles of fire department organization and management. Emphasizes supervisory responsibilities and functions. 

FIR 206  Fire Investigation   3 credits
Provides the fundamental and technical knowledge needed for proper fire scene interpretations, including recognizing and conducting origin and cause, preservation of evidence and documentation, scene security, motives of the firesetter, and types of fire causes. 

FIR 208  Fire Department Safety and Health Administration   3 credits
Develops an understanding of fire service safety and risk management programs including fire service requirements, compliance with OSHA regulations, national consensus standards, and NFPA 1500. 

FIR 209  Fire Prevention and Code Enforcement II   3 credits
Prerequisite: FIR 107
Examines duties of the fire official, legal aspects, and coordination with other governmental agencies. Topics include fire code administration, principles of personnel management, records management, variances, penalties, and enforcement procedures. Approved by the New Jersey Bureau of Fire Safety toward Fire Official certification pursuant to the Uniform Fire Safety Act. 

FIR 211  Fire Investigation II   3 credits
Prerequisite: FIR 206
Provides advanced technical knowledge on rule of law, fire scene analysis, fire behavior, evidence collection and preservation, scene documentation, case preparation and courtroom testimony. 

FRE — FRENCH

Note: Students who have taken two or more years of a foreign language, and have done so in the last two years, should begin that language at the 200 level or switch to a new language. If there is doubt, placement will be determined by testing or consultation with the academic division.

Humanities

FRE 101  Beginning French I   3 credits
The first in a sequence of courses designed for students with little or no prior knowledge of French. Spoken communication in French is both the end goal and the means of instruction. Emphasizes the four communicative skills in a culturally authentic context. Reading and writing are assigned out of class to facilitate effective listening and speaking practice in class. Basic grammar skills are also introduced. 

FRE 102  Beginning French II   3 credits
Prerequisite: FRE 101 with a minimum C grade, placement by exam, or permission of instructor
The second in a sequence of courses designed for students with little or no prior knowledge of French. Spoken communication in French is both the end goal and the means of instruction. Emphasizes the four communicative skills in a culturally authentic context. Reading and writing are assigned out of class to facilitate effective listening and speaking practice in class. Basic grammar skills are also introduced. 
### Humanities

**FRE 201 Intermediate French I**
3 credits

*Prerequisite: FRE 102 with a minimum C grade, placement by exam, or permission of instructor*

The first in a sequence of courses designed for students with a mid to high novice level of competency in French. Spoken communication in French continues to be the end goal and the means of instruction. The four communicative skills of reading, writing, listening and speaking are applied to discussions and debates involving Francophone culture, politics, and history. Fundamental grammar points are reviewed.

3 lecture hours

**FRE 202 Intermediate French II**
3 credits

*Prerequisite: FRE 201 with a minimum C grade, placement by exam, or permission of instructor*

The second in a sequence of courses designed for students with a mid to high novice level of competency in French. Spoken communication in French continues to be the end goal and the means of instruction. The four communicative skills of reading, writing, listening and speaking are applied to discussions and debates involving Francophone culture, politics, and history. Fundamental grammar points are reviewed.

3 lecture hours

### FUN — FUNERAL SERVICE

**FUN 203 Funeral Service Principles**
3 credits

*Prerequisites: ENG 101 and enrollment in Funeral Service Program*

Introduction to the basic services performed by the funeral director from first call to final disposition. Includes religious practices, Veterans Administration and Social Security, transportation and funeral merchandise. Emphasizes vocabulary, ethical practices and professional attitudes.

3 lecture hours

**FUN 206 Introduction to Funeral Service**
3 credits

*Prerequisites: ENG 101 and enrollment in Funeral Service Program*

Focus on terminology, the impact of grief on society, the history of funeral service, and various professional organizations. Includes variations in funeral practices due to cultural differences, reactions to death, grief and bereavement, and the impact of family structures.

3 lecture hours

**FUN 215 Funeral Service Law**
3 credits

*Prerequisites: BUS 107 and enrollment in Funeral Service Program*

Basic principles of law impacting the funeral service profession, with emphasis on common law, New Jersey statutes, rules and regulations and FTC compliance. Includes cemetery law, burial standards, rights and wrongs concerning the body and burial, and zoning restrictions.

3 lecture hours

**FUN 217 Funeral Service Management**
3 credits

*Prerequisites: ACC 106, FUN 203, FUN 215*

Business and management practices pertinent to funeral service with emphasis on small business. Particular consideration to staff organization, employer/employee relations, funeral home budget, funeral service merchandising, insurance, price determination and quotation, advertising, OSHA, and applicable federal regulations.

3 lecture hours

**FUN 220 Funeral Service Laws, Rules and Regulations**
1 credit

*Prerequisite: FUN 215 or permission of Director of Funeral Service Programs*

Laws, rules and regulations that specifically influence funeral service practice in New Jersey. Covers general licensure and intern requirements, rules for operating a funeral home, embalming procedures, general and specific rules of practice, advertising and continuing education. Compares and contrasts practices in New Jersey and Pennsylvania.

1 lecture hour

**FUN 223 Funeral Service Pathology**
3 credits

*Prerequisite: BIO 106 (or BIO 103 and BIO 104) or permission of Director of Funeral Service Programs*

Survey of the major diseases, including pathological changes related to disease processes and the effects of physical and chemical trauma on the human body. Facilitates understanding of medical terminology relevant to funeral service.

3 lecture hours
FUN 227  Restorative Art  3 credits
Prerequisites: BIO 106 (or BIO 103 and BIO 104); FUN 247 or permission of Director of Funeral Service Programs
Examines facial anatomy including underlying structures and facial features, restoration, color and cosmetics. Lab work develops proficiency in anatomical modeling and the practical application of cosmetics. 2 lecture / 2 laboratory hours

FUN 229  Funeral Service Counseling  3 credits
Prerequisites: FUN 206 and PSY 101 or permission of Director of Funeral Service Programs
Promotes an appreciation of care-giving roles in relation to grieving persons and addresses the background material, skills and procedures needed for helping situations. Situations requiring professional therapy are differentiated from those requiring referrals for more specialized counseling. 3 lecture hours

FUN 247  Principles of Embalming I  3 credits
Prerequisites: BIO 106 (or BIO 103 and BIO 104), ENG 101 and enrollment in Funeral Service Program
Includes review of historical background, ethical and sanitary considerations, signs and tests of death, postmortem changes and basic procedures, instruments and equipment employed in embalming with emphasis on procedures for handling infectious/contagious disease. 3 lecture hours

FUN 249  Principles of Embalming II  2 credits
Prerequisite: FUN 247 with a minimum C grade
Continuation of FUN 247. Topics include cavity treatment, types of embalming chemicals and their uses, causes of embalming failure, discolorations, vascular difficulties, decomposition, dehydration, edema, deformities and malformations, and radiation. 2 lecture hours

FUN 251  Embalming Lab and Practicum  3 credits
Prerequisites: permission of Director of Funeral Service Programs; students must be registered interns
Develops practical embalming skills, combining work experience in a funeral home (16-20 hours per week) and at the MCCC embalming facility with discussion of applications. Topics include OSHA, embalming procedures, embalming products, cavity treatment, infant embalming and special cases. 3 laboratory and/or discussion hours plus 224 hours of work experience

FUN 295  Funeral Service Field Experience  3 credits
Prerequisites: approval from Director of Funeral Service Programs; students must be registered interns
Combines classroom discussion with 16-20 hours per week as an intern (or student-trainee) in an approved funeral home. Topics include death certificates, permits, vital statistics compliance, computer applications, Social Security and Veterans Administration paperwork, obituary writing, government compliance and other current issues. 2 hours seminar plus 224 hours of work experience

FUN 299  NBE Preparation  1 credit
Prerequisite or Corequisite: required Funeral Service courses
In preparation for the Funeral Service program capstone event, the National Board Examination (NBE), students review topics covered in the curriculum through classroom discussion and practice tests. Students must take the NBE in order to graduate from the Funeral Service program(s). 1 lecture / 1 studio hour

GAM — GAME DESIGN

GAM 120  Game Design Theory and Culture  3 credits
Students explore the historical and cultural significance of play through human history to include today’s video game phenomenon by examining many game models across several genres. Conceptual and production processes involved in current industry game design and development are introduced, with particular emphasis on the design of creative models expressing gaming concepts. 1 lecture / 4 laboratory hours

GAM 140  Game Design I  3 credits
Prerequisites: ENG 101, GAM 120, or permission of instructor
Students develop fundamental skills designing computer games. Topics include environments, interfaces, rules, dynamics, play mechanics, goals, conflicts and aesthetics. Students learn to use standard industry level-building software and digital sculpting tools. Emphasis is placed on conceptual design of game play, interface, and the processes of 2-D and 3-D content creation. 1 lecture / 4 laboratory hours
**GAM 145**  Game Programming I  
*Prerequisite: GAM 120*  
Analysis of an existing professional game engine contributes to an understanding of a game’s architecture and development. Working within the limits of the game engine, students design their own programming projects, modifying the logic and engine to create custom game experiences.  
2 lecture / 2 laboratory hours

**GAM 240**  Game Design II  
*Prerequisites: DMA 120, ENG 101, GAM 120, or permission of instructor*  
Emphasis on prototyping and level-building of game design concepts expands on the topics explored and skills developed in Game Programming I. Additional topics include content importing and configuration, mapping, lighting, physics, and scripted interaction. 1 lecture / 4 laboratory hours

**GAM 245**  Game Programming II  
*Prerequisite: GAM 145*  
Builds upon the existing skills developed in GAM 145 - Game Programming I. Students expand their knowledge of the Unity3D Game Engine and C# programming language to learn higher-level programming techniques for topics such as quaternion computation, AI behaviors, pathfinding, networking, advanced collision detection, and task management for large-scale games. 1 lecture / 4 laboratory hours

**GAM 260**  Game Development  
*Prerequisite: GAM 240*  
In this capstone course, students work in interdisciplinary production teams to develop computer games and modules utilizing industry-standard game engines. Coursework centers on producing scripted real-time modules, play testing, and documentation to specify game design concepts. 1 lecture / 4 laboratory hours

**GEO — GEOGRAPHY**

**GEO 101**  Geography  
*Surveyed Social Science / Diversity and Global Perspective*  
Surveys the main concepts of geography, including types of climate, topography, transportation and mapping. The current issues of environmental protection and city planning are studied with emphasis on the United States and political and economic factors. 3 lecture hours

**GEO 102**  Cultural Geography  
*Surveyed Social Science / Diversity and Global Perspective*  
Surveys the cultural geography of people living in significant regions such as India, China, Japan, Europe, Canada, Africa, and Latin America. A study of the geography, history, art, and way of life of people in various nations leads to an appreciation of their cultural heritage and achievements. 3 lecture hours

**GER — GERMAN**

*Note: Students who have taken two or more years of a foreign language, and have done so in the last two years, should begin that language at the 200 level or switch to a new language. If there is doubt, placement will be determined by testing or consultation with the academic division.*

**GER 101**  Beginning German I  
*Surveyed Humanities*  
The first in a sequence of courses designed for students with little or no prior knowledge of German. Spoken communication in German is both the end goal and the means of instruction. Emphasizes the four communicative skills in a culturally authentic context. Reading and writing are assigned out of class to facilitate effective listening and speaking practice in class. Basic grammar skills are also introduced. 3 lecture hours
**Humanities**

**GER 102 Beginning German II**  
3 credits  
*Prerequisite: GER 101 with a minimum C grade, placement by exam, or permission of instructor*  
The second in a sequence of courses designed for students with little or no prior knowledge of German. Spoken communication in German is both the end goal and the means of instruction. Emphasizes the four communicative skills in a culturally authentic context. Reading and writing are assigned out of class to facilitate effective listening and speaking practice in class. Basic grammar skills are also introduced.  
*3 lecture hours*

**GER 201 Intermediate German I**  
3 credits  
*Prerequisite: GER 102 with a minimum C grade, placement by exam, or permission of instructor*  
The first in a sequence of courses designed for students with a mid to high novice level of competency in German. Spoken communication in German continues to be the end goal and the means of instruction. The four communicative skills of reading, writing, listening and speaking are applied to discussions and debates involving German culture, politics, and history. Fundamental grammar points are reviewed.  
*3 lecture hours*

**GER 202 Intermediate German II**  
3 credits  
*Prerequisite: GER 201 with a minimum C grade, placement by exam, or permission of instructor*  
The second in a sequence of courses designed for students with a mid to high novice level of competency in German. Spoken communication in German continues to be the end goal and the means of instruction. The four communicative skills of reading, writing, listening and speaking are applied to discussions and debates involving German culture, politics, and history. Fundamental grammar points are reviewed.  
*3 lecture hours*

**HIS — HISTORY**

**HIS 101 History of Western Civilization to 1648**  
3 credits  
*Not recommended for students who have taken HIS 112* Introduction to the political, social, cultural, and economic events that distinguished Western civilization to 1648. Major topics include ancient Near Eastern civilizations, Greece and Rome, the Middle Ages, and the Renaissance and Reformation. Examination of highlight works, including literary and visual sources.  
*3 lecture hours*

**HIS 102 History of Western Civilization Since 1648**  
3 credits  
*Not recommended for students who have taken HIS 113* Introduction to the political, social, cultural, and economic events that have distinguished Western civilization since 1648. Major topics include Absolutism, the Scientific Revolution, the Enlightenment, the French Revolution, Industrialization, Nationalism, World Wars I and II, and recent trends. Examination of highlight works, including literary and visual sources.  
*3 lecture hours*

**HIS 105 United States History to 1865**  
3 credits  
Surveys American history to 1865 with emphasis on general concepts and processes. Examines colonial settlement and society, revolution and nation building, the market revolution and Jacksonian democracy, gender, slavery, and the Civil War.  
*3 lecture hours*

**HIS 106 United States History Since 1865**  
3 credits  
Surveys American history since 1865 with emphasis on general concepts and processes. Examines Reconstruction, the Gilded Age, Progressivism, World Wars, the New Deal, the Cold War, civil rights, gender, social class, and 21st century issues.  
*3 lecture hours*
HIS 107 The Civil War 3 credits
Examines slavery, sectionalism, the meaning of Union, racism, and the triumph of Industrial Capitalism. Assesses these issues from social, cultural, economic, and political perspectives to determine the causes, course, and effects of the American Civil War. 3 lecture hours

HIS 109 African American History 3 credits
Studies the history of the African American from the beginnings in the 15th century to the present. Special emphasis on the investigation and analysis of the historic sources of the problems that African Americans confront in America today. 3 lecture hours

HIS 110 Film and History 3 credits
An analytical and topical study of 20th century American social, cultural, economic, and political history as represented in film. 3 lecture hours

HIS 112 World History to 1500 3 credits
[not recommended for students who have taken HIS 101] Survey of world history from pre-history to 1500, examining the development of ancient societies in Asia, Europe, Africa, the Americas, and Oceania. Examines interactions among peoples of different societies including ancient Egypt and Nubia, India, classical Greece and Rome, the Islamic states, Han China, early Korea and Japan, and Andean and Mesoamerican societies. 3 lecture hours

HIS 113 World History Since 1500 3 credits
[not recommended for students who have taken HIS 102] Survey of world history from 1500 to the present, examining the development of societies in Asia, Europe, Africa, the Americas, and Oceania. Charts the development of individual societies in the Modern Age by focusing on interactions among diverse cultures and the driving forces of changes such as industrialization/technology, nationalism and colonization/decolonization. 3 lecture hours

HIS 122 American Sports History 3 credits
Examines sports' prominence in American life since the mid-19th century. Focuses on sports as a reflection of our social, political and economic make-up and on sports' ability to affect and shape our institutions. Particular attention is given to social class, race and ethnicity, gender, community, technology, and commercialization and the media. 3 lecture hours

HIS 207 American Constitutional History 3 credits
Study of the Constitution's place in American history with emphasis on presidential authority, judicial interpretation, constitutional crises, the evolution of Federalism, and the status of civil liberty, past and present. 3 lecture hours

