COURSE OUTLINE

Course Number: NUR 151  
Course Title: Pharmacology in Nursing

Credits: 3  
Hours: 3 lecture hours/week x 15 weeks

Catalog description:  
Theoretical approach to pharmacology, expanding basic concepts of drug knowledge to administer medication safely. Emphasizes pharmacology as an integrated science requiring up-to-date information consistent with current nursing responsibilities, technology, and practice. Drug therapies affecting body systems are a major consideration.

Prerequisites: MCCC Nursing Program first year completion, or permission of instructor.  
Corequisites: None

Required texts/other materials:  

Last revised: 11/2017

Course faculty: Crystal G. Gadd, MSN, RN, AGCNS-BC  
Office: MS 155  
Email: gaddc@mccc.edu  
Phone: 609-570-3319  
Spring office hours: Monday: 11:45 am to 12:45 pm  
Wednesday: 12:00 pm to 2:00 pm  
Thursday: 12:00 pm to 1:00 pm  
Please contact me if you need to meet on Thursday  
Other hours by appointment

Information resources: Textbook, library sources, nursing program handbook. Course outline, Blackboard course shell

Class materials/lectures: Lecture class notes and other pre-class preparation activity assignments are available on the Blackboard website https://mccc.blackboard.com/  
Click on NUR 151 Pharmacology in Nursing. Students are responsible to review all online course materials, print as appropriate, and review all online resources.
Course Student Learning Outcomes:

At the end of this course the student will be able to:

Describe the nurse’s role in the safe administration of pharmacologic agents.
Compare and contrast common drug classifications used in the therapeutic management of common conditions affecting body systems.
Recognize the potential for adverse interactions among medications, foods, and herbal therapies.

NUR 151 Spring 2018 Class Schedule:
Class meets every Monday 1:00-4:00PM

Class start date: Monday, January 28, 2019
Class end date: Monday May 7, 2019

Exam # 1: Monday February 11, 2019
Exam # 2: Monday March 11, 2019
Exam # 3: Monday April 22, 2019
Teaching Plan: Monday April 29, 2019
Final Exam: TBA

Theory:

Theory sessions are based on learning objectives from the course outline are scheduled for 4 hours per week. Textbook readings and other pre-class activities as specified in the Blackboard course shell are assigned based on weekly learning objectives listed in the course outline and should be completed prior to the class session. Interactive learning activities are an integral part of this course. This course contains 3 theory examinations and 1 cumulative final exam.
Evaluation of Student Learning:

Course Requirements:
1. Unit Exams (3)
2. Final Exam
3. Teaching Plan

Grading –
Unit Exams .............. 20% each = 60%
Final Exam...................... 30%
Teaching Plan..................... 10%
Total..................................100%

Student must achieve a minimum grade of 77 to pass this course.
There will be no rounding of grades according to nursing program policy.

Method of Evaluation:

Unit Exams: Three (3) unit exams, each contain 50 multiple choice or multiple response questions. Each unit exam counts as 20% of the grade for a total of 60% of the grade.

Final Exam will be cumulative multiple choice or multiple response question exam. Final exam counts as 30% of the final grade.

Teaching Plan: A paper detailing medication teaching for a newly discharged patient will be submitted by each student. Grading will be through the teaching plan rubric.

Testing Procedure:

- All belongings, including but not limited to backpacks, books, purses, edibles and liquids, cell phones, and electronic devices are to be placed in the front of the classroom.
- Seating during the exam is at the discretion of the instructor or exam proctor.
- All coats and hats are to be removed during the exam period. Please refer to nursing program testing policy in the Nursing Program Handbook.
- All tests are scored on Scantron forms. The Scantron sheet stands as the formal grade. Please have #2 pencils available for testing.
- All cell phones must be turned off and stored with student belongings during testing.
- After testing, all Scantron forms are secured in sealed envelope, and returned to the nursing office for processing and storage.
- Please refer to the nursing program testing policy in your program handbook for more information on testing.
- In order to successfully pass this course, point scores for the calculation of tests must be 77% or higher.
**Courtesy of Office of First 30:**

**First Semester Students** A coach has been assigned to assist you with navigating your first semester in college. Coaches help with understanding how Mercer works, finding appropriate help with course work, and establishing academic goals. Visit [www.mccc.edu/coaching](http://www.mccc.edu/coaching) to find your coach or Contact: Arlene Stinson, LB217, 570-3451, SOAR@mccc.edu

**Academic Advising after your first semester** Faculty advisors provide help with completing your major after your first semester. Meet your faculty advisors! Contact the division of your major to find out who is your faculty advisor.

- **Liberal Arts Division:** Debbie Stotland, LA162, 570-3378, Stotland@mccc.edu
- **Business Division:** Doris Geck, BS134, 570-3482, Geckd@mccc.edu
- **Math, Science, Health:** Barbara Pieslak, MS126, 570-3383, pieslakb@mccc.edu
- **Undecided major:** Michael Glass, SC201, 570-3530, glassm@mccc.edu

**Use your “MyMercer” Portal!** Your “MyMercer” portal contains your MercerMail, financial information, class schedule, grades, and other information. Check your “MyMercer” portal every day! Visit [www.mccc.edu/mymercer](http://www.mccc.edu/mymercer) to access your portal.

