

EXAM 4 – STUDY GUIDE
PSY 210-Abnormal Psychology
Professor Jennings

The exam will be 75 multiple-choice questions. Most of the questions will be based on material covered in lecture. It is also important that you read the chapters in the textbook – there will be question that will come directly from the textbook (material not covered in lecture). If you can answer the questions on this study guide... you should have no problem with the exam. I am going to focus on the big concepts. If want you to be able to understand and apply the material ... not just spit back the facts.

Ch.9-Sexual Disorders

1. What is “normal” sexuality?
 - a. What is Gender Identity Disorder?