HIS 210 History of American Popular Culture 3 credits
Explores social, economic, and political contexts through examination of the films, sports, television, music, print media, literature, and fads that shape, influence, and respond to cultural trends. 3 lecture hours

HIS 213 Twentieth-Century World History 3 credits
Corequisite: ENG 101
Study of world history from the age of imperialism through the modern era. Focuses on the World Wars, the Cold War, colonization and decolonization, political ideologies, genocides, gender, race and ethnicity, religion, class, technology, poverty, terrorism, cultural history, and other global issues. 3 lecture hours

</table>
HOS 109  Advanced Culinary Arts       3 credits
Prerequisites: HOS 101 and HOS 118 or equivalent proficiency
Comprehensive review of current culinary arts practices, including advanced professional culinary skills, recipes, techniques, and use of ingredients. Involves practice of a wide variety of classical and modern cooking techniques as well as basic and advanced sanitation measures in kitchen operations.
1 lecture / 4 laboratory hours

HOS 110  Breakfast / Pantry        2 credits
Prerequisites: HOS 101, HOS 118
Covers basic breakfast preparation, presentation, and merchandising techniques for some basic baked goods, breakfast proteins, as well as garnishes. Practical laboratory experience involves preparing and serving meals. Use, safety, care, and storage of hand tools – including cook’s and vegetable knives – are emphasized.
1 lecture / 3 laboratory hours

HOS 111  Culinary Math         1 credit
Prerequisite: MAT 037 (or MAT 037A and 037B)
Focus on key mathematic concepts related to culinary arts. Students demonstrate a working knowledge of topics including calculating yield percent, determining portion costs, periodic food costs, ‘selling price’ determinations, weights and measures, changing recipe yields, and converting between metric and U.S. measurements. 1 lecture hour

HOS 115  Food and Culture        3 credits
Applying a global perspective of the symbolic, social, political, and economic role of food in different cultures, examines the geographical and historical conditions that give rise to various regional cuisines. Lectures, demonstrations, and hands-on participation reveal how institutions and organizations influence food habits and beliefs.
2 lecture / 2 laboratory hours

HOS 116  Techniques of Healthy Cooking      3 credits
Prerequisites: HOS 101, HOS 118
Study of nutritional guidelines for selecting, preparing and cooking a wide variety of food products, including desserts. Cooking techniques include sautéing, roasting, steaming and grilling. Healthful menu planning applies “tricks of the trade” techniques to trim calories and fats. Chef whites required.
1 lecture / 4 laboratory hours

HOS 118  Sanitation and Safety in Food Service Operations    2 credits
Laws and principles governing safe food service, from purchasing, receiving, preparing, serving, and storing to re-heating food products. Prepares students to take the National Restaurant Association Education Foundation certification exam as part of the course.
2 lecture hours

HOS 120  Introduction to the Hospitality Industry     3 credits
Close-up view of the lodging, food service, travel and tourism fields, with introduction to hospitality management, marketing, guest services, hospitality law, human relations and allied hospitality fields.
3 lecture hours

HOS 123  Introduction to Travel and Tourism      3 credits
Develops skills in constructing itineraries; domestic and international ticketing; handling hotel, motel, and resort reservations; arranging cruises, tours, and car rentals; addressing customer and immigration issues. Emphasizes the responsibilities, professional behavior and ethics required for success.
3 lecture hours

HOS 185  Table Service
Corequisite: HOS 118
Focus on dining room operations including all aspects of service including dining room systems, merchandising, and customer service. Lab hours in the dining room, where students serve customers in one of the student-run restaurants, reinforce classroom discussion.
1 lecture / 3 laboratory hours

HOS 203  Hospitality Purchasing
Prerequisite: HOS 111
Accepted practices for receiving, storing and issuing food and nonfood products within the hospitality industry. Covers purchasing major equipment, small wares, tableware, textiles, and vendor services.
3 lecture hours
HOS 204  Hospitality Marketing        3 credits
Addresses marketing plans, market research, market segmentation, positioning, consumer behavior, advertising, promotion, pricing theory, and hospitality group sales. 3 lecture hours

HOS 208  Hospitality Law        3 credits
Introduction to hospitality law, its effect on hospitality management, and the legal principles that govern the hospitality industry. 3 lecture hours

HOS 210  Applied Kitchen Skills – Cafe        3 credits
Prerequisites: HOS 102, HOS 217
An advanced course in pantry and deli preparation and organization. Developing speed skills with quantity production while following industry guidelines for sanitation and safety, students demonstrate proper plate presentation, including seasonal production, in a dining room pantry. 1 lecture / 4 laboratory hours

HOS 217  Professional Baking I        3 credits
Prerequisite: MAT 037 (or MAT 037A and 037B)
Corequisite: HOS 111
Fundamental principles and procedures for preparing baked goods, pastries, and desserts. Promotes the understanding of baking formulas in bakeshop production planning and ability to produce high-quality items through the development of manual skills. Stresses the use of equipment and supplies in a safe and sanitary manner. Chef whites required. 1 lecture / 4 laboratory hours

HOS 218  Professional Baking II        3 credits
Prerequisites: HOS 111, HOS 118, HOS 217
Intermediate principles and procedures for preparing baked goods, specialty cakes, pastries and pies. Emphasizes producing quality items through the development of manual skills, knowledge of ingredients and proper use of advanced bakery formulas. Stresses use of high-quality ingredients, equipment, advanced manual skills, and safe and sanitary bakeshop practices. 1 lecture / 4 laboratory hours

HOS 219  Professional Baking III        2 credits
Prerequisites: HOS 118, HOS 217
Advanced principles and procedures for preparing baked goods, specialty cakes, pastries and pies, and other specialty desserts. Emphasizes producing high-quality items. 1 lecture / 3 laboratory hours

HOS 230  Experimental Kitchen        2 credits
Prerequisites: HOS 101, HOS 111, HOS 118
Covers tastes and flavors (sweet, salt, bitter, sour, and umami). Students explore culinary herbs and spices, salts, peppers, oils, vinegars, essences, fragrances, oleoresins, concentrates, freeze dried fruit and vegetable products, and other flavor carriers used in cooking and culinary research and development. Includes a hands-on lab application of techniques learned. 1 lecture / 3 laboratory hours

HOS 231  Meat, Poultry and Fish Fabrication        1 credit
Prerequisites: HOS 101, HOS 118
Addresses the fundamentals of purchasing specifications; receiving, handling, and storing meat and seafood; plus techniques for fabricating cuts for professional kitchens. 2 laboratory hours

HOS 235  American Regional Cuisine        2 credits
Prerequisite: HOS 109
Prepare, taste, serve, and evaluate traditional regional dishes of America. Study and practices emphasize ingredients, flavor profiles, preparations, and techniques representative of cuisines of the United States. 1 lecture / 3 laboratory hours

HOS 240  Classical Cuisine / Advanced International        2 credits
Prerequisite: HOS 109
Students demonstrate a working knowledge in their approach to flavor profiles by applying cooking methods practiced by each ethnic group visited. Traditional preparation and plate presentation is emphasized utilizing both classic and modern approaches. 1 lecture / 3 laboratory hours
HOS 245 Chocolates and Confections / Retail Bakeshop 3 credits  
Prerequisite: HOS 217  
The essentials for creating sculptures, forming simple centerpieces, and preparing chocolates and other confections with soft, hard, and liquid centers. Along with merchandising concepts, traditional and contemporary production practices are explored for products including pastillage, nougatine, and assorted sugar and chocolate decorative pieces. 1 lecture / 4 laboratory hours

HOS 246 Artisanal Breads 2 credits  
Prerequisites: HOS 218, HOS 219  
An in-depth study and practice of Artisan bread baking. Old World techniques are applied with an emphasis on levians, poolish, and sponge bread methods. 1 lecture / 3 laboratory hours

HOS 247 Restaurant Desserts 3 credits  
Prerequisite: HOS 218  
How to produce and merchandise restaurant-style desserts. Along with an emphasis on dessert menu planning, production techniques are practiced involving plate-up, garnish, and component style desserts. 1 lecture / 4 laboratory hours

HOS 249 Advanced Pastry 2 credits  
Prerequisite: HOS 218  
How to produce and merchandise restaurant-style desserts. Along with an emphasis on dessert menu planning, production techniques are practiced involving plate-up, garnish, and component style desserts. 1 lecture / 3 laboratory hours

HOS 255 Garde Manger 2 credits  
Prerequisites: HOS 101, HOS 118  
Addresses basic and advanced garde manger and charcuterie techniques such as the preparation and serving of hot and cold hors d'oeuvres, aspics, pates, mousses, terrines, and cold dishes along with advanced techniques for the planning and arrangement of buffets. Covers table arrangement and planning, creation of model nonedible food displays, as well as manipulation of specialized tools to produce decorative buffet items and showpieces such as ice sculptures, pastillage, marzipan, and fondant. 1 lecture / 3 laboratory hours

HOS 267 Event Planning 3 credits  
Corequisite: ACC 111  
Examines the various aspects required in planning and implementing meetings, expositions, conventions, and other events large and small. Along with methods and strategies for overall project management and organization, special emphasis addresses budgeting, promotion, and designing the event environment. 3 lecture hours

HOS 287 Hotel / Restaurant Management Internship 1 credit  
Prerequisites: minimum GPA of 2.0 or permission of program coordinator; eligibility usually limited to students who have completed their second semester or with permission of the HRIM coordinator  
Supervised field experience in the operation and management of various departments or functional areas at selected hotels, restaurants, and institutions. Focus on leadership skills, human relations development, service in the hospitality industry, and reducing turnover with teamwork. 240 internship hours

HOS 289 Culinary / Pastry Arts Internship 1 credit  
Prerequisites: minimum GPA of 2.0 or permission of program coordinator; eligibility usually limited to students who have completed their second semester or with permission of the HRIM coordinator  
Supervised field experience in the operation and management of various departments or functional areas at selected hotels, restaurants, and institutions. Focus on leadership skills, human relations development, service in the hospitality industry, and reducing turnover with teamwork. 400 internship hours

<td></td>
<td>Designed for any student interested in a career in the health professions. Provides an introduction to the educational pathways, roles, and responsibilities of health care providers, and an overview of a variety of health professions, plus opportunities to actually observe additional career options in the health care field.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>2 lecture hours</td>
<td></td>
</tr>
<tr>
<td>HPE 101</td>
<td>Basic Concepts of Nutrition</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Prerequisites: MAT 033 and ENG 024 or equivalent</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Study of the fundamental concepts of nutrition with emphasis on the relationships of nutrients to health. Topics include basic diet constituents, principles of body function, considerations for various age groups, dietary regulations, myths, food patterns, weight control, and food safety.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>3 lecture hours</td>
<td></td>
</tr>
<tr>
<td>HPE 105</td>
<td>First Aid, CPR and AED</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Prepares rescuers and lay responders with the knowledge and hands-on skills necessary to safely minimize the consequences of injury and illness and help sustain life in an emergency until medical help arrives. Successful candidates earn Basic Life Saving Healthcare Provider CPR/AED and Heartsaver First Aid Certifications through the American Heart Association.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>2 lecture / 2 laboratory hours</td>
<td></td>
</tr>
<tr>
<td>HPE 110</td>
<td>Concepts of Health and Fitness</td>
<td>2</td>
</tr>
<tr>
<td></td>
<td>Prerequisite: ENG 033 or equivalent</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Through lectures and laboratories, essential knowledge and skills in health and all dimensions of wellness are explored. Through self-assessments, students develop a wellness profile and program designed to achieve and/or maintain optimal lifelong health and wellness. Physical activity is required.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>1 lecture / 2 laboratory hours</td>
<td></td>
</tr>
<tr>
<td>HPE 111</td>
<td>Living with Health</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Prerequisite: ENG 034 or college-level proficiency in reading</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Through self-assessments and critical thinking, students optimize their physical, psychological, social, intellectual and environmental well-being. Topics include health determinants, disease, disability, consumer education, health literacy, infectious and chronic diseases, aging, diversity, immediate and long-term effects of lifestyle choices including fitness, diet, stress management, destructive behaviors, dependency, and sexuality.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>3 lecture hours</td>
<td></td>

</tbody>
</table>
HPE 171  Personal Fitness  1 credit
Assists in the development of a personal fitness program including weight and cardiovascular fitness equipment. Emphasizes strength, flexibility, cardiovascular, and weight control. A medical history is required; a physical exam may be required. Full-time students who complete this course may use the Fitness Center free of charge. 1 lecture hour

HPE 225  Beginning Tennis  1 credit
Introduces new players to the following strokes and grips: forehand, backhand, serve, volley, lob, and overhead smash. Additionally addresses rules, scoring, tennis etiquette, and tennis vocabulary. Utilization of videotapes, practice drills, and game situations develop skills. 2 laboratory hours

HPE 226  Intermediate and Advanced Tennis  1 credit
Prerequisite: HPE 225 or permission of instructor
For students who have received formal instruction (such as HPE 225), have played competitively, or who have been playing for two or three years and can rally consistently with an opponent. Skills presented include the slice, drop shot, half volley, drop volley, offensive lob, defensive lob, and slice serves. Additionally covers footwork and strategy. 2 laboratory hours

HPE 241  Applied Exercise Physiology  3 credits
Prerequisites: BIO 103, ENG 101
Addresses anatomical, biomechanical, and physiological effects of physical activity on the human body as well as methods of assessment and how to design and implement exercise programs for individuals and groups. Lab activities include practical applications of theoretical concepts. 2 lecture / 2 laboratory hours

HPE 242  Exercise Measurement and Prescription  3 credits
Prerequisites: BIO 103, BIO 104, HPE 241
Emphasizes development of the protocol knowledge and skills necessary for appropriate assessments and exercise prescriptions which cater to the physical fitness needs of generally healthy populations, those with medical protocol considerations, and athletic populations. 2 lecture / 3 laboratory hours

HPE 243  Exercise Science Field Experience  3 credits
Prerequisites: BIO 103, BIO 104, ENG 101, HPE 242
Provides essential experiences and networking opportunities in an exercise science setting suitable to student interests. Emphasizes career planning and the application of anatomy and physiology, basic nutrition, exercise measurements and prescription, exercise physiology, program management and promotion, and safety. Upon approval of their supervised setting, each student functions and contributes as a staff member for 225 hours.

HRA — HEATING, REFRIGERATION AND AIR CONDITIONING

HRA 101  Principles of Refrigeration / Air Conditioning I  2 credits
Corequisite: MAT 037 (or MAT 037A and 037B) or equivalent proficiency
Fundamental principles of pressure and temperature relationships, heat transfer, and heating and cooling concepts. Specific topics include leak detection, types of refrigerants, piping materials, and connections. [Fall offering] 1 lecture / 2 laboratory hours

HRA 102  Principles of Refrigeration / Air Conditioning II  2 credits
Prerequisite: HRA 101
Corequisite: EET 130 or equivalent
Fundamental operating principles of compressors, condensers, and evaporators. Specific topics include types of metering devices, general accessory configuration, and procedures for charging and evaluating systems. [Fall offering] 1 lecture / 2 laboratory hours

HRA 103  Refrigeration / Air Conditioning Electrical Controls  4 credits
Prerequisites: EET 130, HRA 102
Examines types and application of various electromechanical devices such as motors, contractors, overload devices, thermostats, controls, and relays as well as various types of test and metering equipment. 2 lecture / 4 laboratory hours
HRA 104  Domestic Heating and Air Conditioning Systems    4 credits  
Prerequisite: HRA 103  
Operating fundamentals for the diagnosis and repair of various domestic heating and cooling units including window and central units, refrigerators, freezers, gas furnaces, and heat pumps.  2 lecture / 4 laboratory hours

HRA 202  Light Commercial Systems I       2 credits  
Prerequisites: EET 130, HRA 103, HRA 104  
Corequisite: HRA 203  
Explores electrical and mechanical component configurations, including wiring and controls, for light commercial systems.  1 lecture / 2 laboratory hours

HRA 203  Light Commercial Systems II       2 credits  
Prerequisites: EET 130, HRA 104  
Corequisite: HRA 202  
Study of electromechanical light commercial system operation, diagnosis and repair, including piping configurations, defrost systems, pressure switches, and pressure regulators.  1 lecture / 2 laboratory hours

HRA 205  Heavy Commercial Systems       4 credits  
Prerequisite: HRA 104  
Operation, maintenance, diagnosis, and repair of heavy commercial systems including electrical controls, mechanical components, and electrical circuitry. [Fall offering]  1 lecture / 4 laboratory hours

IST — INFORMATION SYSTEMS TECHNOLOGY

Note: Students should consult their academic advisor and the college or university to which they intend to transfer regarding information technology course requirements. The receiving institution always makes the final decision concerning transferability of credits.

