Credit Course Subjects

Course descriptions at www.mccc.edu/catalog/catalog_courses are presented alphabetically by subject. The three-letter prefix abbreviates that subject area; the three digits that follow identify the particular course. Generally, courses numbered 100 or lower are academic foundation courses; courses numbered from 101 to 199 are first-year offerings; and 200-level courses are second-year offerings.

Each description specifies the course's credit value, which determines the tuition charge and the extent to which the course contributes toward the credit requirements for a degree.

Subjects and Prefixes

Accounting (ACC)
Advanced Manufacturing Technology (AMT)
Advertising + Graphic Design (ADV)
American Sign Language (ASL)
Anthropology (ANT)
Arabic (ARB)
Architecture (ARC)
Automotive Technology (AUT)
Aviation Technology (AVI)
Biology (BIO)
Building Construction Technology (BCT)
Business (BUS)
Chemistry (CHE)
Chinese (CHI)
Civil Engineering Technology (CIV)
College Success and Wellness (CSW)
College Success for Business (CSB)
College Success for Health Professions (CSH)
Communication (CMN)
Computer Information Systems (CIS)
Computer Science (COS)
Criminal Justice (CRJ)
Dance (DAN)
Digital Media Arts (DMA)
Drafting/Computer-Aided Design (DRA)
Economics (ECO)
Education (EDU)
Electronics Engineering Technology (EET)
Engineering Technology (ENT)
English (ENG)
English as a Second Language (ESL)
Entertainment Technology (ETT)
Fashion (FAS)
Fine Arts, Art History (ART)
Fire Science (FIR)
French (FRE)
Funeral Service (FUN)
Game Design (GAM)
Geography (GEO)
German (GER)

All courses require college-level competence in reading, writing, and basic mathematics unless otherwise specified. Minimum proficiency is determined by one of the following: college skills placement test; completion of required academic foundations courses in reading, writing, and computation; or evidence of equivalent academic preparation. Specific skill requirements and additional course prerequisites are noted in individual course descriptions.

Prerequisites and Corequisites

Some courses require specific prerequisites or corequisites.
- Providing a foundation of related learning, a prerequisite is a course that must be successfully completed prior to starting any course requiring it.
- Providing complementary content, a corequisite is a course that must be taken either along with or prior to starting another course requiring it.

Health / Physical Education (HPE)
Heating, Refrigeration and Air Conditioning (HRA)
History (HIS)
Hospitality (HOS)
Information Systems Technology (IST)
Italian (ITA)
Japanese (JPN)
Latin (LAT)
Legal Studies (LEG)
Liberal Arts Studies (LAS)
Library Technology (LIB)
Marketing (MKT)
Mathematics (MAT)
Medical Laboratory Assistant (MLA)
Medical Laboratory Technology (MLT)
Medical Office Assistant (MOA)
Music (MUS)
Networking Technology (NET)
Nursing (NRS)
Nursing (NRU)
Nursing: Cooperative Program (NSG)
Office Systems Technology (OST)
Ornamental Horticulture (OHT)
Philosophy (PHI)
Phlebotomy (PBT)
Photography (PHO)
Physical Therapist Assistant (PTA)
Physics (PHY)
Political Science (POL)
Psychology (PSY)
Public Health (PBH)
Radiography (RAD)
Religious Studies (REL)
Security Systems Technology (SST)
Sociology (SOC)
Spanish (SPA)
Study Abroad (STA)
Sustainability (SUS)
Theatre (THR)
Visual and Performing Arts (VPA)
Women’s and Gender Studies (WGS)
General Education Electives

The development of competence in critical thinking, writing, speaking, problem-solving, and information literacy is essential to a student's educational and career success. General Education courses provide students with the opportunity to develop these skills. (See MCCC policy at www.mccc.edu/catalog/catalog_general, page 29.)

