Course Descriptions

Course descriptions appear on the following pages alphabetically by course prefix. The three-letter prefix identifies subject area; the three digits that follow identify the particular course. Generally, courses numbered 100 or lower are academic foundation courses; courses numbered from 101 to 199 are first-year offerings; and 200-level courses are second-year offerings.

Each description specifies the course’s credit value, which determines the tuition charge and the extent to which the course contributes toward the credit requirements for a degree.

Throughout the course descriptions, the indicator at left identifies approved General Education courses. (See page 130 for details.)

Subjects and Prefixes

Accounting (ACC) ..................................................... 132
Advanced Manufacturing Technology (AMT) ............ 133
Advertising + Graphic Design (ADV) ...................... 132

Unmanned Aerial Systems (UAS) .......................... 186
Visual and Performing Arts (VPA) .......................... 186
Women’s and Gender Studies (WGS) ....................... 186

All courses require college-level competence in reading, writing, and basic mathematics unless otherwise specified. Minimum proficiency is determined by one of the following: college skills placement test; completion of required academic foundations courses in reading, writing, and computation; or evidence of equivalent academic preparation. Specific skill requirements and additional course prerequisites are noted in individual course descriptions.

Prerequisites and Corequisites
Some courses require specific prerequisites or corequisites.

- A prerequisite is a course that must be completed before a student is permitted to register for the more advanced course.
- A corequisite is a course that a student must take either prior to or while enrolled in the related course.

www.mccc.edu
General Education Electives

The development of competence in critical thinking, writing, speaking, problem-solving, and information literacy is essential to a student’s educational and career success. General Education courses provide students with the opportunity to develop these skills (see MCCC policy, page 24).

The following courses approved for the purposes of General Education at Mercer County Community College are regarded as General Education courses at many, but not all, other colleges and universities in New Jersey and other states. The Statewide Transfer Agreement guarantees transfer of all approved courses that meet General Education requirements for graduates from A.A. and A.S. programs transferring to New Jersey’s four-year public colleges and universities. Non-graduates may determine whether particular courses will meet requirements at other New Jersey colleges or universities via NJ Transfer (www.njtransfer.org). Students interested in transferring to out-of-state colleges and universities should consult the catalogs, websites, and staff of those institutions.

Students are advised to review the specific General Education requirements in their respective MCCC programs of study.

Written and Oral Communication in English

CMN 111 Speech: Human Communication
CMN 112 Public Speaking
ENG 101 English Composition I
ENG 102 English Composition II
ENG 112 English Composition II with Speech (A.A.S. programs only)

Mathematics

MAT 115 Algebra and Trigonometry I
MAT 116 Algebra and Trigonometry II
MAT 120 Mathematics for Liberal Arts
MAT 125 Elementary Statistics I
MAT 126 Elementary Statistics II
MAT 135 Intermediate Algebra with Applications
MAT 140 Applied College Algebra
MAT 146 Pre-calculus
MAT 149 Calculus
MAT 151 Calculus I
MAT 152 Calculus II
MAT 200 Statistics for Social and Health Sciences I
MAT 201 Probability and Statistics for Science and Engineering
MAT 205 Statistics for Social and Health Sciences II
MAT 208 Linear Algebra
MAT 251 Calculus III
MAT 252 Differential Equations

Science

BIO 101 General Biology I
BIO 102 General Biology II
BIO 103 Anatomy and Physiology I
BIO 104 Anatomy and Physiology II
BIO 106 Human Anatomy
BIO 113 Biological Science Concepts
* BIO 114 Environmental Science Concepts
* BIO 115 Microbiological Science Concepts
BIO 201 Microbiology
BIO 203 Entomology
BIO 204 Ecology
BIO 208 Genetics
* BIO 215 Principles of Microbiology
CHE 101 General Chemistry I
CHE 102 General Chemistry II
CHE 106 Chemical Science Concepts
CHE 107 General and Physiological Chemistry
CHE 201 Organic Chemistry I
CHE 202 Organic Chemistry II

Technology

COS 101 Introduction to Computer Science
COS 102 Computer Science I – Algorithms and Programming
DMA 144 Internet Tools and Techniques
IST 101 Computer Concepts with Applications
IST 102 Computer Concepts with Programming
IST 109 Introduction to Programming
IST 140 The Internet and Computer Technology

Social Science

• ANT 101 Anthropology
ECO 103 Basic Economics
ECO 111 Macroeconomics
ECO 112 Microeconomics
• GEO 101 Geography
• GEO 102 Cultural Geography
POL 101 The American Political System
POL 102 State and Local Government
POL 201 International Relations
PSY 101 Introduction to Psychology
PSY 206 Child Development
PSY 207 Developmental Psychology: Across the Life Span
SOC 101 Introduction to Sociology
SOC 107 Social Problems
SOC 201 Marriage and the Family

Look for this indicator of approved General Education courses throughout the course descriptions on pages 132-186.
### Humanities

#### Literature
- ENG 201 Introduction to Literature: Drama
- ENG 202 Introduction to Literature: Novel
- ENG 203 World Literature I
- ENG 204 World Literature II
- ENG 205 American Literature I
- ENG 206 American Literature II
- ENG 208 Modern American Novel
- ENG 211 Shakespeare
- ENG 212 Introduction to Literature: Poetry
- ENG 213 African American Literature
- ENG 216 Literature Into Film
- ENG 221 Women in Literature
- ENG 227 English Literature I
- ENG 228 English Literature II
- ENG 238 American History and Literature

#### Aesthetic Appreciation
- ART 101 Art and Culture
- ART 121 History of Art I
- ART 122 History of Art II
- ART 123 History of Modern Art
- ART 124 History of Non-Western Art
- ART 125 Topics in Contemporary Art
- CMN 107 Cinema
- DAN 101 Introduction to Dance and Culture
- MUS 103 Introduction to Music
- MUS 155 History of Jazz and Blues
- MUS 156 History of American Pop Music
- MUS 224 Music History and Literature I
- MUS 225 Music History and Literature II
- PHO 110 History of Photography
- THR 101 Introduction to Theatre
- THR 210 Theatre History – Classical to Elizabethan
- THR 212 Central Voices in World Drama

#### Philosophy
- PHI 102 Introduction to Philosophy
- PHI 112 Critical Thinking
- PHI 113 Logic
- PHI 204 Ethics
- PHI 205 Moral Choices
- PHI 210 Eastern Philosophy

#### Religious Studies
- REL 101 Introduction to Religious Studies
- REL 102 Living World Religions

#### World Language
- ASL all American Sign Language courses
- ARB all Arabic courses
- CHI all Chinese courses
- FRE all French courses
- GER all German courses
- ITA all Italian courses
- JPN all Japanese courses
- LAT all Latin courses
- SPA all Spanish courses

#### Misc. Humanities
- SPA 110 Hispanic Culture

### History

*All courses in the Historical Perspective list additionally qualify as Humanities general education.*

#### Historical Perspective
- HIS 101 History of Western Civilization to 1648
- HIS 102 History of Western Civilization Since 1648
- HIS 105 United States History to 1865
- HIS 106 United States History Since 1865
- HIS 109 African American History
- HIS 112 World History to 1500
- HIS 113 World History Since 1500
- HIS 213 Twentieth-Century World History
- HIS 214 The United States Since 1945
- HIS 218 History of Latin America
- HIS 221 History of American Women
- HIS 231 Women in Antiquity

#### Diversity and Global Perspective
- ANT 101 Anthropology
- ARC 141 Architecture and Culture: International
- ART 124 History of Non-Western Art
- ART 126 African American Art
- BUS 230 Global Environment of Business
- CMN 214 Issues in Intercultural Communication in the United States
- CMN 215 Gender and Communication
- DAN 101 Introduction to Dance and Culture
- ENG 203 World Literature I
- ENG 204 World Literature II
- ENG 213 African American Literature
- ENG 221 Women in Literature
- ENG 222 Children’s Literature
- ENG 232 Post-Colonial Women Writers
- GEO 101 Geography
- GEO 102 Cultural Geography
- HIS 109 African American History
- HIS 112 World History to 1500
- HIS 113 World History Since 1500
- HIS 213 Twentieth-Century World History
- HIS 215 The Holocaust and Other Genocides
- HIS 218 History of Latin America
- HIS 221 History of American Women
- HIS 231 Women in Antiquity
- HIS 232 Women in Europe Since 1500
- HOS 115 Food and Culture
- MUS 155 History of Jazz and Blues
- MUS 156 History of American Pop Music
- PHI 210 Eastern Philosophy
- POL 201 International Relations
- PSY 215 Human Sexuality
- PSY 221 The Psychology of Women
- REL 102 Living World Religions
- SOC 132 Introduction to Women's and Gender Studies
- SOC 201 Marriage and the Family
- SOC 209 Racial, Ethnic, and Minority Groups
- SPA 110 Hispanic Culture
- THR 212 Central Voices in World Drama
- WGS 132 Introduction to Women’s and Gender Studies
- WGS 221 Seminar in Women’s and Gender Studies
ACC — Accounting

ACC 106 Office Accounting I 3 credits
Basic accounting course designed for non-transfer students. Emphasizes the techniques of double-entry bookkeeping: journalizing, posting, adjusting and closing entries; and financial statement preparation. 3 lecture hours

ACC 108 Hospitality Accounting 3 credits
Introductory accounting course integrating the special accounting requirements of the hospitality industry with generally accepted accounting principles. 3 lecture hours

ACC 109 Food, Beverage, and Labor Cost Control 3 credits
*Prerequisite: ACC 108 with a minimum C grade*
Principles and theories underlying cost control as it applies to the hospitality industry. Problem-solving using spreadsheet software is integral component of instruction. 3 lecture hours

ACC 111 Principles of Financial Accounting 4 credits
*Prerequisite: MAT 037 (or MAT 037A and 037B) or equivalent proficiency*
Study of the accounting cycle and how accounting data impacts business decisions. Emphasis on understanding the "why" of accounting as well as the "how." 4 lecture hours

ACC 112 Principles of Managerial Accounting 4 credits
*Prerequisite: ACC 111 with a minimum C grade*
Study of the uses of accounting information for managerial decision-making. Areas covered include manufacturing, merchandising, and service cost systems; cost-volume-profit analysis; and budgeting and capital investment decision-making. 4 lecture hours

ACC 201 Intermediate Accounting I 3 credits
*Prerequisite: ACC 111 with a minimum C grade*
Detailed study of accounting theory and practice as they relate to cash; receivables; inventories; investments; property, plant and equipment; and intangible assets. 3 lecture/1 laboratory hours

ACC 202 Intermediate Accounting II 3 credits
*Prerequisite: ACC 201 with a minimum C grade*
Continuation of ACC 201. Topics in the study of accounting theory and practice include liabilities, stockholder equity, cash flows, and leases. 3 lecture/1 laboratory hours

ACC 203 Federal Income Taxation 3 credits
*Prerequisite: ACC 111 with a minimum C grade*
Study of income taxation as it applies to small businesses and individual taxpayers. Topics include gross income, exclusions, deductions, credits, exemptions, and capital gains. Computer software is used to prepare tax returns. [Fall offering] 3 lecture hours

ACC 204 Auditing 3 credits
*Prerequisite: ACC 201 with a minimum C grade*
Investigation into and application of the objectives and procedures governing auditing requirements, standards, and examinations. [Spring offering] 3 lecture/1 laboratory hours

ACC 205 Office Accounting II 3 credits
*Prerequisite: ACC 106 with a minimum C grade*
Continuation of ACC 106. Topics include receivables and payables; merchandise inventory; plant and equipment; corporations; partnerships; and internal control. 3 lecture hours

ACC 207 Computerized Accounting 3 credits
*Prerequisite: ACC 111 with a minimum C grade*
Introduction to general ledger accounting on PCs. Students acquire a working knowledge of software packages currently used in industry. 2 lecture/2 laboratory hours

ACC 214 Accounting for Non-Profit Organizations 3 credits
*Prerequisite: ACC 111 with a minimum C grade*
Study of generally accepted accounting principles as they apply to non-profit organizations, with emphasis on governmental agencies. Additional focus includes accounting for colleges and universities as well as hospitals and health organizations. 3 lecture hours

ACC 215 Cost Accounting 3 credits
*Prerequisite: ACC 112 with a minimum C grade*
Examination of the accounting practices to record and control material, labor, and overhead costs. Study includes job-order, process cost and standard cost systems for manufacturing and service firms. 3 lecture/1 laboratory hours

ADV — Advertising + Graphic Design

ADV 101 Advertising Design I 3 credits
*Prerequisite: DMA 105 or divisional permission*
Study of the principles and concepts of layout and design as applied to a variety of advertising and graphic design assignments: ads, brochures, logos, posters, book jackets, and sales promotion material. Promotes familiarity with advertising agency and studio procedures as well as professional techniques for producing layouts, comprehensives, and finished art. [Spring and Summer offering] 1 lecture/4 studio hours

ADV 102 Advertising Design III: Portfolio 3 credits
*Prerequisites: ADV 101, ADV 201, DMA 105 or divisional permission*
Study of the advanced concepts and design principles used in planning visualizations and layouts for advertising and editorial presentations using art, photography, type, and illustrations. Survey of methods for developing ideas into graphic presentations and the intangibles that provide originality and variety in a creative field using the Macintosh computer. [Fall offering] 1 lecture/4 studio hours

ADV 103 Typography II: Creative Layout 3 credits
*Prerequisites: ADV 101, DMA 105 or divisional permission*
Introduction to basic layout and typography as the fundamental language to graphic communication. No previous knowledge of layout and typography is presumed. Addresses the use of different typefaces to communicate visually desired effects, type forms, type indication and basic graphic design with type for layouts. 1 lecture/4 studio hours
ADV 220 Illustration I 3 credits
Prerequisites: ART 102 and ART 104 with a minimum C grade or divisional permission
Introduction to the concepts, techniques, and skills of the contemporary illustrator, emphasizing that good illustration – product or journalistic – is a means of communication. Assignments involve book and magazine illustration, visualization, and exercises in rendering light and shadow, plus production of comprehensive art in various media.
1 lecture/4 studio hours

ADV 222 Illustration II: Digital Drawing 3 credits
Prerequisites: ART 102, ART 104, DMA 105
Interdisciplinary course combining illustration with other fine art and advertising design skills to create a professional commercial art portfolio.
1 lecture/4 studio hours

ADV 230 History of Graphic Design 3 credits
Prerequisites: ENG 101 or permission of instructor; Internet access for Web-based instruction
A survey of the history of graphic design from its origins to present day. This overview of graphic design develops visual vocabulary, provides a cultural and historical context, and instructs students in researching areas of interest to broaden their knowledge of contemporary graphic design.
3 lecture hours

AMT — Advanced Manufacturing Technology

AMT 231 Introduction to Computer Numerical Controlled (CNC) Machines 3 credits
Prerequisites: MET 123, MET 124
Introduces the theory and practical concepts of computer numerical controlled (CNC) machining equipment used in industry to manufacture extremely precise machine tool products. Topics include CNC equipment and terminology, G and M code familiarization, and machine tool safety practices. Corresponding labs reinforce lectures with practical hands-on examples which follow NIMS certification requirements.
2 lecture/3 laboratory hours

AMT 232 Advanced Computer Numerical Controlled (CNC) Machines 3 credits
Prerequisite: AMT 231
Investigates advanced theory and practical CAD/CAM (computer-aided drafting / computer-aided manufacturing) software concepts on computer numerical controlled (CNC) machining equipment used in industry to manufacture extremely precise and complicated machine tool products. Topics include CAD/CAM software (Mastercam) to produce complex machined parts, G and M code post-processing operations, and machine tool safety practices. Corresponding labs reinforce lectures with practical hands-on examples which follow NIMS certification requirements.
2 lecture/3 laboratory hours

AMT 290 Advanced Manufacturing Technology Internship 2 credits
Prerequisite: coordinator approval
Introduces students to work experience in a manufacturing environment.
100 work experience hours

ANT — Anthropology

ANT 101 Anthropology 3 credits
Corequisite: ENG 101 or college-level eligibility
Explores anthropology – the study of humankind in all places at all times – in its “four fields”: physical anthropology (the systematic study of humans as biological organisms); archaeology (the study of human cultures through the recovery and analysis of material remains and environmental data); linguistic anthropology (the study of human language); and cultural anthropology.
3 lecture hours

ANT 222 The Anthropology of Myths, Magic and Witchcraft 3 credits
Prerequisite: ENG 101 or college-level eligibility
Examines the supernatural belief systems and practices of various cultures. Myths, rituals, animism, witchcraft, magic, shamanism, and syncretic religions are critically analyzed to understand the integrative effects of the sacred world. From that foundation, study progresses with a cross-cultural, anthropological comparison of religion and the supernatural.
3 lecture hours

ARB — Arabic

Note: Students who have taken two or more years of a foreign language, and have done so in the last two years, should begin that language at the 200 level or switch to a new language. If there is doubt, placement will be determined by testing or consultation with the academic division.

ARB 101 Beginning Arabic I 3 credits
The first in a sequence of courses designed for students with little or no prior knowledge of Arabic. Spoken communication in Arabic is both the end goal and the means of instruction. Emphasizes the four communicative skills in a culturally authentic context. Reading and writing are assigned out of class to facilitate effective listening and speaking practice in class. Basic grammar skills are also introduced.
3 lecture hours

ARB 102 Beginning Arabic II 3 credits
Prerequisite: ARB 101 with a minimum C grade, placement by exam, or permission of instructor
The second in a sequence of courses designed for students with little or no prior knowledge of Arabic. Spoken communication in Arabic is both the end goal and the means of instruction. Emphasizes the four communicative skills in a culturally authentic context. Reading and writing are assigned out of class to facilitate effective listening and speaking practice in class. Basic grammar skills are also introduced.
3 lecture hours

ARB 201 Intermediate Arabic I 3 credits
Prerequisite: ARB 102 with a minimum C grade, placement by exam, or permission of instructor
The first in a sequence of courses designed for students with a mid to high novice level of competency in Arabic. Spoken communication in Arabic continues to be the end goal and the means of instruction. The four communicative skills of reading, writing, listening and speaking are applied to discussions and debates involving Arab culture, politics, and history. Fundamental grammar points are reviewed.
3 lecture hours
ARC — Architecture

ARC 102 Graphic Communication for Architecture 3 credits
Corequisite: ARC 121
A lecture/studio course aimed at developing architecture students' graphic communication skills. Analytic and descriptive drawings of buildings, everyday objects, trees, plantings, and people are rendered using pencil, pen and ink, as well as through an introduction to digital imaging and computer-aided design software. 1 lecture/4 laboratory hours

ARC 104 Computers in Architecture 3 credits
Prerequisite: ARC 121
Corequisite: ARC 123
Introduction to the use of the computer in architecture as a three-dimensional design/drawing tool. Students build 3-D models using parametric modeling software and manipulate three-dimensional forms, scenes, colors, textures, lighting, and cameras to design effective compositions. Applicable to Windows-based computers. 1 lecture/4 laboratory hours

ARC 106 Introduction to the Architectural Environment 3 credits
Prerequisites: ENG 101 and ARC 104
An introduction to the study of human environments and the design of spaces that relate to human needs and behavior. Focus is on the study of the ways in which architecture and urban planning influence human behavior. 1 lecture/4 studio hours

ARC 121 Architecture Basic Design I 5 credits
Corequisite: ARC 102 or divisional permission
Explores fundamental principles and elements of design: form, space, composition, systems, context, imagery, as well as functional and structural organizations. Solutions to architectonic design projects explored through presentation drawings and study models. Simple presentation graphics and model-building are introduced. [Fall offering] 1 lecture/8 studio hours

ARC 122 History of Architecture 3 credits
Survey of the development of architecture from ancient civilizations to 1860. Social, religious, economic, technological, and aesthetic factors are explored to understand fully their influence on the development of buildings and cities. 3 lecture hours

ARC 123 Architecture Basic Design II 5 credits
Prerequisite: ARC 121 with a minimum C grade
Further study of the fundamental principles and elements of architectural design through a series of projects having increased complexity and depth of expression using more advanced presentation graphic techniques. Emphasis continues on the development of process drawing and model-building skills to explore design ideas. [Spring offering] 1 lecture/8 studio hours

ARC 124 History and Theory of Modern Architecture 3 credits
Explores the social conditions and major personalities that influenced architectural developments from the Industrial Revolution to the present. 3 lecture hours

ARC 125 Architecture and the Environment 3 credits
Introductory course exploring the various relationships between the man-made world and the natural world. Human perceptions of the physical environment are studied relative to their effects on architectural design and human behavior. Analysis of the urban environment reveals the impact of architecture on quality of life. 3 lecture hours

ARC 134 Building Construction Systems 3 credits
Corequisites: ARC 227, sophomore standing in Architecture or divisional permission
Introductory survey of general concepts of sustainable design as they relate to building construction. Includes site, structural, environmental, envelope systems, materials and building systems. Focus is primarily on low-rise wood and steel structures. 3 lecture hours

ARC 140 Field Studies in Architecture and Urban Planning: America 3 credits
Prerequisite: ENG 101 and approval of instructor
Investigation of architectural characteristics and urban planning patterns in select regions. Extended travel in groups creates an “immersion experience.” Students study/buildings, analyze physical characteristics of different environments, and consider the built environment’s impact on quality of life. [Occasional offering] 24 lecture/21 lab (overseas) hours

ARC 141 Architecture and Culture: International 3 credits
Prerequisite: ENG 101 and approval of instructor
Exploration of the history, culture, technology, and quality of life as revealed and understood through the architecture and town planning in selected regions overseas. Travel to the selected region is a major component of the course, providing the student with the opportunity to experience the subjects introduced in the lectures prior to the trip. [Occasional offering] 1 lecture/8 studio hours

ARC 227 Architecture Design I 5 credits
Prerequisite: ARC 123 with a minimum C grade
Sophomore-level design course emphasizing the exploration and development of architectural design concepts and their translation into physical form. Three to four major design problems challenge the student’s preconceptions about architecture and stimulate the growth of an architectural vocabulary. [Fall offering] 1 lecture/8 studio hours

ARC 228 Architecture Design II 5 credits
Prerequisite: ARC 227 with a minimum C grade
Corequisite: ARC 124
Builds on the foundation of ARC 227. More advanced design challenges help the student to sharpen design skills and to continue expanding an architectural vocabulary. [Spring offering] 1 lecture/8 studio hours

ARC 285 Special Studies in Architecture and Urban Planning 3 credits
Prerequisites: ARC 228 with a minimum C grade and divisional permission
Opportunity for students who have completed regular course offerings to continue their studies at advanced levels. Individual students and faculty develop a project contract that sets forth objectives, standards of quality, evaluation guidelines, and deadlines. [Occasional offering] 3 lecture hours

ART — Fine Arts, Art History

ART 101 Art and Culture 3 credits
Introduction to major movements of Western art as they relate to cultural influences, expanding knowledge, technological change, and effects on modern society. Through studio work, students investigate the intellectual aspects of traditional drawing, painting, and mixed media techniques. 2 lecture/2 studio hours

ART 102 Basic Drawing 3 credits
Examines the fundamentals of seeing line and value through studies of nature, still-life arrangements, the human figure, and concepts of perspective. Various media are used including ink, charcoal, and graphite. 1 lecture/4 studio hours
ART 103 Freehand Drawing for Architects 3 credits
A lecture/studio course for developing the architecture student's freehand drawing skills, with emphasis on analytic and descriptive drawings of buildings, everyday objects, trees, plantings and people. Media used are pencil, pen and ink, and felt tip pen. 1 lecture/4 studio hours

ART 104 Life Drawing 3 credits
Prerequisite: ART 102
Experience in drawing the human figure and developing an understanding of form, volume, structure, and anatomy. Exercises include gesture drawing and sustained poses. Various media are used. 1 lecture/4 studio hours

ART 105 Two-Dimensional Design 3 credits
Intensive investigation of such essential principles as form, line, space, color, balance, and unity in two-dimensional design. Projects are assigned in sequence leading to specific visual solutions. Various media are used. 1 lecture/4 studio hours

ART 106 Three-Dimensional Design 3 credits
An intensive investigation of the use of the formal elements of art and design according to the principles of organization in three-dimensional composition. Various media, techniques, and equipment are introduced. 1 lecture/4 studio hours

ART 121 History of Art I 3 credits
Focus on the aesthetic and historical evaluation of artists, styles, and cultures from the prehistoric period through Gothic art. Color slides are analyzed and discussed. 3 lecture hours

ART 122 History of Art II 3 credits
Survey of artists, styles, and cultures from the Renaissance through mid-19th century European and American art. Investigates the aesthetics of various movements. Color slides are analyzed and discussed. 3 lecture hours

ART 123 History of Modern Art 3 credits
Comprehensive survey of the modern period in art beginning with Manet and continuing through the varied styles, schools, and movements of the 20th century. Color slides are analyzed and discussed. 3 lecture hours

ART 124 History of Non-Western Art 3 credits
Focus on the aesthetic and historical evaluation of artists, styles, and cultures from India, China, Japan, Indonesia, Thailand, Cambodia, and pre-Columbian America. Color slides are analyzed and discussed. 3 lecture hours

ART 125 Topics in Contemporary Art 3 credits
Prerequisite: ENG 101 or divisional permission
Exploration of trends and topics in contemporary art from 1945 to the present, involving a diverse range of artists who challenge preconceived notions of the role of art in today's society. Students learn to identify, analyze, and write about art through multi-media presentations, discussions, artists' talks, and a field trip. 3 lecture hours

ART 126 African American Art 3 credits
Comprehensive survey of the aesthetic and historical evaluation of African American art, artists and culture from colonial times to the present. Includes slide analysis, discussion, and museum visits. 3 lecture hours

ART 130 Painting I 3 credits
Prerequisite: ART 102 or ART 105 or divisional permission
Examination of the relationships of materials, media, and techniques in both figurative and abstract art. The elements of color and composition are introduced and explored. At the discretion of the instructor, students are advised to work in either acrylic or oil color. 1 lecture/4 studio hours

ART 141 Sculpture I 3 credits
Introduction to modeling the human figure. Develops basic understanding of vocabulary of form while mastering technical skills, plus acquaintance with several media and with organizing form and space. 1 lecture/4 studio hours

ART 145 Beginning Ceramics: Handbuilding 3 credits
Introduction to basic clay experience, devoted to the handbuilding techniques of pinch, drape, press, slab, and coil to produce functional and sculptural ceramic objects. Introduces the technical aspects of colored slips and glazing. Stresses development of a personal appreciation of form. 1 lecture/4 studio hours

ART 150 Printmaking I 3 credits
Study of the basic concepts, techniques, tools, and materials required to work in the production of surface, relief, and intaglio prints. Paper selection, preparation of ink, and operation of the presses are discussed and demonstrated. 1 lecture/4 studio hours

ART 230 Painting II 3 credits
Prerequisite: ART 130 with a minimum C grade
Training and experience in the observation and application of painting media, acrylic or oil. Involves guidance in transforming what is observed or conceived into graphic and plastic forms, including traditional challenges of painting and composition, working with light, color, weight, and dimension. 1 lecture/4 studio hours

ART 232 Advanced Painting and Drawing 3 credits
Prerequisites: ART 104, ART 230 with a minimum C grade
Intensive course designed for the advanced student, making drawing and painting a unique and personal experience. Through instructor guidance, the student develops a personalized approach to composition, color, and technique. Includes classroom critiques, outside assignments, and possible field trips. [Spring offering] 1 lecture/4 studio hours

ART 233 Watercolor Painting 3 credits
Prerequisite: ART 102 with a minimum C grade or permission of instructor
Combining technical knowledge with practice, introduces the beginning watercolor painter to the materials and techniques of the past and present. The student studies various approaches to painting with watercolor, tempera, and wash and acquires a basic understanding of the proper selection of paper, brushes, paints and equipment. 1 lecture/4 studio hours
### ART — American Sign Language

<table>

### AUT — Automotive Technology

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>AUT 110</td>
<td>Introduction to Automotive Electronics</td>
<td>3</td>
<td>Prerequisite: MAT 033 or MAT 041 Corequisite: AUT 111 An introduction to voltage, current and resistance, series and parallel circuits, batteries, and electronic components. Also covers wiring schematics, wire repair, and circuit troubleshooting. For automotive students. 3 lecture/1 laboratory hours</td>
</tr>
<tr>
<td>AUT 111</td>
<td>Automotive Service Fundamentals</td>
<td>5</td>
<td>Corequisite: AUT 110 Introduction to the automobile and its operating systems. Emphasizes theories of operation, service facility practices and current servicing procedures, with detailed attention to each individual system including diagnosis and repair. Personal safety policies in the work environment are stressed in detail. 2 lecture/6 laboratory hours</td>
</tr>
<tr>
<td>AUT 112</td>
<td>Automotive Fuel Systems</td>
<td>3</td>
<td>Prerequisite: AUT 110, AUT 111 with a minimum C grade Examines automotive and light truck fuel systems in use today. Coverage includes fuel basics, alternative fuels, electronic fuel injection system applications and on-board diagnostics (OBD II) with focus on theory of operation, driveability diagnostic procedures, and use of computerized diagnostic equipment. 2 lecture/2 laboratory hours</td>
</tr>
<tr>
<td>AUT 113</td>
<td>Suspension, Steering and Alignment</td>
<td>4</td>
<td>Prerequisite: AUT 110, AUT 111 with a minimum C grade Theory of operation and service of vehicular suspension and steering systems, with emphasis on component inspection and replacement. Addresses four-wheel alignment with lab activities using a drive-on alignment rack and computer alignment machine. 2 lecture/4 laboratory hours</td>
</tr>
<tr>
<td>AUT 114</td>
<td>Automotive Electricity and Electronics</td>
<td>3</td>
<td>Prerequisite: AUT 110, AUT 111 with a minimum C grade How electrical/electronic principles are used in current automotive systems. Subjects include vehicle module communications, starting and charging systems, wiring diagrams, chassis wiring service, occupant restraint systems, and other automotive accessories. Major emphasis is on diagnostic skills, testing procedures, and proper service and repair of components. 2 lecture/2 laboratory hours</td>
</tr>
<tr>
<td>AUT 115</td>
<td>Automotive Brake Systems</td>
<td>4</td>
<td>Prerequisite: AUT 110, AUT 111 with a minimum C grade The principles and servicing of both disc and drum brake systems used on today's automobiles and light trucks, including computer-controlled anti-lock braking systems with traction and stability control. Emphasis on malfunction diagnosis, use of road testing techniques and visual brake inspection procedures, repair integrity, plus hydraulic theory and component machining operations. 2 lecture/4 laboratory hours</td>
</tr>
</tbody>
</table>
COURSES

**AUT 122** Internship in Automotive Technology I 1 credit
*Prerequisites: AUT 110, AUT 111 with a minimum C grade
Corequisites: AUT 211, AUT 212

**AUT 123** Internship in Automotive Technology II 1 credit
*Prerequisites: AUT 114, AUT 115

**AUT 221** Internship in Automotive Technology III 1 credit
*Prerequisites: AUT 213, AUT 224

**AUT 222** Internship in Automotive Technology IV 1 credit
*Prerequisites: AUT 225

Application of knowledge acquired from lecture and laboratory instruction to gain relevant on-the-job experience in repairing customer vehicles in an actual automotive service facility. The apprentice is supervised by an experienced service employee who works with the program coordinator in developing goals and evaluating performance.

300 work experience hours

**AUT 211** Automotive Emissions and Driveability 3 credits
*Prerequisite: AUT 112 with a minimum C grade
Examines the relationship of automotive emissions with engine driveability concerns. Utilizing information presented in AUT 111 and AUT 112, proper diagnosis of driveability concerns and recommended repair procedures are explored to achieve the best performance and reduced emissions. Emission control devices are examined with an emphasis on operation and emission standards.

2 lecture/2 laboratory hours

**AUT 212** Automotive Air Conditioning 3 credits
*Prerequisites: AUT 110, AUT 111 with a minimum C grade
Examines automotive air conditioning/heating systems in use today, with topics ranging from fundamentals of refrigeration to automatic temperature control (ATC) system operation. Addresses proper diagnosis and repair of systems and components as well as environmental obligations.

2 lecture/2 laboratory hours

**AUT 213** Engine Service 4 credits
*Prerequisites: AUT 110, AUT 111 with a minimum C grade
Diagnosis, failure analysis, and rebuilding procedures for automobile engines. Topics include engine operating principles, component measurement techniques, engine removal and installation, and service information usage for diagnosis. Each student is required to completely disassemble, diagnose, and assemble several four-cycle engines. Involves extensive use of special tools and equipment.