IST 033  Tech Studio         2 credits  
Prerequisite: instructor or advisor permission  
An introductory hands-on computer technology course for students who have had little or no exposure to computers. Topics include the basics of operating systems, the Internet, word processing, multi-media, the cloud, programming, and e-mail. Students develop file management skills and work with web-based applications.  1 lecture / 2 laboratory hours

IST 101  Computer Concepts with Applications     3 credits  
Prerequisite: ENG 033  
Corequisite: MAT 037 (or MAT 037A and 037B)  
Software Requirements: Office 2016 or Office 365 (free from MCCC), MyITLab, Alice (free from www.alice.org); Hardware Requirements: latest operating system for PCs, desktops, and Mac computers; Mac users may experience some compatibility issues with MyITLab Grader Projects  
Addresses computer literacy involving hardware, software (Microsoft Word, Excel, and PowerPoint as well as programming using object-oriented Alice software), networking, databases, information literacy, and ethical aspects of technology. Students learn to develop APA research papers based on current information technology topics. Lab time includes exposure to popular operating systems, web searching, and cloud-based software.  2 lecture / 2 laboratory hours

IST 102  Computer Concepts with Programming     3 credits  
Prerequisites: ENG 034; MAT 037 (or MAT 037A and 037B) or equivalent proficiency  
An introduction to computer literacy including a programming laboratory. Lectures cover the Internet; software; system components; peripherals; communications; databases; security, ethics, and privacy; programming languages; and enterprise computing. The laboratory covers forms, menus, decisions, loops, arrays, searching, the user interface, and database programming with Java.  2 lecture / 2 laboratory hours
IST 108  Introduction to Programming with Mobile Application Development  4 credits
Prerequisite: MAT 037 or MAT 042 or proficiency in basic algebra
Introduces computing and programming concepts, and explores mobile and web technologies. Topics include variables, decision-making, iteration, lists, functions, decomposition, event-driven programming, databases, client-server computing, web services, platforms, programming languages, animation, texting, and geolocation. Students learn by creating Android mobile applications using App Inventor, a visual programming language. 3 lecture / 2 laboratory hours

IST 109  Introduction to Programming  3 credits
Prerequisites: proficiency in basic algebra, MAT 037 (or MAT 037A and 037B)
Introduces fundamental programming structure, tools and documentation, including how to design interfaces and develop Task Object Event (TOE) and Object Properties and Settings charts, hierarchy charts, pseudocode, and flowcharts. Problem-solving techniques and program design using logic control structures of sequence, selection, iteration, arrays, and sequential files are emphasized in laboratory exercises using VB.NET. 2 lecture / 2 laboratory hours

IST 123  Programming in Visual Basic.NET  3 credits
Prerequisite: IST 109
Overview of Visual Basic.NET language to create event-driven programming applications to be run in a Windows environment. Develops object-oriented solutions for a variety of problems in personal and business computing. 2 lecture / 2 laboratory hours

IST 140  The Internet and Computer Technology  3 credits
Prerequisite: computer literacy
Introduction to Internet technology and the use of the World Wide Web as a tool. Topics include Internet and web history, client-server networks, web browsers, search engines and queries, multimedia, electronic commerce, social networking utilities, electronic mail, and computer security. Students design a web page using HTML. 2 lecture / 2 laboratory hours

IST 144  Website Development  4 credits
Introduces website development skills. Thorough examination of Hypertext Markup Language (HTML) includes navigations, tables, Cascading Style Sheets (CSS), images, audios, videos, and forms. Students learn the latest web design and development technologies including HTML5, CSS3, JavaScript, and jQuery. 3 lecture / 2 laboratory hours

IST 208  Android Application Development  4 credits
Prerequisite: COS 102 or equivalent
Teaches how to develop applications for Android devices using Java programming language along with the Android SDK. Students learn how to apply Java and object-oriented technology to mobile application development. Doing real projects within the Eclipse integrated development environment further advances practical programming knowledge and skills. 3 lecture / 2 laboratory hours

IST 209  Project Management Concepts  3 credits
Cultivates strategies to orchestrate carefully designed action plans to complete projects successfully, often incorporating complex, dynamic and changing requirements. Explores the management of technology, people, and change to achieve goals, reach targets, and deliver the project on time and within budget. 2 lecture / 2 laboratory hours

IST 218  iOS Application Development  4 credits
Prerequisite: COS 102 or equivalent
Introduces the tools and skills needed to create apps for iPhone and iPad. Students learn the Swift programming language and use it with Xcode to create apps on the iOS platform. 3 lecture / 2 laboratory hours
**IST 222  PL/SQL Programming** 3 credits
*Prerequisites: IST 123, IST 262*
Incorporates programming, problem solving, programming logic, and design techniques. Students acquire advanced programming skills such as accessing and updating data in a relational database and developing applications using PL/SQL. 2 lecture / 2 laboratory hours

**IST 244  Web Application Development** 4 credits
*Prerequisites: IST 108, IST 109, IST 144; or COS 101, COS 102; or DMA 145 or equivalent*
Introduction to server-side programming and database integration contributes to the creation of dynamic and interactive web applications. Primary programming languages and technologies covered include ASP.NET, C#, SQL Server, and MVC (Models, Views and Controllers) programming model. 3 lecture / 2 laboratory hours

**IST 250  Decision Support Using MS Excel** 4 credits
*Prerequisites: IST 102, IST 109, IST 123*
Techniques for building complete Excel-based decision support systems in a highly accessible manner. Topics include referencing and names, functions and formulas, charts, pivot tables, macros, programming structures, building user interfaces, and VBA for optimization and simulation. The extended functionality topics include statistical analysis, the Solver and modeling, simulation, and working with large datasets. 3 lecture / 2 laboratory hours

**IST 251  Management of Computer Technology** 3 credits
*Prerequisite: completion of 30 credits toward Information Systems or Information Technology degree program*
Explores solutions to the challenges facing a typical computer technology manager, including project life-cycles, security, access, end-user computing, project planning, scheduling, staffing, employee development, and external threats to private computers. 2 lecture / 2 laboratory hours

**IST 253  Database Concepts** 3 credits
*Prerequisite: IST 102 or IST 109*
Covers relational database technology and how to apply it in solving basic and advanced database problems and cases. Provides the foundation for the advanced study of individual database management systems, electronic commerce, and enterprise computing. 2 lecture / 2 laboratory hours

**IST 256  Systems Analysis** 3 credits
An introduction to systems analysis and design, including analyzing the business case, requirements modeling, and development strategies. Additionally covers output and user interface design, data design, systems architecture and implementation, and systems operation, support, and security. 2 lecture / 2 laboratory hours

**IST 259  Project Management** 4 credits
How to select, initiate, operate, and control all types of projects, including how to manage risks and uncertainties. Equips students with the quantitative skills, knowledge of organizational issues, and insights into human behavior that are needed for effective project management. 3 lecture / 2 laboratory hours

**IST 260  SQL Server Database Design** 4 credits
Covers user-defined functions and constraints, database methodologies including OLAP (Online Analytical Processing) and OLTP (Online Transaction Processing) issues, and SQL Server. Additionally covers the relational database model, normalization issues, and ensuring data integrity through the use of views, triggers, and stored procedures. 3 lecture / 2 laboratory hours

**IST 261  SQL Server System Administration** 4 credits
*Prerequisite: IST 260*
Covers the concepts and skills required for support of SQL Server and Microsoft Certified Database Administration (MCDBA) certification: backing up and restoring databases, setting up and managing users, managing database security, managing the replication environment, tuning the database system, and troubleshooting any problems that arise. 3 lecture / 2 laboratory hours

**IST 262  Oracle SQL** 4 credits
*Prerequisite: IST 109*
Introduces Oracle services, including writing SQL statements, creating databases, manipulating data and tables, working with log files, and performing general database administration. Assists students with preparing for series of examinations leading to the Oracle Certified Associate (OCA) Certificate. 3 lecture / 2 laboratory hours
IST 263  Database Administration I       4 credits
Prerequisite: IST 262
Addresses Oracle Database software installation along with new database creation and administration. Students configure the database to support an application, create users, define storage structures, set up security, design a backup and recovery strategy, and monitor the database to ensure its smooth operation. 3 lecture / 2 laboratory hours

IST 264  Database Administration II       4 credits
Prerequisite: IST 263
Combines training, experience, and testing to ensure a strong foundation and expertise in the industry’s most advanced database management system. Focus includes an Oracle database configuration for multilingual applications, the Oracle Recovery Management and Flashback technology, and database performance monitoring tools. 3 lecture / 2 laboratory hours

IST 265  Database Cloud Computing Concept      3 credits
Prerequisites: IST 109, IST 253
Corequisite: IST 262
Teaches database deployment using cloud platforms to program and administer databases in a variety of cloud computing scenarios while managing the platform for scalability, troubleshooting performance issues, and implementing strong security. 2 lecture / 2 laboratory hours

IST 298  Information Systems Cooperative Education     2 credits
Prerequisite: final course for degree in Information Technology
Integration of classroom study with specific planned period of learning through job experience. Based on individualized learning contract. 180 work experience hours

Note: Students who have taken two or more years of a foreign language, and have done so in the last two years, should begin that language at the 200 level or switch to a new language. If there is doubt, placement will be determined by testing or consultation with the academic division.

Humanities
ITA 101  Beginning Italian I        3 credits
The first in a sequence of courses designed for students with little or no prior knowledge of Italian. Spoken communication in Italian is both the end goal and the means of instruction. Emphasizes the four communicative skills in a culturally authentic context. Reading and writing are assigned out of class to facilitate effective listening and speaking practice in class. Basic grammar skills are also introduced. 3 lecture hours

Humanities
ITA 102  Beginning Italian II        3 credits
Prerequisite: ITA 101 with a minimum C grade or permission of instructor
The second in a sequence of courses designed for students with little or no prior knowledge of Italian. Spoken communication in Italian is both the end goal and the means of instruction. Emphasizes the four communicative skills in a culturally authentic context. Reading and writing are assigned out of class to facilitate effective listening and speaking practice in class. Basic grammar skills are also introduced. 3 lecture hours

Humanities
ITA 201  Intermediate Italian I        3 credits
Prerequisite: ITA 102 with a minimum C grade or permission of instructor
The first in a sequence of courses designed for students with a mid to high novice level of competency in Italian. Spoken communication in Italian continues to be the end goal and the means of instruction. The four communicative skills of reading, writing, listening and speaking are applied to discussions and debates involving Italian culture, politics, and history. Fundamental grammar points are reviewed. 3 lecture hours
**Humanities**

**ITA 202 Intermediate Italian II**  
3 credits  
*Prerequisite: ITA 201 with a minimum C grade or permission of instructor*  
The second in a sequence of courses designed for students with a mid to high novice level of competency in Italian. Spoken communication in Italian continues to be the end goal and the means of instruction. The four communicative skills of reading, writing, listening and speaking are applied to discussions and debates involving Italian culture, politics, and history. Fundamental grammar points are reviewed.  
*3 lecture hours*

---

**JPN — JAPANESE**

**Note:** Students who have taken two or more years of a foreign language, and have done so in the last two years, should begin that language at the 200 level or switch to a new language. If there is doubt, placement will be determined by testing or consultation with the academic division.

**Humanities**

**JPN 101 Beginning Japanese I**  
3 credits  
The first in a sequence of courses designed for students with little or no prior knowledge of Japanese. Spoken communication in Japanese is both the end goal and the means of instruction. Emphasizes the four communicative skills in a culturally authentic context. Reading and writing are assigned out of class to facilitate effective listening and speaking practice in class. Basic grammar skills are also introduced.  
*3 lecture hours*

---

**Humanities**

**JPN 102 Beginning Japanese II**  
3 credits  
*Prerequisite: JPN 101 with a minimum C grade or permission of instructor*  
The second in a sequence of courses designed for students with little or no prior knowledge of Japanese. Spoken communication in Japanese is both the end goal and the means of instruction. Emphasizes the four communicative skills in a culturally authentic context. Reading and writing are assigned out of class to facilitate effective listening and speaking practice in class. Basic grammar skills are also introduced.  
*3 lecture hours*

---

**LAS — LIBERAL ARTS STUDIES**

**LAS 101 Introduction to Liberal Arts Studies**  
1 credit  
Introduction to reading and inquiry in the social sciences and humanities. By exploring a common book-length reading, students build interdisciplinary knowledge and skill in critical reading and response, including discussion, interpretation, and writing. For first-year Liberal Arts majors needing one credit for full-time status; often paired with CSW 100.  
*1 lecture hour*

**LAS 201 Liberal Arts Special Topics**  
1 credit  
Investigation of a specialized liberal arts topic chosen by individual instructors, allowing students to delve into a focused interest. Recommended for second-year students who need one credit and wish to engage in close study. Upcoming topics available in the Liberal Arts Division office each semester before class registration begins.  
*1 lecture hour*
LAT — LATIN

Note: Students who have taken two or more years of a foreign language, and have done so in the last two years, should begin that language at the 200 level or switch to a new language. If there is doubt, placement will be determined by testing or consultation with the academic division.