The following courses approved for the purposes of General Education at Mercer County Community College are regarded as General Education courses at many, but not all, other colleges and universities in New Jersey and other states. The Statewide Transfer Agreement guarantees transfer of all approved courses that meet General Education requirements for graduates from A.A. and A.S. programs transferring to New Jersey's four-year public colleges and universities. Non-graduates may determine whether particular courses will meet requirements at other New Jersey colleges or universities via NJ Transfer (www.njtransfer.org). Students interested in transferring to out-of-state colleges and universities should consult the catalogs, websites, and staff of those institutions.

Students are advised to review the specific General Education requirements in their chosen MCCC program of study.

### Written and Oral Communication in English

- CMN 111 Speech: Human Communication
- CMN 112 Public Speaking
- ENG 101 English Composition I
- ENG 102 English Composition II
- ENG 112 English Composition II with Speech (A.A.S. programs only)

### Mathematics

- MAT 115 Algebra and Trigonometry I
- MAT 116 Algebra and Trigonometry II
- MAT 120 Mathematics for Liberal Arts
- MAT 125 Elementary Statistics I
- MAT 126 Elementary Statistics II
- MAT 140 Applied College Algebra
- MAT 146 Pre-calculus
- MAT 149 Calculus
- MAT 151 Calculus I
- MAT 152 Calculus II
- MAT 200 Statistics for Social and Health Sciences I
- MAT 201 Probability and Statistics for Science and Engineering
- MAT 205 Statistics for Social and Health Sciences II
- MAT 208 Linear Algebra
- MAT 251 Calculus III
- MAT 252 Differential Equations

### Science

- BIO 101 General Biology I
- BIO 102 General Biology II
- BIO 103 Anatomy and Physiology I
- BIO 104 Anatomy and Physiology II
- BIO 106 Human Anatomy
- BIO 113 Biological Science Concepts
- * BIO 114 Environmental Science Concepts
- * BIO 115 Microbiological Science Concepts
- BIO 201 Microbiology
- BIO 203 Entomology
- BIO 204 Ecology
- BIO 208 Genetics
- * BIO 215 Principles of Microbiology
- CHE 101 General Chemistry I
- CHE 102 General Chemistry II
- CHE 106 Chemical Science Concepts
- CHE 107 General and Physiological Chemistry
- CHE 201 Organic Chemistry I
- CHE 202 Organic Chemistry II
- OHT 101 Plant Science

### Technology

- COS 101 Introduction to Computer Science
- COS 102 Computer Science I – Algorithms and Programming
- DMA 144 Internet Tools and Techniques
- IST 101 Computer Concepts with Applications
- IST 102 Computer Concepts with Programming
- IST 109 Introduction to Programming
- IST 140 The Internet and Computer Technology

### Social Science

- * ANT 101 Anthropology
- ECO 103 Basic Economics
- ECO 111 Macroeconomics
- ECO 112 Microeconomics
- * GEO 101 Geography
- * GEO 102 Cultural Geography
- POL 101 The American Political System
- POL 102 State and Local Government
- POL 201 International Relations
- PSY 101 Introduction to Psychology
- PSY 206 Child Development
- PSY 207 Developmental Psychology: Across the Life Span
- SOC 101 Introduction to Sociology
- SOC 107 Social Problems
- SOC 201 Marriage and the Family

Look for this indicator of approved General Education courses throughout course descriptions at www.mccc.edu/catalog/catalog_courses.

* does not satisfy Laboratory Science general education requirement

• course is also a Diversity and Global Perspective general education elective
General Education Electives

### Humanities

**Literature**
- ENG 201 Introduction to Literature: Drama
- ENG 202 Introduction to Literature: Novel
- ENG 203 World Literature I
- ENG 204 World Literature II
- ENG 205 American Literature I
- ENG 206 American Literature II
- ENG 208 Modern American Novel
- ENG 211 Shakespeare
- ENG 212 Introduction to Literature: Poetry
- ENG 213 African American Literature
- ENG 214 Literature of the East
- ENG 216 Literature Into Film
- ENG 220 Science Fiction Literature
- ENG 221 Women in Literature
- ENG 227 English Literature I
- ENG 228 English Literature II
- ENG 238 American History and Literature