**Tutoring support** Academic support services are free and available for all students. Drop in or contact the following to make arrangements:
- Arlene Stinson (WWC), LB 217, 570.3422, stinsona@mccc.edu
- Joann Mia (TC), KC311, 570-3128, miaj@mccc.edu

**Reasonable Accommodations for Students with Documented Disabilities** The Office of Special Services (OSS) provides continued support to students with documented disabilities. Support staff are available to help students with differing abilities make a smooth transition to college as well as to succeed throughout their college experience. Contact:
- Arlene Stinson, LB 217, 570-3525, stinsona@mccc.edu

**Career and Transfer Center** Planning to go to work or to transfer to a 4-year college after completing your Mercer degree? Contact the Career and Transfer Center for support and advice.
- Laurene Jones (WWC transfer services), SC201, 570-3307, jonesl@mccc.edu
- Michael Glass (WWC career services), SC201 570-3530, glassm@mccc.edu
- Kimberley Bowser (TC transfer and career), KC216, 570-3110, bowserk@mccc.edu

**Counseling Services** Are you experiencing personal challenges, feeling overwhelmed? Are you having stress and anxiety? Counseling services are available free of charge. Contact:
- Dorothy Gasparro, SC239, 570-3354, gasparrd@mccc.edu

**Veteran’s Services** If you are military, veteran, or family member, we offer free support for you. Contact: Drew Daddio, SC220, 570-3240, vets@mccc.edu

**Academic Integrity Statement:**

ACADEMIC INTEGRITY OMB 210
Mercer County Community College is committed to Academic Integrity -- the honest, fair and continuing pursuit of knowledge, free from fraud or deception. This implies that students are expected to be responsible for their own work, and that faculty and academic support services staff members will take reasonable precautions to prevent the opportunity for academic dishonesty.

The college recognizes the following general categories of violations of Academic Integrity, with representative examples of each. Academic Integrity is violated whenever a student:

A. Uses or obtains unauthorized assistance in any academic work.
   - copying from another student's exam.
   - using notes, books, electronic devices or other aids of any kind during an exam when prohibited.
   - stealing an exam or possessing a stolen copy of an exam.

B. Gives fraudulent assistance to another student.
   - completing a graded academic activity or taking an exam for someone else.
   - giving answers to or sharing answers with another student before, during or after an exam or other graded academic activity.
   - sharing answers during an exam by using a system of signals.

C. Knowingly represents the work of others as his/her own, or represents previously completed academic work as current.
   - submitting a paper or other academic work for credit which includes words, ideas, data or creative work of others without acknowledging the source.
   - using another author's words without enclosing them in quotation marks, without paraphrasing them or without citing the source appropriately.
   - presenting another individual's work as one's own.
   - submitting the same paper or academic assignment to another class without the permission of the instructor.

D. Fabricates data in support of an academic assignment.
   - falsifying bibliographic entries.
   - submitting any academic assignment which contains falsified or fabricated data or results.

E. Inappropriately or unethically uses technological means to gain academic advantage.
   - Inappropriately or unethically acquiring material via the Internet or by any other means.
   - using any electronic or hidden devices for communication during an exam.

Each instructor and academic support service area is authorized to establish specific guidelines consistent with this policy.

CONSEQUENCES FOR VIOLATIONS OF ACADEMIC INTEGRITY

For a single violation, the faculty member will determine the course of action to be followed. This may include assigning a lower grade on the assignment, assigning a lower final course grade, failing the student in the course, or other penalty appropriate to the violation.

In all cases, the instructor shall notify the Chair of the Academic Integrity Committee of the violation and the penalty imposed.
When two (or more) violations of academic integrity are reported on a student, the Academic Integrity Committee (AIC) may impose disciplinary penalties beyond those imposed by the course instructors. The student shall have the right to a hearing before the AIC or a designated AIC subcommittee.

**APPEALS**

The student has a right to appeal the decision of the instructor or the Academic Integrity Committee. Judicial procedures governing violations of Academic Integrity are contained in the Student Handbook.

Approved by the MCCC Board of Trustees March 18, 2004

**ADA Statement: Accessibility Statement**

Mercer County Community College is committed to ensuring the full participation of all students in its programs. If you have a documented differing ability or think that you may have a differing ability that is protected under the ADA and Section 504 of the Rehabilitation Act, please contact Arlene Stinson in LB 216 email: stinsona@mcccc.edu for information regarding support services.