**Humanities**

**LAT 101  Beginning Latin I**  
3 credits  
The first in a sequence of courses designed for students with little or no prior knowledge of Latin. Reading comprehension of literary and scholarly texts in Latin being the end goal, emphasizes the communicative skills of reading and writing based on culturally authentic texts. Grammar is thoroughly introduced and analyzed. Some spoken communication in Latin is practiced.  
3 lecture hours

**LAT 102  Beginning Latin II**  
Prerequisite: LAT 101 with a minimum C grade or permission of instructor  
The second in a sequence of courses designed for students with little or no prior knowledge of Latin. Reading comprehension of literary and scholarly texts in Latin being the end goal, emphasizes the communicative skills of reading and writing based on culturally authentic texts. Grammar is thoroughly introduced and analyzed. Some spoken communication in Latin is practiced.  
3 lecture hours

**LAT 201  Intermediate Latin I**  
Prerequisite: LAT 102 with a minimum C grade or permission of instructor  
Designed for students with a mid to high novice level of reading competency in classical Latin. Reading comprehension of literary and scholarly texts in Latin continues to be the end goal. With Latin being the language of instruction for at least half of class time, some conversation is practiced.  
3 lecture hours

LEG — LEGAL STUDIES

**LEG 129  Role of the Paralegal**  
3 credits  
Study of the relationship among paralegals, attorneys, and clients particularly as it relates to law office economics, legal ethics, and confidentiality. Stages in a civil lawsuit and a criminal prosecution are examined; legal interviewing, investigation, and an orientation to legal research are stressed.  
3 lecture hours

**LEG 130  Civil Litigation I**  
3 credits  
Study of the law of torts designed to acquaint the paralegal with the various forms of tort actions encountered in the law office.  
3 lecture hours

**LEG 132  Civil Litigation II**  
Prerequisite: ENG 101 with a minimum C grade  
Overview of the litigation process covering the pleadings of cases from initial complaint through ultimate judgment, with emphasis on tasks performed by paralegals. Addresses medical terminology and rules of evidence.  
3 lecture hours

**LEG 133  Legal Research and Writing**  
Prerequisite: ENG 101  
Study of basic skills often required in the general practice of law. Utilizing computer-assisted legal research, includes an introduction to several common kinds of legal writing with an emphasis on that which the paralegal encounters on a day-to-day basis in a law office.  
3 lecture hours

**LEG 143  Family Law**  
3 credits  
Survey of procedures and pleadings in domestic relations including the preparation of divorce complaints, answers, counterclaims, motions, disclosure statements, and property settlement agreements. Includes issues of custody, visitation rights, child support and maintenance, adoptions and name changes. [Spring offering]  
3 lecture hours
LEG 208  Wills and Probate  3 credits
Survey of basic wills and basic probate practice, including interviewing for and preparation of a will, procedures involved in probate, New Jersey state inheritance tax, and federal estate tax. [Fall offering]
3 lecture hours

LEG 232  Civil Litigation III  3 credits
Prerequisite: LEG 132 with a minimum C grade
Advanced litigation course stressing the preparation of a wide range of pleadings involved in a civil lawsuit. One-third of class time involves extensive practical litigation exercises and applications in a lab setting.
2 lecture / 2 laboratory hours

LEG 255  Legal Ethics  3 credits
Prerequisite: LEG 129
A legal technology enhanced capstone course with a focus on advanced legal research and writing. Covers legal ethics rules on professionalism, UPL, confidentiality, client funds, solicitation of cases, competence, and case conflicts. Applying CIRAC/IRAC analysis principles, students research the law and Model Rules and prepare an analysis of legal ethics issues. 3 lecture hours

LEG 256  Career Development for Law and Justice Professionals  1 credit
Students prepare essential documents for the job market correlating to their major (Criminal Justice A.S. degree or Paralegal Studies A.A.S.) including resumes, cover letters, and professional emails. Students learn networking skills, job search strategies, and interviewing techniques.
1 lecture hour

LEG 257  Law Office Management and Technology  3 credits
Prerequisite: LEG 129
Focus on the role of the law office manager and their ethical, administrative, and practical responsibilities. Exploration of various applications for legal technology in the law office. 3 lecture hours

LIB — LIBRARY TECHNOLOGY

LIB 101  The Library / Media Center: an Introduction  3 credits
Corequisite: ENG 101
Explores the range of materials and services available in libraries for lifelong learning along with the operation and organization of libraries and information centers. Provides practical experience in using basic resources and new technologies. 3 lecture hours

LIB 103  Introduction to Academic Research  1 credit
Prerequisite: eligibility for placement in ENG 101
Basic principles of scholarly research and inquiry. Focuses on information literacy skills needed for developing effective search processes and critical evaluation of academic resources, plus the ethical use of information. Students are introduced to multi-disciplinary resources including periodical databases, books, e-books, multimedia, reference sources, and web-based information. 1 lecture / 1 laboratory hours
Note: Students should check mathematics course recommendations with the college or university to which they intend to transfer. The receiving institution always makes the final decision concerning transferability of credits. Information about mathematics course equivalencies among New Jersey institutions is available at www.njtransfer.org

Initial selection of a mathematics course is determined by results of college skills placement testing. Students who have completed math courses at another college must present transcripts and course outlines or syllabi. Consult mathematics faculty for advice.

Applicability of credits for courses below the 100 level toward degree requirements is limited. Consult an academic advisor. All prerequisite courses must be passed with a minimum C grade before enrolling in any subsequent mathematics course.

| MAT 033  | Pre-Algebra                                | 4       | Developmental mathematics course designed for students needing a review of basic arithmetic, including an introduction to algebra. Topics include operations with whole numbers, decimals, fractions, percents, ratio and proportion, signed numbers, and an introduction to algebraic equations. [Foundation course does not fulfill mathematics elective requirement.]
|          |                                            |         | 4 lecture hours                                                                                                                                                                                                                                                                                                                          |
| MAT 037  | Beginning Algebra                          | 4       | Foundation mathematics course designed for students with experience in algebra but who need to strengthen their mastery of the fundamentals. Topics include linear equations, linear inequalities, absolute value equations, absolute value inequalities, exponents, polynomials, factoring, and quadratic equations. Those who complete this course may register for MAT 115, MAT 120, or MAT 125. [Foundation course does not fulfill mathematics elective requirement.]
|          |                                            |         | 4 lecture hours                                                                                                                                                                                                                                                                                                                          |
| MAT 038  | Intermediate Algebra for STEM              | 4       | Developmental mathematics course designed for students needing an introduction to intermediate algebra. Topics include graphing linear equations in two variables, systems of two linear equations, rational expressions and equations, radicals and rational exponents, and linear and quadratic functions. Those who complete this course with a grade of C or better may register for MAT 146. [Foundation course does not fulfill mathematics elective requirement.]
|          |                                            |         | 4 lecture hours                                                                                                                                                                                                                                                                                                                          |
| MAT 041  | Foundation Math I                          | 3       | Developmental mathematics course designed for students needing a review of basic arithmetic, including an introduction to algebra. Topics include whole numbers, fractions, decimals, percentages, and integer operations. Students work through the material in self-paced mastery-based modules in a lab setting. [Foundation course does not fulfill mathematics elective requirement.]
|          |                                            |         | 6 laboratory hours                                                                                                                                                                                                                                                                                                                        |
| MAT 042  | Foundation Math for Non-STEM               | 3       | Foundation mathematics course designed for students with experience in algebra but who need to strengthen their mastery of the fundamentals. Topics include linear equations, linear inequalities, absolute value equations, absolute value inequalities, exponents, polynomials, factoring, and quadratic equations. Those who complete this course may register for MAT 115, MAT 120, or MAT 125. [Foundation course does not fulfill mathematics elective requirement.]
|          |                                            |         | 6 laboratory hours                                                                                                                                                                                                                                                                                                                        |
| MAT 044  | Foundation Math for STEM                   | 3       | Developmental mathematics course designed for students needing an introduction to intermediate algebra. Topics include graphing linear equations in two variables, systems of two linear equations, rational expressions and equations, radicals and rational exponents, and linear and quadratic functions. Those who complete this course with a grade of C or better may register for MAT 146. [Foundation course does not fulfill mathematics elective requirement.]

<td></td>
<td>Prerequisite: MAT 151 or MAT 149 with a minimum C grade or permission of department. Calculus-based course designed for engineers, computer scientists and science majors. Topics include one variable data analysis, sample regression analysis, probability, discrete and continuous distributions, random samples, confidence intervals and hypothesis testing, contingency tables, as well as one factor and factorial experimental design.</td>
<td>4 lecture hours</td>
</tr>
<tr>
<td>MAT 205</td>
<td>Statistics for Social and Health Sciences II</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Prerequisites: MAT 200 with a minimum C grade or permission of department. Second-semester course in an academic year sequence for social sciences, humanities, nursing and related fields. Employs statistical software for studies of probability, inference for two parameters, inference for regression and correlation, analysis of variance, analysis of categorical data, and nonparametric statistics. [Spring offering]</td>
<td>3 lecture hours</td>
</tr>
</tbody>
</table>
### Mathematics

**MAT 208 Linear Algebra**

**Prerequisite:** MAT 151 with a minimum C grade and consultation with Mathematics faculty member

An introduction to linear algebra topics including linear equations and matrices, determinants, independence and basis, vector spaces and subspaces, the four fundamental subspaces, orthogonality, linear transformations and eigenvalues and eigenvectors. Applications of linear algebra are included. 4 lecture hours

**MAT 251 Calculus III**

**Prerequisite:** MAT 152 with a minimum C grade and consultation with Mathematics faculty member

Continuation of MAT 152. Includes parametric equations, vectors, solid analytic geometry, partial derivatives, multiple integrals, and topics in vector calculus including Green's theorem and Stoke's theorem. 4 lecture hours

**MAT 252 Differential Equations**

**Prerequisite:** MAT 152 with a minimum C grade and consultation with Mathematics faculty member

Topics include solutions of ordinary differential equations, solving linear differential equations of higher order using differential operators, methods of undetermined coefficients and variation of parameters. Strong emphasis on solving differential equations using the Laplace transform, Cauchy-Euler equation, infinite series, and matrix methods. Applications to geometry and physical science are discussed. 4 lecture hours

---

### MET — MECHANICAL ENGINEERING TECHNOLOGY

**MET 122 Industrial Measurements**

**Prerequisites:** completion of all developmental mathematics and English courses

Introduces measurement and dimensioning concepts used in industrial manufacturing environments. Topics include shop mathematics, shop safety practices, measuring devices, and a basic understanding of shop drawing techniques including geometric dimensioning and tolerancing (GD&T). Corresponding labs reinforce lectures with practical examples which follow NIMS certification requirements. 2 lecture / 3 laboratory hours

---

### MKT — MARKETING

**MKT 101 Principles of Marketing**

**Prerequisite:** ENG 101 with a minimum C grade

A study of the process of planning and executing the conception, pricing, promotion, and distribution of ideas, goods, and services that satisfy individual and organizational objectives. 3 lecture hours

**MKT 106 Introduction to Sports Marketing**

**Prerequisite:** ENG 101 with a minimum C grade

Exploration of the comprehensive nature of sports marketing from a strategic marketing perspective. Examination of basic and detailed concepts covers such areas as sponsorships, branding, promotions, public relations, licensing, and consumer research and behavior, including their effects on professional, intercollegiate and other areas of sport. 3 lecture hours

**MKT 230 Principles of Retailing**

**Prerequisite:** MKT 101

Introduction to the field of retailing. Issues include establishment of a store, store location, layout, organization and planning, buying, merchandising, promotion, credit, control and personnel. 3 lecture hours
MLT — MEDICAL LABORATORY TECHNOLOGY

Except as noted, enrollment in MLT courses is limited to students who have completed all basic skill requirements and who have received full acceptance into the professional phase of the program. The minimum passing grade for all MLT courses is C+.

MLT 112 Introduction to Medical Laboratory Technology 3 credits
Prerequisite: permission of program coordinator
Basic principles, techniques, and vocabulary applicable to medical laboratory technology. Topics include lab safety, specimen collection and transport, phlebotomy, urinalysis, immunology/serology, and computer technology as well as an overview of the four major laboratory disciplines of hematology/coagulation, immunohematology, chemistry, and microbiology. The laboratory component develops laboratory skills related to the lecture topics. 2 lecture / 3 laboratory hours

MLT 200 Clinical Chemistry 4 credits
Prerequisite: permission of program coordinator
Principles and theory of chemical analysis performed on clinical specimens. In-depth study examines specimen processing, analysis, test interpretation, and quality control procedures used in routine manual and automated clinical chemistry testing. Laboratory exercises involve bench techniques, dilutions, and test procedures. Group presentations highlight various chemistry analyzers. 3 lecture / 2 laboratory hours

MLT 207 Clinical Immunohematology 4 credits
Prerequisite: permission of program coordinator
Basic theory and concepts of antigen-antibody reactions as they pertain to blood cell transfusions. Blood group antigens and the genetics of their inheritance are examined along with principles of immunology. Methods are introduced for performing blood grouping, compatibility testing, and component selection. The laboratory component develops technical skills through hands-on experience in blood bank procedures. 3 lecture / 3 laboratory hours

MLT 212 Clinical Hematology 4 credits
Prerequisite: permission of program coordinator
Study of blood cells in bone marrow, peripheral blood, and body fluids. Normal and abnormal blood cell maturation, physiology, and morphology are examined along with coagulation, another branch of hematology, involving hemostasis (the stopping of blood flow). The laboratory component develops technical skills used to perform hematology and coagulation lab tests. 3 lecture / 3 laboratory hours

MLT 214 Clinical Microbiology 6 credits
Prerequisite: permission of program coordinator
Principles and methods used in diagnostic microbiology. Test procedures routinely applied in medical bacteriology, parasitology, mycology, and virology are covered with an emphasis on the isolation, identification, and antimicrobial susceptibility testing of pathogenic microorganisms. Immunologic and molecular methods used for infection agent identification are also covered. 5 lecture / 3 laboratory hours

MLT 215 Clinical Practice 10 credits
Prerequisites: MLT 112, MLT 200, MLT 207, MLT 212, MLT 214, or permission of program coordinator
Clinical practice at an affiliated facility under the direction and supervision of laboratory educators. Students conduct routine analytical procedures, develop laboratory skills, apply knowledge of testing principles, and demonstrate acquired laboratory competencies. Includes presentation of a laboratory case study correlating test results with clinical condition. 560 clinical hours

MOA — MEDICAL OFFICE ASSISTANT

MOA 101 Medical Ethics and Office Procedures 3 credits
Prerequisite: ENG 101
Focuses on administrative skills necessary for work in a medical office. Includes communicating with patients, telephone management, organizing and maintaining records, coordinating appointments, and legal and ethical issues. Students use medical management software for scheduling and records management. 3 lecture hours
MOA 103  Medical Billing and Coding Procedures  3 credits

Prerequisite: ENG 101
Extensive coverage of CPT and ICD-9-CM coding procedures. Students learn to abstract information from the patient record and combine it with reimbursement and coding guidelines to optimize physician payment.
2 lecture / 2 laboratory hours

---

MUS — MUSIC

Appreciation and History

Humanities

MUS 103  Introduction to Music  3 credits
Enhances the student’s knowledge and enjoyment of a variety of music styles and historical contexts through listening and discussion. Requires attendance at live concerts. No prior musical training necessary.
3 lecture hours

Humanities / Diversity and Global Perspective

MUS 155  History of Jazz and Blues  3 credits
Study of the evolution of jazz and blues from their origins in West African music and dance to their development as major 20th century art forms. Examines the significant stylistic phases of jazz from early blues and ragtime through swing and be-bop to avant garde and fusion. Also explores the impact of the African American tradition on contemporary rock and pop music.
3 lecture hours

Humanities / Diversity and Global Perspective

MUS 156  History of American Pop Music  3 credits
Analytical and historical survey of American popular music with an emphasis on the period from 1950 to the present. Students develop an understanding of the cultural, social, technological, and musical forces shaping each decade covered. Students apply critical analysis to musical styles, instrumentation, and song structure in addition to issues of race, ethnicity, social class, and gender as formative factors influencing its evolution.
3 lecture hours

Humanities

MUS 224  Music History and Literature I – Antiquity Through Baroque  3 credits
Prerequisites: MUS 103 and MUS 105 or equivalent experience
Study of the evolution of Western European music from its ideological and practical origins in ancient Greece and Rome through the Medieval, Renaissance, and Baroque periods, in the context of sociohistorical forces and events affecting its development. Basic music theory background desirable.
3 lecture hours

Humanities

MUS 225  Music History and Literature II – Baroque Through Modern  3 credits
Prerequisites: MUS 103 and MUS 105 or equivalent experience
Continued study of the evolution of Western European music from the classical period, with its roots in the Enlightenment and culmination in Romanticism, through its variegated manifestations in the 20th century. Basic music theory background desirable.
3 lecture hours

Music Theory

MUS 105  Fundamentals of Music Theory  3 credits
Offers the student with no prior musical training an introduction to the basics of music theory. Topics include notation of pitch and rhythm, scale structure, key signatures in major and minor keys, plus chord construction and voice leading. [Fall offering]
2 lecture / 2 laboratory hours
MUS 127  Music Theory I         3 credits
Prerequisite: MUS 105 or permission of department
Corequisite: MUS 167
Topics include more advanced chord construction, figured bass, harmonic analysis, the principles and procedures of four-part writing emphasizing the primary triads and their inversions, as well as non-harmonic tones. Reinforced through ear training and sight singing. [Spring offering] 2 lecture / 2 laboratory hours

MUS 128  Music Theory II        3 credits
Prerequisite: MUS 127
Corequisite: MUS 168
Completion of the diatonic system. Harmonic principles and procedures introduced in MUS 127 are expanded to include application to the supertonic, leading tone, mediant and submediant harmonies in both triad and seventh chord form. Introduces more advanced part-writing, as well as harmonic and structural analysis of 18th and 19th century repertoire. Reinforced through aural skills training and keyboard harmony. [Fall offering] 2 lecture / 2 laboratory hours

MUS 167  Musicianship I         1 credit
Corequisite: MUS 127
Progressive exercises in sight singing, ear training in the form of melodic, rhythmic and harmonic dictation, as well as the practice of keyboard harmony. Emphasis on diatonic materials and the primary triads. Coordinated with conceptual materials presented in MUS 127. 2 laboratory hours