**Aesthetic Appreciation**
- ADV 230 History of Graphic Design
- ART 101 Art and Culture
- ART 121 History of Art I
- ART 122 History of Art II
- ART 123 History of Modern Art
- ART 124 Survey of World Art
- ART 125 Topics in Contemporary Art
- ART 126 African American Art
- CMN 107 Cinema
- DAN 101 Introduction to Dance and Culture
- MUS 103 Introduction to Music
- MUS 155 History of Jazz and Blues
- MUS 156 History of American Pop Music
- MUS 224 Music History and Literature I
- MUS 225 Music History and Literature II
- PHO 110 History of Photography
- THR 101 Introduction to Theatre
- THR 210 Theatre History – Classical to Elizabethan
- THR 212 Central Voices in World Drama

**Philosophy**
- PHI 102 Introduction to Philosophy
- PHI 112 Critical Thinking
- PHI 113 Logic
- PHI 204 Ethics
- PHI 205 Moral Choices
- PHI 210 Eastern Philosophy
- PHI 220 Philosophy of Politics

**Religious Studies**
- REL 101 Introduction to Religious Studies
- REL 102 Living World Religions

**World Language**
- ASL all American Sign Language courses
- ARB all Arabic courses
- CHI all Chinese courses
- FRE all French courses
- GER all German courses
- ITA all Italian courses
- JPN all Japanese courses
- LAT all Latin courses
- SPA all Spanish courses

**Misc. Humanities**
- SPA 110 Hispanic Culture

---

### History

All courses in the **Historical Perspective** list below additionally qualify as **Humanities** general education.

**Historical Perspective**
- HIS 101 History of Western Civilization to 1648
- HIS 102 History of Western Civilization Since 1648
- HIS 105 United States History to 1865
- HIS 106 United States History Since 1865
- HIS 109 African American History
- HIS 112 World History to 1500
- HIS 113 World History Since 1500
- HIS 213 Twentieth-Century World History
- HIS 214 The United States Since 1945
- HIS 218 History of Latin America
- HIS 221 History of American Women
- HIS 231 Women in Antiquity
- HIS 235 Early Modern Europe

**Diversity and Global Perspective**
- ANT 101 Anthropology
- ARC 141 Architecture and Culture: International
- ART 124 Survey of World Art
- ART 126 African American Art
- BLIS 230 Global Environment of Business
- CMN 214 Issues in Intercultural Communication in the United States
- CMN 215 Gender and Communication
- DAN 101 Introduction to Dance and Culture
- ENG 203 World Literature I
- ENG 204 World Literature II
- ENG 213 African American Literature
- ENG 214 Literature of the East
- ENG 221 Women in Literature
- ENG 222 Children's Literature
- ENG 232 Post-Colonial Women Writers
- GEO 101 Geography
- GEO 102 Cultural Geography
- HIS 109 African American History
- HIS 112 World History to 1500
- HIS 113 World History Since 1500
- HIS 213 Twentieth-Century World History
- HIS 215 The Holocaust and Other Genocides
- HIS 218 History of Latin America
- HIS 221 History of American Women
- HIS 231 Women in Antiquity
- HIS 232 Women in Europe Since 1500
- HOS 115 Food and Culture
- MUS 155 History of Jazz and Blues
- MUS 156 History of American Pop Music
- PHI 210 Eastern Philosophy
- POL 201 International Relations
- PSY 215 Human Sexuality
- PSY 221 The Psychology of Women
- REL 102 Living World Religions
- SOC 132 Introduction to Women's and Gender Studies
- SOC 201 Marriage and the Family
- SOC 209 Racial, Ethnic, and Minority Groups
- SPA 110 Hispanic Culture
- THR 212 Central Voices in World Drama
- WGS 132 Introduction to Women's and Gender Studies
- WGS 221 Seminar in Women's and Gender Studies
Understanding the "why" of accounting as well as the "how." Study of the accounting cycle and how accounting data impacts business decisions. Emphasis on accounting for non-transfer students. Emphasizes the techniques of double-entry bookkeeping: journalizing; posting; adjusting and closing entries; and financial statement preparation.

