PHYSICAL THERAPIST ASSISTANT
STUDENT EVALUATION:

CLINICAL EXPERIENCE
AND
CLINICAL INSTRUCTION

June 10, 2003
PREAMBLE

The purpose of developing this tool was in response to academic and clinical educators’ requests to provide a voluntary, consistent and uniform approach for students to evaluate clinical education as well as the overall clinical experience. Questions included in this draft tool were derived from the many existing tools already in use by physical therapy programs for students to evaluate the quality of the clinical learning experience and clinical instructors (CIs), as well as academic preparation for the specific learning experience. The development of this tool was based on key assumptions for the purpose, need for, and intent of this tool. These key assumptions are described in detail below. This tool consists of two sections that can be used together or separately: Section 1—Physical therapist assistant student assessment of the clinical experience and Section 2—Physical therapist assistant student assessment of clinical instruction. Central to the development of this tool was an assumption that students should actively engage in their learning experiences by providing candid feedback, both formative and summative, about the learning experience and with summative feedback offered at both midterm and final evaluations. One of the benefits of completing Section 2 at midterm is to provide the CI and the student with an opportunity to modify the learning experience by making midcourse corrections.

Key Assumptions

- The tool is intended to provide the student’s assessment of the quality of the clinical learning experience and the quality of clinical instruction for the specific learning experience.
- The tool allows students to objectively comment on the quality and richness of the learning experience and to provide information that would be helpful to other students, adequacy of their preparation for the specific learning experience, and effectiveness of the clinical educator(s).
- The tool is formatted in Section 2 to allow student feedback to be provided to the CI(s) at both midterm and final evaluations. This will encourage students to share their learning needs and expectations during the clinical experience, thereby allowing for program modification on the part of the CI and the student.
- Sections 1 and 2 are to be returned to the academic program for review at the conclusion of the clinical experience. Section 1 may be made available to future students to acquaint them with the learning experiences at the clinical facility. Section 2 will remain confidential and the academic program will not share this information with other students.
- The tools meet the needs of the physical therapist (PT) and physical therapist assistant (PTA) academic and clinical communities and where appropriate, distinctions are made in the tools to reflect differences in PT scope of practice and PTA scope of work.
- The student evaluation tool should not serve as the sole entity for making judgments about the quality of the clinical learning experience. This tool should be considered as part of a systematic collection of data that might include reflective student journals, self-assessments provided by clinical education sites, Center Coordinators of Clinical Education (CCCEs), and CIs based on the Guidelines for Clinical Education, ongoing communications and site visits, student performance evaluations, student planning worksheets, Clinical Site Information Form (CSIF), program outcomes, and other sources of information.

Acknowledgement

We would like to acknowledge the collaborative effort between the Clinical Education Special Interest Group (SIG) of the Education Section and APTA’s Education Department in completing this project. We are especially indebted to those individuals from the Clinical Education SIG who willingly volunteered their time to develop and refine these tools. Comments and feedback provided by academic and clinical faculty, clinical educators, and students on several draft versions of this document were instrumental in developing, shaping, and refining the tools. Our gratitude is extended to all individuals and groups who willingly gave their time and expertise to work toward a common voluntary PT and PTA Student Evaluation Tool of the Clinical Experience and Clinical Instruction.

## SECTION 1: PTA STUDENT ASSESSMENT OF THE CLINICAL EXPERIENCE

Information found in Section 1 may be available to program faculty and students to familiarize them with the learning experiences provided at this clinical facility.

1. **Name of Clinical Education Site**
   
   Address________________________ City________________ State ______

2. **Clinical Experience Number**

3. **Specify the number of weeks for each applicable clinical experience/rotation.**

   - [ ] Acute Care/Inpatient Hospital Facility
   - [ ] Private Practice
   - [ ] Ambulatory Care/Outpatient
   - [ ] Rehabilitation/Sub-acute Rehabilitation
   - [ ] ECF/Nursing Home/SNF
   - [ ] School/Preschool Program
   - [ ] Federal/State/County Health
   - [ ] Wellness/Prevention/Fitness Program
   - [ ] Industrial/Occupational Health Facility
   - [ ] Other ______

### Orientation

4. **Did you receive information from the clinical facility prior to your arrival?**
   - [ ] Yes ______ No ______

5. **Did the on-site orientation provide you with an awareness of the information and resources that you would need for the experience?**
   - [ ] Yes ______ No ______

6. **What else could have been provided during the orientation?**

### Patient/Client Management and the Practice Environment

For questions 7, 8, and 9, use the following 4-point rating scale:

1 = Never  
2 = Rarely  
3 = Occasionally  
4 = Often

7. **During this clinical experience, describe the frequency of time spent in each of the following areas. Rate all items in the shaded columns using the above 4-point scale.**

10. What suggestions, relative to the items in question #9, could you offer to improve the environment for your work and growth?

Clinical Experience

11. Were there other students at this clinical facility during your clinical experience? (Check all that apply):

   ______ Physical therapist students
   ______ Physical therapist assistant students
   ______ Students from other disciplines or service departments (Please specify ____________)

12. Identify the ratio of students to CIs for your clinical experience:

   ______ 1 student to 1 CI
   ______ 1 student to greater than 1 CI
   ______ 1 CI to greater than 1 student; Describe ____________________________

13. How did the clinical supervision ratio in Question #12 influence your learning experience? ______

14. In addition to patient/client management, what other learning experiences did you participate in during this clinical experience? (Check all that apply)

   ______ Attended in-services/educational programs
   ______ Presented an in-service
   ______ Attended special clinics
   ______ Attended team meetings/conferences/grand rounds
   ______ Observed surgery
   ______ Participated in administrative and business management
   ______ Participated in providing patient/client interventions collaboratively with other disciplines (please specify disciplines)
   ______ Participated in service learning
   ______ Performed systematic data collection as part of an investigative study
   ______ Used physical therapy aides and other support personnel
   ______ Other; Please specify ____________________________

SECTION 2: PTA STUDENT ASSESSMENT OF THE CLINICAL INSTRUCTOR

Information found in Section 2 is to be shared between the student and the clinical instructor(s) at midterm and final evaluations. Additional copies of Section 2 should be made when there are multiple CIs supervising the student. Information contained in this section is confidential and will not be shared by the academic program with other students.

Assessment of Clinical Instruction

22. Using the scale (1 - 5) below, rate how clinical instruction was provided during this clinical experience at both midterm and final evaluations (shaded columns).