2 lecture/4 laboratory hours

**AUT 223** Internship in Automotive Technology – Independent Study 1 credit
*Prerequisites: AUT 114, AUT 115, AUT 122, AUT 123, AUT 211, AUT 212, AUT 213, AUT 221, AUT 222, AUT 224, AUT 225
Application of knowledge acquired from lecture and lab instruction to gain relevant, practical on-the-job experience in repairing customer vehicles in an actual automotive service facility. An experienced service employee within the business supervises the student/apprentice and works with the automotive program coordinator in developing goals and evaluating performance.

320 work experience hours

**AUT 224** Manual Transmissions and Drivelines 3 credits
*Prerequisites: AUT 110, AUT 111 with a minimum C grade
Study of automotive systems for torque multiplication and speed reduction includes the relationship of engine speed and vehicle speed and its effect on fuel economy. Other topics include clutch service, front and rear wheel drive applications, component replacement, differentials, diagnosis, removal and reinstallation procedures, and transmission overhaul. Involves extensive use of special tools and test equipment.

2 lecture/3 laboratory hours

**AUT 225** Automatic Transmission Service 3 credits
*Prerequisites: AUT 110, AUT 111, AUT 224 with a minimum C grade
Principles of operation and proper diagnostic and repair procedures for current automatic transmissions and transaxles, including electronic computer-controlled designs. Covers basic hydraulic theory with emphasis on the use of test equipment for diagnosis and in-car service. Each student is required to disassemble, overhaul, and assemble several automatic transmissions and transaxles.

2 lecture/3 laboratory hours

**AVI — Aviation Technology**

All flight training courses involving the use of an aircraft are taught in conjunction with Infinity Flight Group at Trenton-Mercer Airport.

**AVI 101** Aerospace Development 3 credits
Historical approach to U.S. and international aviation development including man’s first efforts to fly, the development of aircraft, modern growth of the aerospace industry and the impact of aviation and flight on mankind.

3 lecture hours

**AVI 102** Aviation Transportation 3 credits
Study of transportation systems and the aviation industry as they exist today, including applicable government organizations, controls, and regulations as well as career opportunities in aerospace.

3 lecture hours

**AVI 105** Aviation Weather 3 credits
Study of the structure of the atmosphere and weather patterns. Examines weather hazards encountered by commercial pilots, including thunderstorms, turbulence, wind shear, visibility restrictions, icing, and hydroplaning. Coded weather reports, forecasts, weather charts and prognostic charts are utilized in class for flight planning and in-flight decision-making.

3 lecture hours

**AVI 111** Flight Concepts 2 credits
Principles of flight and air navigation, evolution of modern aviation (civil and military), and the basic physiological difficulties experienced in flight. [Occasional offering]

2 lecture hours

**AVI 113** Flight I 2 credits
*Prerequisites: FAA medical, proof of U.S. citizenship or TSA approval
Corequisite: AVI 131
Flight training required to complete the private pilot program by acquiring the aeronautical skills necessary to meet the requirements for the private pilot certificate. Consists of approximately 50 hours of flight training. Special fee required.

1 lecture/3 laboratory hours
AVI 114  Flight II  2 credits  
**Prerequisites:** AVI 113 with a minimum C grade, proof of U.S. citizenship or TSA approval  
**Corequisite:** AVI 132  
Required flight training for the commercial pilot certificate, for the student who has met the requirements for the private pilot certificate in Flight I. Special fee required.  
1 lecture/3 laboratory hours

AVI 131  Commercial Pilot I  3 credits  
**Prerequisites:** AVI 131, successful grade on FAA private pilot computer exam – airplanes  
**Corequisite:** AVI 113 or AVI 114  
Basic knowledge to pass the Federal Aviation Administration commercial pilot examination. Includes multi-engine advanced performance control, advanced meteorology, advanced multi-engine airplane systems, advanced radio navigation, commercial pilot FARs, physiology of flight, environmental systems, flight planning and commercial flight maneuvers.  
3 lecture hours

AVI 132  Commercial Pilot II  3 credits  
**Prerequisites:** AVI 131, successful grade on FAA private pilot computer exam – airplanes  
**Corequisite:** AVI 113 or AVI 114  
Basic knowledge to pass the Federal Aviation Administration commercial pilot examination. Includes multi-engine advanced performance control, advanced meteorology, advanced multi-engine airplane systems, advanced radio navigation, commercial pilot FARs, physiology of flight, environmental systems, flight planning and commercial flight maneuvers.  
3 lecture hours

AVI 203  Aircraft Components  3 credits  
Explores basic components and systems of the aircraft including air frames, power plants, wings and empennage, plus elementary concepts of engine operating theory and construction.  
3 lecture hours

AVI 208  Aviation Seminar  1 credit  
Guest speakers explain their role in the industry and share insights concerning prerequisite experience, the interview process, and prospects for employment.  
1 lecture hour

AVI 213  Flight III  3 credits  
**Prerequisite:** AVI 114 with a minimum C grade  
**Corequisite:** AVI 231 or MAT 115  
Continuation of flight training to obtain the commercial flight certificate, and beginning of instrument flight training. Student completes the solo cross-country requirements and develops a high degree of proficiency in commercial and primary maneuvers. Special fee required.  
1 lecture/4 laboratory hours

AVI 214  Flight IV  3 credits  
**Prerequisite:** AVI 213 with a minimum C grade  
Students develop a high degree of proficiency in single-engine commercial maneuvers and instrument flying. All flight requirements for the single-engine commercial and Instrument rating are completed, and performance meets or exceeds the current FAA instrument and commercial Practical Test Standards. Special fee required.  
1 lecture/4 laboratory hours

AVI 215  Aerodynamics  3 credits  
**Corequisite:** MAT 115  
Analysis of the fundamental theory and elements of applied aerodynamics provides the knowledge and background for safe and effective flying. Lab explores the basic concepts of airfoil angle of attack and lift/drag characteristics.  
2 lecture/2 laboratory hours

AVI 216  Flight V  4 credits  
**Prerequisites:** Helicopter Commercial Certificate with Instrument Rating; FAA-approved Medical; proof of U.S. citizenship or TSA approval  
Students are expected to acquire the aeronautical skill necessary to meet requirements for the Single Engine Land and Commercial Certificate with Instrument Rating. Consists of 70 hours of flight training or the time needed to meet FAA Practical Test Standards and Airman Certification Standards. Be advised additional time may be needed to meet the minimum standards. Fee required.  
1 lecture/3 laboratory hours

AVI 217  Flight VI  1 credit  
**Prerequisites:** Single Engine Land Commercial Pilot Instrument Rating; FAA-approved Medical; proof of U.S. citizenship or TSA approval  
An independent study course involving self-study, ground instruction, simulation, and flight training. Students develop the proficiency, knowledge, and skills to complete the required practical examination to add a multi-engine class instrument rating to their single-engine commercial certificate and instrument rating. This training and assessment consists of 12.5 hours in a multi-engine aircraft.  
1 lecture/1 laboratory hour

AVI 231  Commercial Pilot III  3 credits  
**Prerequisite:** AVI 132  
**Corequisite:** MAT 115  
Complements Flight III and Flight IV courses, with basic information to pass the Federal Aviation Administration Instrument Pilot Examination. Subject areas include altitude instrument flying, instrument flight charts, IFR clearances, and IFR regulations.  
3 lecture hours

AVI 233  Flight Instructor / Airplane  3 credits  
**Prerequisites:** must have passed the FAA Commercial Pilot and Instrument Rating written tests and possess FAA Private Pilot Certificate, or permission of instructor  
**Corequisite:** AVI 214  
Prepares students to pass the Federal Aviation Administration FOI (Fundamentals of Instruction) and FIA (Flight Instructor / Airplane) computer examinations. Includes basic theory of learning and human behavior pertaining to flight instruction, flight instructor's responsibilities, flight training maneuvers, plus review of FARs flight planning and performance.  
3 lecture hours

AVI 250  Airline Transport Pilot (ATP) Prep I  6 credits  
**Prerequisite:** AVI 216  
An independent study course involving self-study, ground instruction, use of simulation devices, and flight training. Students develop the proficiency, knowledge, and skills to complete the required day and night, VFR and IFR, cross-country hours for graduation to the ATP Prep II course. This training and assessment consists of 112.5 hours in single-engine aircrafts. Fee required.  
2 lecture/6 laboratory hours

AVI 251  Airline Transport Pilot (ATP) Prep II  3 credits  
**Prerequisite:** AVI 250  
An independent study course involving self-study, ground instruction, use of simulation devices, and flight training. Students develop the proficiency, knowledge, and skills to complete the required day and night, VFR and IFR, cross-country hours for graduation of the Airline Transport Pilot certificate program. This training and assessment consists of 72 hours in single- and multi-engine aircrafts. Fee required.  
1 lecture/3 laboratory hours
**BCT — Building Construction Technology**

**BCT 101**  Construction Graphics  
3 credits  
Corequisite: BCT 110 or divisional permission  
Introduction to the interpretation of construction drawings for residential and light commercial projects, cultivating an understanding of how plans, elevations, sections, and details relate to each other. Students render basic architectural drawings by hand as well as with CAD software, and consistently practice and apply informal sketching techniques.  
2 lecture/2 laboratory hours

**BCT 104**  Codes for Construction and Design  
3 credits  
Prerequisites: BCT 110, BCT 120  
An overview of regulations for design and/or construction of residences and small buildings, including their applicability and intent subject to the interpretations imposed by the State of New Jersey.  
2 lecture/2 laboratory hours

**BCT 110**  Building Construction Materials and Methods I  
3 credits  
A survey of materials and methods in building construction, emphasizing common construction systems primarily on low-rise light wood and steel structures. Addresses the fundamental processes, organization, and constraints of the construction industry. The building envelope, enclosure systems for thermal insulation, vapor retarders, air barriers, and moisture control are explored with an introduction to the general concepts of sustainable design.  
3 lecture hours

**BCT 112**  Building Construction Materials and Methods II  
3 credits  
Prerequisites: BCT 110, BCT 120  
Continued study of materials and methods in building construction with emphasis on concrete and steel frame structures and masonry load-bearing walls. Exterior wall cladding and curtain wall systems are examined relative to concepts of sustainable design.  
3 lecture hours

**BCT 232**  Construction Estimating  
3 credits  
Prerequisites: BCT 104, BCT 110, BCT 120, ENG 101 or divisional permission  
Examination of the role of construction documents for producing construction job estimates, as well as the roles and responsibilities of the construction cost estimator for both residential and light commercial applications. Along with contracts and various bid types, computer estimating software applications are introduced.  
3 lecture hours

**BCT 234**  Construction Contracts and Specifications  
3 credits  
Prerequisites: BCT 104, BCT 110, BCT 120, ENG 101 with a minimum C grade, or divisional permission  
A detailed examination of construction documents along with methods for producing general, special, and technical sections of construction specifications. Case studies and class discussions contribute toward analysis of construction contracts and practices with regard to business law and liability, as well as contractor, architect, and engineer responsibilities. Students prepare several technical sections for a small commercial building.  
3 lecture hours

**BCT 236**  Construction Project Administration and Management  
3 credits  
Prerequisites: BCT 232, BCT 234, or divisional permission  
Introduction to the design/construction process, contract documents, organization of the construction firm, subcontractor relationships, records and reports, construction safety, and quality control. Bar chart and critical path method scheduling are introduced along with several commonly used computer applications for construction administration and management.  
3 lecture hours

**BIO — Biology**

**BIO 100**  Introductory Biology  
3 credits  
Prerequisite: ENG 034  
Corequisite: MAT 037 or MAT 042 or proficiency in basic algebra  
Selected fundamental principles of biology for students who have not had high school biology or who need a review before taking other courses in biology, horticulture and the life sciences. Topics include scientific inquiry, chemistry of living organisms, techniques of observation, data gathering and analysis. [Does not fulfill any requirements for the Biology A.S. degree.]  
3 lecture hours

**BIO 101**  General Biology I  
4 credits  
Prerequisites: high school biology or BIO 100; high school chemistry or CHE 100; MAT 135 or equivalent  
Corequisite: ENG 101  
Introduces fundamental concepts and principles of biology. Topics include biological chemistry, cell biology, metabolism and energy, cell reproduction, molecular biology, and inheritance. Investigative laboratory exercises develop skills in basic techniques and reinforce lecture material. Required for biology majors.  
3 lecture/3 laboratory hours

**BIO 102**  General Biology II  
4 credits  
Prerequisite: BIO 101 with a minimum C grade  
Introduces fundamental concepts, principles, and applications of biology. Topics include photosynthesis; plant structure, growth and reproduction; animal diversity, form and function; evolution; population ecology; community ecology; and ecosystem dynamics. Investigative laboratory exercises develop skills in basic techniques and reinforce lecture material. Required for biology majors.  
3 lecture/3 laboratory hours

**BIO 103**  Anatomy and Physiology I  
4 credits  
Prerequisites: proficiency in basic algebra; high school biology or BIO 100  
Corequisite: ENG 101  
Systematic approach to the structure and function of the human body; general terminology and organization; cells and tissues; integumentary, muscular, skeletal, and nervous systems. Lab involves microscopy, the study of human anatomy via computer software and preserved specimens, and studies of physiological processes. [Does not fulfill any requirements for the Biology A.S. degree.]  
3 lecture/3 laboratory hours

**BIO 104**  Anatomy and Physiology II  
4 credits  
Prerequisite: BIO 103 with a minimum C grade or permission of course coordinator  
Continuation of BIO 103, covering digestive, circulatory, urinary, reproductive, respiratory, and endocrine systems. Lab includes cat dissection, human anatomy study via computer software, and quantitative studies of physiological processes. [Does not fulfill any requirements for the Biology A.S. degree.]  
3 lecture/3 laboratory hours
COURSES

BIO 106  Human Anatomy  4 credits  
Prerequisite: MAT 037 (or MAT 037A and 037B)  
Introduction to the human body with emphasis on terminol- 
y and body organization from the cellular level to organs 
systems. Topics include histology and skeletal, muscular, 
nervous, integumentary, digestive, respiratory, urinary, re-
productive, circulatory and endocrine systems. (Designed 
for programs requiring a one-semester human anatomy 
course; does not satisfy requirements in biology or health 
programs.)  
3 lecture/2 laboratory hours

BIO 111  Biological Science Concepts  3 credits  
Prerequisite: MAT 037 (or MAT 037A and 037B)  
Survey of fundamental concepts, principles, and phenomena 
in biology. Provides a solid scientific basis on which opinions 
relating to issues in biology can be developed. Topics include 
diversity of life, cell biology, inheritance, biotechnology, and 
body processes. Lab exercises employ the scientific method and 
reinforce lecture concepts. Designed for the non-science major 
or as a foundational course.  
2 lecture/2 laboratory hours

BIO 114  Environmental Science Concepts  3 credits  
Prerequisite: ENG 024 or equivalent proficiency  
Exploration of the fundamental concepts of our local, regional, 
and global environment for the non-science major. Topics 
include aquatic and terrestrial ecosystems, biological and 
chemical principles relating to current environmental issues, 
basic ecological relationships which include plants and 
animals, ecological and technological concerns and advances as 
well as scientific analysis and solutions to current and future 
environmental problems.  
3 lecture hours

BIO 115  Microbiological Science Concepts  3 credits  
Prerequisite: ENG 101 or permission of instructor  
Based on the Unseen Life on Earth series developed in conjunc-
tion with the American Society of Microbiology. Topics 
include microbial cell biology, biotechnological uses of mi-
crobes, and microbial evolution and ecosystems. Also explo-
res the control of microorganisms and relationships be-
tween microbes and higher organisms. [Meets science and 
technology general education requirement.]  
3 lecture hours

BIO 201  Microbiology  4 credits  
Prerequisite: BIO 101 or BIO 103 with a minimum C grade 
or permission of course coordinator  
Explores morphology, taxonomy, and metabolism of mi-
crobes with emphasis on fungi, protozoa, helminths, viruses 
and bacteria. Covers the role of microbes in nature, including 
biochemistry and medical importance; human defense mechanisms; and immunology. The lab develops techniques, reinforces certain lecture content, and introduces new material.  
3 lecture/3 laboratory hours

BIO 202  Woody Plants  4 credits  
Prerequisite: BIO 101 or OHT 101 
or permission of course coordinator  
Designed for ornamental horticulture, plant science, and bi-
ology majors. The lab consists of field studies stressing sight 
identification of both native and ornamental species. Covers 
the use of keys, as time permits. [Spring offering]  
3 lecture/3 laboratory hours

BIO 203  Entomology  4 credits  
Prerequisite: BIO 101 or BIO 102 
or permission of course coordinator  
Intensive survey of the orders of insects, covering compara-
tive anatomy, life cycles, physiology and economic impor-
tance. Includes management, preservation and identification 
methods. [Fall offering]  
3 lecture/3 laboratory hours

BIO 204  Ecology  4 credits  
Prerequisite: BIO 101 with a minimum C grade 
Corequisite: BIO 102  
Fundamental concepts, theoretical principles, and practical 
applications of modern ecology; the study of the interactions 
of organisms with each other and their environment. Labora-
tory classes of this introductory course involve field work and 
research projects geared towards ecological application.  
3 lecture/3 laboratory hours

BIO 208  Genetics  4 credits  
Prerequisite: BIO 101 with a minimum C grade 
or permission of course coordinator  
Explores gene activity at the molecular and organismal levels. 
Topics include inheritance, chromosome structure and func-
tion, gene mapping, genomics, prokaryotic and eukaryotic 
gene expression, molecular biology, and population genetics. 
Includes lab exercises in biotechnology, bioinformatics, and 
classical genetics.  
3 lecture/3 laboratory hours

BIO 215  Principles of Microbiology  3 credits  
Prerequisites: CHE 100 and BIO 103, BIO 104 or BIO 106  
Designed for funeral education students, an introduction to 
the morphology, taxonomy, physiology, and control of mi-
crobes. Emphasizes those microbes which cause disease in 
humans and presents elements of organic chemistry and bio-
chemistry.  
3 lecture hours

BIO 217  Pathophysiology  3 credits  
Prerequisites: RN licensure or BIO 103 and BIO 104 
or permission of course coordinator  
Study of the fundamental changes in body physiology due 
to disease. Covers the basics of cell biology, inflammation, 
mechanisms of body defense, specific body systems, and 
common disorders, with emphasis on disease processes, 
manifestations, and treatment.  
3 lecture hours

BIO 293  Honors Research in Biology I  2 credits  
Prerequisites: BIO 102 and CHE 102, minimum 3.0 GPA 
in biology and chemistry courses, and faculty approval  
Under the guidance of an area sponsor in an industrial or 
academic environment, students participate in a biology re-
search project. Requires a written report and oral presenta-
tion to students and faculty at the conclusion of the project 
period. [Fulfills a technical elective requirement in the Biol-
ogy and Chemistry programs.]  
5 laboratory hours per week
BUS — Business

BUS 101 Introduction to Business 3 credits
Corequisite: ENG 101
Survey course of the American business system. Topics include forms of business ownership, financing, economic impacts, human resource management, marketing, management, accounting, the role of government, international issues, workplace ethics, legal concerns, and social responsibility.

BUS 102 Introduction to Sports Management 3 credits
Prerequisite: ENG 101 with a minimum C grade
Examination of issues impacting the world of sports and management. Topics include the complexity of leadership, group dynamics, strategic and master planning, risk management, current social issues, Title IX and their effects on professional, intercollegiate, youth and other areas of sport.

BUS 103 Business Writing 3 credits
Intense coverage of grammar, punctuation, and word usage skills. Emphasizes realistic application of current usage and style in today's work world.

BUS 104 Business Law I 3 credits
Foundation course dealing primarily with contracts: the making of contracts, contractual elements, contracts in action, discharge of contracts, and remedies. Orientation to the legal system includes examination of law history and purpose. Uniform Commercial Code applications are stressed.

BUS 105 Business Law II 3 credits
Prerequisite: BUS 107 with a minimum C grade
The law of agency and employment and labor-management relations. Regulation of business organizations: sole proprietorships, partnerships, and corporations. Addresses property law, bailments, personal property, intellectual property, real property, landlord-tenant relationships, wills, estates and trusts, and the evolving role/impact of the global business environment.

BUS 106 Personal Finance 3 credits
Prerequisite: MAT 125
Basics of budgeting, buying, income tax, investments, home ownership, and insurance along with emphasis on wills and trusts.

BUS 107 Sports Law 3 credits
Examines legal issues that impact the world of sports and sports management. Affecting professional, intercollegiate and other areas of athletics, matters explored include those involving agencies, contracts, torts, crimes, gender, disabilities, antitrust, internationalism, drugs, intellectual property, and alternative dispute resolution.

BUS 108 Customer Orientation 3 credits
Prerequisite: ENG 101
Explores the fundamentals of customer service, with focus on the "human" side of business and the importance of understanding and supporting those who depend on your business. Students develop core competencies necessary for providing excellent customer service, including an appreciation of diversity, developing loyalty, and dealing with customers.

BUS 109 Business Statistics I 3 credits
Prerequisite: MAT 135 or MAT 140 with a minimum C grade
Emphasis on the application of statistical inference in business and economics, with attention to descriptive statistics, probability theory, sampling distribution and inference statistics. Additionally includes testing of hypotheses and confidence intervals.

BUS 110 Business Statistics II 3 credits
Prerequisite: BUS 205 with a minimum C grade
Further testing of hypotheses and confidence intervals, plus coverage of regression analysis, chi-square, analysis of variance, and non-parametric measurements with use of several computer-based statistical packages.

BUS 111 Business Law I 3 credits
Prerequisite: ENG 101 with a minimum C grade or equivalent background
Practical strategies for developing a clear writing style: organizing ideas, choosing effective words and composing concise paragraphs that make writing clear and persuasive. Includes letters of inquiry, claim, collection, and adjustment as well as resumes and cover letters. Requires oral and written business report.

BUS 112 Business Law II 3 credits
Prerequisite: BUS 101 with a minimum C grade
Examines the legal environment of business, including the role of the finance manager; analysis of financial statements and the firm’s performance; raising capital in the financial markets; the financing mix; valuation of financial assets; long term capital budgeting; working capital management; and international business finance.

BUS 113 Business Law III 3 credits
Prerequisite: BUS 112 with a minimum C grade
Examines the legal environment of business, including the role of the finance manager; analysis of financial statements and the firm’s performance; raising capital in the financial markets; the financing mix; valuation of financial assets; long term capital budgeting; working capital management; and international business finance.

BUS 114 Business Law IV 3 credits
Prerequisite: BUS 113 with a minimum C grade
Examines the legal environment of business, including the role of the finance manager; analysis of financial statements and the firm’s performance; raising capital in the financial markets; the financing mix; valuation of financial assets; long term capital budgeting; working capital management; and international business finance.

BUS 115 Business Law V 3 credits
Prerequisite: BUS 114 with a minimum C grade
Examines the legal environment of business, including the role of the finance manager; analysis of financial statements and the firm’s performance; raising capital in the financial markets; the financing mix; valuation of financial assets; long term capital budgeting; working capital management; and international business finance.

BUS 116 Business Law VI 3 credits
Prerequisite: BUS 115 with a minimum C grade
Examines the legal environment of business, including the role of the finance manager; analysis of financial statements and the firm’s performance; raising capital in the financial markets; the financing mix; valuation of financial assets; long term capital budgeting; working capital management; and international business finance.

BUS 117 Business Law VII 3 credits
Prerequisite: BUS 116 with a minimum C grade
Examines the legal environment of business, including the role of the finance manager; analysis of financial statements and the firm’s performance; raising capital in the financial markets; the financing mix; valuation of financial assets; long term capital budgeting; working capital management; and international business finance.

BUS 118 Business Law VIII 3 credits
Prerequisite: BUS 117 with a minimum C grade
Examines the legal environment of business, including the role of the finance manager; analysis of financial statements and the firm’s performance; raising capital in the financial markets; the financing mix; valuation of financial assets; long term capital budgeting; working capital management; and international business finance.
COURSES

CHE 101 General Chemistry I 4 credits
Prerequisites: high school chemistry or CHE 100; MAT 135
Corequisite: ENG 101
Basic concepts and theoretical principles of modern chemistry. Topics include stoichiometry; atomic theory and the structure of matter; periodic table; chemical bonding; kinetic-molecular theory and the states of matter; gas laws; solutions; oxidation-reduction; and acid-base systems. Lab work introduces the use of computers for data collection and analysis.
2 lecture/1 recitation/3 laboratory hours

CHE 102 General Chemistry II 4 credits
Prerequisite: CHE 101 with a minimum C grade or permission
Corequisite: MAT 146 or approved equivalent
Theoretical and practical aspects of kinetics; simple and ionic chemical equilibria; thermodynamics; spectrophotometry; electrochemistry; nuclear chemistry; and the major families of chemical elements with emphasis on the transition elements. Lab work includes qualitative cation and anion analysis plus additional computer applications for data collection and analysis.
2 lecture/1 recitation/3 laboratory hours

CHE 106 Chemical Science Concepts 3 credits
Prerequisite: MAT 037 (or MAT 037A and 037B) or proficiency in basic algebra
Corequisite: ENG 101
Fundamental topics in chemistry and biology are introduced utilizing forensics to explore basic science concepts. Topics include general, organic, and biochemistry, and general and molecular biology. Lab experiments integrate case-study analyses and modern instrumentation with techniques in enzymology, chromatography, microscopy, fingerprinting, DNA analysis, and serology. Prepares the student for informed engagement in society by providing scientific knowledge on which attitudes and opinions can be developed.
2 lecture/2 laboratory hours

CHE 170 General and Physiological Chemistry 4 credits
Prerequisites: high school chemistry recommended; MAT 037 (or MAT 037A and 037B) or equivalent
Introduction to basic chemical and physical principles and their applications to life processes. Lab exercises illustrate these principles and the behavior of physiologically significant materials.
2 lecture/1 recitation/2 laboratory hours

CHE 201 Organic Chemistry I 5 credits
Prerequisite: CHE 102 with a minimum C grade
Theoretical principles of reaction mechanisms and the synthesis of important classes of organic compounds. Topics include stereoisomerism; alcohols; ethers; nucleophilic substitution; elimination reactions; and instrumental methods. Lab work introduces the synthesis, purification, separation and identification of organic compounds.
3 lecture/4 laboratory hours

CHE 202 Organic Chemistry II 5 credits
Prerequisite: CHE 201 with a minimum C grade
Follows CHE 201 with increased emphasis on spectroscopy and mechanisms. Topics include aromatic compounds; electrophilic substitution reactions; carbonyl chemistry; carboxylic acid derivatives, amines, carbohydrates and proteins. Lab work includes methods of synthesis, purification, and spectroscopic identification of organic compounds.
3 lecture/4 laboratory hours
COURSES

CIS — Computer Information Systems

CIS 112 Introduction to PC Business Applications 3 credits
Prerequisite: IST 101 or equivalent proficiency
Students become proficient in use of Microsoft Office – including Word, Excel, Access, and PowerPoint – to complete practical business projects. 2 lecture/2 laboratory hours

CIS 173 PC Applications: Database 3 credits
Prerequisite: IST 101 or equivalent proficiency
Students acquire a working knowledge of Access, a relational database, with emphasis on creating tables, queries, reports, and forms. 2 lecture/2 laboratory hours

CIS 175 PC Applications: Spreadsheets 3 credits
Prerequisite: IST 101 or equivalent proficiency
Students acquire a working knowledge of Excel with emphasis on formulas, charts, and managing worksheets and lists. 2 lecture/2 laboratory hours

CIS 182 PC Applications: Presentations 3 credits
Prerequisite: IST 101 or equivalent proficiency
Students use Microsoft PowerPoint software to create and customize presentations, including insertion of tables, flowcharts and organization charts. Students work with objects, lines, fills and colors, text manipulation, drawing techniques, animation and slide show effects. 2 lecture/2 laboratory hours

CIS 280 PC Applications: Project Management 3 credits
Prerequisite: IST 209
Explores frequently used tools for project management. Addresses usage of a major software package to build project plans complete with tasks and resources, to format project reports, to track actual work against the plan, and to take corrective action when things get off track. 2 lecture/2 laboratory hours

CIV — Civil Engineering Technology

CIV 101 Surveying I 3 credits
Corequisites: MAT 115 or divisional permission; DRA 190
Introduces the three basic surveying tools – the tape, level, and transit/theodolite – along with proper field procedures for basic surveying. These include taking field notes, tapping and EDM, leveling, bearings and azimuths, topography, and mapping – the latter including an introduction to computer-aided design. 2 lecture/3 laboratory hours

CIV 102 Surveying II 3 credits
Prerequisite: CIV 101 or permission of instructor
Application of the fundamentals and techniques achieved in elementary surveying to solve additional problems in vertical curves, horizontal curves, traversing computations and profiles. Computations include bearings and azimuths, latitudes and departures, areas, and use of the planimeter. Applies AutoCAD and land development software, plus “Total Station” survey equipment for traversing, radial stakeout, and layout of horizontal curves. 2 lecture/3 laboratory hours

CHI — Chinese

Note: Students who have taken two or more years of a foreign language, and have done so in the last two years, should begin that language at the 200 level or switch to a new language. If there is doubt, placement will be determined by testing or consultation with the academic division.