### ACC — ACCOUNTING

**ACC 106** Office Accounting I  
3 credits  
Basic accounting course designed for non-transfer students. Emphasizes the techniques of double-entry bookkeeping: journalizing; posting; adjusting and closing entries; and financial statement preparation.  
*3 lecture hours*

**ACC 111** Principles of Financial Accounting  
4 credits  
Prerequisite: MAT 037 (or MAT 037A and 037B) or equivalent proficiency  
Study of the accounting cycle and how accounting data impacts business decisions. Emphasis on understanding the "why" of accounting as well as the "how."  
*4 lecture hours*
**ACC 112  Principles of Managerial Accounting** 4 credits  
*Prerequisite: ACC 111 with a minimum C grade*  
Study of the uses of accounting information for managerial decision-making. Areas covered include manufacturing, merchandising, and service cost systems; cost-volume-profit analysis; and budgeting and capital investment decision-making. 4 lecture hours

**ACC 201  Intermediate Accounting I** 3 credits  
*Prerequisite: ACC 111 with a minimum C grade*  
Detailed study of accounting theory and practice as they relate to cash; receivables; inventories; investments; property, plant, and equipment; and intangible assets. 3 lecture / 1 laboratory hours

**ACC 202  Intermediate Accounting II** 3 credits  
*Prerequisite: ACC 201 with a minimum C grade*  
Continuation of ACC 201. Topics in the study of accounting theory and practice include liabilities, stockholder equity, cash flows, and leases. 3 lecture / 1 laboratory hours

**ACC 203  Federal Income Taxation** 3 credits  
*Prerequisite: ACC 111 with a minimum C grade*  
Study of income taxation as it applies to small businesses and individual taxpayers. Topics include gross income, exclusions, deductions, credits, exemptions, and capital gains. Computer software is used to prepare tax returns. [Fall offering] 3 lecture hours

**ACC 204  Auditing** 3 credits  
*Prerequisite: ACC 201 with a minimum C grade*  
Investigation into and application of the objectives and procedures governing auditing requirements, standards, and examinations. [Spring offering] 3 lecture / 1 laboratory hours

**ACC 207  Computerized Accounting** 3 credits  
*Prerequisite: ACC 111 with a minimum C grade*  
Introduction to general ledger accounting on PCs. Students acquire a working knowledge of software packages currently used in industry. 2 lecture / 2 laboratory hours

**ACC 214  Accounting for Non-Profit Organizations** 3 credits  
*Prerequisite: ACC 111 with a minimum C grade*  
Study of generally accepted accounting principles as they apply to non-profit organizations, with emphasis on governmental agencies. Additional focus includes accounting for colleges and universities as well as hospitals and health organizations. 3 lecture hours

**ACC 215  Cost Accounting** 3 credits  
*Prerequisite: ACC 112 with a minimum C grade*  
Examination of the accounting practices to record and control material, labor, and overhead costs. Study includes job-order, process cost and standard cost systems for manufacturing and service firms. 3 lecture / 1 laboratory hours

---

**ADV — ADVERTISING + GRAPHIC DESIGN**

**ADV 101  Advertising Design I** 3 credits  
*Prerequisite: DMA 115 or divisional permission*  
Study of the principles and concepts of layout and design as applied to a variety of advertising and graphic design assignments: ads, brochures, logos, posters, book jackets, and sales promotion material. Promotes familiarity with advertising agency and studio procedures as well as professional techniques for producing layouts, comprehensives, and finished art. [Spring and Summer offering] 1 lecture / 4 studio hours

**ADV 110  Typography I: Basics of Graphic Design** 3 credits  
Introduction to basic layout and typography as the fundamental language to graphic communication. No previous knowledge of layout and typography is presumed. Addresses the use of different typefaces to communicate visually desired effects, type forms, type indication and basic graphic design with type for layouts. 1 lecture / 4 studio hours

