

Doing it on the Web

By Ken Hunt

How many of you have been at MCCC as long as I have (27 years)? I have discovered that you can teach an experienced dog new tricks. When you are working in the Integrow system, you can do a lot more ... on the web!

If you or your child are a student here.

You can look up classes ...on the web.

You can register and pay for classes ... on the web.

You can get transcript and schedule ... on the web.

You can get receipts ... on the web.

You get your grades ... on the web.

When you are in your office working, you can be doing more ... on the web.

You can enter department requisitions ... on the web.

You can look up PO information ... on the web.

You can approve purchases ... on the web.

You can view your paycheck ... on the web.

You enter and review your time off ... on the web.

You are reviewing & approving staff leave requests ... on the web.

You are analyzing and validating staff attendance ... on the web.

You can look up room availability ... on the web.

Faculty can email their students ... on the web.

Class rosters can be viewed ... on the web.

Faculty enters student grades ... on the web.

Faculty can track students' "at risk" indicators ... on the web.

Now you can do even more ... on the web.

You can enter disbursement requests ... on the web.

You can reconcile purchasing card transactions ... on the web.

You can view vendor information ... on the web.

Soon you will be able to do more ... on the web.

You will be able to enter travel requests ... on the web.

You will be able to enter travel reimbursements ... on the web.

Take the time to explore what has happened recently with the Integrow system and you will find that you can do more ... on the web.
