

Project Overview: Existing bridge will be removed and replaced with a widened structure which will accommodate one lane in each direction, shoulders and a left turn lane. The existing traffic signal at Edinburg Road and Windsor Road will be upgraded and a new traffic signal will be installed at Robbinsville-Edinburg Road and Old Trenton Road. : During construction, Old Trenton Road between Robbinsville Road and Windsor/Edinburg Road will be closed to traffic. Access will be provided for local residents, however, the bridge will not be service.

Project Duration: Construction is scheduled to start July 15, 2013 and is anticipated to be completed November 27, 2013, weather permitting.

Detour Route: Traffic will be directed to Robbinsville Road, Route 33, Route 130, Chuch Street/Windsor Road. The contractor will post detour signs as well as signs in advance of the start date notifying motorists of the pending road closure.