**AMT — ADVANCED MANUFACTURING TECHNOLOGY**

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>AMT 101</td>
<td>Machine Shop Techniques I</td>
<td>3</td>
</tr>
<tr>
<td>Introduces students to manufacturing careers, shop safety, manufacturing operations. Topics include shop safety, mechanical hardware and shop tools, sawing, grinding, layout, hole making, and thread cutting. Corresponding labs reinforce lectures with practical examples.</td>
<td>2 lecture / 3 laboratory hours</td>
<td></td>
</tr>
<tr>
<td>AMT 102</td>
<td>Machine Shop Analysis Methods</td>
<td>3</td>
</tr>
<tr>
<td><strong>Prerequisite:</strong> MAT 115</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Introduces students to the algebraic, geometric, and trigonometric concepts essential to solving problems commonly encountered in machine shop environments. Review of arithmetic followed by elements of measurement, algebra, graphing, geometry, and introductory trigonometry.</td>
<td>3 lecture hours</td>
<td></td>
</tr>
<tr>
<td>AMT 103</td>
<td>Blueprint Reading Basics</td>
<td>2</td>
</tr>
<tr>
<td><strong>Prerequisite:</strong> DRA 190</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Introduces students to the basics of reading manufacturing prints. Topics include views, dimensions, tolerances, geometric dimensioning and tolerancing, surface finish, threads, casting, forging, and molded part prints, welding and sheet metal prints. Lab reinforces the topics through inspection of parts using coordinate measuring machine (CMM), optical comparator, and metrology devices.</td>
<td>1 lecture / 2 laboratory hours</td>
<td></td>
</tr>
</tbody>
</table>
AMT 110  Machine Shop Techniques II  3 credits
Prerequisite: AMT 101
Introduces students to the theory and practical concepts of manual machining. Topics include turning machines, vertical milling machines, grinding and abrasive machining processes. Corresponding labs reinforce lectures with practical examples which follow NIMS certification requirements. 2 lecture / 3 laboratory hours

AMT 122  Metrology and Quality Control  3 credits
Prerequisites: AMT 103, MAT 125
Introduces statistical process control (SPC), focusing on basic concepts that include process flowcharting, check sheets and tally charts, histograms, graphs, Pareto analysis, cause and effect analysis, scatter diagrams, control charts, and process capability. 3 lecture hours

AMT 220  Material and Manufacturing Process  3 credits
Prerequisite: AMT 110
Introduces the study of engineering material and manufacturing process. Topics include physical and mechanical properties of metals, ceramics, and plastics; classification of steels; manufacturing costs and processes: casting, welding, stamping, bending, and soldering. 3 lecture hours

AMT 231  Introduction to Computer Numerical Controlled (CNC) Machines  3 credits
Prerequisites: AMT 102, AMT 110
Introduces the theory and practical concepts of computer numerical controlled (CNC) machining equipment used in industry to manufacture extremely precise machine tool products. Topics include CNC equipment and terminology, G and M code familiarization, and machine tool safety practices. Corresponding labs reinforce lectures with practical hands-on examples which follow NIMS certification requirements. 2 lecture / 3 laboratory hours

AMT 232  Advanced Computer Numerical Controlled (CNC) Machines  3 credits
Prerequisite: AMT 231
Investigates advanced theory and practical CAD/CAM (computer-aided drafting / computer-aided manufacturing) software concepts on computer numerical controlled (CNC) machining equipment used in industry to manufacture extremely precise and complicated machine tool products. Topics include CAD/CAM software (Mastercam) to produce complex machined parts, G and M code post-processing operations, and machine tool safety practices. Corresponding labs reinforce lectures with practical hands-on examples which follow NIMS certification requirements. 2 lecture / 3 laboratory hours

AMT 290  Advanced Manufacturing Technology Internship  2 credits
Prerequisite: coordinator approval
Introduces students to work experience in a manufacturing environment. 100 work experience hours

AMT 291  Advanced Manufacturing Internship  3 credits
Prerequisite: AMT 231
Exposes students to advanced practices of machining. Topics include machine shop safety, turning machines, vertical and horizontal milling machines, grinding and abrasive machining processes. Corresponding internship hours reinforce lectures with practical examples which follow NIMS certification requirements. 1 lecture / 6 internship hours

