

Internet Explorer 10 Workaround

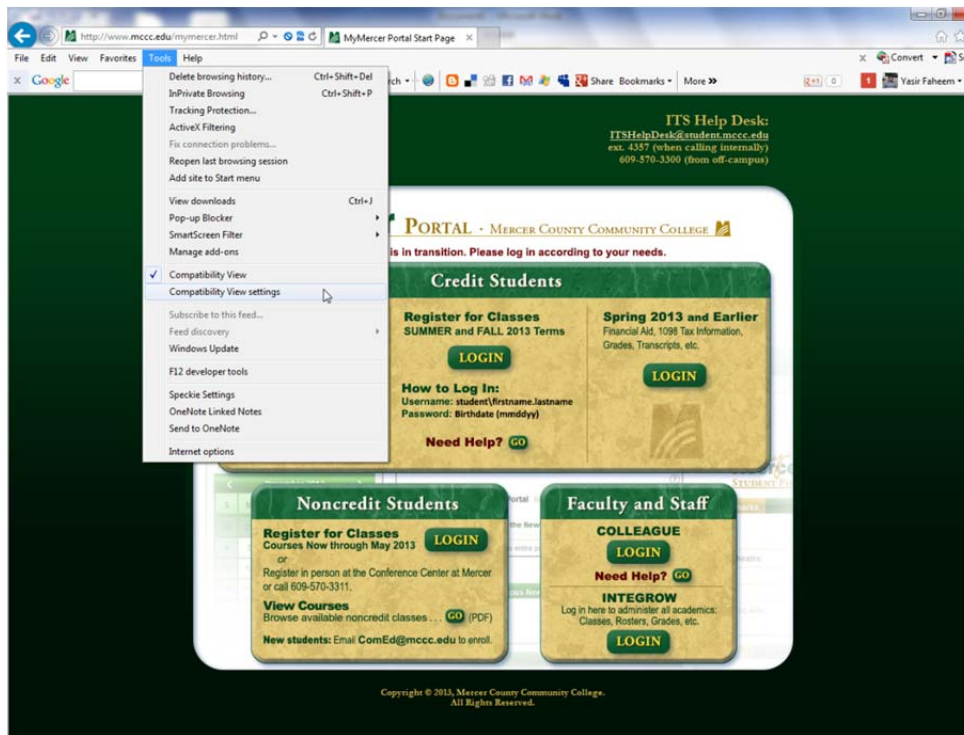

If you experience a blank screen when viewing pages such as Search for Sections, please try this workaround.

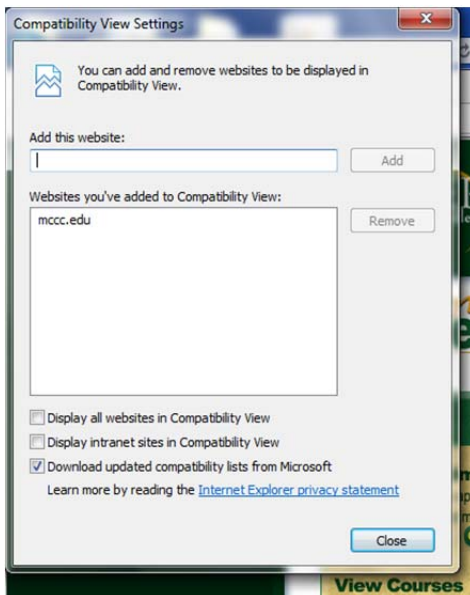

Close Internet Explorer and reopen it. Go back to the MyMercer Portal login screen shown below. Click on **Tools** then click on **Compatibility View**. (If you do not have the menu bar shown, please press the **ALT** key and it should appear.)

Click on **Tools** again and choose **Compatibility View settings**.

Click **Add** to make mccc.edu a website that uses compatibility mode in the future.

Now login to MyMercer and your information should appear.
