Business Writing for Success
Never underestimate the power of professional writing. With text messaging, chain-emails, Twitter and Instagram, writing content has become quick, punchy and informal. That delivery, when transposed into business communication methods, can come across as terse, unprofessional and grammatically flawed. This workshop will strengthen your professional writing style through instruction on clarity, tone, grammatical insight, peer and instructor review, in-class assignments and writing style discussions. Come away from this class with the tools you need to develop internal and external business memos/announcements, corporate emails and cover letters.