ANT — ANTHROPOLOGY

ANT 101  Anthropology  3 credits
Corequisite: ENG 101 or college-level eligibility
Explores anthropology — the study of humankind in all places at all times — in its "four fields": physical anthropology (the systematic study of humans as biological organisms); archaeology (the study of human cultures through the recovery and analysis of material remains and environmental data); linguistic anthropology (the study of human language); and cultural anthropology. 3 lecture hours
ANT 222  The Anthropology of Myths, Magic and Witchcraft  3 credits

Prerequisite: ENG 101 or college-level eligibility
Examines the supernatural belief systems and practices of various cultures. Myths, rituals, animism, witchcraft, magic, shamanism, and syncretic religions are critically analyzed to understand the integrative effects of the sacred world. From that foundation, study progresses with a cross-cultural, anthropological comparison of religion and the supernatural.  3 lecture hours

ARB — ARABIC

Note: Students who have taken two or more years of a foreign language, and have done so in the last two years, should begin that language at the 200 level or switch to a new language. If there is doubt, placement will be determined by testing or consultation with the academic division.

Humanities

ARB 101  Beginning Arabic I  3 credits
The first in a sequence of courses designed for students with little or no prior knowledge of Arabic. Spoken communication in Arabic is both the end goal and the means of instruction. Emphasizes the four communicative skills in a culturally authentic context. Reading and writing are assigned out of class to facilitate effective listening and speaking practice in class. Basic grammar skills are also introduced.  3 lecture hours

ARB 102  Beginning Arabic II  3 credits
Prerequisite: ARB 101 with a minimum C grade, placement by exam, or permission of instructor
The second in a sequence of courses designed for students with little or no prior knowledge of Arabic. Spoken communication in Arabic is both the end goal and the means of instruction. Emphasizes the four communicative skills in a culturally authentic context. Reading and writing are assigned out of class to facilitate effective listening and speaking practice in class. Basic grammar skills are also introduced.  3 lecture hours

ARB 201  Intermediate Arabic I  3 credits
Prerequisite: ARB 102 with a minimum C grade, placement by exam, or permission of instructor
The first in a sequence of courses designed for students with a mid to high novice level of competency in Arabic. Spoken communication in Arabic continues to be the end goal and the means of instruction. The four communicative skills of reading, writing, listening and speaking are applied to discussions and debates involving Arab culture, politics, and history. Fundamental grammatical points are reviewed.  3 lecture hours

ARC — ARCHITECTURE

ARC 102  Graphic Communication for Architecture  3 credits
Corequisite: ARC 105
A lecture / studio course aimed at developing architecture students' graphic communication skills. Analytic and descriptive drawings of buildings, everyday objects, trees, plantings, and people are rendered using pencil, pen and ink, as well as through an introduction to digital imaging and computer-aided design software.  1 lecture / 4 laboratory hours

ARC 104  Computers in Architecture  3 credits
Prerequisite: ARC 105
Corequisite: ARC 123
Introduction to the use of the computer in architecture as a three-dimensional design/drawing tool. Students build 3-D models using parametric modeling software and manipulate three-dimensional forms, scenes, colors, textures, lighting and cameras to design effective compositions. Applicable to Windows-based computers.  1 lecture / 4 laboratory hours
## Architecture Courses

### ARC 121  Architecture Basic Design I  5 credits
*Corequisite: ARC 102 or divisional permission*
Explores fundamental principles and elements of design: form, space, composition, systems, context, imagery, as well as functional and structural organizations. Solutions to architectonic design projects explored through presentation drawings and study models. Simple presentation graphics and model-building are introduced.
*Fall offering*  1 lecture / 8 studio hours

### ARC 122  History of Architecture  3 credits
Survey of the development of architecture from ancient civilizations to 1860. Social, religious, economic, technological, and aesthetic factors are explored to understand fully their influence on the development of buildings and cities.
*3 lecture hours*

### ARC 123  Architecture Basic Design II  5 credits
*Prerequisite: ARC 105 with a minimum C grade*
Further study of the fundamental principles and elements of architectural design through a series of projects having increased complexity and depth of expression using more advanced presentation graphic techniques. Emphasis continues on the development of process drawing and model-building skills to explore design ideas.
*Spring offering*  1 lecture / 8 studio hours