MUS 168  Musicianship II         1 credit
Prerequisites: MUS 127, MUS 167
Corequisite: MUS 128
Continuation of studies begun in MUS 167 with more advanced exercises in sight singing, ear training and keyboard harmony as well as expanded use of the diatonic system including all diatonic triads. Coordinated with conceptual materials presented in MUS 128. 2 laboratory hours

MUS 227  Music Theory III        3 credits
Prerequisite: MUS 128
Corequisite: MUS 267
Study of chromatic harmony especially as used in modulation. Students recognize and compose harmonic progressions involving secondary dominants, diminished seventh chords, as well as altered and borrowed chords, correlated with exercises in ear training, sight-singing, and keyboard harmony. Also includes harmonic and formal analysis of 18th and 19th century repertoire. [Spring offering] 2 lecture / 2 laboratory hours

MUS 267  Musicianship III         1 credit
Prerequisites: MUS 128, MUS 168
Corequisite: MUS 227
Further studies in sight singing, ear training, and keyboard harmony building upon skills acquired in MUS 167 and MUS 168. Introduces chromatic materials including modulation to the dominant and to the relative major and minor. Coordinated with conceptual materials presented in MUS 227. 2 laboratory hours

Piano Class

MUS 121  Piano Class I         1 credit
Fundamentals of piano playing, covers music reading, chords, various accompaniment styles, coordination of both hands, and sight-reading skills. Group instruction is given via an electro-piano lab. College pianos are available for practice. No prior piano instruction necessary. 2 laboratory hours

MUS 122  Piano Class II         1 credit
Prerequisite: MUS 121
Continuation of playing skills and activities initiated in MUS 121. 2 laboratory hours

MUS 221  Piano Class III         1 credit
Prerequisite: MUS 122
Continuation of MUS 122. Explores various periods of keyboard literature as well as increasingly difficult technical skills, sight reading, and transposing. 2 laboratory hours
**MUS 222** Piano Class IV  
*Prerequisite: MUS 221*  
Continuation of MUS 221. **2 laboratory hours**

---

**Guitar Class**

**MUS 142** Guitar Class I  
Opportunity to learn to play the guitar; no previous experience necessary. Covers basic chords, song accompaniment, music reading, and pertinent music forms. Some acoustic guitars are available for student use in class. **1 lecture / 1 laboratory hour**

---

**College Chorus**

- **MUS 174** Chorus I  
- **MUS 175** Chorus II  
- **MUS 274** Chorus III  
- **MUS 275** Chorus IV  

Opportunity to sing choral repertoire in a variety of genres from all periods of music history. Rehearsals culminate in one or two public performances each semester. Some prior singing experience required. **3 class hours**

---

**Chamber Ensemble**

- **MUS 170** Chamber Ensemble I  
- **MUS 171** Chamber Ensemble II  
- **MUS 270** Chamber Ensemble III  
- **MUS 271** Chamber Ensemble IV  

Opportunity to explore, through rehearsal and performance, traditional chamber music repertoire drawn from a variety of historical periods. The student is trained in the proper phrasing, articulation, and dynamics specific to each style. Open to players of all appropriate instruments. **3 class hours**

---

**Orchestra**

- **MUS 182** Orchestra I  
- **MUS 183** Orchestra II  
- **MUS 282** Orchestra III  
- **MUS 283** Orchestra IV  

*Prerequisite: prior orchestral instrument playing experience*  
Opportunity to explore, through rehearsal and performance, orchestral repertoire from a variety of historical periods. The student is trained in proper phrasing, articulation, and dynamics as well as learning how to play within a large group. Course culminates in a final public concert performance. **3 class hours**

---

**Individual Instruction**

- **MUS 109** Applied Music I  
- **MUS 110** Applied Music II  
- **MUS 209** Applied Music III  
- **MUS 210** Applied Music IV  

Private lessons on keyboard, voice, or band/orchestral instrument with a member of the artist-teacher staff. Special fee required. **one-half hour per week**

---

**Jazz Studies**

- **MUS 178** Jazz Band I  

*Prerequisites: ability to play a jazz band instrument and to read music notation*  
- **MUS 179** Jazz Band II  
- **MUS 278** Jazz Band III  

*Prerequisite: MUS 120 with a minimum C grade*
MUS 279  Jazz Band IV  
1 credit

Prerequisite: MUS 219 with a minimum C grade
Opportunity to explore classic jazz literature through rehearsal and performance. Repertoire is selected from standards of the swing era, to be-bop, to contemporary funk and fusion with an emphasis on proper articulation, groove, and dynamics specific to each style. 3 class hours

MUS 151  Jazz Improvisation I – Blues  
2 credits

Prerequisites: ability to play an instrument and to read musical notation
(MUS 151 and MUS 152 need not be taken in sequence.)
Introductory-level course emphasizing use of the Mixolydian mode and the blues scale as applied to the dominant 7th family chords. Explores the twelve-bar blues and related forms as vehicles for improvisation with an emphasis on swing and funk rhythms. 1 lecture / 2 laboratory hours

MUS 152  Jazz Improvisation II – Modal  
2 credits

Prerequisites: ability to play an instrument and to read musical notation
(MUS 152 may be taken before MUS 151.)
Introductory-level course presenting the conceptual and practical rudiments of the jazz language by focusing on two modes, Ionian and Dorian, as they apply to the major and minor families of chords, respectively. Emphasizes Latino idioms and rhythms. 1 lecture / 2 laboratory hours

MUS 223  Jazz Keyboard Harmony and Improvisation  
1 credit

Prerequisite: MUS 221
Introductory course presenting the fundamentals of jazz harmony, chord progressions, scales, and tools for improvisation at the keyboard. 2 laboratory hours

Music Production and Business

MUS 123  Music Business  
3 credits

Overview of the music industry including copyright law, publishing, contracts, management, licensing, and merchandising. Students gain an overall understanding of the people, technologies, and laws that affect all aspects of the music business, culminating in a discussion of career opportunities. 3 lecture hours

MUS 235  Music Composition in the Virtual Studio  
3 credits

Prerequisites: CMN 253, MUS 127
Strategies for writing, recording, and producing music in the context of an integrated MIDI/digital audio production environment. Topics include MIDI data entry, recording live sound sources, editing, plug-ins, mixing, mastering, digital music production, and generating .wav and .mp3 files. Assignments include creative projects and listening/discussion of relevant “popular” and “art” music. 2 lecture / 2 laboratory hours

Advanced Studies

MUS 285  Special Studies in Instrumental Music  
3 credits

MUS 286  Special Studies in Choral/Vocal Music  
3 credits

Prerequisites: MUS 128 and MUS 204 and/or permission of music faculty
Opportunity for students who have completed regular course offerings to continue their studies at advanced levels. Individual students and faculty develop a project contract that sets forth objectives, standards of quality, evaluation guidelines, and deadlines. [occasional offering] 3 lecture hours
NET — NETWORKING TECHNOLOGY

Note: Students should consult their academic advisor and the college or university to which they intend to transfer regarding networking technology course requirements. The receiving institution always makes the final decision concerning transferability of credits.

**NET 102**  Introduction to PC Hardware and Software  3 credits
Students learn to install, configure, diagnose, and troubleshoot microcomputer hardware components and various operating systems. Includes an introduction to local area networks, the identification and installation of memory, preventative maintenance, plus coverage of terminology and concepts that will assist students preparing for the A+ Certification exams. 2 lecture / 3 laboratory hours

**NET 103**  IT Essentials  3 credits
*Prerequisite: basic computer literacy*
A continuation of NET 102. Students learn advanced concepts regarding the installation, configuration, diagnosis, and troubleshooting of microcomputer hardware components and operating systems. Includes coverage of terminology and concepts that will assist students preparing for the Server+ Certification exam. 2 lecture / 3 laboratory hours

**NET 104**  Fundamentals of Computer Networks  3 credits
*Prerequisite: basic computer literacy*
Fundamentals of data communications theory, network management, connectivity, the OSI model, and internetworking protocols and standards. Covers topologies, architectures, operating systems, security, LAN/WAN components, modern implementation, LAN troubleshooting and support resources, fault tolerance, network adapters, and client-server environments. Assists students preparing for the Network+ Certification exam. 2 lecture / 2 laboratory hours

**NET 120**  Windows Desktop Operating System Administration  3 credits
*Prerequisite: basic computer literacy*
Students learn to install the Windows desktop OS; create users/groups; administer file/print resources; manage hardware; optimize performance and reliability; configure desktops using control panel, registry, system policies; and configure network protocols and services. Covers resource auditing, data storage management, network monitoring, and security, plus introduction to DNS and Active Directory. Hands-on exercises reinforce Microsoft certification exam objectives. 2 lecture / 2 laboratory hours

**NET 122**  Windows Server Operating System Administration  3 credits
*Prerequisites: NET 102 or A+ Certification; NET 120 or permission of program coordinator*
Students learn to install and configure the Windows server network OS, including overall administration, advanced file system concerns, and active directory services. Covers routing, remote access, network security, fault tolerance, and server and network resource optimization. Introduces application servers and troubleshooting in a network environment. Hands-on exercises reinforce Microsoft certification exam objectives. 2 lecture / 2 laboratory hours

**NET 124**  Network Infrastructure Administration  3 credits
*Prerequisite: NET 122*
Windows-based focus includes implementing TCP/IP for cross-platform and Internet connectivity, WINS and DNS to resolve hosts on local and remote networks, DHCP to manage address configuration, RAS including dial-up connectivity and virtual private networks, and Internet connection sharing with NAT. Covers securing network communications with certificates, IP security, authentication, and encryption. Hands-on exercises reinforce Microsoft certification exam objectives. 2 lecture / 2 laboratory hours

**NET 126**  Network Directory Services Administration  3 credits
*Prerequisite: NET 122*
Students plan, configure, and administer a directory services infrastructure. Includes DNS configuration, administering user environments with group policy, remote OS deployment using RIS, and centrally managing users, groups, shared folders, and network resources. Covers implementing and troubleshooting security as well as monitoring and optimizing directory services performance. Hands-on exercises reinforce Microsoft certification exam objectives. 2 lecture / 2 laboratory hours
NET 130  Routing and Switching Essentials      3 credits
Prerequisite: NET 104 or Network+ Certification
Study of the concepts and commands required to configure switches and routers in multi-protocol internetworks. Identifies solutions for small to medium-sized businesses, with procedures to configure multi-router, multigroup internetworks using LAN/WAN interfaces for common routed protocols. Also covers installation, configuration, and troubleshooting essentials required by technicians to install and maintain these devices. Hands-on exercises reinforce Cisco certification exam objectives. 2 lecture / 2 laboratory hours

NET 212  Linux          3 credits
Prerequisites: NET 102 or A+ Certification; NET 104 or Network+ Certification
Study of current hardware and software components of two operating system environments: Linux and AS/400. Major concentration is on Linux with an introduction to AS/400. Hands-on lab projects reinforce selected Linux lecture topics. 2 lecture / 2 laboratory hours

NET 230  Scaling Networks        3 credits
Prerequisite: NET 130
Study of the concepts and commands required to use routing and switching technologies together, including recommended campus network design methodologies. Topics include Layer 2 switching technologies including Spanning Tree, VLAN, frame tagging, and protocols; and Layer 3 routing services including inter-VLAN routing, multilayer switching, Hot Standby Routing Protocol (HSRP), and IP multicast. Hands-on exercises reinforce Cisco certification exam objectives. 2 lecture / 2 laboratory hours

NET 239  Connecting Networks        3 credits
Prerequisite: NET 130
Covers the technology and terminology required to use routing and switching technologies together in a wide area network (WAN) infrastructure, including advanced IP addressing techniques, NAT, PAT, DHCP, PPP, ISDN, DDR, frame relay, and an introduction to optical networking. Hands-on exercises reinforce Cisco certification exam objectives. 2 lecture / 2 laboratory hours

NET 240  Network Security        3 credits
Prerequisite or Corequisite: NET 130; NET 244 recommended
Explores security design considerations for enterprise networks through the evaluation of existing and planned technical environments, including identifying security risks and defining security baselines. Topics include controlling resource access using various security techniques. Hands-on exercises reinforce certification exam objectives. 2 lecture / 2 laboratory hours

NET 244  Network Defense and Countermeasures     3 credits
Prerequisite: NET 104 or Network+ Certification
Examines current risks and threats combined with structured safeguarding of an organization’s critical electronic assets. Provides a foundation for those new to information security as well as those responsible for protecting network services, devices, traffic, and data. Broad-based, in-depth coverage prepares students for further study in other specialized security fields. Hands-on activities reinforce certification exam objectives. 2 lecture / 2 laboratory hours

NET 245  Ethical Hacking        3 credits
Prerequisites: NET 102, NET 104
Combines an ethical hacking methodology with the hands-on application of security tools to better help students secure their systems. Students are introduced to common countermeasures that effectively reduce and/or mitigate attacks, including penetration testing, reconnaissance/open source intelligence gathering, scanning, enumeration, exploitation, and post-exploitation. Hands-on activities reinforce certification exam objectives. 2 lecture / 2 laboratory hours

<tr>
<td>NRS 111</td>
<td>Clinical Reasoning in Nursing Practice</td>
<td>1</td>
<td>formal admission into the Nursing program or current NJ Licensed Practical Nurse (LPN) license</td>
<td>NRS 112 or current LPN license</td>
<td>Introduces the skill of clinical reasoning as it applies to nursing practice and clinical decision-making. Clinical reasoning builds on the skills of critical thinking to move the student to engaged, practical reasoning that complements the scientific reasoning represented in the nursing process. This course introduces critical thinking skills and strategies and forms the basis for the clinical reasoning processes applied throughout all nursing courses. 1 lecture hour</td>
</tr>
<tr>
<td>NRS 112</td>
<td>Concepts of Nursing Practice I</td>
<td>6</td>
<td>formal admission into the Nursing program</td>
<td>NRS 111</td>
<td>Introduces the student to the fundamental concepts of nursing practice and the application of the concepts with a focus on wellness and health promotion across the lifespan. The application of knowledge and skills occurs in the nursing laboratories and a variety of clinical settings. 3 lecture / 3 college laboratory / 6 clinical hours</td>
</tr>
<tr>
<td>NRS 125</td>
<td>Concepts of Nursing Practice II</td>
<td>8</td>
<td>BIO 104 with a minimum C+ grade, NRS 111, NRS 112</td>
<td>Builds on the first semester courses to further refine the concepts of nursing practice with application to the care of diverse clients with uncomplicated acute and chronic conditions across the lifespan. Application of knowledge and skills occurs in the nursing laboratories and a variety of clinical settings. 3 lecture / 3 college laboratory / 12 clinical hours</td>

**NSG — NURSING: COOPERATIVE PROGRAM**

All NSG courses are based with and taught at St. Francis Medical Center School of Nursing.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
<th>Prerequisites</th>
<th>Corequisites</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>NSG 131</td>
<td>Concepts of Nursing I</td>
<td>6</td>
<td>BIO 103, PSY 101</td>
<td></td>
<td>Introduction to concepts and procedures of nursing practice. Fundamental skills are developed and applied within the framework of the nursing process to meet the physiological, social, and psychological needs of clients. Clinical experiences focus on alterations in health of the adult client with acute and chronic medical-surgical conditions. 60 theory / 120 clinical hours</td>
</tr>
<tr>
<td>NSG 133</td>
<td>Concepts of Nursing III</td>
<td>3</td>
<td>BIO 104, NSG 134, NSG 135, PSY 207</td>
<td></td>
<td>Assists students in the use of the nursing process when caring for the client experiencing mental health problems. Emphasizes client care during all phases of mental health disorders, from prevention through rehabilitation. Explores concepts of groups. Provides experiences in a variety of mental health settings. 30 lecture / 60 clinical hours</td>
</tr>
</tbody>
</table>
NSG 135  Concepts of Nursing II        7 credits
Prerequisite: NSG 131 with a minimum C grade
Corequisite: BIO 104 or NSG 134
Prepares students to use the nursing process in caring for clients experiencing common physiological
alterations. Introduces concepts of leadership and management. Builds on previous learning to develop
additional skills. Provides clinical experience in a variety of settings. 60 theory / 180 clinical hours