CHI 101 Beginning Chinese I 3 credits
The first in a sequence of courses designed for students with little or no prior knowledge of Mandarin Chinese. Spoken communication in Chinese is both the end goal and the means of instruction. Emphasizes the four communicative skills in a culturally authentic context. Reading and writing in both Pinyin and Chinese characters are assigned out of class to facilitate effective listening and speaking practice in class. Basic grammar skills are also introduced. 3 lecture hours

CHI 102 Beginning Chinese II 3 credits
Prerequisite: CHI 101 with a minimum C grade or permission of instructor
The second in a sequence of courses designed for students with little or no prior knowledge of Mandarin Chinese. Spoken communication in Chinese is both the end goal and the means of instruction. Emphasizes the four communicative skills in a culturally authentic context. Reading and writing in both Pinyin and Chinese characters are assigned out of class to facilitate effective listening and speaking practice in class. Basic grammar skills are also introduced. 3 lecture hours

CHI 201 Intermediate Chinese I 3 credits
Prerequisite: CHI 102 with a minimum C grade or permission of instructor
The first in a sequence of courses designed for students with a mid to high novice level of competency in Mandarin Chinese. Spoken communication in Chinese continues to be the end goal and the means of instruction. The four communicative skills of reading, writing, listening and speaking are applied to discussions and debates involving Chinese culture, politics, and history. Fundamental grammar points are reviewed. 3 lecture hours

CHI 202 Intermediate Chinese II 3 credits
Prerequisite: CHI 201 with a minimum C grade, placement by exam, or permission of instructor
The second in a sequence of courses designed for students with a mid to high novice level of competency in Chinese. Spoken communication in Chinese continues to be the end goal and the means of instruction. The four communicative skills of reading, writing, listening and speaking are applied to discussions and debates involving Chinese culture, politics, and history. Fundamental grammar points are reviewed. 3 lecture hours

www.mccc.edu
CIV 103 Statics 3 credits
Prerequisites: MAT 146 with a minimum C grade; one semester of high school or college physics
Corequisite: CIV 151
Calculus-based introduction to the basic principles of engineering statics, including terminology and types of force systems, for engineering science students. Topics include the resultant force of a force system; distributed and concentrated forces; force systems in equilibrium, trusses, frames and machines; friction; centroids; and moments of inertia.
3 lecture hours

CIV 104 Applied Mechanics 3 credits
Prerequisite: MAT 115 or divisional permission
Introduction to the basic principles of engineering mechanics for study of applied technology. Topics include terminology, types of force systems, determination of the resultant force of force systems, analysis of coplanar force systems in equilibrium, centroids, and moments of inertia and friction. [Spring offering] 3 lecture hours

CIV 106 Mechanics 3 credits
Prerequisite: MAT 115 or divisional permission
Introduction to the basic principles of engineering mechanics, including terminology and types of force systems, for engineering technology students. Topics include the resultant force of a force system, distributed and concentrated forces, force systems in equilibrium, trusses, frames and machines, friction, centroids, and moments of inertia. 3 lecture hours

CIV 216 Highway Engineering 3 credits
Prerequisites: CIV 115 and ENT 166
Corequisites: CIV 102, DRA 190, or divisional permission
Explores the planning, design, construction, and characteristics of highways and city streets, including layout, traffic requirements, safety and control, drainage, subgrade structure, base courses, and surface pavements. Problems to be solved include geometric design, traffic volume, channelization, and hydrology. Lab projects involve roadway designing. [Spring offering] 2 lecture/2 laboratory hours

CIV 223 Fluid Mechanics 4 credits
Prerequisite: MAT 115
Introduction to the field of fluid mechanics. Topics include the properties of fluids, buoyancy, basic fluid power, closed pipe flow, open channel flow, forces due to fluids in motion, flow measuring devices, and the energy balances of fluid systems. Lab experiments (requiring written reports) on non-compressible fluids illustrate the theoretical concepts. [Fall offering] 3 lecture/3 laboratory hours

CIV 224 Soil Mechanics 3 credits
Prerequisite: MAT 115
Study of the characteristics and performance of soils: volumetry and gravimetry, moisture-density relations, consistency, identification and classification, ground water, capillary action, permeability, frost action, shear strength, stress distribution, earth pressure, and soil sampling and exploration. Individual and group reports are required for lab tests.
2 lecture/2 laboratory hours

CIV 227 Structural Steel Design 3 credits
Corequisite: CIV 229
Application of basic principles of material mechanics to the analysis and design of structural steel members that occur most commonly in bridge and building construction. Requires thorough knowledge of the American Institute of Steel Construction Code as well as orderly computational procedures. Lab work involves the design of a building. [Fall offering] 2 lecture/3 laboratory hours

CIV 228 Reinforced Concrete Design 3 credits
Prerequisite: CIV 227
Examines the design of basic reinforced concrete structural members including rectangular beams, slabs, columns, footings, and retaining walls. Requires thorough knowledge of the ACI Standard Code. Covers field inspection procedures. Lab projects involve designing, mixing, and evaluating concrete cylinders and beams, adhering to alternate design and strength design approaches. [Spring offering] 2 lecture/3 laboratory hours

CIV 229 Mechanics of Materials 4 credits
Prerequisite: CIV 106 with a minimum C grade
With an introduction to engineering materials and their mechanical properties, examines strains that occur in elastic bodies subjected to direct and combined stresses, shear and bending moment diagrams, deflections of beams, and stresses due to torsion. Lab testing involves various materials such as cast iron, steel, brass, aluminum, and wood to determine their physical properties and to demonstrate various testing techniques. [Fall offering] 3 lecture/3 laboratory hours

CIV 230 Mechanics of Solids 4 credits
Prerequisites: CIV 103 and MAT 151 with a minimum C grade
Calculus-based introduction to engineering materials and their mechanical properties, examining strains that occur in elastic bodies subjected to direct and combined stresses, shear and bending moment diagrams, deflections of beams, and stresses due to torsion. Lab testing involves various materials such as cast iron, steel, brass, aluminum, and wood to determine their physical properties and demonstrate various testing techniques. 3 lecture/3 laboratory hours

CIV 237 Mechanics of Materials Fundamentals 4 credits
Prerequisite: CIV 104 with a minimum C grade
Study of the fundamental concepts of stress and strain of elastic bodies when subjected to axial or bending loads. Analyzes shear and bending moment diagrams, considers compression members, and introduces principles of torsion. The lab introduces various testing procedures to determine the physical properties of such materials as steel, aluminum, brass, cast iron, and wood. [Fall offering] 3 lecture/3 laboratory hours

CIV 281 Cooperative Education I – Civil Engineering Technology 2 credits
Relevant experiences to complement classroom instruction with practical on-the-job application of engineering practices in local industry for constructional/civil engineering students. Additional expenses for travel, clothing, and equipment may be incurred. 1 lecture/90 work experience hours

CIV 282 Cooperative Education II – Civil Engineering Technology 1 credit
Continuation of CIV 281. Students may also enroll in CIV 281 concurrently. 90 work experience hours

CMN — Communication

CMN 101 Mass Media 3 credits
Corequisite: ENG 101
Survey of the growth and development of books, newspapers, magazines, film, radio, television, cable, the Internet, and new media delivery systems. Analysis of the mass media’s impact on society and individuals, and whether the media effectively fulfill their functions as deliverers of information, persuasion, entertainment, and culture. 3 lecture hours

2018 - 2019 609.586.4800
CMN 102 Media Issues and Ethics 3 credits
Prerequisite: ENG 101 with a minimum C grade
An examination of current issues and ethical dilemmas in mass media such as sensationalism, press censorship, violence, political coverage, rights of privacy, and photo manipulation. The implications of recent developments in mass media and current regulation of broadcast and cable media are discussed. Students read, evaluate and analyze media ethical case studies.

CMN 107 Cinema 3 credits
Study of artistic achievement in the film medium from the point of view of the director (author). Classic and contemporary feature films are viewed, analyzed and discussed, including the works of such directors as Griffith, Eisenstein, Chaplin, Hitchcock, Bergman, DeSica, and Welles.

CMN 111 Speech: Human Communication 3 credits
Prerequisite: eligibility for placement in ENG 101
Exploration of the fundamental elements, characteristics, and processes of communication, including communicating in a multicultural society, interpersonal, intrapersonal, as well as small group contexts. Oral presentation experiences are heavily integrated throughout the course with a focus on public speaking design and delivery.

CMN 112 Public Speaking 3 credits
Corequisite: ENG 101
Introduction to principles and practice of audience-centered, credible, confident messages for diverse audiences. Includes a variety of presentations: special occasion, personal experience, impromptu, panel, informative, and persuasive. Special focus on communication anxiety management, organizational patterns, supporting research, visual aids, and dynamic delivery. Sustained reading, writing, and testing are also part of the course.

CMN 122 Organizational Communication 3 credits
Prerequisite: ENG 101
Study of the knowledge, skills, sensitivity, and values associated with the variety of communications within and between organizations. An exploration of various methods, channels, and audiences of organizational communication in the corporate world.

CMN 125 Public Relations 3 credits
Prerequisite: ENG 101 with a minimum C grade
Comprehensive study of public relations including identifying and reaching internal and external publics, dealing with print and electronic media, advertising, printing, direct mail, and preparing a public relations plan and budget. Also involves the writing of news releases, public service announcements, and advertising copy. [Occasional offering]

CMN 131 Journalism I 3 credits
Corequisite: ENG 101
Introduction to the news media with particular emphasis on the newspaper and newswriting, the history of the press, and controversial issues facing the press. Active participation with the student paper, *The College Voice*, is integral.

CMN 141 Introduction to TV Production 3 credits
Basic theory and operation of TV production equipment including camera, switcher, character generator, prompter, audio console, and lighting. Following study of studio procedure, students plan, produce, write, and direct several short video productions.

CMN 142 Intermediate TV Production 3 credits
Prerequisite: CMN 141 with a minimum C grade
Production of programming with complete formats such as news, interview, music, drama, and fashion. Students plan, produce, write, and direct 15-minute interview/demonstration programs.

CMN 143 Graphics and Effects for Video 3 credits
Prerequisite: CMN 141 with a minimum C grade
Corequisite: CMN 142
Techniques for using graphics and visual effects to enhance video productions through the use of digital imaging and compositing software. A variety of multimedia production projects reinforces proper file management and image compression techniques.

CMN 144 Screenwriting 3 credits
Prerequisites or Corequisites: ENG 101, ENG 102
Aimed at the conception, planning and writing of screenplays. Through a series of writing exercises, scenes, short scripts and treatments, the student is expected to complete a 20-page short film script. The basics of character development, narrative, structure, texture, genre, and the ability to visualize in writing are explored.

CMN 145 Acting/Directing for the Camera 3 credits
Corequisite: EN101
Focuses on the application of acting and directing actors for single-camera film production. This hands-on course addresses the aesthetics, theory, and practice of camera placement, shot execution, and the many aspects of directing the actor.

CMN 146 Social Media Technologies 3 credits
Extensive exploration of current social media technologies, utilizing the Mac platform, for storytelling and narrative purposes. With emphasis on usability, management and distribution, topics include multimedia development and design; the media elements of text, graphics, sound and video; and trends in emerging hardware and software. Multimedia projects demonstrate technical understanding and coherent narratives.

CMN 147 Introduction to Story 3 credits
Aimed at the analysis, deconstruction, and construction of story. Analyzing a series of films, television shows, graphic novels, video games and transmedia properties, students explore the basics of character development, narrative, arc, structure, and genre.

CMN 151 Introduction to Radio 3 credits
Orientation to commercial radio in the United States. Topics include historical development, ownership, management, programming, music, sales, promotion, radio journalism, commercial copy writing, audience measurement, the ethics of broadcasting, and government regulation. Students learn the hands-on technical skills necessary to operate both analog and digital consoles and audio editing software. Production projects include newscasts, commercials, and music programs.

CMN 153 Digital Audio Production I 3 credits
Prerequisite: CMN 151 with a minimum C grade
Students practice and develop audio production techniques used in broadcasting and other commercial applications. Theory of audio fundamentals combines with lab exploration of digital editing, digital multi-tracking, digital music creation, synchronizing audio with video. Students write and/or produce commercials, documentaries and short soundtracks for video and other entertainment venues.
CMN 161 Writing for Media 3 credits
Prerequisite: ENG 101
Overview of written formats commonly used in radio and television. Writing assignments include 30- and 60-second radio and television commercials, broadcast news copy, interviews, public service announcements, and dramatic teleplays.
3 lecture hours

CMN 201 Persuasion and Propaganda 3 credits
Prerequisite: CMN 111 or CMN 112
Inquiry into the forces of persuasion and propaganda as they exist in a technological society and how they influence beliefs, attitudes and actions.
3 lecture hours

CMN 211 Interpersonal Communication in Human Relations 3 credits
Prerequisite: CMN 111 or CMN 112
Combining theory and practice, examines the nature and skills of interpersonal communication. Emphasizes the uniqueness of interpersonal communication as opposed to other forms of human communication.
3 lecture hours

CMN 214 Issues in Intercultural Communication in the U.S. 3 credits
Examines communication that bridges diverse cultures, values and realities. Explores racial, sexual, and class identities and the impact of privilege on the ability to relate to others. Develops effective communication skills for addressing obstacles to global citizenship.
3 lecture hours

CMN 215 Communication and Gender 3 credits
Prerequisite: ENG 101 or equivalent English skills
Critically analyzes issues of gender and communication. Examines theoretical perspectives used to explain gender phenomena, gender socialization, male and female interactions and stereotypes, with an emphasis on improving communication skills.
3 lecture hours

CMN 231 Journalism II 3 credits
Prerequisite: ENG 101
Addresses the various kinds of newswriting (straight news, features, interpretative, editorial), editing, and the techniques of reporting (interviewing; surveys; coverage of events, meetings, speeches). Actual newspaper production aspects including layout, photojournalism, and graphics are experienced through practical work on the student paper, The College Voice.
3 lecture hours

CMN 241 Applied Field Production for Video 3 credits
Prerequisites: CMN 141, CMN 142, CMN 143 with a minimum C grade
Develops practical skills and knowledge of video production while executing a project for a community client in a professional atmosphere. Pre-production, production, and post-production activities center around the realities of client expectations, professional deadlines, and working together as one production unit. Advanced post-production techniques are implemented utilizing professional-level software and applications.
2 lecture/2 laboratory hours

CMN 242 Advanced Film Production 3 credits
Prerequisites: CMN 141, CMN 142, CMN 143, CMN 241
Advanced television students enhance knowledge and skills while writing, editing, producing and marketing a short film or documentary. Students apply pre-production, production, and post-production skills with the goal of competing in a television program film festival.
2 lecture/2 studio hours

CMN 243 Cinematography 3 credits
Prerequisites: CMN 141, CMN 142
Covers directing, lighting, and camera work through lecture and text materials. Includes an overview of cinematic production with attention to the art of lighting and cinematography. Additionally introduces Steadicam camera technique, camera lens systems, cinema lighting techniques, and hi-definition image acquisition.
2 lecture/2 studio hours

CMN 250 Announcing for Radio and Electronic Media 3 credits
Prerequisite: CMN 151 with a minimum C grade or permission of course coordinator
Students explore, practice and develop announcing techniques used in broadcasting and other commercial applications. Practical assignments provide training for a variety of professional roles such as radio disc jockeys, broadcast journalists, voice-over announcers, and voice actors. Students produce commercials, public service announcements, interview programs, and corporate/industrial voice-overs and simulate the on-air sound of various radio station formats.
2 lecture/2 laboratory hours

CMN 252 Applied Radio Programming and Production 3 credits
Prerequisites: CMN 153 and CMN 250 with a minimum C grade
Study of the development and nature of current radio formats, programming philosophies, and group ownership. Students analyze and critique current radio formats and create a commercially-viable format of their own. Students apply advanced production techniques to produce station “Imagers,” format demos, and an audition CD suitable for entry-level positions.
2 lecture/2 studio hours

CMN 253 Digital Audio Production II 3 credits
Prerequisite: CMN 153
An overview of multitrack recording techniques using state-of-the-art digital audio workstations. Topics include mastering techniques, digital signal processing, auto-tune, session management, and techniques for real-time and processed audio plug-ins including reverb, delay, sampling, automation, MIDI sequencing, and virtual instruments. Students produce multilayered recordings using live talent in a studio environment.
2 lecture/2 laboratory hours

CMN 254 Live Sound Reinforcement 3 credits
Prerequisite: ETT 102 or permission of coordinator
Basic principles of the behavior of sound in various environments, with emphasis on signal flow, acoustics, sound reinforcement setups and installation, signal processing, as well as microphone selection and placement. Includes setting up sound systems and mixing live music. Topics include microphones, recording equipment, control consoles, reproduction techniques, amplification, distribution, loudspeaker systems, frequency response, decibels, and dynamic range.
2 lecture/2 laboratory hours

CMN 255 Sound Design for the Entertainment Industry 3 credits
Prerequisites: CMN 153, CMN 254
Examines audio production techniques, technologies, and aesthetics related to the development of a compelling soundtrack for theatre, television, radio or the Internet. Through training in all phases of digital sound recording, editing and mixing, students work with location and field recording equipment and use advanced editing and mixing techniques associated with digital audio workstations.
1 lecture/4 laboratory hours
COURSES

CMN 260  Convergence Newsroom  3 credits
Prerequisite: CMN 131
A multimedia capstone course in convergence media. Students complete all elements of online and print news including writing a variety of journalistic articles, taking photographs, making and editing video footage, designing info graphics, learning the fundamentals of marketing and preparing all content for both online and print formats.
2 lecture/2 laboratory hours

CMN 274  Radio/TV Management  3 credits
Prerequisites: CMN 101, CMN 141, CMN 151 with a minimum C grade
Study of the functions of middle and upper managers of radio, television, and cable operations. As individuals and as members of a management team, students solve case studies of typical problems faced by general managers, program directors, news directors, promotions directors, and sales managers in broadcast and cable companies. [Spring offering]
3 lecture hours

CMN 285  Special Studies in Television Production  3 credits
Prerequisites: CMN 242, CMN 290, minimum 3.0 GPA, and divisional permission
Opportunity for students who have completed all regular television writing and production courses to continue their studies at an advanced level. Individual students and faculty develop a project contract that sets forth objectives, standards of quality, evaluation guidelines, and deadlines. [occasional offering]
3 lecture hours

CMN 286  Special Studies in Radio Production  3 credits
Prerequisites: CMN 161, CMN 252, minimum 3.0 GPA, and divisional permission
Opportunity for students who have completed all regular radio writing and production courses to continue their studies at an advanced level. Individual students and faculty develop a project contract that sets forth objectives, standards of quality, evaluation guidelines, and deadlines. [occasional offering]
3 lecture hours

CMN 287  Special Studies in Communication  3 credits
Prerequisites: second-year standing as a Communication program major at MCC and permission of the program coordinator; minimum 3.0 GPA
Opportunity for students who have completed all regular communication and communication writing courses to continue their studies at an advanced level. Individual students and faculty develop a project contract that sets forth objectives, standards of quality, evaluation guidelines, and deadlines.
3 lecture hours

CMN 290  Internship: Communications  3 credits
Prerequisites: second-year standing and coordinator approval
Work experience at a radio station, TV station, cable system, industrial or instructional TV facility, or other allied business.
1 lecture/180 work experience hours

COS — Computer Science

COS 101  Introduction to Computer Science  4 credits
Prerequisite: MAT 037 (or MAT 037A and 037B) or proficiency in basic algebra
Introduces both majors and non-majors to the concepts and topics of computer science, including computer architecture, algorithm analysis, operating systems, and programming languages. Students develop algorithmic thinking and abstraction using a 3-D animation programming language and MATLAB, a numerical programming tool for scientists and engineers.
3 lecture/2 laboratory hours

COS 102  Computer Science I — Algorithms and Programming  4 credits
Prerequisite: COS 101, IST 107, IST 108, IST 109, or IST 123
Corequisite: MAT 146 or higher
Algorithm design and object-oriented programming in the Java language. Topics include data representation, input/output, control structures, exception handling, classes, methods, inheritance, polymorphism, encapsulation, overloading and dynamic memory.
3 lecture/2 laboratory hours

COS 204  Discrete Mathematical Structures  4 credits
Prerequisite: MAT 151 or equivalent
Primarily intended for Computer Science majors, covers wide variety of topics serving as the mathematical framework for the design and analysis of algorithms. Topics include induction and recursion, relations, functions, sets, propositional logic, Boolean algebra, grammars, permutations and combinations, and finite state machines. [Spring offering]
4 lecture hours

COS 210  Computer Science II — Data Structures  4 credits
Prerequisite: COS 102
Study of advanced programming topics focused on logical structures of data as well as the design, implementation and analysis of algorithms operating on these structures. Topics include linked lists, stacks, trees, queues, graphs and analysis of efficiency. Also covers searching, sorting and hashing techniques. [Spring offering]
4 lecture hours

CRJ — Criminal Justice

CRJ 101  Introduction to the Criminal Justice System  3 credits
Overview of the systems of criminal justice in the United States, including a survey of the agencies for the administration of justice and the relationships among them.
3 lecture hours

CRJ 102  Police in the Community  3 credits
Study of the relationship between the police and the public they serve with particular emphasis on ethical standards, human relations, civil rights, and community service.
3 lecture hours

CRJ 103  Introduction to Corrections  3 credits
Study of the relationship between the correction officer and the prisoner including the history of corrections, the rights of the confined, parole and work release, and the philosophies of rehabilitation and punishment.
3 lecture hours

CRJ 104  Introduction to Security  3 credits
Introduction to the historical, philosophical, and legal bases of the security field. Examines all aspects of private security systems and functions, including the technology of security and the role of security in different organizational settings. [occasional offering]
3 lecture hours

CRJ 105  Criminology  3 credits
In-depth analysis and evaluation of criminal behavior including street crime, organized crime, and occupational crime. Students learn to investigate, categorize, and describe the theories of criminality and social control.
3 lecture hours

www.mccc.edu 2018 - 2019
CRJ 202  Criminal Law  3 credits
Examines the evolution and development of criminal laws as well as the nature of crime, basic principles of criminal law, plus defenses and court presentations.  3 lecture hours

CRJ 206  Police Administration  3 credits
Examines the contemporary law enforcement agency and its functions, structure, and operational techniques; implications of generalized and specialized units; development of resources by time and area of function; analysis of line, staff, and auxiliary functions; and current issues facing today’s police agencies.  3 lecture hours

CRJ 207  Criminal Investigation  3 credits
The strategies, techniques, and methods employed in criminal investigations – at the crime scene, follow-up investigation, modus operandi, sources of information, and interrogation.  3 lecture hours

CRJ 211  Community Corrections  3 credits
Examines the major types of community-based correctional alternatives such as fines, community service, drug courts, probation, day reporting centers, halfway houses, parole, and other intermediate sanctions. Covers correctional law and management, controversies, political pressures, and emerging trends.  3 lecture hours

CRJ 212  Juvenile Justice  3 credits
Overview of the major issues in the field of juvenile justice, including causes of delinquency and the development of modern treatment methods. Emphasis on the delinquent’s relationships with family, school, peers, and the juvenile justice system.  3 lecture hours

CRJ 299  Cooperative Education – Criminal Justice  3 credits
Prerequisites: sophomore status; CRJ 101; CRJ 206 or CRJ 103; divisional permission
Exposure to the philosophy, goals, and daily operations of a criminal justice agency. Through supervised work, the student experiences the roles of criminal justice employees and evaluates their responsibilities. Designed for the student interested in the realistic application of criminal justice theory to the justice system.  1 lecture/180 work experience hours

CSW — College Success and Wellness

CSW 100  College Success and Personal Wellness  2 credits
A comprehensive orientation to the college experience providing academic and personal wellness management tools. Topics include general study skills, academic technology, introduction to college resources and services, and healthy living.  2 lecture hours

DAN — Dance

DAN 101  Introduction to Dance and Culture  3 credits
Prerequisite: ENG 101 or permission of instructor
Introductory study of dance as an art form, investigating the impact of gender, politics, religion, and culture on how dance is perceived. Develops a fuller appreciation of how dance has been used over the course of human history in western and non-western cultures to communicate human needs and to express what words cannot communicate. [Fall and Spring offering]  3 lecture hours

DAN 102  Ballet I  2 credits
Introduces traditional or classic ballet terminology, forms, and techniques. Emphasizes body alignment and physical skill needed for proper classical ballet movements. [Spring offering]  1 lecture/2 studio hours

DAN 103  Modern Dance I  2 credits
Introduces the techniques and motor skills of modern dance, including basic body skills, placement, alignment, and continuity. [Fall offering]  1 lecture/2 studio hours

DAN 105  Jazz Dance I  2 credits
Fundamentals of jazz dance techniques with emphasis on syncopated rhythms and isolations of the body. [Fall and Spring offering]  1 lecture/2 studio hours

DAN 112  Ballet II  2 credits
Prerequisite: DAN 102 or permission of instructor
Study of ballet technique on an intermediate level. [Spring offering]  1 lecture/2 studio hours

DAN 113  Modern Dance II  2 credits
Prerequisite: DAN 103
Study of modern dance techniques on an intermediate level, and an introduction to repertory. [Fall offering]  1 lecture/2 studio hours

DAN 115  Jazz Dance II  2 credits
Prerequisite: DAN 105 or permission of instructor
Study of jazz dance techniques on an intermediate level, with emphasis on syncopated rhythms and isolations of the body. [Fall and Spring offering]  1 lecture/2 studio hours

DAN 116  Studio Dance Technique I  3 credits
DAN 117  Studio Dance Technique II  3 credits
DAN 118  Studio Dance Technique III  3 credits
DAN 119  Studio Dance Technique IV  3 credits
A sequence of courses required of all students in the dance program, provides an intensive approach to skill development, discipline, and knowledge for mastery of the three concert dance styles: ballet, jazz, and modern. Daily technique classes cater to specific needs and abilities. Related issues of career planning, personal health, and ensemble work are also addressed. [Fall and Spring offering]  6 studio hours

DAN 120  Choreography I  3 credits
Prerequisite: DAN 116 or divisional permission
Introduces several choreographic strategies used to develop an idea into a dance structured for the stage. Students are exposed to the tools of choreography beginning with basics – time, space, and force – and then move on to more complex issues faced by intermediate choreographers: form, style, abstraction, compositional structures, and choreographic devices. [Spring offering]  2 lecture/2 studio hours

DAN 285  Special Studies in Dance  3 credits
Prerequisites: DAN 101, DAN 116, DAN 117, DAN 120 and permission of program coordinator
Opportunity for students who have completed regular course offerings to continue their studies at an advanced level. Individual students and faculty develop a project contract that sets forth objectives, standards of quality, evaluation guidelines, and deadlines. [Fall offering]  6 studio hours
DMA — Digital Media Arts

DMA 105 Introduction to Computer Art 3 credits
Introduction to the use of the computer as an art and design tool. Emphasizes fundamental color computer graphics skills through practical experience with two-dimensional drawing, timeline, image editing, and 3D spatial programs currently used by art and design professionals. Hardware used includes Macintosh or PC computers, scanners, and black-and-white and color printers. 1 lecture/4 studio hours

DMA 110 Digital Imaging 3 credits
Designed to meet the needs of artists and designers in diverse fields, involves the leading professional paint and photo retouching software. Addresses the practical and creative aspects of producing art and illustrations and manipulating photographs and other images through a series of hands-on assignments. 1 lecture/4 studio hours

DMA 120 3-D Modeling I 3 credits
Develops visual problem-solving abilities using computers as art and design tools. Students create and manipulate three-dimensional forms and scenes, their colors, surface textures, lighting and cameras to design effective compositions in virtual 3-D space. Useful for graphic arts, communications, interior design and architectural professions, prepares students for Animation I and 3-D Modeling II. Windows-based PC computers, scanners, and current professional software are used. 1 lecture/4 laboratory hours

DMA 125 Pre-Production Design 3 credits
Prerequisites: ART 102, ART 105, and DMA 105 with minimum C grades or divisional permission
Corequisite or Prerequisite: ART 104
Pre-production planning and design for animation and interactive media. Without use of computers, students learn to apply creative thinking, design principles and production processes essential to the creation of successful animations and multimedia programs. Practical experience in concept generation, concept drawing, storyboarding, and project organization. 1 lecture/4 studio hours

DMA 135 Digital Narrative 3 credits
Prerequisite: DMA 105
Exploration of narrative art, its structure and approaches as it applies to time-based graphics. Students investigate narrative in a variety of formats – from comics to animation to film editing and various “artistic” permutations in between – with emphasis on current digital practices. 1 lecture/4 studio hours

DMA 140 Interactive Web Animation 3 credits
Prerequisite: DMA 144 or DMA 145
Introduction to two-dimensional animation using the professional software application Flash to create short animations for the Web or television and simple Web games and interfaces. Specific instruction includes how to draw and animate vector graphics, import audio, create buttons and symbols, and use Actionscripting to create nonlinear interactivity and animation. 1 lecture/4 studio hours

DMA 144 Internet Tools and Techniques 3 credits
Introduction to the tools and techniques used to create blogs, commercial websites and Internet applications. Topics include the history of the Internet, Internet software and hardware, ethical issues surrounding privacy, accessibility and ownership on the Internet, information architecture and content strategies, and the tools used for blogging, creating Web pages and rich Web applications. Students research, analyze, diagram, and create Internet applications and websites. 1 lecture/4 studio hours

DMA 145 Web Design I 3 credits
Introduction to Web design using a professional software application. Focuses on principles of design and interactivity. Students learn how to create images for the Web, manage files, organize imagery using tables, style text using cascading style sheets, create animated gifs, and add interactivity using basic JavaScript behaviors. 1 lecture/4 studio hours

DMA 210 Motion Graphics 3 credits
Prerequisite: CMN 141 or DMA 135 with a minimum C grade or divisional permission
Digital art in motion: concepts and techniques of visual storytelling emphasizing issues of pacing, continuity and dramatic structure. 2-D graphics, video and sound are combined using new media tools to explore the possibilities of new media art. Course content is applicable to the fields of 3-D animation, film and television title sequences, commercials, multimedia design and music videos. [Spring offering] 1 lecture/4 studio hours

DMA 220 3-D Modeling II 3 credits
Prerequisite: DMA 120 with a minimum C grade or divisional permission
Covers advanced concepts and materials of 3-D modeling and virtual scene creation for those who wish to explore 3-D modeling and illustration in depth. Topics include environment creation, 3-D paint, modeling for games, character models, modeling with nurbs/patches and compositing. [Fall offering] 1 lecture/4 studio hours

DMA 224 Rigging for Animation and Games 3 credits
Prerequisite: DMA 225
Character rigging and design techniques for gaming, broadcast and feature film industries. Topics include node-based hierarchies, forward and inverse kinematics, constraints, user interfaces, skinning, and melscripting. Utilizing both PC and Mac computers with professional digital content creation software, students design and construct armatures for different object types. 1 lecture/4 studio hours

DMA 225 Computer Animation I 3 credits
Prerequisites: DMA 120 and DMA 135 with a minimum C grade or divisional permission
Using 3-D animation software and video interface, students produce special effects and character animations from storyboard to output. Windows-based personal computers and current professional software are used. [Fall offering] 1 lecture/4 studio hours

DMA 226 Computer Animation II 3 credits
Prerequisite: DMA 225 with a minimum C grade or divisional permission
Advanced 3-D character animation and special effects involving character animation, inverse kinematics, and particle systems. Students produce a recording of their work and develop presentation skills. Windows-based personal computers and current professional software are used. [Spring offering] 1 lecture/4 studio hours

DMA 245 Web Design II 3 credits
Prerequisite: DMA 145 with a minimum C grade or divisional permission
Intermediate skills in Web design using a professional software application. Focuses on principles of organization, interface design and usability. Students learn how to create a site map, design navigational systems, integrate Flash and video content, batch process images, create templates, insert forms, design pages using XHTML cascading style sheets, and add advanced interactivity using JavaScript. 1 lecture/4 studio hours
DMA 246 Web Design III: Advanced Project 3 credits
Prerequisites: DMA 110 and DMA 245 with a minimum C grade or divisional permission
Develops practical skills and knowledge of Web design while executing a project for a community client in a professional atmosphere. Visual design, information architecture, and Web production are all based on client goals, messages, and deadlines outlined during the project definition phase. Advanced Web design techniques are implemented utilizing professional-level software and applications. [Spring offering] 1 lecture/4 studio hours

DMA 247 Web Application Development 3 credits
Prerequisite: DMA 245
Builds upon previous Web development knowledge by introducing concepts of server-side programming and database integration. Emphasizes user of server space and client-side processing to enhance the collation and delivery of information to the viewer. Programming languages covered include PHP, MySQL and JavaScript (jQuery library). 1 lecture/4 studio hours

DMA 250 Digital Portfolio Seminar 3 credits
Prerequisite: DMA 245 or DMA 211 or DMA 225 or PHO 203 or CMN 241 or CMN 250 with a minimum C grade or divisional permission
Introduction to the culture, technologies, history, and theories of new media. Advanced digital media arts students explore topics in digital media while developing a digital portfolio to present their work. 1 lecture/4 studio hours

DRA 275 Interdisciplinary Studio 3 credits
Prerequisites: ART 105, DMA 105 with a minimum C grade or divisional permission
Students explore the possibilities and implications of combining digital and traditional tools and techniques in the service of personal expression as fine art. Focuses on exploring each individual's aesthetic expression and the development of individual style. A variety of techniques, software, and theoretical issues are presented. Students are expected to create a series of pieces for exhibition, with emphasis on the printed output. [Occasional offering] 1 lecture/4 studio hours

DRA 285 Special Studies in Digital Media Arts 3 credits
Prerequisites: DMA 226 or DMA 245 and divisional permission
Special courses in specific art forms allow students who have completed regular course offerings to continue their studies at advanced levels. Individual students and faculty develop a project contract that sets forth objectives, standards of quality, evaluation guidelines, and deadlines. [Occasional offering] 1 lecture/4 studio hours

DRA 290 Digital Media Arts Internship 3 credits
Prerequisite: Coordinator approval
Work experience at participating animation studios, advertising agencies, design firms, and film and video effects houses. 1 lecture/180 work experience hours

DRA — Drafting / Computer-Aided Design

DRA 132 Architectural Computer Drafting 3 credits
Prerequisites: BCT 110, BCT 120, DRA 190 or divisional permission
Using architectural software, students produce professional drawings; compile contract documents; and date, store and retrieve information on both two- and three-dimensional projects. Involves creation of walls, doors, windows and roofs as well as implementation of symbols for structural, electrical, mechanical, plumbing, furnishing, and site work. 2 lecture/2 laboratory hours

DRA 140 Introduction to Computer-Aided Designing 2 credits
Introduction to the use of the computer as a drafting tool. Includes concepts, terminology, and basic commands necessary to prepare drawings using CAD software. Requires basic knowledge of the computer keyboard. 1 lecture/2 laboratory hours

DRA 191 Introduction to Building Information Modeling 2 credits
Introduction to the use of the computer using building information modeling software. Topics include basic terminology and concepts of modeling, geometry, and the basic commands necessary to prepare a building model and several drawings. 1 lecture/4 laboratory hours