### ARC 124  History and Theory of Modern Architecture  3 credits
Explores the social conditions and major personalities that influenced architectural developments from the Industrial Revolution to the present.
*3 lecture hours*

### ARC 125  Architecture and the Environment  3 credits
Introductory course exploring the various relationships between the man-made world and the natural world. Human perceptions of the physical environment are studied relative to their effects on architectural design and human behavior. Analysis of the urban environment reveals the impact of architecture on quality of life.
*3 lecture hours*

### ARC 134  Building Construction Systems  3 credits
*Corequisites: ARC 227, sophomore standing in Architecture or divisional permission*
Introductory survey of general concepts of sustainable design as they relate to building construction. Includes site, structural, environmental, envelope systems, materials and building systems. Focus is primarily on low-rise wood and steel structures.
*3 lecture hours*

### ARC 140  Field Studies in Architecture and Urban Planning: America  3 credits
*Prerequisites: ENG 101, approval of instructor*
Investigation of architectural characteristics and urban planning patterns in select regions. Extended travel in groups creates an "immersion experience." Students study/draw buildings, analyze physical characteristics of different environments, and consider the built environment's impact on quality of life. [occasional offering]  24 lecture / 21 lab (overseas) hours

### Diversity and Global Perspective

### ARC 144  Architecture and Culture: International  3 credits
*Prerequisites: ENG 101, approval of instructor*
Exploration of the history, culture, technology, and quality of life as revealed and understood through the architecture and town planning in selected regions overseas. Travel to the selected region is a major component of the course, providing the student with the opportunity to experience the subjects introduced in the lectures prior to the trip. [occasional offering]  24 lecture / 21 lab (overseas) hours

### ARC 229  Architecture Design I  4 credits
*Prerequisite: ARC 123*
Sophomore-level design course emphasizing the exploration and development of architectural design concepts and their translation into physical form. Three to four major design problems challenge the student's preconceptions about architecture and stimulate the growth of an architectural vocabulary.
*1 lecture / 6 studio hours*

### ARC 230  Architecture Design II  4 credits
*Prerequisite: ARC 229*
Builds on the foundation of ARC 229. More advanced design challenges help the student to sharpen design skills and to continue expanding an architectural vocabulary.
*1 lecture / 6 studio hours*

<tr>
<td>ART 101</td>
<td>Art and Culture</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Introduction to major movements of Western art as they relate to cultural influences, expanding knowledge, technological change, and effects on modern society. Through studio work, students investigate the intellectual aspects of traditional drawing, painting and mixed media techniques. <strong>2 lecture / 2 studio hours</strong></td>
<td></td>
</tr>
<tr>
<td>ART 102</td>
<td>Basic Drawing</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Examines the fundamentals of seeing line and value through studies of nature, still-life arrangements, the human figure, and concepts of perspective. Various media are used including ink, charcoal, and graphite. <strong>1 lecture / 4 studio hours</strong></td>
<td></td>
</tr>
<tr>
<td>ART 103</td>
<td>Freehand Drawing for Architects</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>A lecture / studio course for developing the architecture student's freehand drawing skills, with emphasis on analytic and descriptive drawings of buildings, everyday objects, trees, plantings and people. Media used are pencil, pen and ink, and felt tip pen. <strong>1 lecture / 4 studio hours</strong></td>
<td></td>
</tr>
<tr>
<td>ART 104</td>
<td>Life Drawing</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Prerequisite: ART 102</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Experience in drawing the human figure and developing an understanding of form, volume, structure, and anatomy. Exercises include gesture drawing and sustained poses. Various media are used. <strong>1 lecture / 4 studio hours</strong></td>
<td></td>
</tr>
<tr>
<td>ART 105</td>
<td>Two-Dimensional Design</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Intensive investigation of such essential principles as form, line, space, color, balance, and unity in two-dimensional design. Projects are assigned in sequence leading to specific visual solutions. Various media are used. <strong>1 lecture / 4 studio hours</strong></td>
<td></td>
</tr>
<tr>
<td>ART 106</td>
<td>Three-Dimensional Design</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>An intensive investigation of the use of the formal elements of art and design according to the principles of organization in three-dimensional composition. Various media, techniques, and equipment are introduced. <strong>1 lecture / 4 studio hours</strong></td>
<td></td>
</tr>
<tr>
<td>ART 121</td>
<td>History of Art I</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>A survey of Western art from the prehistoric through the late Medieval period, with an emphasis on stylistic analysis within the historical, cultural, and global context. <strong>3 lecture hours</strong></td>
<td></td>
</tr>
<tr>
<td>ART 122</td>
<td>History of Art II</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>A survey of Western art from the Renaissance through the World War II period, with an emphasis on stylistic analysis within the historical, cultural, and global context. <strong>3 lecture hours</strong></td>
<td></td>
</tr>
<tr>
<td>ART 123</td>
<td>History of Modern Art</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Comprehensive survey of the modern period in art beginning with Manet and continuing through the varied styles, schools, and movements of the 20th century. Color slides are analyzed and discussed. <strong>3 lecture hours</strong></td>
<td></td>
</tr>
</tbody>
</table>
Humanities / Diversity and Global Perspective