NSG 136  LPN Transition: Nursing Through the Life Span        9 credits
Prerequisites: BIO 103, BIO 104, ENG 101, PSY 101, PSY 207, NSG 137, NUR 151
Corequisite: BIO 201
Designed to assist in the transition from licensed practical nurse to registered nurse. Building on previous
learning while introducing new knowledge and skills that pertain to the registered nurse role, prepares for the
final two nursing courses in the curriculum. Emphasizes use of the nursing process in meeting the self-care
deficits of clients and families through the life span. 5 lecture / 180 clinical hours

NSG 137  Physical Assessment        3 credits
Prerequisite: formal admission into the Nursing program
Corequisites: BIO 103, PSY 101
Provides the knowledge and skills necessary to perform a comprehensive adult health assessment. Through
discussion as well as laboratory and individual practice, all body systems are assessed. Emphasizes
interviewing, obtaining a complete health history, performing a physical assessment, and systematic
documentation of findings. 2 lecture / 2 laboratory hours

NSG 232  Advanced Medical Surgical Nursing        9 credits
Prerequisites: BIO 201, ENG 101, NSG 133, PSY 207
Develops knowledge and skills to care for clients – individuals and groups – with multiple needs requiring
complex interventions. Explores complex client problems, resulting in alteration of homeostatic mechanisms.
Expands leadership and management skills. Clinical learning experiences are provided in a variety of settings
including critical care areas. 6 lecture / 180 clinical hours

NSG 234  Concepts of Nursing IV        9 credits
Prerequisites: ENG 101, NSG 133, PSY 207
Corequisite: BIO 201
Prepares the student to use the nursing process in caring for clients across the life span. Emphasizes health
promotion, illness prevention, and rehabilitation. Further explores the concept of leadership and management.
Offers learning experiences in a variety of settings including pediatric facilities. 5 lecture / 180 clinical hours

NUR 151  Pharmacology in Nursing        3 credits
Prerequisite: Nursing program first year completion, or permission of instructor
Theoretical approach to pharmacology, expanding basic concepts of drug knowledge required to administer
medication safely. Emphasizes pharmacology as an integrated science requiring up-to-date information
consistent with current nursing responsibilities, technology, and practice. Drug therapies affecting body
systems are a major consideration. 3 lecture hours

NUR 215  Precepted Clinical Experience        2 credits
Prerequisites: Nursing program first year completion, and externship acceptance
Supervised clinical experience in conjunction with externship at an approved local healthcare facility. Designed
to strengthen and broaden the competencies of second-year nursing students and enhance their knowledge of
the role of the RN. Participants must be accepted into the facility’s externship program. Includes periodic on-
campus seminars. 0.5 seminar hours / 40 clinical days

<tbody>
<tr>
<td>OHT 101</td>
<td>Plant Science</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Introduction to the field of plant science. Topics include basic botany and plant physiology; plant growth, leaves, roots, fruits, stems, and flowers; cells; plant reproduction; genetics; and the plant kingdoms. [Fall offering] 2 lecture / 2 laboratory hours</td>
<td></td>
</tr>
<tr>
<td>OHT 102</td>
<td>Ornamental Horticulture</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Examines plant propagation, plant pests, landscape establishment and maintenance, greenhouse management, principles of landscape design, and fruit and vegetable production. [May be taken independently of OHT 101.] [Spring offering] 2 lecture / 2 laboratory hours</td>
<td></td>
</tr>
<tr>
<td>OHT 108</td>
<td>Soil and Plant Nutrition</td>
<td>4</td>
</tr>
<tr>
<td></td>
<td>Prerequisite: CHE 100 or equivalent with a minimum C grade or permission of program coordinator</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Explores the origins, composition, and properties of soils. Addresses physical and chemical properties including ion exchange and pH effects, soil organic matter, soil-water relationships, the nature of and reasons for soil nutrient deficiencies, composition, and the use of fertilizers and other soil adjuvants. Lab work involves representative New Jersey soils to illustrate basic soil behavior. [Spring offering] 3 lecture / 3 laboratory hours</td>
<td></td>
</tr>
<tr>
<td>OHT 121</td>
<td>Herbaceous Plants</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Prerequisite: BIO 101 or OHT 101 with a minimum C grade or permission of program coordinator</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Study of cultivated, ornamental herbaceous plant species including annuals, perennials, bulbs, herbs, and grasses. Emphasizes identification, use, color, height, and season of bloom. Special topics include planning a herbaceous garden, insect pests, diseases, and propagation. [Fall offering] 2 lecture / 2 laboratory hours</td>
<td></td>
</tr>
<tr>
<td>OHT 201</td>
<td>Basic Landscaping and Planning I</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Prerequisites: OHT 201 with a minimum C grade</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Principles and technology of landscape design. Covers the practical and aesthetic aspects of planning the residential landscape, involving both materials and methods. Emphasizes design and graphics skills. [Fall offering] 2 lecture / 3 laboratory hours</td>
<td></td>
</tr>
<tr>
<td>OHT 202</td>
<td>Basic Landscaping and Planning II</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Prerequisite: OHT 201 with a minimum C grade</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Continuation of OHT 201. Emphasizes practical projects for residential areas and public common spaces. [Spring offering] 2 lecture / 3 laboratory hours</td>
<td></td>
</tr>
<tr>
<td>OHT 204</td>
<td>Plant Diseases</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Prerequisite: OHT 101 or permission of program coordinator</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Introduction to the history, economic importance, symptoms, causal agents and management of plant diseases. Lab exercises include the isolation, culture, and identification of plant pathogens. [Fall offering] 2 lecture / 2 laboratory hours</td>
<td></td>
</tr>
<tr>
<td>OHT 207</td>
<td>Floral Design I</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Basic principles and elements of design as applied to floral arranging. Emphasizes the primary types of arrangements, flower and greens identification, history of floral design, and an introduction to the floral industry. [Fall offering] 2 lecture / 2 laboratory hours</td>
<td></td>
</tr>
<tr>
<td>OHT 212</td>
<td>Landscape Construction</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Prerequisite: OHT 102 or permission of program coordinator</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Introduces students to the implementation and maintenance of landscape projects. Dominant areas of study include bidding and estimating; hardscape installation and maintenance; and advanced landscaping skills and techniques. Advanced skills covered include lighting, drainage, irrigation, planting and pruning. 2 lecture / 2 laboratory hours</td>
<td></td>
</tr>
</tbody>
</table>
OHT 214  Floral Design II         3 credits
Prerequisite: OHT 207 or permission of program coordinator
Emphasis on the commercial rate of production and pricing for corsage, funeral, and bridal work. Includes complete study of floral decorations for formal and informal occasions; advanced color theory and use of textures in designs; creative thinking with designs and containers; and further exploration of the floral industry. [Spring offering] 2 lecture / 2 laboratory hours

OHT 219  Plant Propagation        3 credits
Prerequisite: OHT 101 or permission of program coordinator
Principles and techniques involved in the selection, propagation, and growth of garden flowers, greenhouse crops, woody plants, turfgrass, and plants for interior landscape. [Fall offering] 2 lecture / 2 laboratory hours

OHT 223  Topics in Horticulture: Gardening      1 credit
Explores topics in gardening, including triumphs and pitfalls of growing annuals, perennials, bulbs, fruits, vegetables and woody plants. Involves fieldwork. [Summer offering] 2 laboratory hours

OHT 224  Topics in Horticulture: Landscaping      1 credit
Prerequisite: OHT 201
Application of computer programs to enhance design presentation skills. [occasional offering] 2 laboratory hours

OHT 226  Interior Landscape Design       3 credits
Prerequisite: OHT 101 or OHT 102 or permission of program coordinator
Emphasizes the key ornamental aspects, cultural requirements, and uses of each species covered. Specific topics include indoor landscaping, propagation, terrariums, and environmental requirements. Involves both taxonomic and common nomenclature. [Spring offering] 2 lecture / 2 laboratory hours

OHT 231  Turfgrass Management I       3 credits
Prerequisite: OHT 101 or OHT 102 or permission of program coordinator
How to establish and maintain turfgrass for residential and commercial applications. Includes identification and use of cultivars, seeding and sodding, insects and pests, fertilization, and irrigation methods. [Spring offering] 2 lecture / 2 laboratory hours

OHT 232  Nursery Management I        3 credits
Prerequisite: OHT 101 or OHT 102 or permission of program coordinator
Examines nursery operations and mechanics. Topics include planting and transplanting trees and shrubs, fertilization, pest control, irrigation, pruning, propagation techniques, business operations, and employee management. Lab exercises and a field study of local businesses reinforce material. [Spring offering] 2 lecture / 2 laboratory hours

OHT 241  Equipment and Integrated Pest Management       3 credits
Prerequisite: OHT 102 or permission of program coordinator
Review of the equipment and procedures used in horticultural settings with an emphasis on pest management. Topics include theories of and strategies for integrated pest management, pest identification, application of pesticides, calibration of equipment, and equipment operation. [Spring offering] 2 lecture / 2 laboratory hours

OHT 291  Ornamental Horticulture Cooperative Education I    3 credits
Required capstone experience for Ornamental Horticulture degree and certificate candidates. In approved positions related to their specializations, students work for cooperating employers. Includes performance reviews by faculty observers, employer evaluations of proficiencies, periodic seminars, and a final assessment. [Spring, Summer, Fall offering] 175 work experience hours

OHT 292  Ornamental Horticulture Cooperative Education II    1 credit
Prerequisite: OHT 291
Continuation of OHT 291. [Spring, Summer, Fall offering] 85 work experience hours
OST — OFFICE SYSTEMS TECHNOLOGY

OST 109  Keyboarding for Computer Users  1 credit  
Prerequisite: computer literacy
Students use computers to learn the touch method of keyboarding. Fast-paced course designed for those familiar with computers but who need to develop keyboarding skills to improve their productivity.  
2 lecture / 2 laboratory hours (5 weeks)

OST 219  Word Processing Concepts and Applications  3 credits  
Prerequisite: OST 111 with a minimum C grade or equivalent keyboarding proficiency
Students develop proficiency in a wide range of word processing functions using Microsoft Word software. Covers generic concepts pertinent to all word processing software, as well as correct document formatting.  
2 lecture / 2 laboratory hours

PBH — PUBLIC HEALTH

PBH 101  Principles of Public Health  3 credits  
Prerequisite: placement in college-level English
A broad overview of public health including historical perspectives, communicable disease, epidemiology, health policy, environmental health, emergency preparedness, as well as social, cultural, and behavioral aspects of health across the life span. Additional topics present an introduction to public health infrastructure, delivery of local, state and national services, and core competencies for public health professionals.  
3 lecture hours

PHI — PHILOSOPHY

PHI 102  Introduction to Philosophy  3 credits  
A study of the basic problems and methods of philosophical inquiry. Topics include theories about knowledge, reality, human nature, ethics, religion and science, with consideration of the thought of such major thinkers as Plato, Aristotle, Descartes, Hume, Kant, Nietzsche, and Sartre.  
3 lecture hours

PHI 112  Critical Thinking  3 credits  
Theory and practice of critical thinking through examples drawn from science, business, politics, media, literature, and art. Students apply logical techniques and attitudes of analysis and communication for constructive assessment, ethical reasoning and creative problem-solving by evaluating definitions, facts, arguments, causes, rhetoric, differences, and plans while avoiding common errors and biases.  
3 lecture hours

PHI 113  Logic  3 credits  
An introduction to the principles and methods of correct reasoning. A problem-solving approach to the nature and scope of different kinds of logic, identifying and evaluating arguments and fallacies, and crafting well-formed arguments.  
3 lecture hours

PHI 204  Ethics  3 credits  
Prerequisite: ENG 101
An examination of the basic methods and problems of ethics. Consideration of the nature of moral terms, reasoning and action; conceptions of the good life and of right and wrong; free will; and major ethical approaches, including the theories of Aristotle, Kant, Mill, and others.  
3 lecture hours
**Humanities**

**PHI 205**  Moral Choices  
3 credits  
Prerequisite: ENG 101  
Examines contemporary moral issues such as abortion, euthanasia, capital punishment, affirmative action, pornography, hate speech, gay rights, corporate responsibility, world hunger, global consumption, war, and terrorism. Stresses the critical application of moral theory, principles, and methods. 3 lecture hours

**PHI 209**  Business Ethics  
3 credits  
Ethical concepts applied to business and government. Case studies and analysis of selected moral issues include the ethics of the marketplace, consumerism, the environment, advertising, job discrimination, distributive justice and world poverty. [occasional offering] 3 lecture hours

**Humanities / Diversity and Global Perspective**

**PHI 210**  Eastern Philosophy  
3 credits  
Prerequisite: ENG 101 or permission of instructor  
Introduction to the major philosophical traditions of India, China and other non-Western traditions. Concentrating on the core issues of epistemology, metaphysics and ethics, study involves such major thinkers as Shankara, Ramanuja, Laozi and Confucius. Topics include indigenous and colonial influences as well as critical comparison with Western philosophies. 3 lecture hours

---

**PHO — PHOTOGRAPHY**

**PHO 101**  Black & White Film Photography I  
3 credits  
Foundation course in photography emphasizes basic techniques for the still film camera and darkroom. The development of creative visual expression is strongly encouraged. Students purchase a manually-controlled film camera and other appropriate materials. 1 lecture / 4 studio hours

**PHO 103**  Digital Photography I  
3 credits  
Introductory course for students having basic computer knowledge and interested in gaining knowledge of digital imaging tools and techniques, and improving their creativity. Topics include Photoshop, digital retouching, digital cameras, inkjet printing, resolution, and scanning. 2 lecture / 3 laboratory hours

**PHO 110**  History of Photography  
3 credits  
Historical survey of the growth of photographic art and technique from camera obscura to the present, emphasizing aesthetics, applications, and social impact. Includes the relationship of photography to the other arts and the effects of changing technology on the photographic image. [Spring offering] 3 lecture hours

**PHO 202**  Studio Photography  
3 credits  
Prerequisite or Corequisite: PHO 103 or PHO 203 with a minimum C grade  
Use digital or film cameras of any format to create portraits, still-life, and product shots. Topics include lighting, composition, technique, and studio equipment. 1 lecture / 4 studio hours

**PHO 203**  Photography II  
3 credits  
Prerequisite: PHO 101 or PHO 103 with a minimum C grade  
Intermediate-level course in film and digital still photography. Covers medium- and large-format film cameras, full-frame DSLR cameras, archival printing methods in both film and digital labs, photo retouching software, film-scanning, and exploring concepts through images. 1 lecture / 4 laboratory hours

**PHO 251**  Documentary Photography  
3 credits  
Prerequisite or Corequisite: PHO 103 or PHO 203 with a minimum C grade  
Emphasizes techniques and issues of long- and short-term location assignment shooting. Students are afforded opportunities to gain practical experience covering news, features and sports events for *The College Voice* and to work with journalism students. A photographic essay is developed throughout the semester. 1 lecture / 4 studio hours
### PHO 285 Special Studies in Photography 3 credits
**Prerequisites:** PHO 102 or PHO 203 with a minimum C grade and coordinator approval
Advanced topics in both traditional and digital photography. Course material is tailored to satisfy special requests by students and to share the specialized talents of the college faculty.  
*occasional offering*

1 lecture / 4 studio hours

### PHO 290 Photography Internship 3 credits
**Prerequisite:** coordinator approval
Work experience from participating photographic studios, labs, and galleries.  
1 lecture / 180 laboratory hours