DRA 216 Heating, Refrigeration and Air Conditioning Drafting 3 credits
Prerequisites: ENT 116 or permission of instructor, HRA 102
Study of the aspects of drawing needed by a drafter in order to prepare finished drawings for the installation of heating, refrigeration, and air conditioning systems. Intended primarily for students in the Heating, Refrigeration and Air Conditioning program. [Occasional offering] 1 lecture/4 laboratory hours

DRA 217 Structural Steel Design and Drafting 3 credits
Prerequisites: ABT 120, DRA 190
Corequisite: CIV 237
Examines the problems common to structural design of steel and similar materials relative to the architectural frame of a structure. Relies heavily on the principles of mechanics and mechanics of materials fundamentals. Requires familiarity with general steel design codes and the preparation of structural drawings. 2 lecture/3 laboratory hours

DRA 218 3-D Modeling/3-D Printing 3 credits
Prerequisite: MET 122 or advisor permission
An introduction to 3-D solids modeling and printing software. Students build a prototype model using SolidWorks software and print a 3-D model to explore the basic size and look of a product or machine part. Orthographic drawings with dimensions are also produced for part building using traditional machining techniques. 2 lecture/2 laboratory hours

DRA 238 Advanced Computer-Aided Design 3 credits
Prerequisite: DRA 190
Advanced computer drafting course using CAD software. Includes a review of basic command options, display options, hatching and sectioning, text, and dimensioning. Introduces 3-D drawing and surface modeling. 2 lecture/2 laboratory hours
EDU 101 and MAT 037
EDU 210
minimum C grade in EDU 109 and SOC 104,
ENG 101 and MAT 135 or MAT 140
EDU 211
EDU 102
Exceptional Children 3 credits
Introduction to the field of special education and to exceptionality. Inclusion, an approach to teaching students with special needs in general education, is emphasized. Topics include historical overview, legislation, consideration of specific disabilities, instructional techniques and equipment, as well as teaching gifted students and non-native speakers. 3 lecture hours

EDU 109
Introduction to Education: Foundations, History, and Trends of American Education 3 credits
Introduction to American education and the teaching/learning process for future educators. Topics include history and philosophy of education, curriculum, teaching strategies, school law, diversity, technology and current trends. Students are involved in creative activities, research, and analysis of current literature. Requires 25 hours of field observation in an educational setting. 3 lecture hours

EDU 120
Introduction to Early Childhood Education 3 credits
Emphasizes the needs of young children in conjunction with appropriate care and educational programs. Topics include environment, developmentally appropriate practices, emerging literacy, cognitive development, learning through play, and school/home relationships. Observation and/or participation in a childcare setting are required. 3 lecture hours

EDU 130
Infant/Toddler Social and Emotional Well-Being 3 credits
Designed for students interested in a career in a childcare or nursery school environment. A component of the New Jersey Infant/Toddler Credential, the course supports practitioners working with infants and toddlers to strengthen their capacity as caregivers of the very young. 3 lecture hours

EDU 131
Supervised Field Experience in Infant/Toddler Settings 3 credits
Prerequisite or Corequisite: EDU 130
A companion course to EDU 130, designed for students interested in a career in a childcare or nursery school environment. Student field experiences critically evaluated by both students and teachers serve as a forum for discussion. A component of the New Jersey Infant/Toddler Credential, the course supports practitioners working with infants and toddlers to strengthen their capacity as caregivers of the very young. 2 lecture/60 practicum hours

EDU 210
Education Field Experience 6 credits
Prerequisites: minimum C grade in EDU 109 and SOC 104, or minimum C grade in EDU 102 and EDU 201, and divisional permission
Corequisite: EDU 211
Internship of 15-20 hours per week in a New Jersey school approved by the coordinator of the Education / Special Education Assistant program. The student performs the duties of an education assistant under the supervision of cooperating teachers. Assignments to schools are made on the basis of the student's interests and occupational goals; arrangements must be made during the preceding semester. [Spring offering] 3 lecture hours 4 days per week

EDU 211
Education Seminar 3 credits
Prerequisites: minimum C grade in EDU 109 and SOC 104, or minimum C grade in EDU 102 and EDU 201, or divisional permission
Corequisite: EDU 210
Examines the correlation between educational theory and practice. Students engage in research with professional journals, demonstration classes illustrating varied methods and materials, teaching units, and observation visits to area schools. [Spring offering] 3 lecture hours

EDU 214
Curriculum and Methods for Early Childhood 3 credits
Prerequisite: EDU 120
Exposes students to a variety of methods for the planning and implementation of quality instruction in an early childhood setting. Students study strategies for creating positive learning environments while developing curricula for various subjects and learning styles. 3 lecture hours

www.mccc.edu
EET — Electronics Engineering Technology

EET 130  Fundamentals of Electronics  3 credits
Prerequisite or Corequisite: MAT 037 (or MAT 037A and 037B)
Introduction to DC and AC circuits, electromagnetic devices, electronic components, and analog and digital circuits. For non-electronics majors.  2 lecture/2 laboratory hours

EET 138  Introduction to Electronics I  4 credits
Prerequisite or Corequisite: MAT 135
Focuses on direct current (DC) devices and circuits. Progresses from the fundamentals of electricity, Ohm’s Law, Kirchoff’s Law, series and parallel circuits to the study of resistors, capacitors, inductors, batteries, transistors, and diodes as they pertain to DC circuits.  3 lecture/3 laboratory hours

EET 139  Introduction to Electronics II  4 credits
Prerequisite: EET 138 or equivalent
Continuation of EET 138. Covers the basics of AC circuits and devices including resistors, capacitors, inductors and semiconductors. Introduces fundamental waveforms such as sine waves and pulses and their behavior in solid state circuits.  3 lecture/3 laboratory hours

EET 140  Electronic Construction  2 credits
Teaches the use of hand tools, drilling and other metalworking methods as well as correct soldering and repair techniques. Students apply these skills to chassis construction and wiring, and also gain experience in working with printed circuit boards.  1 lecture/3 laboratory hours

EET 141  Electrical Wiring and Cabling  3 credits
Prerequisite: EET 130
Focus on electrical wiring techniques starting with 120/240 volts. Instruction for adding connectors to and installing coax, CAT5/6, and fiber optic cables emphasizes the codes and standards to be followed along with the correct tools to be used. Class time allots equally between lectures reinforced by hands-on practice.  2 lecture/2 laboratory hours

EET 214  Communications Electronics  4 credits
Prerequisite: EET 219
Study of information transmission and reception involving both digital and analog systems. Topics include AM, FM, noise, spectra, receivers, transmitters, lines and cables, and antennas.  3 lecture/3 laboratory hours

EET 215  Fiber Optics  4 credits
Prerequisite: EET 130 or EET 138 or MAT 135 or equivalent
A study of fiber optics as it pertains to the communications process. Topics include the physics and behavior of light in a fiber. Skills learned include connectorization of fiber and the use of the special tools and test equipment required. Successful completion of this course can lead to FOA certification.  3 lecture/2 laboratory hours

EET 219  Electronic Networks  4 credits
Prerequisite: EET 139 or EET 144
Analysis and design considerations for electronic circuits, including power supplies using semiconductor diodes and zener diodes, and Class A amplifiers using bipolar and FET transistors.  3 lecture/3 laboratory hours

EET 230  Linear Integrated Circuits  4 credits
Prerequisite: EET 219 or EET 131
Covers the basic building blocks of linear systems, such as inverting and non-inverting amplifiers, comparators, and filters.  3 lecture/3 laboratory hours

EET 251  Digital Circuit Fundamentals  4 credits
Prerequisite: EET 130 or EET 139 or EET 144
Introduces the basic theory, concepts and devices behind digital circuits and computers, including gates, registers, flip-flops, counters, decoders and encoders, half- and full-adders, and clocks. The electrical characteristics, limitations, and connections of digital integrated circuit packages are explored. Corresponding labs reinforce lecture materials through practical examples.  3 lecture/3 laboratory hours

EET 263  Digital Technology – Introduction to Microprocessors and Assembly Language  4 credits
Prerequisite: EET 251
Introduces the operation of a simple computer at the physical (electrical) level using gates, registers, and other basic circuits introduced in the prerequisite course. Students gain experience building and programming a simple computer. Covers memory, basic microprocessor architecture, assembly language programming, and analog-to-digital as well as digital-to-analog converters.  3 lecture/3 laboratory hours

EET 266  Programmable Logic Controllers  4 credits
Prerequisite: EET 251
Introduces the theory and practical concepts of programmable logic controllers and their applications within industrial or manufacturing environments. Topics include PLC components, digital logic, ladder logic design, and software programming. Corresponding labs reinforce lectures with practical hands-on programming of Allen-Bradley PLC units using RSLogix software.  3 lecture/3 laboratory hours

ENG — English

Note: Initial selection of an English composition course is determined by results of college skills placement testing (see page 8). Applicability of credits for courses below the 100 level toward degree requirements is limited. Consult an academic advisor.

ENG 023  Introduction to College Composition I  4 credits
First-level developmental course designed to help students write 400- to 650-word essays on topics in various academic disciplines. Students are guided in developing a writing process that improves essay development, coherence, grammar, and punctuation. Prepares students for Introduction to College Composition II, a second-level foundation course.  4 lecture hours

ENG 024  Introduction to College Composition II  4 credits
Prerequisite: ENG 023 or placement test
Second-level developmental course. Students write 400- to 750 word essays about concepts in various academic disciplines. Focus is on developing a writing process that helps students to develop an understanding of the importance of writing. Students also improve their sentence and essay structure, tone, and overall coherence.  4 lecture hours

ENG 033  Introduction to College Reading I  4 credits
Prerequisite: placement test
Intended to help students become better readers and thinkers who take ownership of their learning. Students read, analyze, discuss, and write on the material presented in the course. Introduction to intermediate college-level readings (both fiction and non-fiction) builds comprehension and study skills to succeed in college-level courses.  4 lecture hours
ENG 034  Introduction to College Reading II  4 credits
Prerequisite: ENG 033 or placement test
Intended to help students become better readers and thinkers who take ownership of their learning. Exposed to the beginning principles of critical reading and thinking, students analyze text to identify facts, fallacies, claims, premises, and arguments. Students are expected to take notes, improve vocabulary, and independently interpret text.  4 lecture hours

ENG 101  English Composition I  3 credits
Prerequisite: placement test or minimum C grade in ENG 024 and ENG 034
College-level composition course designed to assist students in writing 750- to 1500-word essays on topics in various academic disciplines. Focuses on development and support of ideas, essay structure, critical thinking, analysis of readings, and other aspects of writing. Students are introduced to research techniques and documentation.  3 lecture hours

ENG 102  English Composition II  3 credits
Prerequisite: ENG 101 with a minimum C grade
Second-level composition course designed to assist students in writing 1500- to 3000-word essays, including a formally documented research paper. Readings introduce students to literature and the analysis of concepts, language, and formal elements.  3 lecture hours

ENG 112  English Composition II with Speech  3 credits
Prerequisite: ENG 101 with a minimum C grade
A variation on standard ENG 102, differing with its focus on the interpretation, analysis and creation of a broad spectrum of workplace documents rather than on literature. Construction of a lengthy, well-supported research paper and accompanying PowerPoint presentation is central. Speech component is fulfilled through multiple in-class presentations.  3 lecture hours

ENG 201  Introduction to Literature: Drama  3 credits
Prerequisite: minimum C grade in ENG 102 or divisional permission
Examines the evolution of staged presentations from religious ritual to secular theater, covering works from the classical Greek period to the present day. Focuses on Elizabethan theater, Restoration comedy, 19th century realism, and contemporary theater. [Fall offering - alternate semesters]  3 lecture hours

ENG 202  Introduction to Literature: Novel  3 credits
Prerequisite: minimum C grade in ENG 102 or divisional permission
Study of novels from various periods selected for their intrinsic value and as representative types of fiction. [Spring offering]  3 lecture hours

ENG 203  World Literature I  3 credits
Prerequisite: minimum C grade in ENG 102 or divisional permission
A survey of important literary works from cultures around the world dating from ancient times through the 17th century. [Fall offering]  3 lecture hours

ENG 204  World Literature II  3 credits
Prerequisite: minimum C grade in ENG 102 or divisional permission
A survey of important literary works from cultures around the world from the 17th century through the present day. [Spring offering]  3 lecture hours

ENG 205  American Literature I  3 credits
Prerequisite: minimum C grade in ENG 102 or divisional permission
Introduction to and selective study of authors representing the enduring traditions and styles of American literature from the Puritan period through the Civil War. [Fall offering]  3 lecture hours

ENG 206  American Literature II  3 credits
Prerequisite: minimum C grade in ENG 102 or divisional permission
Survey of American literature from 1865 to the present, including authors whose work represents the traditions and styles of American literature. Short stories, novels, poetry, and essays cover topics such as regionalism, realism, naturalism, modernism, and postmodernism. [Spring offering]  3 lecture hours

ENG 208  Modern American Novel  3 credits
Prerequisite: minimum C grade in ENG 102 or divisional permission
Traces the triumph of prose Realism over Naturalism and the recurrent forms and techniques of the contemporary novel in the American idiom. Emphasizes the novel as the dominant modern American literary art form, as a social document, and as a portrait of time and place. [Fall offering]  3 lecture hours

ENG 211  Shakespeare  3 credits
Prerequisite: minimum C grade in ENG 102 or divisional permission
A survey of Shakespeare's tragedies, comedies, and histories – a body of work whose characters, themes, and language influence and permeate literature worldwide, and is essential to cultural literacy. [occasional offering]  3 lecture hours

ENG 212  Introduction to Literature: Poetry  3 credits
Prerequisite: minimum C grade in ENG 102 or divisional permission
Examines the evolution of poetry from prehistoric times to the present day. Focuses on works from the classical Greek period to the present day. Proceeds chronologically, starting with ancient and modern poetry from around the world from the 17th century through the present day. [Spring offering]  3 lecture hours

ENG 213  African American Literature  3 credits
Prerequisite: minimum C grade in ENG 102 or divisional permission
A survey of literary works by writers of the African Diaspora produced in the Americas from the 18th century to the present. Proceeds chronologically, starting with African-born producers of the literature, oral and written, continuing with the folk tradition, moving through the slave narratives, the Harlem Renaissance, the Black Arts Movement and ending with contemporary works and the immigrant experiences. [Spring offering]  3 lecture hours

Note: GenEd: General Education
### COURSES

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
<th>Description</th>
<th>Prerequisite</th>
<th>Core Areas</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENG 215</td>
<td>Creative Writing I</td>
<td>3</td>
<td>Develops writing skills in various genres, such as fiction, poetry, and essay. Recognized models in literary modes are analyzed for craftsmanship. Through workshop framework, students benefit from peer and instructor criticism and are encouraged to find individual voice under instructor guidance. [not a Literature elective]</td>
<td>minimum C grade in ENG 102 or divisional permission</td>
<td>Humanities</td>
</tr>
<tr>
<td>ENG 216</td>
<td>Literature Into Film</td>
<td>3</td>
<td>Focuses on the marriage of two art forms – literature and film – and pays particular attention to how the medium affects the writer and the writer the medium. Examines selected novels, short stories, plays, essays and/or memoirs as original works and as each evolves into film. [Fall and Spring offering]</td>
<td>minimum C grade in ENG 102 or divisional permission</td>
<td>Humanities</td>
</tr>
<tr>
<td>ENG 218</td>
<td>Creative Writing II</td>
<td>3</td>
<td>Promotes continuing development of creative writing skills; analyzes recognized models by major modern writers. Through workshop framework, peers and instructor critique student work. Students are encouraged to hone their writing voices under instructor guidance. [not a Literature elective]</td>
<td>minimum C grade in ENG 102 or divisional permission</td>
<td>Humanities</td>
</tr>
<tr>
<td>ENG 220</td>
<td>Science Fiction Literature</td>
<td>3</td>
<td>Explores science fiction through a study of genre elements and the challenges these genres present. By examining a diverse selection of speculative literature, participants better appreciate and interpret such works and how they both reflect and change our culture. [Spring offering]</td>
<td>minimum C grade in ENG 102 or divisional permission</td>
<td>Humanities</td>
</tr>
<tr>
<td>ENG 221</td>
<td>Women in Literature</td>
<td>3</td>
<td>A discussion-based course that explores literature by women writers. Texts cover a variety of authors and genres as well as themes, issues and theories concerning the production of gender in literary works. Further develops the literary analysis and academic writing skills acquired in ENG 102. [Fall offering]</td>
<td>minimum C grade in ENG 102 or divisional permission</td>
<td>Diversity and Global Perspective</td>
</tr>
<tr>
<td>ENG 222</td>
<td>Children's Literature</td>
<td>3</td>
<td>Critical evaluation of the various genres of literature written for children. Examines ancient folk tales like Aesop’s Fables, modern picture books such as those by Maurice Sendak, and classic fiction such as the masterpieces of Lewis Carroll and Mark Twain. [Fall and Spring offering]</td>
<td>minimum C grade in ENG 102 or divisional permission</td>
<td>Diversity and Global Perspective</td>
</tr>
<tr>
<td>ENG 227</td>
<td>English Literature I</td>
<td>3</td>
<td>Survey of representative English literature from the Middle English period through the Neoclassical period. Particular attention to the works of Chaucer, Shakespeare, Milton, Donne, Dryden and Pope. [Fall offering - alternate semesters]</td>
<td>minimum C grade in ENG 102 or divisional permission</td>
<td>Humanities</td>
</tr>
<tr>
<td>ENG 228</td>
<td>English Literature II</td>
<td>3</td>
<td>Survey of representative English literature from the Romantic and Victorian periods up to the present. [Spring offering - alternate semesters]</td>
<td>minimum C grade in ENG 102 or divisional permission</td>
<td>Humanities</td>
</tr>
<tr>
<td>ENG 231</td>
<td>Literature of AIDS: Confronting Catastrophe</td>
<td>3</td>
<td>Close readings of the stories and poems emerging from AIDS-affected writers, with widely representative writing emphasizing the work of gay authors. Examines divergent responses to the widespread societal denial of AIDS. [occasional offering]</td>
<td>minimum C grade in ENG 102 or divisional permission</td>
<td>Humanities</td>
</tr>
<tr>
<td>ENG 232</td>
<td>Post-Colonial Women Writers</td>
<td>3</td>
<td>Examines works written in English by women of color in Asia, Africa, the Americas, and Australia. Explores contributions of the writer to the body of modern world literature – poetry, fiction, drama – along with aspects of the writers’ politics and the social milieus that form their work. [occasional offering]</td>
<td>minimum C grade in ENG 102 or divisional permission</td>
<td>Humanities</td>
</tr>
<tr>
<td>ENG 238</td>
<td>American History and Literature</td>
<td>3</td>
<td>[also offered as HIS 238] An interdisciplinary examination of American literature and society with special emphasis on contemporary perspectives and the historical context in which texts were written. Focuses on American history and literature since 1865, covering such topics as gender, race, ethnicity and immigration, social class, the West, war, and popular culture. [occasional offering]</td>
<td>minimum C grade in ENG 102 or divisional permission</td>
<td>Humanities</td>
</tr>
<tr>
<td>ENG 239</td>
<td>Literature of War and Conflict</td>
<td>3</td>
<td>Surveys literary responses to war and conflict with particular focus on the psychological effects of warfare. Examines multiple genres, cultures, eras, and viewpoints, but primary focus may rest on a particular era or conflict. May include texts by Homer, Sun Tzu, Stephen Ambrose, Oppenheimer, Hemingway, Tim O’Brien, and Elie Wiesel. [occasional offering]</td>
<td>minimum C grade in ENG 102 or divisional permission</td>
<td>Humanities</td>
</tr>
<tr>
<td>ENG 256</td>
<td>Fantasy Literature</td>
<td>3</td>
<td>Explores fantasy literature through a study of genre elements and the challenge this genre presents to readers of mainstream literature. By examining works written in and translated to English, participants better appreciate and interpret such works and how they represent an increasingly important sub-section of literary expression. [Fall offering]</td>
<td>minimum C grade in ENG 102 or divisional permission</td>

<tbody>
<tr>
<td>ESL 041</td>
<td>ESL Foundation in Speech Concepts</td>
<td>4</td>
<td>score of 60 or lower on ESL Accuplacer Listening Test</td>
</tr>
<tr>
<td></td>
<td>Corequisites: ESL 042, ESL 043</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>Students begin to use basic speaking and listening strategies in English as a foreign language. Activities involve markers, syllables, high-frequency words, recognition of question words, intonation, stress, pronunciation, and dialogue. Listening to audio CDs improves aural comprehension and creates discussion points for stimulating conversation and language practice. Global topics initiate speaking and listening lessons.</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>

<td>4</td>
<td>score of 60 or lower on ESL Accuplacer Reading Test</td>
</tr>
<tr>
<td></td>
<td>Corequisites: ESL 041, ESL 043</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>Introduces a foundational understanding of language form and meaning through the study of vocabulary and reading content-based text. Reading lessons are initiated with global topics.</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td><strong>ESL 043</strong> ESL Foundation in Grammar Concepts</td>
<td>4</td>
<td>score of 60 or lower on ESL Accuplacer Language Test</td>
</tr>
<tr>
<td></td>
<td>Corequisites: ESL 041, ESL 042</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>Introduces students to basic grammar connected in an American cultural context. Provides learners with useful and meaningful skills to apply beginning grammar necessary to communicate verbally and in writing.</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td><strong>ESL 051</strong> ESL Speech Concepts I</td>
<td>4</td>
<td>score of 61-75 on ESL Accuplacer Language Test or successful completion of ESL 041</td>
</tr>
<tr>
<td></td>
<td>Develops speaking and listening skills for high-beginner students. Emphasis on expanding vocabulary, accent reduction, and gaining fluency and confidence using English spontaneously. Idioms, grammatical forms, morphology, phonology and etymology stressed.</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td><strong>ESL 052</strong> ESL Reading and Critical Thinking I</td>
<td>4</td>
<td>score of 61-75 on ESL Accuplacer Reading Test or successful completion of ESL 042</td>
</tr>
<tr>
<td></td>
<td>Emphasis on increasing reading fluency and comprehension, improving vocabulary, and relying on context clues to understand texts.</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td><strong>ESL 061</strong> ESL Speech Concepts II</td>
<td>4</td>
<td>score of 76-88 on ESL Accuplacer Language Test or successful completion of ESL 051</td>
</tr>
<tr>
<td></td>
<td>Emphasis on developing and using academic and idiomatic vocabulary through reading narrative, expository and argumentative essays as well as longer readings. Exposure to critical analysis and interpretation of English texts.</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td><strong>ESL 062</strong> ESL Reading and Critical Thinking II</td>
<td>4</td>
<td>score of 76-88 on ESL Accuplacer Reading Test or successful completion of ESL 052</td>
</tr>
<tr>
<td></td>
<td>Emphasis on developing and using academic and idiomatic vocabulary through reading narrative, expository and argumentative essays as well as longer readings. Exposure to critical analysis and interpretation of English texts.</td>
<td></td>
<td></td>

<td></td>
<td><strong>ESL 063</strong> ESL Writing Concepts II</td>
<td>4</td>
<td>score of 76-88 on ESL Accuplacer Language Test or successful completion of ESL 053</td>
</tr>
<tr>
<td></td>
<td>Sentence patterns, sentence sequences, and the development of a paragraph are emphasized. The student learns to correct errors in grammar and punctuation to produce standard English sentences which support a topic. Outstanding performance in this course may qualify the student to enroll in ENG 101, English Composition I.</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td><strong>ESL 071</strong> ESL Speech Concepts III</td>
<td>4</td>
<td>score of 89-108 on ESL Accuplacer Language Test or successful completion of ESL 061</td>
</tr>
<tr>
<td></td>
<td>Advanced speaking and listening. Themes of intercultural communication and global issues provide centerpiece of conversations and interactions. Developing higher skills in verbal and non-verbal communication, colloquial and idiomatic expressions and fluency, students present formal speeches, critiques, and feedback.</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td><strong>ESL 072</strong> ESL Reading and Critical Thinking III</td>
<td>4</td>
<td>score of 89-108 on ESL Accuplacer Reading Test or successful completion of ESL 062</td>
</tr>
<tr>
<td></td>
<td>Further reinforces and refines reading skills, comprehension, vocabulary expansion and enhancing oral presentation and interpretation techniques as well as analytical thinking skills.</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td><strong>ESL 073</strong> ESL Writing Concepts III</td>
<td>4</td>
<td>score of 89-108 on ESL Accuplacer Language Test or successful completion of ESL 063</td>
</tr>
<tr>
<td></td>
<td>Stresses spontaneous, fluent, and idiomatic writing. Includes practice in various forms of writing, from personal to more formal, using various source materials ranging from magazines to works of fiction. Students who successfully complete this course qualify to enroll in ENG 101, English Composition I.</td>
<td></td>
<td></td>
</tr>

ESL 080  ESL TOEFL iBT Prep Course  3 credits
Prerequisite: minimum score of 60 on TOEFL test or a minimum intermediate level of English
Corequisites: 06 and 07 level ESL courses at MCCC
Online course prepares ESL students for TOEFL iBT (Internet-based test). Material covered offers many opportunities to practice in the Reading, Listening, Speaking, and Writing sections of the exam. Students may repeat this course up to three times to achieve desired TOEFL iBT score. Grade of “credit” or “no credit” based on time spent online.

FAS — Fashion

FAS 105  Fashion: The Global Marketplace  3 credits
Prerequisite: placement in college-level English
An overview of the fashion industry beginning with a historical perspective that covers both domestic and international influences. Integrates creative fashion concepts with business concepts commonly used in general marketing. Topics include international sourcing and trade, and retailing.

FAS 110  Introduction to Fashion Drawing  3 credits
Prerequisite: ART 102
Coordinated with Fashion Design I, develops techniques, skills, and knowledge needed to produce fashion drawings that are clear, accurate, realistic and attractive. Vocabulary of various clothing styles and details are introduced.

FAS 120  Introduction to Fashion Design I  3 credits
Corequisite: FAS 130
Coordinated with Introduction to Fashion Drawing, emphasizes development of color stories, concepts and fabrications. Study includes exploration of visual sensitivity, mastering fashion terminology, developing original design concepts, as well as storyboard compiling and design research.

FAS 130  Introduction to Textiles for Fashion  3 credits
Prerequisite or Corequisite: ENG 101
Explores how textiles are produced and how appropriate performance characteristics are incorporated into materials and products. Students make informed decisions regarding materials and products to communicate effectively with team members in the workplace, suppliers, contractors and buyers. Careers in the global textile industry are discussed.

FAS 140  Computerized Fashion Drawing  3 credits
Corequisite: FAS 110
Covers two computer software applications used in the fashion design industry to design and create apparel and accessories. Projects explore a range of fashion designing and related drawings in both vector and pixel-based applications.

FAS 150  Technical Skills for Apparel Production I  3 credits
Introduces muslin draping techniques on the dress form, flat pattern making, and garment construction on the sewing machine. Based on the scope of a student's project or level of study, additional costs for materials and supplies are required.

FAS 205  Fashion Merchandising  3 credits
Prerequisites: BUS 101, ENG 101, MKT 101, MKT 230
An integrated and customer-centered approach to merchandising. Covers strategic planning, product objectives and categories, industry zones, and product life cycles. Topics include pricing, positioning, placement, market research, environments, demographics, geographics, and psychographics. Emphasizes fashion forecasting with the buying-selling cycle for retail buyers.

ETT — Entertainment Technology

ETT 102  Introduction to the Entertainment Industry  3 credits
Prerequisite: eligibility for placement in ENG 101
An introduction to terminology, working methods, processes, equipment, and facilities for various entertainment industry venues with a particular emphasis on theatre and music technology and production. Laboratory work includes an introduction to various lighting programs and digital audio production software. Related current events and career opportunities are discussed. Attendance at several applicable events is required.

ETT — Entertainment Technology

ETT 200  Technical Production  1 credit
Prerequisites: ETT 102, THR 102, and prior advisor approval
Supervised laboratory in the technical areas of production including planning, construction, and running of productions. Emphasizes careful pre-planning and appropriate safety procedures along with follow-up critiques and evaluation of the work done. Graded on pass-fail basis.

ETT 205  Arts and Entertainment Management  3 credits
Prerequisite: ETT 102 with a minimum C grade
An introduction to common issues and best practices in the management of arts and entertainment organizations. Students gain a basic understanding of business requirements and challenges in producing entertainment. Topics include common management structures in not-for-profit and for-profit arts and entertainment organizations, marketing, public relations, fundraising, budgeting, and human resources. Legal concerns addressed include contracts, copyright, licensing, and royalties.

ETT 290  Internship  2 credits
Prerequisites: ETT 200 and prior advisor approval
Work experience at a professional scenery fabrication shop, rental/supply house, off-Broadway theater, or any entertainment-related organization. Serves to bridge the student's academic and commercial careers by cultivating professional work experience and industry contacts. Each student, supervised by faculty and a manager at the internship site, creates a portfolio and keeps a log/journal to be shared in group seminars. Graded on pass-fail basis. 1 class hour every other week.

FAS — Fashion

FAS 105  Fashion: The Global Marketplace  3 credits
Prerequisite: placement in college-level English
An overview of the fashion industry beginning with a historical perspective that covers both domestic and international influences. Integrates creative fashion concepts with business concepts commonly used in general marketing. Topics include international sourcing and trade, and retailing.

FAS 110  Introduction to Fashion Drawing  3 credits
Prerequisite: ART 102
Coordinated with Fashion Design I, develops techniques, skills, and knowledge needed to produce fashion drawings that are clear, accurate, realistic and attractive. Vocabulary of various clothing styles and details are introduced.

FAS 120  Introduction to Fashion Design I  3 credits
Corequisite: FAS 130
Coordinated with Introduction to Fashion Drawing, emphasizes development of color stories, concepts and fabrications. Study includes exploration of visual sensitivity, mastering fashion terminology, developing original design concepts, as well as storyboard compiling and design research.

FAS 130  Introduction to Textiles for Fashion  3 credits
Prerequisite or Corequisite: ENG 101
Explores how textiles are produced and how appropriate performance characteristics are incorporated into materials and products. Students make informed decisions regarding materials and products to communicate effectively with team members in the workplace, suppliers, contractors and buyers. Careers in the global textile industry are discussed.

FAS 140  Computerized Fashion Drawing  3 credits
Corequisite: FAS 110
Covers two computer software applications used in the fashion design industry to design and create apparel and accessories. Projects explore a range of fashion designing and related drawings in both vector and pixel-based applications.

FAS 150  Technical Skills for Apparel Production I  3 credits
Introduces muslin draping techniques on the dress form, flat pattern making, and garment construction on the sewing machine. Based on the scope of a student's project or level of study, additional costs for materials and supplies are required.

