

Mercer County Community College

Division of Health Professions

Cardiopulmonary Resuscitation (CPR) Training Requirements

Students are required to submit proof of training in Cardiopulmonary Resuscitation (CPR) from the American Heart Association; the appropriate course is “Basic Life Support”. The CPR certification must remain current throughout the duration of the semester.

Mercer County Community College Discounted Course for Health Professions Students Only

This course is hybrid which includes on-line learning with on-campus skills practice. The cost is \$50 per student. On-campus skills practice will take about an hour; students will be assigned times.