---

</table>
|             | The first of a two-semester non-calculus sequence intended for engineering technology and related majors. Topics include mechanics, heat, sound, and properties of matter.  
*Students who have not taken high school physics may wish to take PHY 111 as a preparatory course.* | 3 lecture / 3 laboratory hours |

| PHY 102     | College Physics II                 | 4 credits |
|             | *Prerequisites:* PHY 101 and MAT 115 with a minimum C grade or approved equivalent  
*The second of a two-semester non-calculus sequence. Topics include electricity and magnetism, optics, atomic physics, and nuclear physics.* | 3 lecture / 3 laboratory hours |

| PHY 109     | Fundamentals of Physics            | 3 credits |
|             | *Prerequisite:* MAT 038 or MAT 044  
*An introduction to the fundamental principles – underlying science and technology – of physics. Intended for the health fields, life sciences, and other areas requiring basic physics literacy. Topics of emphasis include Newtonian mechanics, work and energy, electricity and magnetism, electromagnetic waves, optics, as well as atomic and nuclear physics.* | 2 lecture / 2 laboratory hours |

| PHY 111     | Physical Science Concepts          | 3 credits |
|             | *Prerequisite:* proficiency in basic algebra  
*Survey of fundamental concepts in the physical sciences for students not majoring in science or engineering. Covers a broad range of topics in the fields of chemistry, physics, and astronomy such as measurement, motion, forces (gravitational, electromagnetic, nuclear), light, sound, atomic structure, molecular structure, crystal structure, nuclear structure, and various technological applications. Lab exercises support and supplement the lecture topics.* | 2 lecture / 2 laboratory hours |

| PHY 115     | University Physics I               | 4 credits |
|             | *Prerequisites:* MAT 146 with a minimum C grade; one semester of high school or college physics  
*Corequisite:* MAT 151  
*The first course in a calculus-based physics sequence intended for students majoring in physics, engineering science, computer science, mathematics, and other technical areas. Topics include kinematics, dynamics, statics, energy, momentum, oscillations, gravity, as well as solid and liquid materials. The laws of physics are investigated and applied to problem solving.* | 3 lecture / 3 laboratory hours |
PHY 121  The Universe            3 credits
   Prerequisite: MAT 038 or MAT 044
Introduces students to the world beyond Earth with a survey of modern astrophysics. Study encompasses three dominant sections: stellar astronomy, planets and life, and galaxies and cosmology. Laboratory data analysis requires algebra. Offered at off-site locations only. 2 lecture / 2 laboratory hours

PHY 215  University Physics II    4 credits
   Prerequisites: PHY 115 and MAT 151 with a minimum C grade
The second course in a calculus-based physics sequence intended for students majoring in physics, engineering science, computer science, mathematics, and other technical areas. Topics include electricity, magnetism, circuits, electromagnetic fields, as well as electromagnetic waves. The laws of physics are investigated and applied to problem solving. 3 lecture / 3 laboratory hours

PHY 225  University Physics III  4 credits
   Prerequisite: PHY 115 with a minimum C grade
The third course in a calculus-based physics sequence intended for students majoring in physics, engineering science, computer science, mathematics, and other technical areas. Topics include thermodynamics, gases, optics, as well as modern physics. The laws of physics are investigated and applied to problem solving. 3 lecture / 3 laboratory hours

PHY 293  Honors Research in Physics I  2 credits
   Prerequisites: PHY 101 or PHY 115; divisional permission

PHY 294  Honors Research in Physics II  2 credits

PHY 295  Honors Research in Physics III  2 credits

PHY 296  Honors Research in Physics IV  2 credits
Under the guidance of an area sponsor in an industrial or academic environment, students participate in a physics research project. Requires a written report and oral presentation to students and faculty at the conclusion of the project period. [May be applied toward fulfilling Science elective requirements in the Physics program or other program upon program coordinator’s approval.] 5 laboratory hours per week

POL — POLITICAL SCIENCE

POL 101  The American Political System  3 credits
Introduction to the basic structures of the United States national government and political processes with a view toward helping the student better understand current issues and policies. Topics include the Constitution, national-state relations and powers, the legislative and judicial processes, elections, and the activities of interest groups. 3 lecture hours

POL 102  State and Local Government  3 credits
Analysis of the structure and processes of state and local groups, parties and candidates. Examination of current events and trends in modern politics further enhances awareness of the nature, strengths and weaknesses of government. 3 lecture hours

POL 201  International Relations  3 credits
A broad-based survey of international relations using a variety of theoretical perspectives that allow students to better understand and analyze current and past international behavior. Concepts include balance of power, economic interaction, diplomacy, the role of international organizations, leadership styles, and public policymaking in the international context. 3 lecture hours
POL 203  Law and Society  3 credits
Explains the interaction of American law and society and the influence of legal doctrine and thought on broad
trends in society with an emphasis on the role of the Supreme Court in American life. Examines recent major
Supreme Court decisions. [occasional offering]  3 lecture hours

POL 205  Constitutional Law  3 credits
Introduces the principles of U.S. constitutional law including the constitutional basis for the federal system:
powers of national government; the rights against national and state government; and the process of judicial
review and the role of constitutional interpretation.  3 lecture hours

PSY — PSYCHOLOGY

Social Science
PSY 101  Introduction to Psychology  3 credits
The scientific study of human nature – facts, principles, and theories concerning the mental, emotional,
neurological, and social dimensions of human experience. Topics include consciousness, learning, thinking,
memory, brain structure and function, motivation and emotion, development, personality, mental illness and
its treatment, relationships, and social influence.  3 lecture hours

PSY 201  Educational Psychology  3 credits
Prerequisite: PSY 101 with a minimum C grade
An in-depth study of fundamental concepts and principles with broad applicability to classroom practice,
supporting the preparation and continuing development of educational and human-service professionals.
Topics include student development, student diversity, learning, cognitive processes, motivation, and
instructional and assessment strategies.  3 lecture hours

PSY 204  Social Psychology  3 credits
Prerequisite: PSY 101 with a minimum C grade
Studies the behavior and development of the individual in society, the function of social attitudes, and the
emergence of social awareness. Topics include socialization and identity, person perception, attraction,
attribution, theory, conformity and obedience, and attitudes and prejudices.  3 lecture hours

Social Science
PSY 206  Child Development  3 credits
Prerequisite: PSY 101 with a minimum C grade
Studies the physical, mental, emotional, and social development of the individual from conception through
adolescence. Topics include motor and language development, attachment, temperament, gender and
identity development, intelligence, prosocial and aggressive behavior, play, and family influences on
development.  3 lecture hours

Social Science
PSY 207  Developmental Psychology: Across the Life Span  3 credits
Prerequisite: PSY 101 with a minimum C grade
Studies the physical, mental, emotional and social development of the individual throughout the life span.
Students learn to evaluate major theories and methods of study in developmental psychology, to identify
the opportunities and dangers inherent at each phase of life, and to understand the factors that influence
developmental processes.  3 lecture hours

PSY 208  Theories of Personality  3 credits
Prerequisite: PSY 101 with a minimum C grade
Defines and assesses human personality within the context of current scientific advances as well as seminal
historical perspectives. Examines the impact of individual psychological differences in predicting various life
outcomes.  3 lecture hours
PSY 210 Abnormal Psychology 3 credits

Prerequisite: PSY 101 with a minimum C grade

Discusses the question: What is abnormal behavior and when does this behavior become a diagnosable disorder? History of psychological disorders and early treatments are examined along with the current classifications of psychological disorders as defined by the American Psychological Association. Theories of causation, prevalence, and treatments are also explored. 3 lecture hours

PSY 215 Human Sexuality 3 credits

Prerequisite: PSY 101 with a minimum C grade

Describes the anatomy and physiology of the human reproductive system and the physiology of human sexual functioning. Emphasizes human sexuality as reflecting the psychological makeup of the individual. Stresses the importance of cultural influences on an individual’s behavior, along with interpersonal relationship factors. 3 lecture hours

PSY 221 The Psychology of Women 3 credits

Prerequisite: PSY 101 with a minimum C grade

Exploration of the psychological, biological, and cultural factors influencing the lives of women. Critical analysis of differences and similarities between men and women, gender roles, and the effect of gender on contemporary issues in psychology including physical and emotional health, academic and occupational achievement, relationships, sexual intimacy, violence, and aging. 3 lecture hours

PSY 230 Special Studies in Psychology 3 credits

Prerequisites: ENG 102 and PSY 101 with a minimum C grade or permission of instructor

Consists of special courses in psychology which cater to needs expressed by the student and the broader general community. Taking advantage of particular faculty expertise, the course is offered on occasion in response to specific demand. 3 lecture hours

PTA — PHYSICAL THERAPIST ASSISTANT

Except as noted, enrollment in PTA courses is limited to students who have completed all basic skill requirements and who have received full acceptance into the program. PTA majors are required to earn a minimum grade of C+ in PTA courses.

Note: COURSES ARE INTERRUPTED for either four weeks (for PTA 201, 210, 211 and 227) or five weeks (for PTA 213, 216 and 237) for a Clinical Education Course as indicated within the semester. Class times have been adjusted accordingly.

PTA 101 Introduction to PTA 1 credit

Prerequisite: ENG 101

Open to all students interested in physical therapy as a potential career. Provides an overview of the healthcare system and the specific roles of physical medicine and rehabilitation professionals. Topics include medical terminology, documentation, and communication skills. 1 lecture hour

PTA 105 Kinesiology 3 credits

Prerequisite: BIO 103 with a minimum C+ grade completed within the past five years

Open to all students interested in physical therapy as a career or in the study of human movement; required for Physical Therapist Assistant majors. Introduces the concepts of locomotion, forces, levers, and biomechanics. Topics include origins, insertions, innervations, and actions of the prime movers of the musculoskeletal system. 3 lecture hours

PTA 107 Therapeutic Measurement 2 credits

Prerequisites: BIO 104 with a minimum C+ grade completed within the past five years; PTA 105
Corequisite: PTA 201

Addresses bony landmarks, muscle length, measurement of joint range of motion and muscle strength. Medical documentation is introduced. Students develop their skills through practice with each other. Competencies evaluated throughout the course. 1 lecture / 2 laboratory hours
PTA 112  Pathology for PTAs  3 credits
*Prerequisites: BIO 104 with a minimum C+ grade completed within the past five years; PTA 105*
Covers the essential nature of diseases, abnormalities of structure, and function characteristic of diseases.
*3 lecture hours*

PTA 201  Therapeutic Exercise  2 credits
*Prerequisite: PTA 105*
*Corequisite: PTA 107*
Review and discussion of treatment interventions correlating with therapy goals. Topics include interpreting a physical therapy initial evaluation, stretching, strengthening, joint mobilization, massage, aerobic exercise, exercise parameters and progression. Students develop skills through practice with each other using patient scenarios to promote clinical decision-making. Competencies evaluated throughout the course.
*1 lecture / 2 laboratory hours*

PTA 205  Motor Development  1 credit
*Prerequisites: PTA 210, PTA 211*
*Corequisite: PTA 213*
Introduces developmental milestones, lifespan motor development, motor control, motor learning, recovery of function, neuroplasticity, reflexes and reactions, adaptive equipment, and various treatment approaches for neurological impairments.
*1 lecture hour*

PTA 210  PTA Techniques  4 credits
*Prerequisites: PTA 105, PTA 107*
*Corequisite: PTA 211*
Addresses patient care and handling, including patient positioning and bed mobility, vital signs, transfers and gait, aseptic techniques, wound care, pharmacology, edema management, wheelchair use, body mechanics, and cardiac and pulmonary interventions. Students develop their skills through practice with each other. Competencies evaluated throughout the course.
*3 lecture / 2 laboratory hours*

PTA 211  Physical Agents  4 credits
*Prerequisites: PTA 107; MAT 115 or MAT 140 or PTA program approved*
MAT equivalent with a minimum C grade (C+ if taken during or after Spring 2020)
Study of biophysical agents and therapeutic modalities in physical therapy practice. Lab and lecture activities develop problem-solving and critical thinking in the use of electrical stimulation, therapeutic heat, cold, traction, and hydrotherapy for therapeutic interventions. Competencies evaluated throughout the course.
*3 lecture / 3 laboratory hours*

PTA 213  PTA Therapy Clinic  3 credits
*Prerequisites: PTA 210, PTA 211*
*Corequisite: PTA 205*
Therapeutic interventions for conditions arising from cerebral vascular accidents, traumatic brain injury, spinal cord injury, amputations, joint replacement, cardiac disease, and neurologic dysfunction. Emphasizes activities to promote optimal functional outcomes. Lab develops decision-making skills involving assistive devices, orthotics and prosthetics. Competencies evaluated throughout the course.
*3 lecture / 3 laboratory hours*

PTA 216  Orthopedics in PTA  2 credits
*Prerequisites: PTA 210, PTA 211*
*Corequisite: PTA 205*
A study of orthopedic conditions and their underlying pathology. Emphasis on physical therapy interventions utilized in the rehabilitation of specified conditions.
*2 lecture / laboratory hours*

PTA 224  PTA Clinical Education I  3 credits
*Prerequisites: PTA 210, PTA 211*
Supervised full-time clinical instruction to observe the clinic environment and PT/PTA interactions; develop professional deportment and communication; refine measurement and time management skills; and learn about patient chart information.
*40 hours per week for 4 weeks = 160 clinical hours*

</table>
RAD 127  Radiographic Procedures I  6 credits
Prerequisite: formal acceptance into professional phase of Radiography program
Corequisites: RAD 102, RAD 119
Study of standard radiographic positioning and related medical terminology of the chest, abdomen, and upper
and lower extremities. Involves laboratory simulation and evaluation. Students acquire clinical experiences at
an affiliate hospital sufficient to demonstrate competency in a specified number and variety of radiographic
procedures. [Fall offering] 3 lecture / 3 laboratory / 210 clinical hours

RAD 128  Radiographic Procedures II  6 credits
Prerequisites: RAD 102, RAD 119, RAD 127
Corequisite: RAD 120
Continuation of RAD 127, with standard radiographic positioning and related medical terminology of the bony
thorax, pelvic girdle, upper femora, and vertebral column. Involves laboratory simulation and evaluation.
Students acquire clinical experiences at an affiliate hospital sufficient to demonstrate competency in a
specified number and variety of radiographic procedures beyond those demonstrated the previous semester.
[Spring offering] 2 lecture / 3 laboratory / 225 clinical hours

RAD 207  Clinical Experience  2 credits
Prerequisites: RAD 120, RAD 128
Corequisite: RAD 117
Students participate in clinical education at an affiliate hospital, performing radiographic procedures in
accordance with the clinical competency evaluation process. Radiographic procedures range from routine to
complex and are performed on all populations, pediatric through geriatric. Students conduct radiographic
image analysis. [Summer offering] 225 clinical hours

RAD 217  Advanced Imaging Modalities  3 credits
Prerequisites: RAD 117, RAD 207
Corequisite: RAD 228
Presents an overview of special radiographic procedures and advanced imaging and therapeutic technologies.
[Fall offering] 3 lecture hours

RAD 224  Introduction to Pathology  2 credits
Prerequisites: RAD 217, RAD 228
Corequisites: RAD 232, RAD 240
Survey of the disease process and pathological conditions. Includes an in-depth study of diseases commonly
demonstrated radiographically. [Spring offering] 2 lecture hours

RAD 228  Radiographic Procedures III  7 credits
Prerequisites: RAD 117, RAD 207
Corequisite: RAD 217
Continuation of RAD 128. Study of standard radiographic positioning and related medical terminology of the
urinary system, alimentary canal, biliary system and cranium. Involves laboratory simulation and evaluation.
Students acquire correlated clinical experience and continue the clinical competency evaluation process at an
affiliate hospital. [Fall offering] 2 lecture / 3 laboratory / 340 clinical hours

RAD 232  Imaging Equipment and Radiography Seminar  4 credits
Prerequisites: RAD 117, RAD 207
Corequisites: RAD 224, RAD 240
Evaluation of radiographic equipment in tandem with quality control standards to ensure optimal diagnostic
images. Includes discussion of state, federal and non-governmental requirements. The seminar focuses on
professional development and helps students prepare for the A.R.R.T. examination. [Spring offering]
3 lecture / 2 laboratory hours