FAS 205  Fashion Merchandising  3 credits
Prerequisites: BUS 101, ENG 101, MKT 101, MKT 230
An integrated and customer-centered approach to merchandising. Covers strategic planning, product objectives and categories, industry zones, and product life cycles. Topics include pricing, positioning, placement, market research, environments, demographics, geographics, and psychographics. Emphasizes fashion forecasting with the buying-selling cycle for retail buyers.
**FAS 220** History of Costume Design 3 credits  
*Prerequisite: FAS 105*  
Comprehensive overview of fashion history and its development as a globalized industry. A survey of chronological geographic and cultural trends that have influenced modern fashion addresses men's and women's clothing and accessories.  
*3 lecture hours*

**FAS 230** Fundamentals of Fashion Buying 3 credits  
*Prerequisites: FAS 105, FAS 205*  
Covers methods of analyzing customer demand, assisting retailers with merchandising activities, product sourcing, logistics related to importing, and techniques to maximize profits. Students produce reports to evaluate sales and profitability performance as well as management strategies.  
*3 lecture hours*

**FAS 250** Technical Skills for Apparel Production II 3 credits  
Advanced sewing/draping skills are developed to produce finished garments from individually designed fashion and apparel pieces. Based on the scope of a student's project or level of study, additional costs for materials and supplies are required.  
*1 lecture/4 laboratory hours*

**FAS 260** Fashion Design II: Portfolio 3 credits  
*Prerequisites: FAS 110, FAS 120*  
Enables students to finalize an original, professional portfolio showcasing individual abilities and skills. Students select a target market as well as a product focus which best display their proficiencies and prepare them for further study or careers in the fashion industry.  
*1 lecture/4 laboratory hours*

**FAS 265** Fashion Internship 3 credits  
*Prerequisite: coordinator approval*  
Provides students with the unique opportunity to gain industry experience while earning college credit. Students complete a predetermined number of hours at an approved host location offering experience not found in the traditional classroom.  
*180 work experience hours*

---

**FIR — Fire Science**

**FIR 101** Introduction to Fire Science 3 credits  
History and philosophy of fire protection and prevention involves a survey of equipment, tactics, building construction, extinguishing agents, hazardous materials, and fire department organization.  
*3 lecture hours*

**FIR 104** Building Construction 3 credits  
Examination of building design and construction with emphasis on fire protection and life safety. Review of pertinent standards and codes.  
*3 lecture hours*

**FIR 107** Fire Prevention and Code Enforcement I 5 credits  
History, theory, and practice of fire prevention and code enforcement. Covers relevant codes, recognition of fire hazards, and implementation of an inspection program. Meets 90-hour requirement to sit for the Fire Inspector Prevention I examination leading to certification as a Fire Inspector in New Jersey.  
*4 lecture/2 laboratory hours*

**FIR 201** Hazardous Materials 3 credits  
*Prerequisite: CHE 100 or equivalent background*  
Study of basic fire chemistry relating to the categories of hazardous materials including problems of recognition, reactivity, and health encountered by firefighters.  
*3 lecture hours*

**FIR 202** Water Supply for Fire Protection 3 credits  
Explores water supply storage and distribution as well as efficient use of water at the fire scene.  
*3 lecture hours*

**FIR 203** Fire Protection Systems 3 credits  
Study of various automatic detection and signaling devices and systems, automatic sprinklers, standpipes, and special extinguishing installations.  
*3 lecture hours*

**FIR 204** Fire Fighting Tactics 3 credits  
Examines pre-fire planning, fire ground organization and problem-solving, and proper utilization of manpower and equipment.  
*3 lecture hours*

**FIR 205** Fire Department Organization 3 credits  
Study of the history, methods, types, and principles of fire department organization and management. Emphasizes supervisory responsibilities and functions.  
*3 lecture hours*

**FIR 206** Fire Investigation 3 credits  
Provides the fundamental and technical knowledge needed for proper fire scene interpretations, including recognizing and conducting origin and cause, preservation of evidence and documentation, scene security, motives of the firesetter, and types of fire causes.  
*3 lecture hours*

**FIR 208** Fire Department Safety and Health Administration 3 credits  
Develops an understanding of fire service safety and risk management programs including fire service requirements, compliance with OSHA regulations, national consensus standards, and NFPA 1500.  
*3 lecture hours*

**FIR 209** Fire Prevention and Code Enforcement II 3 credits  
*Prerequisite: FIR 107*  
Examines duties of the fire official, legal aspects, and coordination with other governmental agencies. Topics include fire code administration, principles of personnel management, records management, variances, penalties, and enforcement procedures. Approved by the New Jersey Bureau of Fire Safety toward Fire Official certification pursuant to the Uniform Fire Safety Act.  
*3 lecture hours*

**FIR 211** Fire Investigation II 3 credits  
*Prerequisite: FIR 206*  
Provides advanced technical knowledge on rule of law, fire scene analysis, fire behavior, evidence collection and preservation, scene documentation, case preparation and courtroom testimony.  
*3 lecture hours*

---

**FRE — French**

*Note: Students who have taken two or more years of a foreign language, and have done so in the last two years, should begin that language at the 200 level or switch to a new language. If there is doubt, placement will be determined by testing or consultation with the academic division.*

**FRE 101** Beginning French I 3 credits  
The first in a sequence of courses designed for students with little or no prior knowledge of French. Spoken communication in French is both the end goal and the means of instruction. Emphasizes the four communicative skills in a culturally authentic context. Reading and writing are assigned out of class to facilitate effective listening and speaking practice in class. Basic grammar skills are also introduced.  
*3 lecture hours*
FRE 102 Beginning French II 3 credits
Prerequisite: FRE 101 with a minimum C grade, placement by exam, or permission of instructor
The second in a sequence of courses designed for students with little or no prior knowledge of French. Spoken communication in French is both the end goal and the means of instruction. Emphasizes the four communicative skills in a culturally authentic context. Reading and writing are assigned out of class to facilitate effective listening and speaking practice in class. Basic grammar skills are also introduced.
3 lecture hours

FRE 201 Intermediate French I 3 credits
Prerequisite: FRE 102 with a minimum C grade, placement by exam, or permission of instructor
The first in a sequence of courses designed for students with a mid to high novice level of competency in French. Spoken communication in French continues to be the end goal and the means of instruction. The four communicative skills of reading, writing, listening and speaking are applied to discussions and debates involving Francophone culture, politics, and history. Fundamental grammar points are reviewed.
3 lecture hours

FRE 202 Intermediate French II 3 credits
Prerequisite: FRE 201 with a minimum C grade, placement by exam, or permission of instructor
The second in a sequence of courses designed for students with a mid to high novice level of competency in French. Spoken communication in French continues to be the end goal and the means of instruction. The four communicative skills of reading, writing, listening and speaking are applied to discussions and debates involving Francophone culture, politics, and history. Fundamental grammar points are reviewed.
3 lecture hours

FUN — Funeral Service

FUN 203 Funeral Service Principles 3 credits
Prerequisites: ENG 101 and enrollment in Funeral Service Program
Introduction to the basic services performed by the funeral director from first call to final disposition. Includes religious practices, Veterans Administration and Social Security, transportation and funeral merchandise. Emphasizes vocabulary, ethical practices and professional attitudes.
3 lecture hours

FUN 206 Introduction to Funeral Service 3 credits
Prerequisites: ENG 101 and enrollment in Funeral Service Program
Focus on terminology, the impact of grief on society, the history of funeral service, and various professional organizations. Includes variations in funeral practices due to cultural differences, reactions to death, grief and bereavement, and the impact of family structures.
3 lecture hours

FUN 215 Funeral Service Law 3 credits
Prerequisites: BLIS 107 and enrollment in Funeral Service Program
Basic principles of law impacting the funeral service profession, with emphasis on common law, New Jersey statutes, rules and regulations and FTC compliance. Includes cemetery law, burial standards, rights and wrongs concerning the body and burial, and zoning restrictions.
3 lecture hours

FUN 217 Funeral Service Management 3 credits
Prerequisites: ACC 106, FUN 203, FUN 215
Business and management practices pertinent to funeral service with emphasis on small business. Particular consideration to staff organization, employer/employee relations, funeral home budget, funeral service merchandising, insurance, price determination and quotation, advertising, OSHA, and applicable federal regulations.
3 lecture hours

FUN 220 Funeral Service Laws, Rules and Regulations 1 credit
Prerequisite: FUN 215 or permission of Director of Funeral Service Programs
Laws, rules and regulations that specifically influence funeral service practice in New Jersey. Covers general licensure and intern requirements, rules for operating a funeral home, embalming procedures, general and specific rules of practice, advertising and continuing education. Compares and contrasts practices in New Jersey and Pennsylvania.
1 lecture hour

FUN 223 Funeral Service Pathology 3 credits
Prerequisite: BIO 106 (or BIO 103 and BIO 104) or permission of Director of Funeral Service Programs
Survey of the major diseases, including pathological changes related to disease processes and the effects of physical and chemical trauma on the human body. Facilitates understanding of medical terminology relevant to funeral service.
3 lecture hours

FUN 227 Restorative Art 3 credits
Prerequisite: BIO 106 (or BIO 103 and BIO 104); FUN 247 or permission of Director of Funeral Service Programs
Examines facial anatomy including underlying structures and facial features, restoration, color and cosmetics. Lab work develops proficiency in anatomical modeling and the practical application of cosmetics.
2 lecture/2 laboratory hours

FUN 229 Funeral Service Counseling 3 credits
Prerequisites: FUN 206 and PSY 101 or permission of Director of Funeral Service Programs
Promotes an appreciation of care-giving roles in relation to grieving persons and addresses the background material, skills and procedures needed for helping situations. Situations requiring professional therapy are differentiated from those requiring referrals for more specialized counseling.
3 lecture hours

FUN 247 Principles of Embalming I 3 credits
Prerequisites: BIO 106 (or BIO 103 and BIO 104), ENG 101 and enrollment in Funeral Service Program
Includes review of historical background, ethical and sanitary considerations, signs and tests of death, postmortem changes and basic procedures, instruments and equipment employed in embalming with emphasis on procedures for handling infectious/contagious disease.
3 lecture hours

FUN 249 Principles of Embalming II 2 credits
Prerequisite: FUN 247 with a minimum C grade
Continuation of FUN 247. Topics include cavity treatment, types of embalming chemicals and their uses, causes of embalming failure, discolorations, vascular difficulties, decomposition, dehydration, edema, deformities and malformations, and radiation.
2 lecture hours
**GAM — Game Design**

**GAM 120 Game Design Theory and Culture** 3 credits
Students explore the historical and cultural significance of play through human history to include today’s video game phenomenon by examining many game models across several genres. Conceptual and production processes involved in current industry game design and development are introduced, with particular emphasis on the design of creative models expressing gaming concepts.

1 lecture/4 laboratory hours

**GAM 140 Game Design I** 3 credits
Prerequisites: COS 101, DMA 120, DMA 135, ENG 101, GAM 120, or permission of instructor
Students develop fundamental skills designing computer games. Topics include environments, interfaces, rules, dynamics, play mechanics, goals, conflicts and aesthetics. Students learn to use standard industry level-building software and digital sculpting tools. Emphasis is placed on conceptual design of game play, interface, and the processes of 2-D and 3-D content creation.

1 lecture/4 laboratory hours

**GAM 145 Game Programming I** 3 credits
Prerequisite: COS 101
Corequisite: GAM 120
Analysis of an existing professional game engine contributes to an understanding of a game’s architecture and development. Working within the limits of the game engine, students design their own programming projects, modifying the logic and engine to create custom game experiences.

2 lecture/2 laboratory hours

**GAM 240 Game Design II** 3 credits
Prerequisite: GAM 140
Emphasis on prototyping and level-building of game design concepts expands on the topics explored and skills developed in Game Programming I. Additional topics include content importing and configuration, mapping, lighting, physics, and scripted interaction.

1 lecture/4 laboratory hours

**GAM 260 Game Development** 3 credits
Prerequisite: GAM 240
In this capstone course, students work in interdisciplinary production teams to develop computer games and modules utilizing industry-standard game engines. Coursework centers on producing scripted real-time modules, play testing, and documentation to specify game design concepts.

1 lecture/4 laboratory hours

**GER — German**

**GER 101 Beginning German I** 3 credits
Students who have taken two or more years of a foreign language, and have done so in the last two years, should begin that language at the 200 level or switch to a new language. If there is doubt, placement will be determined by testing or consultation with the academic division.

3 lecture hours

**GER 102 Beginning German II** 3 credits
Prerequisite: GER 101 with a minimum C grade, placement by exam, or permission of instructor
The second in a sequence of courses designed for students with little or no prior knowledge of German. Spoken communication in German is both the end goal and the means of instruction. Emphasizes the four communicative skills in a culturally authentic context. Reading and writing are assigned out of class to facilitate effective listening and speaking practice in class. Basic grammar skills are also introduced.

3 lecture hours
GER 201  Intermediate German I  3 credits  
**Prerequisite:** GER 102 with a minimum C grade, placement by exam, or permission of instructor.  
The second in a sequence of courses designed for students with a mid to high novice level of competency in German. Spoken communication in German continues to be the end goal and the means of instruction. The four communicative skills of reading, writing, listening and speaking are applied to discussions and debates involving German culture, politics, and history. Fundamental grammar points are reviewed.  
3 lecture hours

GER 202  Intermediate German II  3 credits  
**Prerequisite:** GER 201 with a minimum C grade, placement by exam, or permission of instructor.  
The second in a sequence of courses designed for students with a mid to high novice level of competency in German. Spoken communication in German continues to be the end goal and the means of instruction. The four communicative skills of reading, writing, listening and speaking are applied to discussions and debates involving German culture, politics, and history. Fundamental grammar points are reviewed.  
3 lecture hours

**COURSES**

**HIS — History**

**Humanities / Historical Perspective**

HIS 101  History of Western Civilization to 1648  3 credits  
[not recommended for students who have taken HIS 112]  
Introduction to the political, social, cultural, and economic events that distinguished Western civilization to 1648. Major topics include ancient Near Eastern civilizations, Greece and Rome, the Middle Ages, and the Renaissance and Reformation. Examination of highlight works, including literary and visual sources.  
3 lecture hours

HIS 102  History of Western Civilization Since 1648  3 credits  
[not recommended for students who have taken HIS 113]  
Introduction to the political, social, cultural, and economic events that have distinguished Western civilization since 1648. Major topics include Absolutism, the Scientific Revolution, the Enlightenment, the French Revolution, Industrialization, Nationalism, World Wars I and II, and recent trends. Examination of highlight works, including literary and visual sources.  
3 lecture hours

HIS 105  United States History to 1865  3 credits  
Surveys American history to 1865 with emphasis on general concepts and processes. Examines colonial settlement and society, revolution and nation building, the market revolution and Jacksonian democracy, gender, slavery, and the Civil War.  
3 lecture hours

HIS 106  United States History Since 1865  3 credits  
Surveys American history since 1865 with emphasis on general concepts and processes. Examines Reconstruction, the Gilded Age, Progressivism, World Wars, the New Deal, the Cold War, civil rights, gender, social class, and 21st century issues.  
3 lecture hours

HIS 107  The Civil War  3 credits  
Examines slavery, sectionalism, the meaning of Union, racism, and the triumph of Industrial Capitalism. Assesses these issues from social, cultural, economic, and political perspectives to determine the causes, course, and effects of the American Civil War.  
3 lecture hours

HIS 109  African American History  3 credits  
Studies the history of the African American from the beginnings in the 15th century to the present. Special emphasis on the investigation and analysis of the historic sources of the problems that African Americans confront in America today.  
3 lecture hours

HIS 110  Film and History  3 credits  
An analytical and topical study of 20th century American social, cultural, economic, and political history as represented in film.  
3 lecture hours

HIS 112  World History to 1500  3 credits  
[not recommended for students who have taken HIS 101]  
Survey of world history from pre-history to 1500, examining the development of ancient societies in Asia, Europe, Africa, the Americas, and Oceania. Examines interactions among peoples of different societies including ancient Egypt and Nubia, India, classical Greece and Rome, the Islamic states, Han China, early Korea and Japan, and Andean and Mesoamerican societies.  
3 lecture hours

HIS 113  World History Since 1500  3 credits  
[not recommended for students who have taken HIS 102]  
Survey of world history from 1500 to the present, examining the development of societies in Asia, Europe, Africa, the Americas, and Oceania. Charts the development of individual societies in the Modern Age by focusing on interactions among diverse cultures and the driving forces of changes such as industrialization/technology, nationalism and colonization/de-colonization.  
3 lecture hours

HIS 122  American Sports History  3 credits  
Examines sports’ prominence in American life since the mid-19th century. Focuses on sports as a reflection of our social, political and economic make-up and on sports’ ability to affect and shape our institutions. Particular attention is given to social class, race and ethnicity, gender, community, technology, and commercialization and the media.  
3 lecture hours

HIS 207  American Constitutional History  3 credits  
Study of the Constitution’s place in American history with emphasis on presidential authority, judicial interpretation, constitutional crises, the evolution of Federalism, and the status of civil liberty, past and present.  
3 lecture hours

HIS 210  History of American Popular Culture  3 credits  
Explores social, economic, and political contexts through examination of the films, sports, television, music, print media, literature, and fads that shape, influence, and respond to cultural trends.  
3 lecture hours
HIS 213 Twentieth-Century World History 3 credits
Corequisite: ENG 101
Study of world history from the age of imperialism through the modern era. Focuses on the World Wars, the Cold War, colonization and decolonization, political ideologies, genocides, gender, race and ethnicity, religion, class, technology, poverty, terrorism, cultural history, and other global issues. 3 lecture hours

HIS 214 The United States Since 1945 3 credits
Intensive study of American history since World War II examining World War II, the Cold War at home and abroad, the Civil Rights movement, Vietnam, social upheavals and new forms of cultural expression during the 1960s, gender and class, technology, and 21st century issues. 3 lecture hours

HIS 215 The Holocaust and Other Genocides 3 credits
Prerequisite: HIS 102 or HIS 113 recommended
Analyzes the Holocaust and other genocides of the 20th and 21st centuries from an historical perspective. Specific topics include anti-Semitism in Europe, Nazism, the Final Solution, Armenian nationalism, the Khmer Rouge, and African genocides. Texts, testimonies, films, and other resources contribute to understanding events and responses. Particular attention is given to universal themes including prejudice, racism, evil, and moral responsibility. 3 lecture hours

HIS 218 History of Latin America 3 credits
Survey of Latin America from pre-Columbian origins to current times. Topics include Indian civilizations, discovery and conquest, colonial rule, independence movements, as well as 19th century and current issues and events. 3 lecture hours

HIS 220 History of Daily Life in the Modern Western World 3 credits
Examines the continuities and changes in daily life among ordinary people from the 17th century to the present. Although seemingly powerless for much of this period, certain social categories such as peasants, slaves, poor workers, and women played significant roles in the development of the modern world. This course explores those roles by studying the social and cultural aspects of daily life as revealed through a variety of primary sources and secondary studies. 3 lecture hours

HIS 221 History of American Women 3 credits
Studies the role and lives of outstanding women in selected historical periods, focusing on composite historical forces that shaped their lives. Current research in anthropology, psychology, and sociology supplements the historical content. [occasional offering] 3 lecture hours

HIS 225 History of England 3 credits
Survey from the earliest period to the present with emphasis on significant aspects of the Celtic, Roman, and Anglo-Saxon heritage, medieval and renaissance England, and English achievements in recent centuries in government, social reform, and culture. [occasional offering] 3 lecture hours

HIS 226 History of New Jersey 3 credits
Surveys New Jersey history from the pre-colonial era to the present, with special emphasis on race, gender, ethnicity, social class, and the state's meaningful place in the larger story of American history. [occasional offering] 3 lecture hours

HIS 230 Special Topics in History 3 credits
Prerequisite: ENG 101 or permission of instructor
In-depth and specialized variable studies of some of the major individuals and cultural forces in U.S. and world history. Content may vary each time the course is offered. [occasional offering] 3 lecture hours

HIS 231 Women in Antiquity 3 credits
Examines the legal, social, and cultural roles and status of women in the Ancient Near East, Egypt, Greece, and Rome through review of ancient literature, legal and economic texts, art, and archaeology, supplemented with scholarly commentaries. 3 lecture hours

HIS 232 Women in Europe Since 1500 3 credits
Examines, through a variety of sources, the history of women in Western society since 1500. Through close readings and critical discussion of literature, legal and economic texts, art, as well as scholarly commentary, a deeper appreciation of the legal, social, and cultural roles and status of women in Europe from the Reformation to the present is developed. While focusing mostly on the historical conditions of women, this course also explores the history of gender and sexuality. 3 lecture hours

HIS 233 American History and Literature 3 credits
Prerequisite: ENG 102 with a minimum C grade [also offered as ENG 238] An interdisciplinary examination of American literature and society with special emphasis on contemporary perspectives and the historical context in which texts were written. Focuses on American history and literature since 1865, covering such topics as gender, race, ethnicity and immigration, social class, the West, war, and popular culture. 3 lecture hours

HOS — Hospitality

HOS 100 Hospitality Success Skills 1 credit
Introduces skills necessary to be successful in the hospitality program and the hospitality industry. Emphasizes career options and how to make the most of the educational experience through self management, internship opportunities, and effective study habits. Additional topics include customer service, history and trends of the hospitality industry, and the role of cultural diversity. 1 lecture hour

HOS 101 Food Preparation I 3 credits
Corequisite: HOS 111
Introduction to the principles, skills, and techniques associated with the culinary arts, involving various cooking methods including classic and modern techniques. Identification of various kitchen staples, food products, and equipment used within the commercial food operation. Hands-on activities require the preparation of a wide variety of recipes. Chef whites required. 1 lecture, 4 laboratory hours

HOS 102 Food Preparation II 3 credits
Prerequisites: HOS 101 and HOS 118 or equivalent proficiency
Refines culinary skills in quantity food preparation through operation of a student-run restaurant. Includes kitchen and dining room organization and operations; menu development and design; management of service and culinary personnel; service standards; serving the general public; merchandising and sales promotion; and banquet management. Chef whites required. 1 lecture, 4 laboratory hours
<table>
<thead>
<tr>
<th>COURSES</th>
<th>162</th>
</tr>
</thead>
<tbody>
<tr>
<td>HOS 103</td>
<td>Protocol for International Travel 3 credits</td>
</tr>
<tr>
<td></td>
<td>Develops awareness of other cultures as needed for international travel. Covers itinerary preparation, currency exchange, passports and visas, health and safety hazards, plus proper use of English and cultural interpretations of gestures.</td>
</tr>
<tr>
<td>HOS 104</td>
<td>Hotel Management and Lodging Operations 3 credits</td>
</tr>
<tr>
<td></td>
<td>Preliminary study of operations and management in the lodging industry with special emphasis on front desk operations and management, housekeeping, corporate structure, staffing, sales, security, and accounting.</td>
</tr>
<tr>
<td>HOS 109</td>
<td>Advanced Culinary Arts 3 credits</td>
</tr>
<tr>
<td></td>
<td>Prerequisites: HOS 101 and HOS 118 or equivalent proficiency Comprehensive review of current culinary arts practices, including advanced professional culinary skills, recipes, techniques, and use of ingredients. Involves practice of a wide variety of classical and modern cooking techniques as well as basic and advanced sanitation measures in kitchen operations.</td>
</tr>
<tr>
<td>HOS 110</td>
<td>Breakfast / Pantry 2 credits</td>
</tr>
<tr>
<td></td>
<td>Prerequisites: HOS 101, HOS 118, HOS 217 Covers basic breakfast preparation, presentation, and merchandising techniques for some basic baked goods, breakfast proteins, as well as garnishes. Practical laboratory experience involves preparing and serving meals. Use, safety, care, and storage of hand tools – including cook’s and vegetable knives – are emphasized.</td>
</tr>
<tr>
<td>HOS 111</td>
<td>Culinary Math 1 credit</td>
</tr>
<tr>
<td></td>
<td>Prerequisite: MAT 037 (or MAT 037A and 037B) Focus on key mathematic concepts related to culinary arts. Students demonstrate a working knowledge of topics including calculating yield percent, determining portion costs, periodic food costs, ‘selling price’ determinations, weights and measures, changing recipe yields, and converting between metric and U.S. measurements.</td>
</tr>
<tr>
<td>HOS 115</td>
<td>Food and Culture 3 credits</td>
</tr>
<tr>
<td></td>
<td>Applying a global perspective of the symbolic, social, political, and economic role of food in different cultures, examines the geographical and historical conditions that give rise to various regional cuisines. Lectures, demonstrations, and hands-on participation reveal how institutions and organizations influence food habits and beliefs.</td>
</tr>
<tr>
<td>HOS 116</td>
<td>Techniques of Healthy Cooking 3 credits</td>
</tr>
<tr>
<td></td>
<td>Prerequisites: HOS 101, HOS 118 Study of nutritional guidelines for selecting, preparing and cooking a wide variety of food products, including desserts. Cooking techniques include sautéing, roasting, steaming and grilling. Healthful menu planning applies “tricks of the trade” techniques to trim calories and fats. Chef whites required.</td>
</tr>
<tr>
<td>HOS 118</td>
<td>Sanitation and Safety in Food Service Operations 2 credits</td>
</tr>
<tr>
<td></td>
<td>Laws and principles governing safe food service, from purchasing, receiving, preparing, serving, and storing to re-heating food products. Prepares students to take the National Restaurant Association Education Foundation certification exam as part of the course.</td>
</tr>
<tr>
<td>HOS 120</td>
<td>Introduction to the Hospitality Industry 3 credits</td>
</tr>
<tr>
<td></td>
<td>Close-up view of the lodging, food service, travel and tourism fields, with introduction to hospitality management, marketing, guest services, hospitality law, human relations and allied hospitality fields.</td>
</tr>
<tr>
<td>HOS 123</td>
<td>Introduction to Travel and Tourism 3 credits</td>
</tr>
<tr>
<td></td>
<td>Develops skills in constructing itineraries; domestic and international ticketing; handling hotel, motel, and resort reservations; arranging cruises, tours, and car rentals; addressing customer and immigration issues. Emphasizes the responsibilities, professional behavior and ethics required for success.</td>
</tr>
<tr>
<td>HOS 124</td>
<td>Computerized Reservations 3 credits</td>
</tr>
<tr>
<td></td>
<td>Prerequisite: computer literacy Provides an understanding of the various facets of travel/tourism reservations with an emphasis on developing skills in utilizing automated reservation systems. Students work with simulated system software widely used in the industry.</td>
</tr>
<tr>
<td>HOS 185</td>
<td>Table Service 2 credits</td>
</tr>
<tr>
<td></td>
<td>Corequisite: HOS 118 Focus on dining room operations including all aspects of service including dining room systems, merchandising, and customer service. Lab hours in the dining room, where students serve customers in one of the student-run restaurants, reinforce classroom discussion.</td>
</tr>
<tr>
<td>HOS 203</td>
<td>Hospitality Purchasing 3 credits</td>
</tr>
<tr>
<td></td>
<td>Prerequisite: HOS 111 Accepted practices for receiving, storing and issuing food and nonfood products within the hospitality industry. Covers purchasing major equipment, small wares, tableware, textiles, and vendor services.</td>
</tr>
<tr>
<td>HOS 204</td>
<td>Hospitality Marketing 3 credits</td>
</tr>
<tr>
<td></td>
<td>Addresses marketing plans, market research, market segmentation, positioning, consumer behavior, advertising, promotion, pricing theory, and hospitality group sales.</td>
</tr>
<tr>
<td>HOS 205</td>
<td>Menu Planning/Costing and Design 2 credits</td>
</tr>
<tr>
<td></td>
<td>Prerequisite: HOS 111 Applicable to a wide variety of food service operations, covers pricing strategies and support systems, ordering, conversion of recipes from small to large quantities, physical types of menus, marketing strategies, and food preferences of the public. Special emphasis on the planning of nutritional menus.</td>
</tr>
<tr>
<td>HOS 207</td>
<td>Grilling, Barbecuing, and Smoking 3 credits</td>
</tr>
<tr>
<td></td>
<td>Introduction to the principles, techniques and skills necessary to prepare outdoor meals. Students prepare a wide variety of foods using grilling, barbecuing, and smoking cooking techniques.</td>
</tr>
<tr>
<td>HOS 208</td>
<td>Hospitality Law 3 credits</td>
</tr>
<tr>
<td></td>
<td>Introduction to hospitality law, its effect on hospitality management, and the legal principles that govern the hospitality industry.</td>
</tr>
</tbody>
</table>
** COURSES **

**HOS 209**  
**Garde Manger**  
3 credits  
**Prerequisites:** HOS 101 and HOS 118 with a minimum C grade  
Addresses basic and advanced garde manger and charcuterie techniques such as the preparation and serving of hot and cold hors d’oeuvres, aspics, pates, mousses, terrines, and cold dishes along with advanced techniques for the planning and arrangement of buffets. Covers table arrangement and planning, creation of model nonedible food displays, as well as manipulation of specialized tools to produce decorative buffet items and showpieces such as ice sculptures, pastillage, marzipan, and fondant.  
1 lecture/4 laboratory hours

**HOS 210**  
**Applied Kitchen Skills – Cafe**  
3 credits  
**Prerequisites:** HOS 102, HOS 217  
An advanced course in pantry and deli preparation and organization. Developing speed skills with quantity production while following industry guidelines for sanitation and safety, students demonstrate proper plate presentation, including seasonal production, in a dining room pantry.  
1 lecture/4 laboratory hours

**HOS 217**  
**Professional Baking I**  
3 credits  
**Prerequisite:** MAT 037 (or MAT 037A and 037B)  
**Corequisite:** HOS 111  
Fundamental principles and procedures for preparing baked goods, pastries, and desserts. Promotes the understanding of baking formulas in bakeshop production planning and ability to produce high-quality items through the development of manual skills. Stresses the use of equipment and supplies in a safe and sanitary manner. Chef whites required.  
1 lecture/4 laboratory hours

**HOS 218**  
**Professional Baking II**  
3 credits  
**Prerequisites:** HOS 111, HOS 118, HOS 217  
Intermediate principles and procedures for preparing baked goods, specialty cakes, pastries and pies. Emphasizes producing quality items through the development of manual skills, knowledge of ingredients and proper use of advanced bakery formulas. Stresses use of high-quality ingredients, equipment, advanced manual skills, and safe and sanitary bakeshop practices.  
1 lecture/4 laboratory hours

**HOS 219**  
**Professional Baking III**  
2 credits  
**Prerequisites:** HOS 118, HOS 217  
Advanced principles and procedures for preparing baked goods, specialty cakes, pastries and pies, and other specialty desserts. Emphasizes producing high-quality items.  
1 lecture/3 laboratory hours

**HOS 230**  
**Experimental Kitchen**  
2 credits  
**Prerequisites:** HOS 101, HOS 111, HOS 118, MAT 120  
Covers tastes and flavors (sweet, salt, bitter, sour, and umami). Students explore culinary herbs and spices, salts, peppers, oils, vinegars, essences, fragrances, oleoresins, concentrates, freeze dried fruit and vegetable products, and other flavor carriers used in cooking and culinary research and development. Includes a hands-on lab application of techniques learned.  
1 lecture/3 laboratory hours

**HOS 231**  
**Meat, Poultry and Fish Fabrication**  
1 credit  
**Prerequisites:** HOS 101, HOS 118  
Addresses the fundamentals of purchasing specifications; receiving, handling, and storing meat and seafood; plus techniques for fabricating cuts for professional kitchens.  
2 laboratory hours

**HOS 235**  
**American Regional Cuisine**  
2 credits  
**Prerequisites:** HOS 102, HOS 109  
Prepare, taste, serve, and evaluate traditional regional dishes of America. Study and practices emphasize ingredients, flavor profiles, preparations, and techniques representative of cuisines of the United States.  
1 lecture/3 laboratory hours

**HOS 239**  
**Restaurant Desserts**  
2 credits  
**Prerequisite:** HOS 218  
How to produce and merchandise restaurant-style desserts. Along with an emphasis on dessert menu planning, production techniques are practiced involving plate-up, garnish, and component style desserts.  
1 lecture/3 laboratory hours

**HOS 240**  
**Classical Cuisine / Advanced International**  
2 credits  
**Prerequisites:** HOS 102, HOS 115  
Students demonstrate a working knowledge in their approach to flavor profiles by applying cooking methods practiced by each ethnic group visited. Traditional preparation and plate presentation is emphasized utilizing both classic and modern approaches.  
1 lecture/3 laboratory hours

**HOS 245**  
**Chocolates and Confections / Retail Bakeshop**  
3 credits  
**Prerequisites:** HOS 218, HOS 219  
The essentials for creating sculptures, forming simple centerpiece, and preparing chocolates and other confections with soft, hard, and liquid centers. Along with merchandising concepts, traditional and contemporary production practices are explored for products including pastillage, nougatine, and assorted sugar and chocolate decorative pieces.  
1 lecture/4 laboratory hours

**HOS 246**  
**Artisanal Breads**  
2 credits  
**Prerequisites:** HOS 218, HOS 219  
An in-depth study and practice of Artisan bread baking. Old World techniques are applied with an emphasis on leavens, poolish, and sponge bread methods.  
1 lecture/3 laboratory hours

**HOS 249**  
**Advanced Pastry**  
2 credits  
**Prerequisite:** HOS 218  
How to produce, plate up, and merchandise restaurant-style desserts. Along with an emphasis on dessert menu planning, production techniques are practiced involving plate-up and garnish, focusing on international presentation styles and flavor profiles.  
1 lecture/3 laboratory hours

**HOS 250**  
**Pastry Arts Practicum**  
2 credits  
**Prerequisites:** HOS 247, HOS 248  
**Corequisite:** HOS 111  
Focus on practical skill sets – including those related to presentation, sanitation, and overall quality – required for pastry arts involving breads, quick breads, sweet dough, cookies, cake decorating, puff pastry, and pie production. Guidelines applied for the final exam match those of the nationally recognized Skills USA competition.  
1 lecture/2 laboratory hours