If you do not have a documented differing ability, remember that other student resources are available to all students on campus including academic support through our Learning Center located in LB 214.

| 2    | **Drugs Affecting the Autonomic Nervous System**  
- Adrenergic Agonists  
- Adrenergic Blocking Agents  
- Cholinergic Drugs  
- Cholinergic-Blocking Drugs  
Seizure Drugs  
**Drugs for Degenerative Diseases of the Nervous System**  
- Drugs for Parkinson’s Disease  
- Drugs for Alzheimer’s Disease  
- Drugs for Neuromuscular Disorders | • Review the sympathetic nervous system as related to drug therapy with adrenergic agents.  
• Discuss the nurse’s role in assessment of the effects of adrenergic agonists, adrenergic antagonists, cholinergic, and cholinergic blocking drugs.  
• Break down the function of cholinergic receptors with contrast of stimulation versus blocking of these receptors.  
• Identify the mechanisms of action, dosage forms, routes of administration, cautions, contraindications, drug interactions, adverse effects, patient tolerance, toxicity and patient education with the use of cholinergic blocking drugs.  
• Describe strategies to enhance compliance in the patient taking antiepileptic drugs  
• Discuss the pathophysiology related to Parkinson’s disease.  
• Compare and contrast the different classes of medications used in the treatment of Parkinson’s disease including the first and second line drugs used in therapy.  
• Analyze the mechanisms of action, dosage forms, routes of administration, cautions, contraindications, drug interactions, adverse effects, patient tolerance, toxicity and patient education with the use of anti-parkinsonian drugs.  
• Explain the goals of pharmacotherapy for Alzheimer’s disease and he efficacy of existing medications.  
• Categorize drugs used in the treatment of Alzheimer’s disease.  
• Compare and contrast the various drugs used to treat neuromuscular disorders | Pharmacology for Nurses:  
- Chapters: 12, 13, 15, 20, 21

| 11   | Drugs Affecting the Endocrine System: -Antidiabetic Drugs | ● Comprehends the normal actions and functions of the pancreas.  
● Compare and contrast the contrast between Type 1 and Type 2 diabetes mellitus with regard to age of onset, signs and symptoms, pharmacologic and non-pharmacologic treatment incidence and etiology.  
● Identify the various agents used to manage Type 1 and Type 2 diabetes mellitus.  
● Describe the mechanisms of action, dosage forms, routes of administration, cautions, contraindications, drug interactions, adverse effects, client tolerance, of the various categories of insulin and oral hypoglycemic drugs  
● Develop a client education resource for the client receiving insulin.  
● Developed education and plan of care using the nursing process for this population of clients.  
● Identify the various agents used to treat pituitary disorders.  
● Identify the client teaching needs for a client on thyroid or anti thyroid agents.  
● Discuss the teaching needs of clients receiving adrenal medications. | Pharmacology for Nurses:  
● Chapters: 44, 45

Medication Teaching Plan Guidelines
This assignment’s focus is on teaching a client about a medication he/she is or will be taking. You may use a combination of essay and list formats. Include a drug card (format detailed separately) for the medication about which you are teaching the client.

1. **Background Information:** This section should include the client’s initials, occupation, educational level, cultural background and influences, status in the family, support systems, predisposing factors for the present condition, and whether the client recognizes the need for information or change.

2. **Assessment:** You should report the client’s admitting diagnosis, the immediate problem, or the reason for attending the clinic or hospitalization.
   - **Observations:** Some subjective and/or objective data to back up your assessments of the client’s needs, eagerness for change/information. You may use lab tests, what the client/family stated, or what you observed.
   - **Treatment:** Pertains to the diagnosis, medical orders, medications and the nursing orders.
   - **Rehabilitation:** What can be changed or improved upon by education? What are the learning needs? What can a nurse teach about and improve in this client’s health status with education?
   - **Problems:** These would be the barriers that could exist to the educational efforts you are trying to make. These could be both psychological and physical barriers.
   (Remember, you may use a combination of list or essay for any of these sections)

3. **Planning:** The nursing Diagnosis; Knowledge Deficit (most common), Non-Compliance, Self-Care Deficit. Use the three-part Nursing Diagnosis. For example, “Knowledge Deficit R/T lack of information regarding ……AMB ‘I don’t want to take that medication.’”
   - **Goals should be stated behaviorally, timed and measurable.** Behavior verbs are: Client will repeat, will demonstrate, will perform, will list, etc. “Client will understand” is not a measurable goal. Rationale should be a scientific principle from a resource or a research statement of why it would be best for the client to strive for the goal(s).

4. **Implementation:** What audiovisuals, pamphlets, articles were used? (Include copies of pamphlets/articles used) Did you also use a verbal back-up? Did you reinforce previous teaching and take into account cultural influences and educational level? What were your observations of client expression and behavior during the presentation? What factors aided or hindered the teaching session?

5. **Evaluation:** Validate if the teaching was successful or not with a statement that describes and proves success or failure of educational presentation. Did you schedule any follow-up sessions?

6. **Drug Information:** Use the Fundamentals of Nursing Drug Card template for information.

**NOTE:** Teaching plans will be typed and approximately three (3) or more pages in length. Please be concise.

**Teaching Plan Grading Criteria**
