Emergency Training

Emergency Medical Technician (EMT)

Required: All students must obtain a Health Care Provider Level CPR card prior to the start of the class

During the 220-hour Emergency Medical Technician (EMT) course, you will learn about human anatomy and physiology, pathophysiology, patient assessment techniques, management of common medical complaints, management of the trauma patient, administration of limited medications, and concerns for special patient populations. Course material will be presented through lectures, simulation labs, and clinical rotations where students will interact with patients. Successful course completion requires obtaining the minimal level of competency as outlined in the National EMS Educational Standards. After successfully completing this course, students will be eligible to sit for either the NJ EMT Certification exam or the National Registry EMT Certification exam to obtain certification. It is recommended that each student have a Stethoscope, B/P Cuff and Penlight for each class (More information given at 1st class).

Attendance at all sessions is mandatory. Textbook required. Available in college bookstore.