**HOS 251**  
**Culinary Arts Practicum**  
2 credits  
**Prerequisites:** HOS 210; HOS 235 or HOS 240  
Encompasses hot and cold food preparation and presentation utilizing a market basket format. Students demonstrate knowledge and skills through production of a four-course menu in a practical exam. Guidelines applied for this practical course match those of the nationally recognized Skills USA competition.  
1 lecture/2 laboratory hours

**HOS 267**  
**Event Planning**  
3 credits  
**Prerequisite:** HOS 204  
**Corequisite:** ACC 108 or ACC 111  
Examines the various aspects required in planning and implementing meetings, expositions, conventions, and other events large and small. Along with methods and strategies for overall project management and organization, special emphasis addresses budgeting, promotion, and designing the event environment.  
3 lecture hours

www.mccc.edu
HOS 290 Internship in Hotel, Restaurant, and Institution Management 2 credits
Prerequisites: minimum GPA of 2.0 or permission of program coordinator; eligibility generally limited to students who have completed 30 credits. Supervised field experience in the operation and management of various departments or functional areas at selected hotels, restaurants, and institutions. Focus on leadership skills, human relations development, service in the hospitality industry, and reducing turnover with teamwork.
1 lecture/240 internship hours

HOS 291 Culinary Internship 2 credits
Prerequisites: HOS 109 or HOS 219, sophomore status, and permission of program coordinator. Eligibility generally limited to students who have completed 30 credits. Consists of two components: a supervised field experience working in various kitchen or pastry positions in a commercial kitchen; and classroom exercises and activities involving development of human relations, teamwork, and leadership skills. Service in the hospitality industry as well as culinary career opportunities are additionally addressed.
1 lecture/400 internship hours

HPE — Health / Physical Education

HPE 091 Introduction to Health Careers 2 credits
Prerequisite: ENG 034
Designed for any student interested in a career in the health professions. Provides an introduction to the educational pathways, roles, and responsibilities of health care providers, and an overview of a variety of health professions, plus opportunities to actually observe additional career options in the health care field.
2 lecture hours

HPE 101 Basic Concepts of Nutrition 3 credits
Prerequisites: MAT 033 and ENG 024 or equivalent
Study of the fundamental concepts of nutrition with emphasis on the relationships of nutrients to health. Topics include basic diet constituents, principles of body function, considerations for various age groups, dietary regulations, myths, food patterns, weight control, and food safety.
3 lecture hours

HPE 105 First Aid, CPR and AED 3 credits
Prepares rescuers and lay responders with the knowledge and hands-on skills necessary to safely minimize the consequences of injury and illness and help sustain life in an emergency until medical help arrives. Successful candidates earn Basic Life Saving Healthcare Provider CPR/AED and Heartsaver First Aid Certifications through the American Heart Association.
2 lecture/2 laboratory hours

HPE 110 Concepts of Health and Fitness 2 credits
Prerequisite: ENG 033 or equivalent
Through lectures and laboratories, essential knowledge and skills in health and all dimensions of wellness are explored. Through self-assessments, students develop a wellness profile and program designed to achieve and/or maintain optimal lifelong health and wellness. Physical activity is required.
1 lecture/2 laboratory hours

HPE 111 Living with Health 3 credits
Prerequisite: ENG 034 or college-level proficiency in reading
Through self-assessments and critical thinking, students optimize their physical, psychological, social, intellectual and environmental well-being. Topics include health determinants, disease, disability, consumer education, health literacy, infectious and chronic diseases, aging, diversity, immediate and long-term effects of lifestyle choices including fitness, diet, stress management, destructive behaviors, dependency, and sexuality.
3 lecture hours

HPE 113 Medical Terminology 3 credits
Prerequisite: ENG 101 placement
Basic medical terms with an emphasis on general organizational principles. Topics include the use of prefixes, suffixes, and roots to convey meaning. Exercises provide practice with vocabulary, pronunciation, and report writing. Appropriate for students for students in nursing, allied health, and medical office assistant programs.
3 lecture hours

HPE 134 Prevention, Assessment and Care of Athletic Injuries 3 credits
Prerequisites: BIO 103, ENG 101 and HPE 110 or HPE 111
The art and science of athletic training with emphasis on relating theory and practice. Topics include terminology, injury prevention; and the causes, symptoms, and care of common sports injuries.
3 lecture hours

HPE 140 Kinesiology for Exercise Science 3 credits
Prerequisite: BIO 103 with a minimum C grade
Open to all students interested in the study of human movement, introduces the concepts of locomotion, forces, levers, and bio-mechanics. Topics include origins, insertions, innervations, and actions of prime movers for the musculoskeletal system.
3 lecture hours

HPE 151 Introduction to Exercise Science 1 credit
A series of lectures, guest presentations, and student-initiated field interviews introduces the history and future of exercise science; the wide range of related careers; current issues in health, wellness, and fitness; and various professional and certifying organizations.
1 lecture hour

HPE 163 Principles of Coaching 2 credits
Certifications through the American Heart Association.
Prepares rescuers and lay responders with the knowledge and hands-on skills necessary to safely minimize the consequences of injury and illness and help sustain life in an emergency until medical help arrives. Successful candidates earn Basic Life Saving Healthcare Provider CPR/AED and Heartsaver First Aid Certifications through the American Heart Association.
2 lecture/2 laboratory hours

HPE 171 Medical Terminology 3 credits
Prerequisite: ENG 101 placement
Basic medical terms with an emphasis on general organizational principles. Topics include the use of prefixes, suffixes, and roots to convey meaning. Exercises provide practice with vocabulary, pronunciation, and report writing. Appropriate for students for students in nursing, allied health, and medical office assistant programs.
3 lecture hours

HPE 185 Prevention, Assessment and Care of Athletic Injuries 3 credits
Prerequisites: BIO 103, ENG 101 and HPE 110 or HPE 111
The art and science of athletic training with emphasis on relating theory and practice. Topics include terminology, injury prevention; and the causes, symptoms, and care of common sports injuries.
3 lecture hours

HPE 225 Beginning Tennis 1 credit
Introduces new players to the following strokes and grips: forehand, backhand, serve, volley, lob, and overhead smash. Additionally addresses rules, scoring, tennis etiquette, and tennis vocabulary. Utilization of videotapes, practice drills, and game situations develop skills.
2 laboratory hours

HPE 226 Intermediate and Advanced Tennis 1 credit
Prerequisite: HPE 225 or permission of instructor
For students who have received formal instruction (such as HPE 225), have played competitively, or who have been playing for two or three years and can rally consistently with an opponent. Skills presented include the slice, drop shot, half volley, drop volley, offensive lob, defensive lob, and slice serves. Additionally covers footwork and strategy.
2 laboratory hours

HPE 241 Applied Exercise Physiology 3 credits
Prerequisites: BIO 103, ENG 101
Addresses anatomical, biomechanical, and physiological effects of physical activity on the human body as well as methods of assessment and how to design and implement exercise programs for individuals and groups. Lab activities include practical applications of theoretical concepts.
2 lecture/2 laboratory hours
HRA 203  Light Commercial Systems II  2 credits  
Prerequisites: EET 130, HRA 104  
Corequisite: HRA 202  
Study of electromechanical light commercial system operation, diagnosis and repair, including piping configurations, defrost systems, pressure switches, and pressure regulators.  
1 lecture/2 laboratory hours

HRA 205  Heavy Commercial Systems  4 credits  
Prerequisite: HRA 104  
Operation, maintenance, diagnosis, and repair of heavy commercial systems including electrical controls, mechanical components, and electrical circuitry. [Fall offering]  
1 lecture/4 laboratory hours

IST — Information Systems Technology

Note: Students should consult their academic advisor and the college or university to which they intend to transfer regarding information technology course requirements. The receiving institution always makes the final decision concerning transferability of credits.

IST 033  Tech Studio  2 credits  
Prerequisite: instructor or advisor permission  
An introductory computer technology course for students who have had little or no exposure to computers. Topics include the basics of Windows, the Internet, word processing, multimedia, and e-mail. Students create a Web-based ePortfolio to showcase their coursework.  
1 lecture/2 laboratory hours

IST 101  Computer Concepts with Applications  3 credits  
Prerequisite: ENG 033  
Corequisite: MAT 037 (or MAT 037A and 037B)  
Software Requirements: Office 2016 or Office 365 (free from MCCC), MyITLab, Alice (free from www.alice.org)  
Hardware Requirements: latest operating system for PCs, desktops, and Mac computers; Mac users may experience some compatibility issues with MyITLab Grader Projects.  
Addresses computer literacy involving hardware, software (Microsoft Word, Excel, and PowerPoint as well as programming using object-oriented Alice software), networking, databases, information literacy, and ethical aspects of technology. Students learn to develop APA research papers based on current information technology topics. Lab time includes exposure to popular operating systems, Web searching, and cloud-based software.  
2 lecture/2 laboratory hours

IST 102  Computer Concepts with Programming  3 credits  
Prerequisites: ENG 034; MAT 037 (or MAT 037A and 037B) or equivalent proficiency  
An introduction to computer literacy including a programming laboratory. Lectures cover the Internet; software; system components; peripherals; communications; databases; security, ethics, and privacy; programming languages; and enterprise computing. The laboratory covers forms, menus, decisions, loops, arrays, searching, the user interface, and database programming with Java.  
2 lecture/2 laboratory hours

HRA 101  Principles of Refrigration / Air Conditioning I  2 credits  
Prerequisite: HRA 101  
Corequisite: MAT 037 (or MAT 037A and 037B) or equivalent proficiency  
Fundamental operating principles of compressors, condensers, and evaporators. Specific topics include types of metering devices, general accessory configuration, and procedures for charging and evaluating systems. [Fall offering]  
1 lecture/2 laboratory hours

HRA 102  Principles of Refrigration / Air Conditioning II  2 credits  
Prerequisite: HRA 101  
Corequisite: EET 130 or equivalent  
Fundamental operating principles of compressors, condensers, and evaporators. Specific topics include types of metering devices, general accessory configuration, and procedures for charging and evaluating systems. [Fall offering]  
1 lecture/2 laboratory hours

HRA 103  Refrigration / Air Conditioning Electrical Controls  4 credits  
Prerequisites: EET 130, HRA 102  
Examines types and application of various electromechanical devices such as motors, contractors, overload devices, thermostats, controls, and relays as well as various types of test and metering equipment.  
2 lecture/4 laboratory hours

HRA 104  Domestic Heating and Air Conditioning Systems  4 credits  
Prerequisite: HRA 103  
Operating fundamentals for the diagnosis and repair of various domestic heating and cooling units including window and central units, refrigerators, freezers, gas furnaces, and heat pumps.  
2 lecture/4 laboratory hours

HRA 202  Light Commercial Systems I  2 credits  
Prerequisites: EET 130, HRA 103, HRA 104  
Corequisite: HRA 203  
Explores electrical and mechanical component configurations, including wiring and controls, for light commercial systems.  
1 lecture/2 laboratory hours

HRA 205  Heavy Commercial Systems  4 credits  
Prerequisite: HRA 104  
Operation, maintenance, diagnosis, and repair of heavy commercial systems including electrical controls, mechanical components, and electrical circuitry. [Fall offering]  
1 lecture/4 laboratory hours

HPE 242  Exercise Measurement and Prescription  3 credits  
Prerequisites: BIO 103, BIO 104, HPE 241  
Emphasizes development of the protocol knowledge and skills necessary for appropriate assessments and exercise prescriptions which cater to the physical fitness needs of generally healthy populations, those with medical protocol considerations, and athletic populations.  
2 lecture/3 laboratory hours

HPE 243  Exercise Science Field Experience  3 credits  
Prerequisites: BIO 103, BIO 104, ENG 101, HPE 242  
Provides essential experiences and networking opportunities in an exercise science setting suitable to student interests. Emphasizes career planning and the application of anatomy and physiology, basic nutrition, exercise measurements and prescription, exercise physiology, program management and promotion, and safety. Upon approval of their supervised setting, each student functions and contributes as a staff member for 225 hours.

HRA — Heating, Refrigeration and Air Conditioning

HRA 101  Principles of Refrigration / Air Conditioning I  2 credits  
Prerequisite: HRA 101  
Corequisite: MAT 037 (or MAT 037A and 037B) or equivalent proficiency  
Fundamental principles of pressure and temperature relationships, heat transfer, and heating and cooling concepts. Specific topics include leak detection, types of refrigerants, piping materials, and connections. [Fall offering]  
1 lecture/2 laboratory hours

HRA 102  Principles of Refrigration / Air Conditioning II  2 credits  
Prerequisite: HRA 101  
Corequisite: EET 130 or equivalent  
Fundamental operating principles of compressors, condensers, and evaporators. Specific topics include types of metering devices, general accessory configuration, and procedures for charging and evaluating systems. [Fall offering]  
1 lecture/2 laboratory hours

HRA 103  Refrigration / Air Conditioning Electrical Controls  4 credits  
Prerequisites: EET 130, HRA 102  
Examines types and application of various electromechanical devices such as motors, contractors, overload devices, thermostats, controls, and relays as well as various types of test and metering equipment.  
2 lecture/4 laboratory hours

HRA 104  Domestic Heating and Air Conditioning Systems  4 credits  
Prerequisite: HRA 103  
Operating fundamentals for the diagnosis and repair of various domestic heating and cooling units including window and central units, refrigerators, freezers, gas furnaces, and heat pumps.  
2 lecture/4 laboratory hours

HRA 202  Light Commercial Systems I  2 credits  
Prerequisites: EET 130, HRA 103, HRA 104  
Corequisite: HRA 203  
Explores electrical and mechanical component configurations, including wiring and controls, for light commercial systems.  
1 lecture/2 laboratory hours
IST 107 Introduction to C/C++ Programming 3 credits
Prerequisites: proficiency in basic algebra, MAT 037 (or MAT 037A and 037B)
By programming to solve problems in C/C++, students gain an appreciation for the role that computers and programs play in today's society. Topics include programming in a traditional environment, variables, methods, decisions, repetition, arrays, and object-orient programming. Extensive laboratory exercises reinforce lecture concepts.
1 lecture/4 laboratory hours

IST 108 Introduction to Programming with Mobile Application Development 4 credits
Prerequisite: MAT 037 or 042, or proficiency in basic algebra
Introduces computing and programming concepts, and explores mobile and Web technologies. Topics include variables, decision-making, iteration, lists, functions, decomposition, event-driven programming, databases, client-server computing, Web services, platforms, programming languages, animation, texting, and geolocation. Students learn by creating Android mobile applications using App Inventor, a visual programming language.
3 lecture/2 laboratory hours

IST 109 Introduction to Programming 3 credits
Prerequisites: IST 107, IST 109
Introduces fundamental programming structure, tools and documentation, including how to design interfaces and develop Task Object Event (TOE) and Object Properties and Settings charts, hierarchy charts, pseudocode, and flowcharts. Problem-solving techniques and program design using logic control structures of sequence, selection, iteration, arrays, and sequential files are emphasized in laboratory exercises using VB.NET.
2 lecture/2 laboratory hours

IST 123 Programming in Visual Basic.NET 3 credits
Prerequisite: IST 109
Overview of Visual Basic.NET language to create event-driven programming applications to be run in a Windows environment. Develops object-oriented solutions for a variety of problems in personal and business computing.
2 lecture/2 laboratory hours

IST 140 The Internet and Computer Technology 3 credits
Prerequisite: computer literacy
Introduction to Internet technology and the use of the World Wide Web as a tool. Topics include Internet and Web history, client-server networks, Web browsers, search engines and queries, multimedia, electronic commerce, social networking utilities, electronic mail, and computer security. Students design a Web page using HTML.
2 lecture/2 laboratory hours

IST 144 Website Development 4 credits
Introduces website development skills. Thorough examination of Hypertext Markup Language (HTML) includes navigation, tables, Cascading Style Sheets (CSS), images, audios, videos, and forms. Students learn the latest Web design and development technologies including HTML5, CSS3, JavaScript, and jQuery.
3 lecture/2 laboratory hours

IST 208 Android Application Development 4 credits
Prerequisite: COS 102 or equivalent
Teaches how to develop applications for Android devices using Java programming language along with the Android SDK. Students learn how to apply Java and object-oriented technology to mobile application development. Doing real projects within the Eclipse integrated development environment further advances practical programming knowledge and skills.
3 lecture/2 laboratory hours

IST 209 Project Management Concepts 3 credits
Cultivates strategies to orchestrate carefully designed action plans to complete projects successfully, often incorporating complex, dynamic, and changing requirements. Explores the management of technology, people, and change to achieve goals, reach targets, and deliver the project on time and within budget.
2 lecture/2 laboratory hours

IST 218 iOS Application Development 4 credits
Prerequisite: COS 102 or equivalent
Introduces the tools and skills needed to create apps for iPhone and iPad. Students learn the Swift programming language and use it with Xcode 6 to create apps on the iOS 8 platform.
3 lecture/2 laboratory hours

IST 222 PL/SQL Programming 3 credits
Prerequisites: IST 123, IST 262
Incorporates programming, problem solving, programming logic, and design techniques. Students acquire advanced programming skills such as accessing and updating data in a relational database and developing applications using PL/SQL.
2 lecture/2 laboratory hours

IST 244 Web Application Development 4 credits
Prerequisites: IST 108, IST 109, IST 144; or COS 101, COS 102; or DMA 145 or equivalent
Introduction to server-side programming and database integration contributes to the creation of dynamic and interactive Web applications. Primary programming languages and technologies covered include ASP.NET, C#, SQL Server, and MVC (Models, Views and Controllers) programming model.
3 lecture/2 laboratory hours

IST 250 Decision Support Using MS Excel 4 credits
Prerequisites: IST 102, IST 109, IST 123
Techniques for building complete Excel-based decision support systems in a highly accessible manner. Topics include referencing and names, functions and formulas, charts, pivot tables, macros, programming structures, building user interfaces, and VBA for optimization and simulation. The extended functionality topics include statistical analysis, the Solver and modeling, simulation, and working with large datasets.
3 lecture/2 laboratory hours

IST 251 Management of Information Technology 3 credits
Prerequisite: completion of 30 credits toward Information Systems or Information Technology degree program
Explores solutions to the challenges facing a typical computer technology manager, including project life-cycles, security, access, end-user computing, project planning, scheduling, staffing, employee development, and external threats to private computers.
2 lecture/2 laboratory hours

IST 253 Database Concepts 3 credits
Prerequisite: IST 102 or IST 109
Covers relational database technology and how to apply it in solving basic and advanced database problems and cases. Provides the foundation for the advanced study of individual database management systems, electronic commerce, and enterprise computing.
2 lecture/2 laboratory hours
IST 256 Systems Analysis 3 credits
An introduction to systems analysis and design, including analyzing the business case, requirements modeling, and development strategies. Additionally covers output and user interface design, data design, systems architecture and implementation, and systems operation, support, and security.
2 lecture/2 laboratory hours

IST 259 Project Management 4 credits
How to select, initiate, operate, and control all types of projects, including how to manage risks and uncertainties. Equips students with the quantitative skills, knowledge of organizational issues, and insights into human behavior that are needed for effective project management.
3 lecture/2 laboratory hours

IST 260 SQL Server Database Design 4 credits
Covers user-defined functions and constraints, database methodologies including OLAP (Online Analytical Processing) and OLTP (Online Transaction Processing) issues, and SQL Server. Additionally covers the relational database model, normalization issues, and ensuring data integrity through the use of views, triggers, and stored procedures.
2 lecture/2 laboratory hours

IST 261 SQL Server System Administration 4 credits
Prerequisite: IST 260
Covers the concepts and skills required for support of SQL Server and Microsoft Certified Database Administration (MCDBA) certification: backing up and restoring databases, setting up and managing users, managing database security, managing the replication environment, tuning the database system, and troubleshooting any problems that arise.
3 lecture/2 laboratory hours

IST 262 Oracle SQL 4 credits
Prerequisite: IST 109
Introduces Oracle services, including writing SQL statements, creating databases, manipulating data and tables, working with log files, and performing general database administration. Assists students with preparing for series of examinations leading to the Oracle Certified Associate (OCA) Certificate.
3 lecture/2 laboratory hours

IST 263 Database Administration I 4 credits
Prerequisite: IST 262
Addresses Oracle Database software installation along with new database creation and administration. Students configure the database to support an application, create users, define storage structures, set up security, design a backup and recovery strategy, and monitor the database to ensure its smooth operation.
3 lecture/2 laboratory hours

IST 264 Database Administration II 4 credits
Prerequisite: IST 263
Combines training, experience, and testing to ensure a strong foundation and expertise in the industry’s most advanced database management system. Focus includes an Oracle database configuration for multilingual applications, the Oracle Recovery Management and Flashback technology, and database performance monitoring tools.
3 lecture/2 laboratory hours

IST 265 Database Cloud Computing Concept 3 credits
Prerequisites: IST 109, IST 253
Corequisite: IST 262
Teaches database deployment using cloud platforms to program and administer databases in a variety of cloud computing scenarios while managing the platform for scalability, troubleshooting performance issues, and implementing strong security.
2 lecture/2 laboratory hours

IST 298 Information Systems Cooperative Education 2 credits
Prerequisite: final course for degree in Information Technology
Integration of classroom study with specific planned period of learning through job experience. Based on individualized learning contract. 180 work experience hours

IST 281 Information Systems Cooperative Education I 1 credit
IST 282 Information Systems Cooperative Education II 1 credit
IST 283 Information Systems Cooperative Education III 1 credit
Prerequisite: IST 298
Continuation of IST 298. The student earns one credit for a minimum of 90 hours of work experience for each course. 90 work experience hours

ITALIAN — Italian

Note: Students who have taken two or more years of a foreign language, and have done so in the last two years, should begin that language at the 200 level or switch to a new language. If there is doubt, placement will be determined by testing or consultation with the academic division.

Humanities

ITA 101 Beginning Italian I 3 credits
The first in a sequence of courses designed for students with little or no prior knowledge of Italian. Spoken communication in Italian is both the end goal and the means of instruction. Emphasizes the four communicative skills in a culturally authentic context. Reading and writing are assigned out of class to facilitate effective listening and speaking practice in class. Basic grammar skills are also introduced.
3 lecture hours

ITA 102 Beginning Italian II 3 credits
Prerequisite: ITA 101 with a minimum C grade or permission of instructor
The second in a sequence of courses designed for students with little or no prior knowledge of Italian. Spoken communication in Italian is both the end goal and the means of instruction. Emphasizes the four communicative skills in a culturally authentic context. Reading and writing are assigned out of class to facilitate effective listening and speaking practice in class. Basic grammar skills are also introduced.
3 lecture hours

ITA 201 Intermediate Italian I 3 credits
Prerequisite: ITA 102 with a minimum C grade or permission of instructor
The first in a sequence of courses designed for students with a mid to high novice level of competency in Italian. Spoken communication in Italian continues to be the end goal and the means of instruction. The four communicative skills of reading, writing, listening and speaking are applied to discussions and debates involving Italian culture, politics, and history. Fundamental grammar points are reviewed.
3 lecture hours
**COURSES**

**Humanities**

**ITA 202 Intermediate Italian II** 3 credits
*Prerequisite: ITA 201 with a minimum C grade or permission of instructor*
The second in a sequence of courses designed for students with a mid to high novice level of competency in Italian. Spoken communication in Italian continues to be the end goal and the means of instruction. The four communicative skills of reading, writing, listening and speaking are applied to discussions and debates involving Italian culture, politics, and history. Fundamental grammar skills are thoroughly introduced and analyzed. Some spoken communication in Italian is practiced.

**LAT 101 Beginning Latin I** 3 credits
*Prerequisite: LAT 102 with a minimum C grade or permission of instructor*
The first in a sequence of courses designed for students with little or no prior knowledge of Latin. Reading comprehension of literary and scholarly texts in Latin being the end goal, emphasizes the communicative skills of reading and writing based on culturally authentic texts. Grammar is thoroughly introduced and analyzed. Some spoken communication in Latin is practiced.

**JPN — Japanese**

**JPN 101 Beginning Japanese I** 3 credits
The first in a sequence of courses designed for students with little or no prior knowledge of Japanese. Spoken communication in Japanese is both the end goal and the means of instruction. Emphasizes the four communicative skills in a culturally authentic context. Reading and writing are assigned out of class to facilitate effective listening and speaking practice in class. Basic grammar skills are also introduced.

**JPN 102 Beginning Japanese II** 3 credits
*Prerequisite: JPN 101 with a minimum C grade or permission of instructor*
The second in a sequence of courses designed for students with little or no prior knowledge of Japanese. Spoken communication in Japanese is both the end goal and the means of instruction. Emphasizes the four communicative skills in a culturally authentic context. Reading and writing are assigned out of class to facilitate effective listening and speaking practice in class. Basic grammar skills are also introduced.

**LAT — Latin**

**LAT 101 Beginning Latin I** 3 credits
The first in a sequence of courses designed for students with little or no prior knowledge of Latin. Reading comprehension of literary and scholarly texts in Latin being the end goal, emphasizes the communicative skills of reading and writing based on culturally authentic texts. Grammar is thoroughly introduced and analyzed. Some spoken communication in Latin is practiced.

**LEG — Legal Studies**

**LEG 129 Role of the Paralegal** 3 credits
Study of the relationship among paralegals, attorneys, and clients particularly as it relates to law office economics, legal ethics, and confidentiality. Stages in a civil lawsuit and a criminal prosecution are examined; legal interviewing, investigation, and an orientation to legal research are stressed.

**LEG 130 Civil Litigation I** 3 credits
Study of the law of torts designed to acquaint the paralegal with the various forms of tort actions encountered in the law office.

**LEG 132 Civil Litigation II** 3 credits
*Prerequisite: ENG 101 with a minimum C grade*
Overview of the litigation process covering the pleadings of cases from initial complaint through ultimate judgment, with emphasis on tasks performed by paralegals. Addresses medical terminology and rules of evidence.

**LEG 133 Legal Research and Writing** 3 credits
*Prerequisite: ENG 101*
Study of basic skills often required in the general practice of law. Utilizing computer-assisted legal research, includes an introduction to several common kinds of legal writing with an emphasis on that which the paralegal encounters on a day-to-day basis in a law office.

**LEG 143 Family Law** 3 credits
Survey of procedures and pleadings in domestic relations including the preparation of divorce complaints, answers, counterclaims, motions, disclosure statements, and property settlement agreements. Includes issues of custody, visitation rights, child support and maintenance, adoptions and name changes. [Spring offering]
**LIB — Library Technology**

**MAT — Mathematics**

**MAT 033 Pre-Algebra**

Developmental mathematics course designed for students needing a review of basic arithmetic, including an introduction to algebra. Topics include operations with whole numbers, decimals, fractions, percents, ratio and proportion, signed numbers, and an introduction to algebraic equations. [Foundation course does not fulfill mathematics elective requirement.]

**MAT 041 Foundation Math I**

Developmental mathematics course designed for students needing a review of basic arithmetic, including an introduction to algebra. Topics include whole numbers, fractions, decimals, percentages, and integer operations. Students work through the material in self-paced mastery-based modules in a lab setting. [Foundation course does not fulfill mathematics elective requirement.]

**MAT 042 Foundation Math II**

Developmental mathematics course designed for students needing an introduction to algebra. Topics include inequalities, linear models and graphing, exponents, and polynomials. Students work through the material in mastery-based modules in a lab setting. Those who complete this course may register for MAT 115, MAT 120, MAT 125, or MAT 140. [Foundation course does not fulfill mathematics elective requirement.]

**MAT 043 Foundation Math III**

Developmental mathematics course designed for students needing additional topics in algebra. Students work through the material – operations on rational and radical expressions, systems of equations, and linear models – in mastery-based modules in a lab setting. Those who complete this course may register for MAT 135 or MAT 140. [Foundation course does not fulfill mathematics elective requirement.]
**MAT 115 Mathematics**
**Algebra and Trigonometry I** 3 credits
Prerequisite: MAT 037 (or MAT 037A and 037B) or MAT 042 or appropriate placement test score
Primarily for students majoring in engineering technology related programs. Algebraic topics discussed include systems of linear equations, determinants, factoring, trigonometric functions and their graphs, radical measure, solutions of triangles, and application problems. 3 lecture hours

**MAT 116 Mathematics**
**Algebra and Trigonometry II** 3 credits
Prerequisite: MAT 115 with a minimum C grade or permission of the Mathematics Department
Continuation of MAT 115. Topics include complex numbers, logarithmic and exponential functions, solving systems of non-linear equations, trigonometric identities and equations, inverse trigonometric functions, and analytic geometry. 3 lecture hours

**MAT 120 Mathematics**
**Mathematics for Liberal Arts** 3 credits
Prerequisite: MAT 037 (or MAT 037A and 037B) or MAT 042 or appropriate placement test score
Primarily for students in non-scientific/non-technical majors, emphasizes mathematical systems, reasoning, and mathematical structures. Includes sets, symbolic logic, numeration systems, number systems in other bases, growth models, and geometric structures. 3 lecture hours

**MAT 125 Mathematics**
**Elementary Statistics I** 3 credits
Prerequisite: MAT 037 (or MAT 037A and 037B) or MAT 042 with a minimum C grade or appropriate placement test score
A basic introduction to statistical concepts and methods. Topics include descriptive statistics, basic probability concepts, discrete and normal probability distributions, hypothesis testing and confidence intervals with one sample mean and one sample proportion, as well as regression and correlation. Studies include the use of statistical software. 3 lecture hours

**MAT 126 Mathematics**
**Elementary Statistics II** 3 credits
Prerequisite: MAT 125
Continuation of MAT 125. Topics include random sampling, experimental and observational studies, fundamentals of probability, confidence intervals and hypothesis testing on two populations and two proportions, F and Chi-Square distributions, analysis of variance, and basic nonparametric tests. Studies include the use of statistical software. 3 lecture hours

**MAT 135 Mathematics**
**Intermediate Algebra with Applications** 4 credits
Prerequisite: MAT 037 (or MAT 037A and 037B) or MAT 043 with a minimum C grade or appropriate placement test score
Topics include function notation; linear, quadratic, and absolute value functions and equations; rational expressions and equations; rational exponents and equations; radicals and radical equations; graphing of linear, quadratic, and polynomial functions; and inequalities. [grade of B- or better is strongly recommended to proceed to MAT 146] 4 lecture hours

**MAT 140 Mathematics**
**Applied College Algebra** 4 credits
Prerequisite: MAT 037 (or MAT 037A and 037B) or MAT 042 with a minimum C grade or appropriate placement test score
Designed for students majoring in disciplines involving less intensive math, for which a more conceptual understanding of college algebra is appropriate. Employing extensive examples from a variety of fields, topics include the study of linear, exponential, logarithmic, polynomial and rational functions. Not intended as preparation for Pre-Calculus or Calculus. 3 lecture hours

**MAT 146 Mathematics**
**Pre-Calculus** 4 credits
Prerequisite: MAT 135 with a minimum C grade or appropriate College Level Math placement test score
In-depth study of polynomial, rational, exponential, logarithmic, trigonometric and inverse trigonometric functions, equations, and identities; systems of equations including matrices; extensive use of graphing calculators. [grade of B- or better is strongly recommended to proceed to MAT 151] 4 lecture hours

**MAT 149 Mathematics**
**Calculus** 4 credits
Prerequisite: MAT 146 with a minimum C grade or appropriate College Level Math placement test score
Application-based topics include the fundamental techniques of differentiation and integration of algebraic, trigonometric, exponential and logarithmic functions. Study focuses on optimization, maxima-minima and marginal analysis for differentiation and includes substitution method among other specific integration techniques. Not intended as a prerequisite for MAT 152. 4 lecture hours

**MAT 151 Mathematics**
**Calculus I for the Mathematical and Physical Sciences** 4 credits
Prerequisite: MAT 146 with a minimum C grade or appropriate College Level Math placement test score
First course in the standard integrated calculus sequence. Topics include differentiation of algebraic, exponential, logarithmic, trigonometric, hyperbolic, and inverse trigonometric functions. Applications include curve sketching, related rates, maxima, minima, and approximations as well as integration and applications of the definite integral. 4 lecture hours

**MAT 152 Mathematics**
**Calculus II for the Mathematical and Physical Sciences** 4 credits
Prerequisite: MAT 151 with a minimum C grade and consultation with mathematics faculty member
Continuation of MAT 151. Topics include techniques of integration, areas, volumes, arc length, surface area, improper integrals, Simpson’s Rule, infinite sequences, Maclaurin and Taylor series, differentiation of polar and parametric equations, conic sections in rectangular and polar form, and rotation of axes. 4 lecture hours

**MAT 200 Mathematics**
**Statistics for Social and Health Sciences I** 3 credits
Prerequisite: MAT 135 with a minimum C grade or appropriate College Level Math placement test score or permission of department
An applied statistics course for the social sciences, nursing, etc. Topics include data production and access, one-variable data analysis, correlation and regression, normal and binomial distributions, sampling distributions, estimation and tests of hypotheses for a single sample. MINITAB statistical software is used to calculate statistics and generate graphs. 3 lecture hours
**MAT 201** Probability and Statistics for Science and Engineering 4 credits  
Prerequisite: MAT 151 or MAT 149 with a minimum C grade or permission of department  
Calculus-based course designed for engineers, computer scientists and science majors. Topics include one variable data analysis, sample regression analysis, probability, discrete and continuous distributions, random samples, confidence intervals and hypothesis testing, contingency tables, as well as one factor and factorial experimental design.  
4 lecture hours

**MAT 205** Statistics for Social and Health Sciences II 3 credits  
Prerequisites: MAT 200 with a minimum C grade or permission of department  
Second-semester course in an academic year sequence for social sciences, humanities, nursing and related fields. Utilizes statistical software for studies of probability, inference for two parameters, inference for regression and correlation, analysis of variance, analysis of categorical data, and non-parametric statistics. [Spring offering]  
3 lecture hours

**MAT 208** Linear Algebra 4 credits  
Prerequisite: MAT 151 with a minimum C grade and consultation with mathematics faculty member  
An introduction to linear algebra topics including linear equations and matrices, determinants, independence and basis, vector spaces and subspaces, the four fundamental subspaces, orthogonality, linear transformations and eigenvalues and eigenvectors. Applications of linear algebra are included.  
4 lecture hours

**MAT 251** Calculus III 4 credits  
Prerequisite: MAT 152 with a minimum C grade and consultation with mathematics faculty member  
Continuation of MAT 152. Includes parametric equations, vectors, solid analytic geometry, partial derivatives, multiple integrals, and topics in vector calculus including Green’s theorem and Stoke’s theorem.  
4 lecture hours

**MAT 252** Differential Equations 4 credits  
Prerequisite: MAT 152 with a minimum C grade and consultation with mathematics faculty member  
Topics include solutions of ordinary differential equations, solving linear differential equations of higher order using differential operators, methods of undetermined coefficients and variation of parameters. Strong emphasis on solving differential equations using the Laplace transform, Cauchy-Euler equation, infinite series, and matrix methods. Applications to geometry and physical science are discussed.  
4 lecture hours

**MET 123** Machine Shop Techniques I 3 credits  
Prerequisites: EET 140, MET 122  
Introduces the theory and practical concepts of manual machining, primarily focused on using the lathe for turning operations to manufacture cylindrical part assemblies. Topics include shop mathematics, machine tool safety practices, measuring devices, and an understanding of lathe components. Corresponding labs apply practical hands-on examples which follow NIMS certification requirements.  
2 lecture/3 laboratory hours

**MET 124** Machine Shop Techniques II 3 credits  
Prerequisite: MET 123  
Introduces the theory and practical concepts of manual machining, primarily focused on using the vertical mill for milling operations to manufacture flat or angled part assemblies. Topics include shop mathematics, machine tool safety practices, measuring devices, and an understanding of vertical mill components. Corresponding labs reinforce lectures with practical hands-on examples which follow NIMS certification requirements.  
2 lecture/3 laboratory hours

**MKT — Marketing**

**MKT 101** Principles of Marketing 3 credits  
Prerequisite: ENG 101 with a minimum C grade  
A study of the process of planning and executing the conception, pricing, promotion, and distribution of ideas, goods, and services that satisfy individual and organizational objectives.  
3 lecture hours

**MKT 106** Introduction to Sports Marketing 3 credits  
Prerequisite: ENG 101 with a minimum C grade  
Exploration of the comprehensive nature of sports marketing from a strategic marketing perspective. Examination of basic and detailed concepts covers such areas as sponsorships, branding, promotions, public relations, licensing, and consumer research and behavior, including their effects on professional, intercollegiate and other areas of sport.  
3 lecture hours

**MKT 230** Principles of Retailing 3 credits  
Prerequisite: MKT 101  
Introduction to the field of retailing. Issues include establishment of a store, store location, layout, organization and planning, buying, merchandising, promotion, credit, control and personnel.  
3 lecture hours

**MLT — Medical Laboratory Technology**

Except as noted, enrollment in MLT courses is limited to students who have completed all basic skill requirements and who have received full acceptance into the professional phase of the program. The minimum passing grade for all MLT courses is C+.

