1. Solve for $x$.

$$16 + x = y$$

2. Solve for $z$.

$$A = x + 6 + z$$

3. Solve for $W$.

$$A = 5W$$

4. Solve for $y$.

$$K = 4yz$$

5. Solve for $B$.

$$A = 7B + C$$
6. Solve for \( y \).

\[ C = 5(y - 4) \]

7. Solve for \( x \).

\[ w = \frac{1}{6}(x + y - z) \]

8. Solve for \( y \).

\[ 5 = \frac{x}{y} \]

9. Solve for \( f \).

\[ h = \frac{k - a}{f - 7} \]

10. Solve for \( p \).

\[ s = \frac{9}{p} + \frac{5}{r} \]