RAD 240  Advanced Clinical Experience I  3 credits
Prerequisites: RAD 217, RAD 228
Corequisites: RAD 224, RAD 232
Offers advanced clinical experience in all aspects of radiologic technology in cooperation with area hospitals.
Students acquire clinical experiences and proficiencies sufficient to demonstrate competency in a specified
number and variety of diagnostic radiographic procedures. [Spring offering] 340 clinical hours
**RAD 242  Advanced Clinical Experience II**  
2 credits  
**Prerequisites:** RAD 224, RAD 232, RAD 240  
Continuation of RAD 240. In cooperation with area hospitals, students enhance proficiency in all aspects of radiologic technology by performing diagnostic radiographic examinations on a variety of patients. In this final phase of the clinical competency process, remaining competency evaluations test student ability with respect to skills expected of entry-level radiographers. [Summer offering] 225 clinical hours

<td><strong>3 lecture hours</strong></td>
</tr>
</tbody>
</table>

| **SOC 104** Sociology of Education 3 credits  |
| **Social Science**  |
| Corequisite: ENG 101 or college-level eligibility  |
| Overview of the relationship between the school and society. Topics include the school as an agent of social change, the role of teachers, multiculturalism, human development stages, domains of learning, and the socio-historical role of education.  |
| **3 lecture hours**  |

| **SOC 107** Social Problems 3 credits  |
| **Social Science**  |
| Corequisite: ENG 101 or college-level eligibility  |
| An introduction to sociological theory and methods, with background on the nature, causes of, and possible solutions to major social problems facing large, complex societies. Possible topics discussed include poverty and inequality, drug addiction, crime, health care, racial and minority group issues, and environmental concerns.  |
| **3 lecture hours**  |

| **SOC 132** Introduction to Women’s and Gender Studies 3 credits  |
| **Diversity and Global Perspective**  |
| Corequisite: ENG 101 or college-level eligibility  |
| [also offered as WGS 132] An introduction to major theories and ideas developed within feminism and the field of gender studies. Specific topics include theoretical explanations of gender; representations of gender; economic, social, and political implications of gender constructs; and cross-cultural perspectives on gender. Texts, films, and other resources contribute toward an understanding of these issues.  |
| **3 lecture hours**  |
Social Science / Diversity and Global Perspective

SOC 201 Marriage and the Family 3 credits
Prerequisite: SOC 101 or SOC 107 with a minimum C grade
Analyzes and evaluates the family as an institution that reflects cultural values, norms and ideals. Topics include gendering, pre-marital sex norms, mate selection, family roles, child rearing, and family structures. 3 lecture hours

SOC 209 Racial, Ethnic and Minority Groups 3 credits
Prerequisite: SOC 101 or SOC 107 with a minimum C grade
Explores the sociological dynamics of dominant/minority group relations in contemporary U.S. society. Students examine the social construction of race and ethnicity in America as well as the reasons for immigration; patterns of inter-group contact; and the struggles associated with assimilation, acculturation, and other models of dominant/minority group interactions. 3 lecture hours

SOC 214 Sociology of Drug Use and Behavior 3 credits
Prerequisite: SOC 101 or SOC 107 with a minimum C grade
Analysis of the political, economic, and cultural ramifications of drugs in American society within a global context. Specific topics include constructing drug use and the user as a social problem and the implications for social policy and social control (legislation, prevention, and treatment). 3 lecture hours

SOC 230 Special Studies in Sociology 3 credits
Prerequisites: SOC 101 or SOC 107 with a minimum C grade; ENG 102 or divisional permission
Consists of special courses in sociology which cater to needs expressed by the student and the broader community. Taking advantage of particular faculty expertise, the course is offered on occasion in response to specific demand. 3 lecture hours

Note: Students who have taken two or more years of a foreign language, and have done so in the last two years, should begin that language at the 200 level or switch to a new language. If there is doubt, placement will be determined by testing or consultation with the academic division.

SPA — SPANISH

SPA 101 Beginning Spanish I 3 credits
Prerequisite: placement by exam or permission of instructor
[not open to students who received a C- or better in high school Spanish] The first in a sequence of courses designed for students with little or no prior knowledge of Spanish. Spoken communication in Spanish is both the end goal and the means of instruction. Emphasizes the four communicative skills in a culturally authentic context. Reading and writing are assigned out of class to facilitate effective listening and speaking practice in class. Basic grammar skills are also introduced. 3 lecture hours

SPA 102 Beginning Spanish II 3 credits
Prerequisite: SPA 101 with a minimum C- grade, placement by exam, or permission of instructor
[not open to students who have passed two or more years of high school Spanish] The second in a sequence of courses designed for students with little or no prior knowledge of Spanish. Spoken communication in Spanish is both the end goal and the means of instruction. Emphasizes the four communicative skills in an authentic language context. Reading, writing, and grammar study are assigned out of class to facilitate effective listening and speaking practice in class. 3 lecture hours
### Humanities / Diversity and Global Perspective

**SPA 110 Hispanic Culture**
3 credits
A survey course that explores the culture, nation, language, geography, and power within a region or regions of the Spanish-speaking world; topic to be determined by instructor based on expertise or, in the case of study abroad, based on the country or region of travel. Concepts are treated synchronically, diachronically, and politically. [Taught in English; does not fulfill foreign language requirement.]

3 lecture hours

**SPA 121 Spanish for Health Providers I**
3 credits
The first in a sequence of courses designed for healthcare students and professionals with little or no prior knowledge of Spanish. Spoken communication in Spanish is both the end goal and the means of instruction. Emphasizes listening, speaking, reading, and writing Spanish within the context of providing healthcare, medicine, and well-being. Reading and writing are assigned out of class to facilitate effective listening and speaking practice in class. Basic grammar is also introduced. 3 lecture hours

**SPA 122 Spanish for Health Providers II**
3 credits
Prerequisite: SPA 101 or SPA 121
The second in a sequence of courses designed for healthcare students and professionals with little or no prior knowledge of Spanish. Spoken communication in Spanish continues as both the end goal and the means of instruction. Builds on listening, speaking, reading, and writing Spanish within the context of providing healthcare, medicine, and well-being. Reading and writing are assigned out of class to facilitate effective listening and speaking practice in class. Basic grammar is also introduced. 3 lecture hours

**SPA 151 Intermediate Spanish I**
3 credits
Prerequisite: SPA 102 with a minimum C grade, placement by exam, or permission of instructor
The first third (five weeks) of the semester is dedicated to a review of beginner-level grammar and vocabulary. The class then transitions to short readings and guided discussions which apply the reviewed language to topics of Hispanic culture, politics, and history. Spanish communication is the means and end goal of instruction. 3 lecture hours

**SPA 152 Intermediate Spanish II**
3 credits
Prerequisite: SPA 151 with a minimum C- grade, placement by exam, or permission of instructor
Continuation of SPA 151. Previously learned grammar is reviewed and applied – typically in the present tense – to discussions and debates of topics in Hispanic culture, politics, and history. Spanish reading, writing, listening and speaking are the means and end goal of instruction. 3 lecture hours

**SPA 251 Advanced Spanish I**
3 credits
Prerequisite: SPA 152 or permission of instructor
A conversation course which covers a variety of topics related to Hispanic culture through the reading and interpretation of texts including examples of authentic Hispanic literature. Taught entirely in Spanish, this course additionally develops speaking and writing skills, builds vocabulary, and stimulates debate, conversation, and class discussion. 3 lecture hours

**SPA 252 Advanced Spanish II**
3 credits
Prerequisite: SPA 152 or permission of instructor
A grammar course taught conversationally in Spanish and within the context of topics related to Hispanic culture and society, including some reading from authentic Hispanic literature. Involves vocabulary building, but mainly emphasizes review and oral practice of grammatical constructions to improve the non-native student's oral and written communication skills. 3 lecture hours
SST — SECURITY SYSTEMS TECHNOLOGY

**SST 200**  
Physical Security Product Technologies  
3 credits  
*Prerequisites: NET 103 and NET 104 or equivalent experience*  
Addresses the operation and integration of physical security products and technologies including IP-based video surveillance equipment, analytics software, and physical security information management (PSIM), how to satisfy the needs of end user customers by reducing operating costs, and how these technologies keep assets safe around the world. *2 lecture / 2 laboratory hours*

**SST 210**  
Security Project Management  
3 credits  
*Prerequisite: SST 200*  
Examines the role of the security project manager, including the concepts and tools of professional project management. Topics include managing costs, assuring quality, and controlling all aspects of projects throughout the lifecycle, plus fundamental factors affecting a given project, such as stakeholder influence, cash flow, and risk management. *2 lecture / 2 laboratory hours*

**SST 220**  
Systems Integration: A Business Blueprint  
3 credits  
*Prerequisite: SST 200*  
Students learn to build a security solution which combines equipment, engineering and service, analyze the attributes of products and services, assess customer needs, align organizational strategy to leverage the most powerful features and strengths of products and services, and create a system to meet a client need or solve a client problem. *2 lecture / 2 laboratory hours*

**SST 230**  
Security Sales: The Consultative Approach  
3 credits  
*Prerequisite: SST 200*  
An introduction to the sales process, focusing on security solutions. Students learn how to organize the sales effort; assess customer needs and present security solutions; organize constituencies to develop, design, and implement security systems solutions; assess return on security investment; manage the customer experience; and maintain consultative, profitable customer relationships. *2 lecture / 2 laboratory hours*

STA — STUDY ABROAD

**STA 101**  
Study Abroad Seminar  
1 credit  
*Prerequisite: prior approval to travel abroad*  
*Corequisite: Study Abroad course(s)*  
A complement to a student’s study abroad experience. Students are challenged to reflect on their exposure to culturally diverse people, examine multicultural experiences, and draw connections between study abroad and future endeavors, with the goal of articulating this significance to potential employers and other audiences. Students construct an e-portfolio to catalog their work. *1 lecture hour*

SUS — SUSTAINABILITY

**SUS 101**  
Introduction to Sustainability  
3 credits  
*Prerequisites: ENG 024, ENG 034*  
Examination of the fundamental concepts and principles supporting long-term preservation and availability of natural resources and ecological balance. Factors of sustainability explored include global population growth and consumption, climate change, energy, ecosystems, and community design. *3 lecture hours*
THR 101  Introduction to Theatre  
3 credits
Beginning study of the theatre as an art form, examines how a dramatic text is transformed into a stage production. Students read and analyze plays to understand theatre production practices – historical as well as current – and dramatic theory. Requires attending current theatre productions. [Fall and Spring offering]  
3 lecture hours

THR 102  Stagecraft  
3 credits
Introduction to the skills and practice of technical theatre. Studies include elementary carpentry and set construction, scene painting, shop procedures, lighting, cost efficiency, and safety. Students work on college theatre productions. [Fall and Spring offering] 2 lecture / 2 laboratory hours

THR 104  Fundamentals of Acting  
3 credits
Introductory course for both actors and non-actors, examines the history and theory of acting with emphasis on Stanislavski and 20th century methods. Students participate in breathing, relaxation, and centering exercises, theatre games, and improvisational work to develop basic acting skills. Study includes the fundamentals of text analysis, group rehearsal dynamics, and verbal evaluation of other acting work. The class concludes with a public performance. [Fall and Spring offering] 2 lecture / 2 studio hours

THR 105  Acting II: Principles of Characterization  
3 credits
Prerequisite: THR 104
Continuation of the skills developed in THR 104. Focuses on the actor’s movement and voice skills to support character work. Students utilize Michael Chekhov’s Acting Technique, mask work, and improvisation to broaden basic acting skills. Attendance at dance, chorus, and theatre productions is required. [Spring offering] 2 lecture / 2 studio hours

THR 107  Dramatic Writing for Stage and Screen  
3 credits
Prerequisite: ENG 101 or divisional permission
Works of master playwrights and screenwriters are read and discussed. In-class writing exercises, “sense memory” prompts, and strategies for developing dynamic character-based storytelling for the stage are covered during first half of course. Students then adapt and expand this work to create a 20-minute screenplay. 2 lecture / 2 laboratory hours

THR 150  Scenic Techniques for the Entertainment Industry  
3 credits
Prerequisites: ETT 102, THR 102 with a minimum C grade
Through a variety of projects, students are introduced to fundamental techniques and materials used in scenic art. Explores color theory, various media, proper preparation of surfaces, different painting techniques, Pissaro shapes, cartooning backdrops, trompe l’oile, and teamwork. Examines ways these techniques and materials are used in the theatre and other entertainment industries including film, television, theme parks, and casinos. [occasional offering] 2 lecture / 2 laboratory hours

THR 152  Lighting Technology  
3 credits
Prerequisite: ETT 102
Introduction to stage lighting and to the aesthetics of scenic lighting as a visual art. Involves hanging, alignment, focusing, maintenance, and operation of various types of stage lighting fixtures. Students are required to work as a lighting technician at approved venues. 2 lecture / 2 laboratory hours

THR 207  Scene Study I  
3 credits
Combines literary and theatrical skills. Students analyze scenes from plays, screenplays, and non-dramatic literature to discover how theatre artists use character, setting, circumstance, and dialogue when transforming text into performance. The interaction of writers, actors, and directors in developing and presenting scenes in performance is also observed. The class concludes with a public performance. [Fall offering] 3 lecture hours

THR 210  Theatre History: Classical to Elizabethan  
3 credits
A study of the evolution of theatre from classical Greek and Roman traditions through the Elizabethan period. Emphasis on the play in performance reflecting the changing physical theatre, as well as the social, political, and artistic currents of each period. [Spring offering] 3 lecture hours
THR 212  Central Voices in World Drama  3 credits  

**Prerequisite:** ENG 102 or divisional permission  
Introduces students to important dramatic texts and examines them beyond the page as blueprints for performance. Emphasizes playwriting conventions, elements, styles, trends, and movements to chart changing dramaturgy and production practices in the world. Some playwrights include Christopher Marlowe, Henry David Hwang, Tennessee Williams, Bertolt Brecht, Amiri Baraka, Arthur Miller, Caryl Churchill, and Wole Soyinka. [Fall offering] 3 lecture hours

THR 217  Theatre Workshop  3 credits  

**Prerequisites:** THR 104 and THR 105 and/or permission of instructor  
A practical study of theatrical production by intensive script study and supervised technical projects which culminates in performances for a live audience. Students apply techniques they have learned in prior acting and technical classes to the research, rehearsal and performance of a role in a fully realized theatrical production. [Spring offering] 1 lecture / 5 laboratory hours

THR 252  Lighting Design  3 credits  

**Prerequisites:** ETT 102, THR 152 with a minimum C grade  
Fundamentals of lighting design. Analysis of a script for lighting and development of a workable design concept. Through this concept and an evaluation of the performers’ spatial relationships in the production, students generate light plots and the associated paperwork common to a production. Students are required to work as a lighting designer at approved venues. 2 lecture / 2 laboratory hours

**VPA — VISUAL AND PERFORMING ARTS**

VPA 228  Artistic Collaboration Workshop  3 credits  

**Prerequisite:** ENG 101  
Open to actors, dancers, musicians, media professionals, and fine artists. Alternates between generating new performance work and examining the history of collaboration among established artists of different disciplines in Modernist and Postmodernist movements. Students work with the materials of their specific craft while taking inspiration from the other artistic movements. Participants must attend all sessions, and all assignments require rehearsals outside of class time. [Fall offering] 2 lecture / 2 laboratory hours

**WGS — WOMEN’S AND GENDER STUDIES**

WGS 132  Introduction to Women’s and Gender Studies  3 credits  

**Corequisite:** ENG 101 or college-level eligibility  
[also offered as SOC 132] An introduction to major theories and ideas developed within feminism and the field of gender studies. Specific topics include theoretical explanations of gender; representations of gender; economic, social, and political implications of gender constructs; and cross-cultural perspectives on gender. Texts, films, and other resources contribute toward an understanding of these issues. 3 lecture hours

WGS 221  Seminar in Women’s and Gender Studies  3 credits  

**Prerequisites:** ENG 102 with a minimum C grade; 9 credits of electives as listed in the Women’s and Gender Studies guidelines  
An in-depth interdisciplinary exploration of the contributions of the social sciences, the behavioral sciences, literature, and the arts to the study of gender in society. Specific topics include feminist theories, feminist methodologies, and women and gender issues in relation to culture, politics, and the economy. Texts, films, and other resources contribute toward an understanding of these issues. 3 lecture hours