**MLT 112** Introduction to Medical Laboratory Technology 3 credits  
Prerequisite: permission of program coordinator  
Basic principles, techniques, and vocabulary applicable to medical laboratory technology. Topics include lab safety, specimen collection and transport, phlebotomy, urinalysis, immunology/serology, and computer technology as well as an overview of the four major laboratory disciplines of hematology/coagulation, immunohematology, chemistry, and microbiology. The laboratory component develops laboratory skills related to the lecture topics.  
2 lecture/3 laboratory hours
MLT 200  Clinical Chemistry  4 credits  
Prerequisite: permission of program coordinator  
Principles and theory of chemical analysis performed on clinical specimens. In-depth study examines specimen processing, analysis, test interpretation, and quality control procedures used in routine manual and automated clinical chemistry testing. Laboratory exercises involve bench techniques, dilutions, and test procedures. Group presentations highlight various chemistry analyzers.  
3 lecture/3 laboratory hours

MLT 207  Clinical Immunohematology  4 credits  
Prerequisite: permission of program coordinator  
Basic theory and concepts of antigen-antibody reactions as they pertain to blood cell transfusions. Blood group antigens and the genetics of their inheritance are examined along with principles of immunology. Methods are introduced for performing blood grouping, compatibility testing, and component selection. The laboratory component develops technical skills through hands-on experience in blood bank procedures.  
3 lecture/3 laboratory hours

MLT 212  Clinical Hematology  4 credits  
Prerequisite: permission of program coordinator  
Study of blood cells in bone marrow, peripheral blood, and body fluids. Normal and abnormal blood cell maturation, physiology, and morphology are examined along with coagulation, another branch of hematology, involving hemostasis (the stopping of blood flow). The laboratory component develops technical skills used to perform hematology and coagulation lab tests.  
3 lecture/3 laboratory hours

MLT 214  Clinical Microbiology  6 credits  
Prerequisite: permission of program coordinator  
Principles and methods used in diagnostic microbiology. Test procedures routinely applied in medical bacteriology, parasitology, mycology, and virology are covered with an emphasis on the isolation, identification, and antimicrobial susceptibility testing of pathogenic microorganisms. Immunologic and molecular methods used for infection agent identification are also covered.  
5 lecture/3 laboratory hours

MLT 215  Clinical Practice  10 credits  
Prerequisites: MLT 112, MLT 200, MLT 207, MLT 212, MLT 214, or permission of program coordinator  
Clinical practice at an affiliated facility under the direction and supervision of laboratory educators. Students conduct routine analytical procedures, develop laboratory skills, apply knowledge of testing principles, and demonstrate acquired laboratory competencies. Includes presentation of a laboratory case study correlating test results with clinical condition.  
560 clinical hours

MOA — Medical Office Assistant

MOA 101  Medical Ethics and Office Procedures  3 credits  
Prerequisites: BIO 103, CSW 100 (unless waived by program coordinator), ENG 101, MAT 135, PSY 101  
Focuses on administrative skills necessary for work in a medical office. Includes communicating with patients, telephone management, organizing and maintaining records, coordinating appointments, and legal and ethical issues. Students use medical management software for scheduling and records management.  
3 lecture hours

MOA 103  Medical Billing and Coding Procedures  3 credits  
Prerequisites: BIO 103, CSW 100 (unless waived by program coordinator), ENG 101, MAT 135, PSY 101  
Extensive coverage of CPT and ICD-9-CM coding procedures. Students learn to abstract information from the patient record and combine it with reimbursement and coding guidelines to optimize physician payment.  
2 lecture/2 laboratory hours

MUS — Music

MUS 103  Introduction to Music  3 credits  
Enhances the student’s knowledge and enjoyment of a variety of music styles and historical contexts through listening and discussion. Requires attendance at live concerts. No prior musical training necessary.  
3 lecture hours

MUS 155  History of Jazz and Blues  3 credits  
Study of the evolution of jazz and blues from their origins in West African music and dance to their development as major 20th century art forms. Examines the significant stylistic phases of jazz from early blues and ragtime through swing and be-bop to avant garde and fusion. Also explores the impact of the African American tradition on contemporary rock and pop music.  
3 lecture hours

MUS 156  History of American Pop Music  3 credits  
Analytical and historical survey of American popular music with an emphasis on the period from 1950 to the present. Students develop an understanding of the cultural, social, technological, and musical forces shaping each decade covered. Students apply critical analysis to musical styles, instrumentation, and song structure in addition to issues of race, ethnicity, social class, and gender as formative factors influencing its evolution.  
3 lecture hours

MUS 224  Music History and Literature I — Antiquity Through Baroque  3 credits  
Prerequisites: MLS 103 and MUS 105 or equivalent experience  
Study of the evolution of Western European music from its ideological and practical origins in ancient Greece and Rome through the Medieval, Renaissance, and Baroque periods, in the context of sociohistorical forces and events affecting its development. Basic music theory background desirable.  
3 lecture hours

MUS 225  Music History and Literature II — Baroque Through Modern  3 credits  
Prerequisites: MLS 103 and MUS 105 or equivalent experience  
Continued study of the evolution of Western European music from the classical period, with its roots in the Enlightenment and culmination in Romanticism, through its variegated manifestations in the 20th century. Basic music theory background desirable.  
3 lecture hours

Music Theory

MUS 105  Fundamentals of Music Theory  3 credits  
Offers the student with no prior musical training an introduction to the basics of music theory. Topics include notation of pitch and rhythm, scale structure, key signatures in major and minor keys, plus chord construction and voice leading. [Fall offering]  
2 lecture/2 laboratory hours
MUS 127  Music Theory I  3 credits
Prerequisite: MUS 105 or permission of department
Corequisite: MUS 167
Topics include more advanced chord construction, figured bass, harmonic analysis, the principles and procedures of four-part writing emphasizing the primary triads and their inversions, as well as non-harmonic tones. Reinforced through ear training and sight singing. [Spring offering]
2 lecture/2 laboratory hours

MUS 128  Music Theory II  3 credits
Prerequisite: MUS 127
Corequisite: MUS 168
Completion of the diatonic system. Harmonic principles and procedures introduced in MUS 127 are expanded to include application to the supertonic, leading tone, and mediant and submediant harmonies in both triad and seventh chord form. Introduces more advanced part-writing, as well as harmonic and structural analysis of 18th and 19th century repertoire. Reinforced through auricular training and keyboard harmony. [Fall offering]
2 lecture/2 laboratory hours

MUS 167  Musicianship I  1 credit
Corequisite: MUS 127
Progressive exercises in sight singing, ear training in the form of melodic, rhythmic and harmonic dictation, as well as the practice of keyboard harmony. Emphasis on diatonic materials and the primary triads. Coordinated with conceptual materials presented in MUS 127.
2 laboratory hours

MUS 168  Musicianship II  1 credit
Prerequisites: MUS 127, MUS 167
Corequisite: MUS 128
Continuation of studies begun in MUS 167 with more advanced exercises in sight singing, ear training and keyboard harmony as well as expanded use of the diatonic system including all diatonic triads. Coordinated with conceptual materials presented in MUS 128.
2 laboratory hours

MUS 227  Music Theory III  3 credits
Prerequisite: MUS 128
Corequisite: MUS 267
Study of chromatic harmony especially as used in modulation. Students recognize and compose harmonic progressions involving secondary dominants, diminished seventh chords, as well as altered and borrowed chords, correlated with exercises in ear training, sight-singing, and keyboard harmony. Also includes harmonic and formal analysis of 18th and 19th century repertoire. [Spring offering]
2 lecture/2 laboratory hours

MUS 267  Musicianship III  1 credit
Prerequisites: MUS 128, MUS 168
Corequisite: MUS 227
Further studies in sight singing, ear training, and keyboard harmony building upon skills acquired in MUS 167 and MUS 168. Introduces chromatic materials including modulation to the dominant and to the relative major and minor. Coordinated with conceptual materials presented in MUS 227.
2 laboratory hours

MUS 121  Piano Class I  1 credit
Fundamentals of piano playing, covers music reading, chords, various accompaniment styles, coordination of both hands, and sight-reading skills. Group instruction is given via an electro-piano lab. College pianos are available for practice. No prior piano instruction necessary.
2 laboratory hours

MUS 122  Piano Class II  1 credit
Prerequisite: MUS 121
Continuation of the playing skills and activities initiated in MUS 121.
2 laboratory hours

MUS 221  Piano Class III  1 credit
Prerequisite: MUS 122
Continuation of MUS 122. Explores various periods of keyboard literature as well as increasingly difficult technical skills, sight reading, and transposing.
2 laboratory hours

MUS 222  Piano Class IV  1 credit
Prerequisite: MUS 221
Continuation of MUS 221.
2 laboratory hours

Guitar Class

MUS 142  Guitar Class I  1 credit
Opportunity to learn to play the guitar; no previous experience necessary. Covers basic chords, song accompaniment, music reading, and pertinent music forms. Some acoustic guitars are available for student use in class.
1 lecture/1 laboratory hour

College Chorus

MUS 101  Chorus I  2 credits
MUS 102  Chorus II  2 credits
MUS 201  Chorus III  2 credits
MUS 202  Chorus IV  2 credits
Opportunity to sing choral repertoire in a variety of genres from all periods of music history. Rehearsals culminate in one or two public performances each semester. Some prior singing experience required.
3 class hours

Chamber Ensemble

MUS 111  Chamber Ensemble I  2 credits
MUS 112  Chamber Ensemble II  2 credits
MUS 211  Chamber Ensemble III  2 credits
MUS 212  Chamber Ensemble IV  2 credits
Opportunity to explore, through rehearsal and performance, traditional chamber music repertoire drawn from a variety of historical periods. The student is trained in the proper phrasing, articulation, and dynamics specific to each style. Open to players of all appropriate instruments.
3 class hours

Orchestra

MUS 117  Orchestra I  2 credits
MUS 118  Orchestra II  2 credits
MUS 217  Orchestra III  2 credits
MUS 218  Orchestra IV  2 credits
Prerequisite: prior orchestral instrument playing experience
Opportunity to explore, through rehearsal and performance, orchestral repertoire from a variety of historical periods. The student is trained in proper phrasing, articulation, and dynamics as well as learning how to play within a large group. Course culminates in a final public concert performance.
3 class hours

Individual Instruction

MUS 109  Applied Music I  1 credit
MUS 110  Applied Music II  1 credit
MUS 209  Applied Music III  1 credit
MUS 210  Applied Music IV  1 credit
Private lessons on keyboard, voice, or band/orchestral instrument with a member of the artist-teacher staff. Special fee required.
1 lecture/2 laboratory hours

www.mccc.edu

173

2018 - 2019
**Jazz Studies**

**MUS 119 Jazz Band I**
Prerequisites: ability to play a jazz band instrument and to read music notation
2 credits

**MUS 120 Jazz Band II**
2 credits

**MUS 219 Jazz Band III**
Prerequisite: MUS 120 with a minimum C grade
2 credits

**MUS 220 Jazz Band IV**
Prerequisite: MUS 219 with a minimum C grade
Opportunity to explore classic jazz literature through rehearsal and performance. Repertoire is selected from standards of the swing era, to be-bop, to contemporary funk and fusion with an emphasis on proper articulation, groove, and dynamics specific to each style.
2 credits

**MUS 151 Jazz Improvisation I – Blues**
Prerequisites: ability to play an instrument and to read musical notation
(MUS 151 and MUS 152 need not be taken in sequence.)
Introductory-level course emphasizing use of the Mixolydian mode and the blues scale as applied to the dominant 7th family chords. Explores the twelve-bar blues and related forms as vehicles for improvisation with an emphasis on swing and funk rhythms.
3 class hours

**MUS 152 Jazz Improvisation II – Modal**
Prerequisites: ability to play an instrument and to read musical notation
(MUS 152 may be taken before MUS 151.)
Introductory-level course presenting the conceptual and practical rudiments of the jazz language by focusing on two modes, Ionian and Dorian, as they apply to the major and minor families of chords, respectively. Emphasizes Latino idioms and rhythms.
2 lecture/2 laboratory hours

**MUS 223 Jazz Keyboard Harmony and Improvisation**
Prerequisite: MUS 221
Introductory course presenting the fundamentals of jazz harmony, chord progressions, scales, and tools for improvisation at the keyboard.
1 lecture/2 laboratory hours

**Music Production and Business**

**MUS 123 Music Business**
Overview of the music industry including copyright law, publishing, contracts, management, licensing, and merchandising. Students gain an overall understanding of the people, technologies, and laws that affect all aspects of the music business, culminating in a discussion of career opportunities.
3 lecture hours

**MUS 235 Music Composition in the Virtual Studio**
Prerequisites: CMN 253, MUS 127
Strategies for writing, recording, and producing music in the context of an integrated MIDI/digital audio production environment. Topics include MIDI data entry, recording live sound sources, editing, plug-ins, mixing, mastering, digital music production, and generating .wav and .mp3 files. Assignments include creative projects and listening/discussion of relevant “popular” and “art” music.
2 lecture/2 laboratory hours

**Advanced Studies**

**MUS 285 Special Studies in Instrumental Music**
Prerequisites: MUS 128 and MUS 204 and/or permission of music faculty
Opportunity for students who have completed regular course offerings to continue their studies at advanced levels. Individual students and faculty develop a project contract that sets forth objectives, standards of quality, evaluation guidelines, and deadlines. [occasional offering] 3 lecture hours

**NET — Networking Technology**

**NET 120 Windows Desktop Operating System Administration**
Prerequisite: basic computer literacy
Students learn to install, configure, diagnose, and troubleshoot microcomputer hardware components and various operating systems. Includes an introduction to local area networks, the identification and installation of memory, preventative maintenance, plus coverage of terminology and concepts that will assist students preparing for the A+ Certification exams.
2 lecture/2 laboratory hours

**NET 102 Introduction to PC Hardware and Software**
Prerequisite: basic computer literacy
A continuation of NET 101. Students learn advanced concepts regarding the installation, configuration, diagnosis, and troubleshooting of microcomputer hardware components and operating systems. Includes coverage of terminology and concepts that will assist students preparing for the Server+ Certification exam.
2 lecture/3 laboratory hours

**NET 103 IT Essentials**
Prerequisite: basic computer literacy
3 credits
Concepts regarding the installation, configuration, diagnosis, and troubleshooting of microcomputer hardware components and operating systems. Includes coverage of terminology and concepts that will assist students preparing for the Server+ Certification exam.
3 credits

**NET 104 Fundamentals of Computer Networks**
Prerequisite: basic computer literacy
Fundamentals of data communications theory, network management, connectivity, the OSI model, and internetworking protocols and standards. Covers topologies, architectures, operating systems, security, LAN/WAN components, modern implementation, LAN troubleshooting and support resources, fault tolerance, network adapters, and client-server environments. Assists students preparing for the Network+ Certification exam.
2 lecture/2 laboratory hours

Note: Students should consult their academic advisor and the college or university to which they intend to transfer regarding networking technology course requirements. The receiving institution always makes the final decision concerning transferability of credits.
NET 122 Windows Server Operating System Administration 3 credits
Prerequisites: NET 102 or A+ Certification; NET 120 or permission of program coordinator
Students learn to install and configure the Windows server network OS, including overall administration, advanced file system concerns, and active directory services. Covers routing, remote access, network security, fault tolerance, and server and network resource optimization. Introduces application servers and troubleshooting in a network environment. Hands-on exercises reinforce Microsoft certification exam objectives. 2 lecture/2 laboratory hours

NET 124 Network Infrastructure Administration 3 credits
Prerequisite: NET 122
Windows-based focus includes implementing TCP/IP for cross-platform and Internet connectivity, WINS and DNS to resolve hosts on local and remote networks, DHCP to manage address configuration, RAS including dial-up connectivity and virtual private networks, and Internet connection sharing with NAT. Covers securing network communications with certificates, IP security, authentication, and encryption. Hands-on exercises reinforce Microsoft certification exam objectives. 2 lecture/2 laboratory hours

NET 126 Network Directory Services Administration 3 credits
Prerequisite: NET 122
Students plan, configure, and administer a directory services infrastructure. Includes DNS configuration, administering user environments with group policy, remote OS deployment using RIS, and centrally managing users, groups, shared folders, and network resources. Covers implementing and troubleshooting security as well as monitoring and optimizing directory services performance. Hands-on exercises reinforce Microsoft certification exam objectives. 2 lecture/2 laboratory hours

NET 130 Routing and Switching Essentials 3 credits
Prerequisite: NET 104 or Network+ Certification
Study of the concepts and commands required to configure switches and routers in multiprotocol internetworks. Identifies solutions for small to medium-sized businesses, with procedures to configure multirouter, multigroup internetworks using LAN/WAN interfaces for common routed protocols. Also covers installation, configuration, and troubleshooting essentials required by technicians to install and maintain these devices. Hands-on exercises reinforce Cisco certification exam objectives. 2 lecture/2 laboratory hours

NET 212 Linux 3 credits
Prerequisites: NET 102 or A+ Certification; NET 104 or Network+ Certification
Study of current hardware and software components of two operating system environments: Linux and AS/400. Major concentration is on Linux with an introduction to AS/400. Hands-on lab projects reinforce selected Linux lecture topics. 2 lecture/2 laboratory hours

NET 214 Mastering Linux 3 credits
Prerequisite: NET 212 or permission of course coordinator
In-depth study of the Linux operating system, designed for anyone who has had an introduction to Linux and desires to expand their knowledge and skills. Includes an introduction to writing shell scripts plus attention to system utilities, text processing, and system administrator responsibilities. 2 lecture/2 laboratory hours

NET 230 Scaling Networks 3 credits
Prerequisite: NET 130
Study of the concepts and commands required to use routing and switching technologies together, including recommended campus network design methodologies. Topics include Layer 2 switching technologies including Spanning Tree, VLAN, frame tagging, and protocols; and Layer 3 routing services including inter-VLAN routing, multilayer switching, Hot Standby Routing Protocol (HSRSP), and IP multicast. Hands-on exercises reinforce Cisco certification exam objectives. 2 lecture/2 laboratory hours

NET 239 Connecting Networks 3 credits
Prerequisite: NET 130
Covers the technology and terminology required to use routing and switching technologies together in a wide area network (WAN) infrastructure, including advanced IP addressing techniques, NAT, PAT, DHCP, PPP, ISDN, DDR, frame relay, and an introduction to optical networking. Hands-on exercises reinforce Cisco certification exam objectives. 2 lecture/2 laboratory hours

NET 240 Network Security 3 credits
Prerequisite or Corequisite: NET 130; NET 244 recommended
Explores security design considerations for enterprise networks through the evaluation of existing and planned technical environments, including identifying security risks and defining security baselines. Topics include controlling resource access using various security techniques. Hands-on exercises reinforce certification exam objectives. 2 lecture/2 laboratory hours

NET 242 Directory Services Infrastructure Design 3 credits
Prerequisites: NET 124, NET 126
Analyzes requirements related to the design of a directory services infrastructure, including connectivity and access, security, performance, and end user support. Topics include assessment of the impact on existing systems and processes, creating a forest model and schema modification plan, and defining and naming domains. Hands-on exercises reinforce Microsoft certification exam objectives. 2 lecture/2 laboratory hours

NET 244 Network Defense and Countermeasures 3 credits
Prerequisite: NET 104 or Network+ Certification
Examines current risks and threats combined with structured safeguarding of an organization’s critical electronic assets. Provides a foundation for those new to information security as well as those responsible for protecting network services, devices, traffic, and data. Broad-based, in-depth coverage prepares students for further study in other specialized security fields. Hands-on activities reinforce certification exam objectives. 2 lecture/2 laboratory hours

NET 245 Ethical Hacking 3 credits
Prerequisites: NET 102, NET 104
Combines an ethical hacking methodology with the hands-on application of security tools to better help students secure their systems. Students are introduced to common countermeasures that effectively reduce and/or mitigate attacks, including penetration testing, reconnaissance/open source intelligence gathering, scanning, enumeration, exploitation, and post-exploitation. Hands-on activities reinforce certification exam objectives. 2 lecture/2 laboratory hours
### NSG — Nursing: Cooperative Program

All NSG courses are based with and taught at St. Francis Medical Center School of Nursing.

**NSG 131 Concepts of Nursing I**  
**Corequisites:** BIO 103, PSY 101  
Introduction to concepts and procedures of nursing practice. Fundamental skills are developed and applied within the framework of the nursing process to meet the physiological, social, and psychological needs of clients. Clinical experiences focus on alterations in health of the adult client with acute and chronic medical-surgical conditions.  
60 theory/120 clinical hours

**NSG 133 Concepts of Nursing III**  
**Corequisites:** BIO 104, NSG 134, NSG 135, PSY 207  
Assists students in the use of the nursing process when caring for the client experiencing mental health problems. Emphasizes client care during all phases of mental health disorders, from prevention through rehabilitation. Explores concepts of groups. Provides experiences in a variety of mental health settings.  
30 lecture/60 clinical hours

**NSG 135 Concepts of Nursing II**  
**Corequisite:** NSG 131 with a minimum C grade  
**Prerequisites:** BIO 104 or NSG 134  
Prepares students to use the nursing process in caring for clients experiencing common physiological alterations. Introduces concepts of leadership and management. Builds on previous learning to develop additional skills. Provides clinical experience in a variety of settings.  
60 theory/180 clinical hours

**NSG 136 LPN Transition:**  
**Nursing Through the Life Span**  
**Corequisites:** BIO 201  
Designed to assist in the transition from licensed practical nurse to registered nurse. Building on previous learning while introducing new knowledge and skills that pertain to the registered nurse role, prepares for the final two nursing courses in the curriculum. Emphasizes use of the nursing process in meeting the self-care deficits of clients and families through the life span.  
5 lecture/180 clinical hours

**NSG 137 Physical Assessment**  
**Corequisite:** formal admission into the Nursing program  
**Prerequisites:** BIO 103, BIO 104, ENG 101, PSY 101, PSY 207, NSG 137, NUR 151  
Provides the knowledge and skills necessary to perform a comprehensive adult health assessment. Through discussion as well as laboratory and individual practice, all body systems are assessed. Emphasizes interviewing, obtaining a complete health history, performing a physical assessment, and systematic documentation of findings.  
2 lecture/2 laboratory hours

**NSG 232 Advanced Medical Surgical Nursing**  
**Prerequisites:** BIO 201, ENG 101, NSG 133, PSY 207  
Develops knowledge and skills to care for clients – individuals and groups – with multiple needs requiring complex interventions. Explores complex client problems, resulting in alteration of homeostatic mechanisms. Expands leadership and management skills. Clinical learning experiences are provided in a variety of settings including critical care areas.  
6 lecture/180 clinical hours

---

**COURSES**

**NET 288 MS Exchange Server**  
3 credits  
**Prerequisites:** NET 124, NET 126  
Promotes the skills necessary to administer the Microsoft Exchange Server, involving messaging components, architecture, installation, and management of the Exchange environment. Hands-on exercises reinforce Microsoft certification exam objectives.  
2 lecture/2 laboratory hours

**NRS — Nursing**

**NRS 111 Clinical Reasoning in Nursing Practice**  
1 credit  
**Prerequisite:** formal admission into the Nursing program or current NJ Licensed Practical Nurse (LPN) license  
Introduces the skill of clinical reasoning as it applies to nursing practice and clinical decision-making. Clinical reasoning builds on the skills of critical thinking to move the student to engaged, practical reasoning that complements the scientific reasoning represented in the nursing process. This course introduces critical thinking skills and strategies and forms the basis for the clinical reasoning processes applied throughout all nursing courses.  
1 lecture hour

**NRS 112 Concepts of Nursing Practice I**  
6 credits  
**Prerequisite:** formal admission into the Nursing program  
**Corequisite:** NRS 111  
Introduces the student to the fundamental concepts of nursing practice and the application of the concepts with a focus on wellness and health promotion across the lifespan. The application of knowledge and skills occurs in the nursing laboratories and a variety of clinical settings.  
3 lecture/3 college laboratory/6 clinical hours

**NRS 125 Concepts of Nursing Practice II**  
8 credits  
**Prerequisites:** BIO 104 with a minimum C+ grade, NRS 111, NRS 112  
Builds on the first semester courses to further refine the concepts of nursing practice with application to the care of diverse clients with uncomplicated acute and chronic conditions across the lifespan. Application of knowledge and skills occurs in the nursing laboratories and a variety of clinical settings.  
3 lecture/3 college laboratory/12 clinical hours

**NRS 225 Concepts of Nursing Practice III**  
8 credits  
**Prerequisites:** BIO 201 with a minimum C+ grade, NRS 125  
Builds on the previous nursing courses to further refine and apply the concepts of nursing practice in the care of diverse clients with complicated acute and chronic conditions across the lifespan. Application of knowledge and skills occurs in the nursing laboratories and a variety of clinical settings.  
3 lecture/3 college laboratory/12 clinical hours

**NRS 235 Concepts of Nursing Practice IV**  
8 credits  
**Prerequisite:** NRS 225  
Builds on all previous nursing courses to further refine and apply the concepts of nursing practice in the care of diverse client populations with acute and chronic complex conditions across the lifespan. Application of knowledge and skills occurs in the nursing laboratories and a variety of clinical settings.  
3 lecture/3 college laboratory/12 clinical hours

**NET 288 MS Exchange Server**  
3 credits  
**Prerequisites:** NET 124, NET 126  
Promotes the skills necessary to administer the Microsoft Exchange Server, involving messaging components, architecture, installation, and management of the Exchange environment. Hands-on exercises reinforce Microsoft certification exam objectives.
### OHT 201 Basic Landscaping and Planning I
- **Credit:** 3 credits
- **Description:** Principles and technology of landscape design. Covers the practical and aesthetic aspects of planning the residential landscape, involving both materials and methods. Emphasizes design and graphics skills. **[Fall offering]**
- **Hours:** 2 lecture/3 laboratory hours

### OHT 202 Basic Landscaping and Planning II
- **Credit:** 3 credits
- **Description:** Continuation of OHT 201. Emphasizes practical projects for residential areas and public common spaces. **[Spring offering]**
- **Hours:** 2 lecture/3 laboratory hours

### OHT 204 Plant Diseases
- **Credit:** 3 credits
- **Description:** Introduction to the history, economic importance, symptoms, causal agents and management of plant diseases. Lab exercises include the isolation, culture, and identification of plant pathogens. **[Fall offering]**
- **Hours:** 2 lecture/2 laboratory hours

### NUR 215 Precepted Clinical Experience
- **Credit:** 2 credits
- **Description:** Supervised clinical experience in conjunction with externship at an approved local healthcare facility. Designed to strengthen and broaden the competencies of second-year nursing students and enhance their knowledge of the role of the RN. Participants must be accepted into the facility's externship program. Includes periodic on-campus seminars.
- **Hours:** 0.5 seminar hours/40 clinical days

### OHT 226 Interior Landscape Design
- **Credit:** 3 credits
- **Description:** Examines plant propagation, pests, landscape establishment and maintenance, greenhouse management, principles of landscape design, and fruit and vegetable production. **[Spring offering]**
- **Hours:** 2 lecture/3 laboratory hours
### COURSES

#### OHT 231 Turfgrass Management I 3 credits
*Prerequisite: OHT 101 or OHT 102 or permission of program coordinator*
How to establish and maintain turfgrass for residential and commercial applications. Includes identification and use of cultivars, seeding and sodding, insects and pests, fertilization, and irrigation methods. [Spring offering]
2 lecture/2 laboratory hours

#### OHT 232 Nursery Management I 3 credits
*Prerequisite: OHT 101 or OHT 102 or permission of program coordinator*
Examines nursery operations and mechanics. Topics include planting and transplanting trees and shrubs, fertilization, pest control, irrigation, pruning, propagation techniques, business operations, and employee management. Lab exercises and a field study of local businesses reinforce material. [Spring offering]
2 lecture/2 laboratory hours

#### OHT 241 Equipment and Integrated Pest Management 3 credits
*Prerequisite: OHT 102 or permission of program coordinator*
Review of the equipment and procedures used in horticultural settings with an emphasis on pest management. Topics include theories of and strategies for integrated pest management, pest identification, application of pesticides, calibration of equipment, and equipment operation. [Spring offering]
2 lecture/2 laboratory hours

#### OHT 291 Ornamental Horticulture Cooperative Education I 3 credits
Required capstone experience for Ornamental Horticulture degree and certificate candidates. In approved positions related to their specializations, students work for cooperating employers. Includes performance reviews by faculty observers, employer evaluations of proficiencies, periodic seminars, and a final assessment. [Spring, Summer, Fall offering]
175 work experience hours

#### OHT 292 Ornamental Horticulture Cooperative Education II 1 credit
*Prerequisite: OHT 291*
Continuation of OHT 291. [Spring, Summer, Fall offering]
85 work experience hours

#### OST — Office Systems Technology

#### OST 111 Computer Keyboarding with Word Processing Applications 3 credits
Develops basic keyboarding skills. Students learn the keyboard and basics of word processing including proper formatting procedures for letters, memos, reports, and tables. Skill goal is 30 to 45 words per minute for three minutes with three or fewer errors. 2 lecture/2 laboratory hours

#### OST 219 Word Processing Concepts and Applications 3 credits
*Prerequisite: OST 111 with a minimum C grade or equivalent keyboarding proficiency*
Students develop proficiency in a wide range of word processing functions using Microsoft Word software. Covers generic concepts pertinent to all word processing software, as well as correct document formatting. 2 lecture/2 laboratory hours

### PHI — Philosophy

#### PHI 102 Introduction to Philosophy 3 credits
A study of the basic problems and methods of philosophical inquiry. Topics include theories about knowledge, reality, human nature, ethics, religion and science, with consideration of the thought of such major thinkers as Plato, Aristotle, Descartes, Hume, Kant, Nietzsche, and Sartre. 3 lecture hours

#### PHI 112 Critical Thinking 3 credits
Theory and practice of critical thinking through examples drawn from science, business, politics, media, literature, and art. Students apply logical techniques and attitudes of analysis and communication for constructive assessment, ethical reasoning and creative problem-solving by evaluating definitions, facts, arguments, causes, rhetoric, differences, and plans while avoiding common errors and biases. 3 lecture hours

#### PHI 113 Logic 3 credits
An introduction to the principles and methods of correct reasoning. A problem-solving approach to the nature and scope of different kinds of logic, identifying and evaluating arguments and fallacies, and crafting well-formed arguments. 3 lecture hours

#### PHI 204 Ethics 3 credits
*Prerequisite: ENG 101*
An examination of the basic methods and problems of ethics. Consideration of the nature of moral terms, reasoning and action; conceptions of the good life and of right and wrong; free will; and major ethical approaches, including the theories of Aristotle, Kant, Mill, and others. 3 lecture hours

#### PHI 205 Moral Choices 3 credits
*Prerequisite: ENG 101*
Examines contemporary moral issues such as abortion, euthanasia, capital punishment, affirmative action, pornography, hate speech, gay rights, corporate responsibility, world hunger, global consumption, war, and terrorism. Stresses the critical application of moral theory, principles, and methods. 3 lecture hours

#### PHI 209 Business Ethics 3 credits
Ethical concepts applied to business and government. Case studies and analysis of selected moral issues include the ethics of the marketplace, consumerism, the environment, advertising, job discrimination, distributive justice and world poverty. [occasional offering] 3 lecture hours

#### PBH — Public Health

#### PBH 101 Principles of Public Health 3 credits
*Prerequisite: placement in college-level English*
A broad overview of public health including historical perspectives, communicable disease, epidemiology, health policy, environmental health, emergency preparedness, as well as social, cultural, and behavioral aspects of health across the life span. Additional topics present an introduction to public health infrastructure, delivery of local, state and national services, and core competencies for public health professionals. 3 lecture hours

---

### OHT 231 Turfgrass Management I  
### PHI 209 Business Ethics
**PHO — Photography**

**PHO 101  Black & White Film Photography I**  3 credits  
Foundation course in photography emphasizes basic techniques for the still film camera and darkroom. The development of creative visual expression is strongly encouraged. Students purchase a manually-controlled film camera and other appropriate materials.  
1 lecture/4 studio hours  

**PHO 102  Black & White Film Photography II**  3 credits  
Prerequisite: PHO 101 with a minimum C grade  
Building upon PHO 101, students learn more advanced black-and-white film processing and darkroom techniques. Medium-format cameras provided for student use.  
2 lecture/3 laboratory hours  

**PHO 103  Digital Photography I**  3 credits  
Introductory course for students having basic computer knowledge and interested in gaining knowledge of digital imaging tools and techniques, and improving their creativity. Topics include Photoshop, digital retouching, digital cameras, inkjet printing, resolution, and scanning.  
2 lecture/3 laboratory hours  

**PHO 202  Studio Photography**  3 credits  
Prerequisite or Corequisite: PHO 102 or PHO 203  
with a minimum C grade  
Use digital or film cameras of any format to create portraits, still-life, and product shots. Topics include lighting, composition, technique, and studio equipment.  
1 lecture/4 studio hours  

**PHO 203  Photography II**  3 credits  
Prerequisite: PHO 101 or PHO 103 with a minimum C grade  
Intermediate-level course in film and digital still photography. Covers medium- and large-format film cameras, full-frame DSLR cameras, archival printing methods in both film and digital labs, photo retouching software, film-scanning, and exploring concepts through images.  
1 lecture/4 laboratory hours  

**PHO 251  Documentary Photography**  3 credits  
Prerequisite or Corequisite: PHO 103 or PHO 203  
with a minimum C grade  
Emphasizes techniques and issues of long- and short-term location assignment shooting. Students are afforded opportunities to gain practical experience covering news, features and sports events for The College Voice and to work with journalism students. A photographic essay is developed throughout the semester.  
1 lecture/4 studio hours  

**PHO 285  Special Studies in Photography**  3 credits  
Prerequisites: PHO 102 or PHO 203  
with a minimum C grade and coordinator approval  
Advanced topics in both traditional and digital photography. Course material is tailored to satisfy special requests by students and to share the specialized talents of the college faculty.  
[occasional offering]  
1 lecture/4 studio hours  

**PHY — Physics**

**PHY 101  College Physics I**  4 credits  
Corequisite: MAT 115  
The first of a two-semester non-calculus sequence intended for engineering technology and related majors. Topics include mechanics, heat, sound, and properties of matter. [Students who have not taken high school physics may wish to take PHY 111 as a preparatory course.]  
3 lecture/3 laboratory hours  

**PHY 102  College Physics II**  4 credits  
Prerequisites: PHY 101 and MAT 115  
The second of a two-semester non-calculus sequence. Topics include electricity and magnetism, optics, atomic physics, and nuclear physics.  
3 lecture/3 laboratory hours  

**PHY 109  Fundamentals of Physics**  3 credits  
Prerequisite: MAT 135  
An introduction to the fundamental principles – underlying science and technology – of physics. Intended for the health fields, life sciences, and other areas requiring basic physics literacy. Topics of emphasis include Newtonian mechanics, work and energy, electricity and magnetism, electromagnetic waves, optics, as well as atomic and nuclear physics.  
2 lecture/2 laboratory hours  

**PHY 111  Physical Science Concepts**  3 credits  
Prerequisite: proficiency in basic algebra  
Survey of fundamental concepts in the physical sciences for students not majoring in science or engineering. Covers a broad range of topics in the fields of chemistry, physics, and astronomy such as measurement, motion, forces (gravitational, electromagnetic, nuclear), light, sound, atomic structure, molecular structure, crystal structure, nuclear structure, and various technological applications. Lab exercises support and supplement the lecture topics.  
2 lecture/2 laboratory hours  

**PHY 115  University Physics I**  4 credits  
Prerequisites: MAT 146 with a minimum C grade; one semester of high school or college physics  
Corequisite: MAT 151  
The first course in a calculus-based physics sequence intended for students majoring in physics, engineering science, computer science, mathematics, and other technical areas. Topics include kinematics, dynamics, statics, energy, momentum, oscillations, gravity, as well as solid and liquid materials. The laws of physics are investigated and applied to problem solving.  
3 lecture/3 laboratory hours

PSY 210  Abnormal Psychology  3 credits
Prerequisite: PSY 101 with a minimum C grade
 Discusses the question: What is abnormal behavior and when does this behavior become a diagnosable disorder? History of psychological disorders and early treatments are examined along with the current classifications of psychological disorders as defined by the American Psychological Association. Theories of causation, prevalence, and treatments are also explored.  3 lecture hours

PTA 107  Therapeutic Measurement  2 credits
Prerequisites: BIO 104 with a minimum C+ grade completed within the past five years; PTA 101
Addresses bony landmarks, muscle length, measurement of joint range of motion and muscle strength. Medical documentation is introduced. Students develop their skills through practice with each other. Competencies evaluated throughout the course.  1 lecture/2 laboratory hours

PTA 112  Pathology for PTAs  3 credits
Prerequisites: BIO 104 with a minimum C+ grade completed within the past five years; ENG 102
Required for Physical Therapist Assistant majors. Covers the essential nature of diseases and abnormalities of structure and function characteristic of diseases.  3 lecture hours

PTA 201  Therapeutic Exercise  2 credits
Prerequisites: PTA 105, PTA 107
Review and discussion of treatment interventions that correlate with patient therapy goals. Topics include interpreting a physical therapy initial evaluation, range of motion exercises, stretching, strengthening, joint mobilization, aerobic exercise, exercise parameters and exercise progression. Emphasizes activities to promote clinical decision-making using patient scenarios.  1 lecture/2 laboratory hours

PSY 205  Motor Development  1 credit
Prerequisites: PTA 101, PTA 105, PTA 112
Corequisite: PTA 213
Introduces developmental milestones for normal human motor development. Topics include hereditary, congenital, and acquired disorders with special emphasis on abnormalities of structure and function that impact human motor development.  1 lecture hour

PTA 210  PTA Techniques  4 credits
Prerequisites: PTA 107, PTA 112
Addresses patient care and handling, including patient positioning and bed mobility, vital signs, transfers, gait, massage, aseptic techniques, wound care, edema management, and cardiac and chest physical therapy. Students develop their skills through practice with each other. Competencies evaluated throughout the course.  3 lecture/3 laboratory hours

PTA 211  Physical Agents  4 credits
Prerequisites: PTA 107 and PTA 112;
MAT 115 or MAT 140 or PTA program approved
MAT equivalent with a minimum C grade
Study of physical agents and therapeutic modalities in physical therapy practice. Lab and lecture activities develop problem-solving and critical thinking skills for the use of electrical stimulation, heat, cold, traction, and hydrotherapy for therapeutic interventions. Competencies evaluated throughout the course.  3 lecture/3 laboratory hours

PTA 213  PTA Therapy Clinic  3 credits
Prerequisites: PTA 210, PTA 211
Corequisite: PTA 205
Therapeutic interventions for conditions arising from cerebral vascular accidents, traumatic brain injury, spinal cord injury, amputations, joint replacement, cardiac disease, and neurologic dysfunction. Emphasizes activities to promote optimal functional outcomes. Lab develops decision-making skills involving assistive devices, orthotics and prosthetics. Competencies evaluated throughout the course.  3 lecture/3 laboratory hours

PSY 215  Human Sexuality  3 credits
Prerequisite: PSY 101 with a minimum C grade
Describes the anatomy and physiology of the human reproductive system and the physiology of human sexual functioning. Emphasizes human sexuality as reflecting the psychological makeup of the individual. Stresses the importance of cultural influences on an individual’s behavior, along with interpersonal relationship factors.  3 lecture hours

PSY 221  The Psychology of Women  3 credits
Prerequisite: PSY 101 with a minimum C grade
Exploration of the psychological, biological, and cultural factors influencing the lives of women. Critical analysis of differences and similarities between men and women, gender roles, and the effect of gender on contemporary issues in psychology including physical and emotional health, academic and occupational achievement, relationships, sexual intimacy, violence, and aging.  3 lecture hours

PSY 230  Special Studies in Psychology  3 credits
Prerequisites: ENG 102 and PSY 101
with a minimum C grade or permission of instructor
Consists of special courses in psychology which cater to needs expressed by the student and the broader general community. Taking advantage of particular faculty expertise, the course is offered on occasion in response to specific demand.  3 lecture hours

PTA — Physical Therapist Assistant

Exempt as noted, enrollment in PTA courses is limited to students who have completed all basic skill requirements and who have received full acceptance into the program. PTA majors are required to earn a minimum grade of C+ in PTA courses.

Note: COURSES ARE INTERRUPTED for either four weeks (for PTA 201, 210, 211 and 227) or five weeks (for PTA 213, 216 and 237) for a Clinical Education course as indicated within the semester. Class times have been adjusted accordingly.

PTA 101  Introduction to PTA  1 credit
Prerequisite: ENG 101
Open to all students interested in physical therapy as a career and required for Physical Therapist Assistant majors. Provides an overview of the health care system and the specific roles of physical medicine and rehabilitation professionals. Topics include medical terminology, documentation, and communication skills.  1 lecture hour

PTA 105  Kinesiology  3 credits
Prerequisite: BIO 103 with a minimum C+ grade completed within the past five years
Open to all students interested in physical therapy as a career or in the study of human movement; required for Physical Therapist Assistant majors. Introduces the concepts of locomotion, forces, levers, and biomechanics. Topics include origins, insertions, innervations, and actions of the prime movers of the musculoskeletal system.  3 lecture hours
PTA 216 Orthopedics in PTA 2 credits
Prerequisites: PTA 107, PTA 112, PTA 210
A study of orthopedic conditions and their underlying pathology. Emphasis on physical therapy interventions utilized in the rehabilitation of specified conditions. Optional course for all Physical Therapist Assistant majors. Elective course available to licensed PTs and PTAs. 2 lecture/laboratory hours

PTA 224 PTA Clinical Education I 3 credits
Prerequisites: PTA 107, PTA 112
Corequisite: PTA 227
Supervised clinical instruction to observe the clinic environment and PT/PTA interactions; develop professional deportment and communication; refine measurement and time management skills; and learn about patient chart information. Experiences are shared with classmates and faculty in PTA Seminar (PTA 227).
40 hours per week for 4 weeks = 160 clinical hours

PTA 227 PTA Seminar 3 credits
Prerequisites: PTA 107, PTA 112, approved Physical Therapist Assistant major
Corequisite: PTA 224
Overview of the healthcare system and the specific roles of professionals in healthcare fields. Topics include medical terminology, psychosocial aspects of disability, medical documentation, professional growth and development, evidence-based practice, and communication skills.

PTA 235 PTA Clinical Education II 4 credits
Prerequisites: PTA 210, PTA 211, PTA 224, PTA 227
Corequisite: PTA 237
Supervised full-time clinical experience allows students to apply and practice skills learned in other classes and learn to become an integral part of a physical therapy department.
40 hours per week for 5 weeks = 200 clinical hours

PTA 237 PTA Professional Development 3 credits
Prerequisite: PTA 227
Corequisite: PTA 235
Explores teaching, learning and communication styles, the development of an in-service presentation, and professional tools students will need following graduation. Includes observing the fabrication of prosthetics and witnessing physical therapy in an urban-based rehabilitation setting to be able to teach future patients more effectively.
3 lecture hours

PTA 240 PTA Clinical Education III 5 credits
Prerequisites: PTA 213, PTA 235
Supervised full-time clinical experience allows students to practice all of the techniques and procedures taught in the program, performing all that is normally expected of a physical therapist assistant. Students are expected to conduct an “in-service” presentation to colleagues at the clinical site.
40 hours per week for 6 weeks = 240 clinical hours

RAD 102 Introduction to Radiography and Patient Care 2 credits
Prerequisites: MAT 037 (or MAT 037A and 037B), ENG 024, ENG 034
Corequisites: RAD 119, RAD 127, BIO 103, MAT 135
An introduction to radiography including accreditation requirements, professional organizations, professional ethics, legal responsibilities, and patient care. 1 lecture/2 laboratory hours

RAD 107 Radiation Protection and Biology 2 credits
Prerequisites: RAD 120, RAD 128
Corequisite: RAD 207
Explores principles of radiation biology and radiation protection, including the production of X-rays, the interaction of radiation and matter, radiation units, and methods to protect the radiographer and patient. [Summer offering] 2 lecture hours

RAD 109 Principles of Imaging Science I 2 credits
Prerequisites: MAT 037 (or MAT 037A and 037B), ENG 024, ENG 034
Corequisites: RAD 102, RAD 127, BIO 103, MAT elective
Examines fundamental principles of radiation physics including the atom, electromagnetic radiation, X-ray tube components, and X-ray production. Presents imaging science principles including the primary factors of technique formation and the art of film critique, with clinical application of these principles. [Fall offering] 2 lecture hours

RAD 110 Principles of Imaging Science II 3 credits
Prerequisites: MAT 037 (or MAT 037A and 037B), ENG 024, ENG 034
Corequisites: BIO 104, RAD 128
Examines image production factors that control and contribute to the radiographic image, including density, contrast and recorded detail. Presents the radiation physics principles of electricity, magnetism and X-ray circuitry. The laboratory component demonstrates the clinical application of image production and evaluation. [Spring offering] 2 lecture/laboratory hours

RAD 120 Radiographic Procedures I 6 credits
Prerequisites: MAT 037 (or MAT 037A and 037B), ENG 024, ENG 034
Corequisites: RAD 102, RAD 119, RAD 127
Students acquire clinical experiences at an affiliate hospital sufficient to demonstrate competency in a specified number and variety of radiographic procedures. [Fall offering] 3 lecture/laboratory/24 clinical days

RAD 128 Radiographic Procedures II 6 credits
Prerequisites: RAD 102, RAD 119, RAD 127
Corequisites: BIO 104, RAD 120
Continuation of RAD 127, with standard radiographic positioning and related medical terminology of the chest, abdomen, and upper and lower extremities. Involves laboratory simulation and evaluation. Students acquire clinical experiences at an affiliate hospital sufficient to demonstrate competency in a specified number and variety of radiographic procedures beyond those demonstrated the previous semester. [Spring offering] 2 lecture/laboratory/28 clinical days

RAD 207 Clinical Experience 2 credits
Prerequisites: RAD 120, RAD 128
Corequisite: RAD 117
Students participate in clinical education at an affiliate hospital, performing radiographic procedures in accordance with the clinical competency evaluation process. Radiographic procedures range from routine to complex and are performed on all populations, pediatric throughgeriatric. Students conduct radiographic image analysis. [Summer offering] 28 clinical days

RAD 217 Advanced Imaging Modalities 3 credits
Prerequisites: RAD 117, RAD 207
Corequisite: RAD 228
Presents an overview of special radiographic procedures and advanced imaging and therapeutic technologies. [Fall offering] 3 lecture hours
<table>
<thead>
<tr>
<th>COURSES</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOC 101 Introduction to Sociology</td>
</tr>
<tr>
<td>Corequisite: ENG 101 or college-level eligibility</td>
</tr>
<tr>
<td>An introduction to the sociological analysis of society and culture, including the origin and design of political, economic, and social institutions such as religion, the family, class and caste, education, values, norms, roles, and sociocultural change. Students learn to analyze, evaluate, and critique social structures.</td>
</tr>
</tbody>
</table>

| SOC 104 Sociology of Education | 3 credits |
| Corequisite: ENG 101 or college-level eligibility |
| Overview of the relationship between the school and society. Topics include the school as an agent of social change, the role of teachers, multiculturalism, human development stages, domains of learning, and the socio-historical role of education. | 3 lecture hours |

<table>
<thead>
<tr>
<th>REL — Religious Studies</th>
</tr>
</thead>
<tbody>
<tr>
<td>REL 101 Introduction to Religious Studies</td>
</tr>
<tr>
<td>An introduction to the study of religions, focusing on the nature of religious beliefs and practices, such as sacred power, myths, texts, art and rituals, the problem of evil, and the relationship between cultures, ethics and religions.</td>
</tr>
</tbody>
</table>

| REL 209 Racial, Ethnic and Minority Groups | 3 credits |
| Corequisite: SOC 101 or SOC 107 with a minimum C grade |
| Explores the sociological dynamics of dominant/minority group relations in contemporary U.S. society. Students examine the social construction of race and ethnicity in America as well as the reasons for immigration; patterns of inter-group contact; and the struggles associated with assimilation, acculturation, and other models of dominant/minority group interactions. | 3 lecture hours |

| REL 214 Sociology of Drug Use and Behavior | 3 credits |
| Corequisite: SOC 101 or SOC 107 with a minimum C grade |
| Analysis of the political, economic, and cultural ramifications of drugs in American society within a global context. Specific topics include constructing drug use and the user as a social problem and the implications for social policy and social control (legislation, prevention, and treatment). | 3 lecture hours |
SPA — Spanish

Note: Students who have taken two or more years of a foreign language, and have done so in the last two years, should begin that language at the 200 level or switch to a new language. If there is doubt, placement will be determined by testing or consultation with the academic division.

SPA 101 Beginning Spanish I 3 credits
Prerequisite: placement by exam or permission of instructor [not open to students who received a C- or better in high school Spanish] The first in a sequence of courses designed for students with little or no prior knowledge of Spanish. Spoken communication in Spanish is both the end goal and the means of instruction. Emphasizes the four communicative skills in a culturally authentic context. Reading and writing are assigned out of class to facilitate effective listening and speaking practice in class. Basic grammar skills are also introduced.

SPA 102 Beginning Spanish II 3 credits
Prerequisite: SPA 101 with a minimum C grade, placement by exam, or permission of instructor [not open to students who have passed two or more years of high school Spanish] The second in a sequence of courses designed for students with little or no prior knowledge of Spanish. Spoken communication in Spanish is both the end goal and the means of instruction. Emphasizes the four communicative skills in an authentic language context. Reading, writing, and grammar study are assigned out of class to facilitate effective listening and speaking practice in class.

SPA 121 Spanish for Health Providers I 3 credits
The first in a sequence of courses designed for healthcare students and professionals with little or no prior knowledge of Spanish. Spoken communication in Spanish is both the end goal and the means of instruction. Emphasizes listening, speaking, reading, and writing Spanish within the context of providing healthcare, medicine, and well-being. Reading and writing are assigned out of class to facilitate effective listening and speaking practice in class. Basic grammar is also introduced.

SPA 151 Intermediate Spanish I 3 credits
Prerequisite: SPA 102 with a minimum C grade, placement by exam, or permission of instructor Continuation of SPA 151. Previously learned grammar is reviewed and applied – typically in the present tense – to discussions and debates of topics in Hispanic culture, politics, and history. Spanish communication is the means and end goal of instruction.

SPA 152 Intermediate Spanish II 3 credits
Prerequisite: SPA 151 Intermediate Spanish II 3 credits
Prerequisite: SPA 101 Beginning Spanish I 3 credits
Prerequisite: placement by exam, or permission of instructor

SPA 252 Advanced Spanish II 3 credits
Prerequisite: SPA 152 or permission of instructor
A conversation course which covers a variety of topics related to Hispanic culture through the reading and interpretation of relevant texts. Taught entirely in Spanish, this course additionally develops speaking and writing skills, builds vocabulary, and stimulates debate, conversation, and class discussion.

SST — Security Systems Technology

SST 200 Physical Security Product Technologies 3 credits
Prerequisites: NET 103 and NET 104 or equivalent experience
Addresses the operation and integration of physical security products and technologies including IP-based video surveillance equipment, analytics software, and physical security information management (PSIM), how to satisfy the needs of end user customers by reducing operating costs, and how these technologies keep assets safe around the world.
SST 210  Security Project Management  3 credits  
Prerequisite: SST 200
Examines the role of the security project manager, including the concepts and tools of professional project management. Topics include managing costs, assuring quality, and controlling all aspects of projects throughout the lifecycle, plus fundamental factors affecting a given project, such as stakeholder influence, cash flow, and risk management.  
2 lecture/2 laboratory hours

SST 220  Systems Integration: A Business Blueprint  3 credits  
Prerequisite: SST 200
Students learn to build a security solution which combines equipment, engineering and service, analyze the attributes of products and services, assess customer needs, align organizational strategy to leverage the most powerful features and strengths of products and services, and create a system to meet a client need or solve a client problem.  
2 lecture/2 laboratory hours

SST 230  Security Sales: The Consultative Approach  3 credits  
Prerequisite: SST 200
An introduction to the sales process, focusing on security solutions. Students learn how to organize the sales effort; assess customer needs and present security solutions; organize constituencies to develop, design, and implement security systems solutions; assess return on security investment; manage the customer experience; and maintain consultative, profitable customer relationships.  
2 lecture/2 laboratory hours

STA — Study Abroad

STA 101  Study Abroad Seminar  1 credit  
Prerequisite: prior approval to travel abroad  
A complement to a student's study abroad experience. Students are challenged to reflect on their exposure to culturally diverse people, examine multicultural experiences, and draw connections between study abroad and future endeavors, with the goal of articulating this significance to potential employers and other audiences. Students construct an e-portfolio to catalog their work.  
1 lecture hour

SUS — Sustainability

SUS 101  Introduction to Sustainability  3 credits  
Prerequisites: ENG 024, ENG 034
Examination of the fundamental concepts and principles supporting long-term preservation and availability of natural resources and ecological balance. Factors of sustainability explored include global population growth and consumption, climate change, energy, ecosystems, and community design.  
3 lecture hours

SWK — Social Work

SWK 110  Introduction to Human Services  3 credits  
Corequisite: ENG 101 or college-level eligibility
Overview of human service and social work practice and problem areas, requiring a supervised 45-hour (minimum) volunteer experience within a social service agency and including study of and experience with social development in diverse environments using human service models to understand individual, population, community, and ecosystems organization.  
3 lecture/45 practicum hours

THR — Theatre

THR 101  Introduction to Theatre  3 credits  
Beginning study of the theatre as an art form, examines how a dramatic text is transformed into a stage production. Students read and analyze plays to understand theatre production practices – historical as well as current – and dramatic theory. Requires attending current theatre productions. [Fall and Spring offering]  
3 lecture hours

THR 102  Stagecraft  3 credits  
Introduction to the skills and practice of technical theatre. Studies include elementary carpentry and set construction, scene painting, shop procedures, lighting, cost efficiency, and safety. Students work on college theatre productions. [Fall and Spring offering]  
2 lecture/2 laboratory hours

THR 104  Fundamentals of Acting  3 credits  
Introductory course for both actors and non-actors, examines the history and theory of acting with emphasis on Stanislavski and 20th century methods. Students participate in breathing, relaxation, and centering exercises, theatre games, and improvisational work to develop basic acting skills. Study includes the fundamentals of text analysis, group rehearsal dynamics, and verbal evaluation of other acting work. The class concludes with a public performance. [Fall and Spring offering]  
2 lecture/2 laboratory hours

THR 105  Acting II: Principles of Characterization  3 credits  
Prerequisite: THR 104
Continuation of the skills developed in THR 104. Focuses on the actor's movement and voice skills to support character work. Students utilize Michael Chekhov's Acting Technique, mask work, and improvisation to broaden basic acting skills. Attendance at dance, chorus, and theatre productions is required. [Spring offering]  
2 lecture/2 studio hours

THR 107  Dramatic Writing for Stage and Screen  3 credits  
Prerequisite: ENG 101 or divisional permission
Works of master playwrights and screenwriters are read and discussed. In-class writing exercises, “sense memory” prompts, and strategies for developing dynamic character-based storytelling for the stage are covered during first half of course. Students then adapt and expand this work to create a 20-minute screenplay.  
2 lecture/2 laboratory hours

THR 150  Scenic Techniques for the Entertainment Industry  3 credits  
Prerequisites: ETT 102, THR 102 with a minimum C grade  
Through a variety of projects, students are introduced to fundamental techniques and materials used in scenic art. Explores color theory, various media, proper preparation of surfaces, different painting techniques, Pissaro shapes, cartooning backdrops, trompe l’oiile, and teamwork. Examines ways these techniques and materials are used in the theatre and other entertainment industries including film, television, theme parks, and casinos. [Occasional offering]  
2 lecture/2 laboratory hours

THR 152  Lighting Technology  3 credits  
Prerequisite: ETT 102
Introduction to stage lighting and to the aesthetics of scenic lighting as a visual art. Involves hanging, alignment, focusing, maintenance, and operation of various types of stage lighting fixtures. Students are required to work as a lighting technician at approved venues.  
2 lecture/2 laboratory hours
THR 207  Scene Study I  3 credits
Combines literary and theatrical skills. Students analyze scenes from plays, screenplays, and non-dramatic literature to discover how theatre artists use character, setting, circumstance, and dialogue when transforming text into performance. The interaction of writers, actors, and directors in developing and presenting scenes in performance is also observed. The class concludes with a public performance. [Fall offering]
3 lecture hours

THR 210  Theatre History: Classical to Elizabethan  3 credits
A study of the evolution of theatre from classical Greek and Roman traditions through the Elizabethan period. Emphasis on the play in performance reflecting the changing physical theatre, as well as the social, political, and artistic currents of each period. [Spring offering]
3 lecture hours

THR 217  Theatre Workshop  3 credits
Prerequisites: THR 104 and THR 105 and/or permission of instructor
A practical study of theatrical production by intensive script study and supervised technical projects which culminates in performances for a live audience. Students apply techniques they have learned in prior acting and technical classes to the research, rehearsal and performance of a role in a fully realized theatrical production. [Spring offering]
1 lecture/5 laboratory hours

THR 252  Lighting Design  3 credits
Prerequisites: ETT 102, THR 152 with a minimum C grade
Fundamentals of lighting design. Analysis of a script for lighting and development of a workable design concept. Through this concept and an evaluation of the performers’ spatial relationships in the production, students generate light plots and the associated paperwork common to a production. Students are required to work as a lighting designer at approved venues.
2 lecture/2 laboratory hours

UAS — Unmanned Aerial Systems

UAS 101  Introduction to Unmanned Aerial Systems (UAS)  3 credits
An overview of unmanned aerial systems (UAS), emphasizing their commercial and military history and growth as well as current and future applications in today’s world. In addition, students are trained on the basics of flying a UAS and obtain the necessary ground training to take the required FAA written test for Remote Pilot - UAS. Proof of U.S. citizenship is required.
3 lecture/1 laboratory hours

UAS 102  Advanced Unmanned Aerial Systems (UAS)  3 credits
Corequisite: UAS 101
An in-depth study of unmanned aerial systems (UAS), emphasizing current and future applications including commercial and military. Current Federal Aviation Regulations as they apply to commercial UAS operations are explored, as are UAS design, human factors relating to operation, and the general public’s perceptions of UAS operation. Students continue to develop safety skills as well as more advanced UAS flying maneuvers. Proof of U.S. citizenship is required.
3 lecture/1 laboratory hours

VPA — Visual and Performing Arts

VPA 228  Artistic Collaboration Workshop  3 credits
Prerequisite: ENG 101
Open to actors, dancers, musicians, media professionals, and fine artists. Alternates between generating new performance work and examining the history of collaboration among established artists of different disciplines in Modernist and Postmodernist movements. Students work with the materials of their specific craft while taking inspiration from the other artistic movements. Participants must attend all sessions, and all assignments require rehearsals outside of class time. [Fall offering]
2 lecture/2 laboratory hours

WGS — Women’s and Gender Studies

WGS 132  Introduction to Women’s and Gender Studies  3 credits
Corequisite: ENG 101 or college-level eligibility
[also offered as SOC 132] An introduction to major theories and ideas developed within feminism and the field of gender studies. Specific topics include theoretical explanations of gender; representations of gender; economic, social, and political implications of gender constructs; and cross-cultural perspectives on gender. Texts, films, and other resources contribute toward an understanding of these issues.
3 lecture hours

WGS 221  Seminar in Women’s and Gender Studies  3 credits
Prerequisites: ENG 102 with a minimum C grade; 9 credits of electives as listed in the Women’s and Gender Studies guidelines
An in-depth interdisciplinary exploration of the contributions of the social sciences, the behavioral sciences, literature, and the arts to the study of gender in society. Specific topics include feminist theories, feminist methodologies, and women and gender issues in relation to culture, politics, and the economy. Texts, films, and other resources contribute toward an understanding of these issues.
3 lecture hours