ART 124  Survey of World Art  3 credits
Focus on the aesthetic and historical evaluation of artists, styles, and cultures from India, China, Japan, Indonesia, Thailand, Cambodia, and pre-Columbian America. Color slides are analyzed and discussed.  3 lecture hours

Humanities

ART 125  Topics in Contemporary Art  3 credits
Prerequisite: ENG 101 or divisional permission
Exploration of trends and topics in contemporary art from 1945 to the present, involving a diverse range of artists who challenge preconceived notions of the role of art in today’s society. Students learn to identify, analyze, and write about art through multi-media presentations, discussions, artists’ talks, and a field trip.  3 lecture hours

Humanities / Diversity and Global Perspective

ART 126  African American Art  3 credits
Comprehensive survey of the aesthetic and historical evaluation of African American art, artists and culture from colonial times to the present. Includes slide analysis, discussion, and museum visits.  3 lecture hours

ART 130  Painting I  3 credits
Prerequisite: ART 102 or ART 105 or divisional permission
Examination of the relationships of materials, media, and techniques in both figurative and abstract art. The elements of color and composition are introduced and explored. At the discretion of the instructor, students are advised to work in either acrylic or oil color.  1 lecture / 4 studio hours

ART 141  Sculpture I  3 credits
Prerequisite: ART 106
Introduction to sculptural practices and forms. Develops basic understanding of vocabulary of form while mastering technical skills. Acquaintance with several media, content, and organizing form and space.  1 lecture / 4 studio hours

ART 145  Beginning Ceramics: Handbuilding  3 credits
Introduction to basic clay experience, devoted to the handbuilding techniques of pinch, drape, press, slab, and coil to produce functional and sculptural ceramic objects. Introduces the technical aspects of colored slips and glazing. Stresses development of a personal appreciation of form.  1 lecture / 4 studio hours

ART 146  Beginning Ceramics: Wheel-Throwing  3 credits
Introduction to basic clay experience, devoted to clay-forming techniques on the potter's wheel to produce functional and sculptural ceramic objects. Introduces the technical aspects of colored slips and glazing. Stresses development of a personal appreciation of form and function.  1 lecture / 4 studio hours

ART 150  Printmaking I  3 credits
Study of the basic concepts, techniques, tools, and materials required to work in the production of surface, relief, and intaglio prints. Paper selection, preparation of ink, and operation of the presses are discussed and demonstrated.  1 lecture / 4 studio hours

ART 230  Painting II  3 credits
Prerequisite: ART 130 with a minimum C grade
Training and experience in the observation and application of painting media, acrylic or oil. Involves guidance in transforming what is observed or conceived into graphic and plastic forms, including traditional challenges of painting and composition, working with light, color, weight, and dimension.  1 lecture / 4 studio hours

ART 232  Advanced Painting and Drawing  3 credits
Prerequisites: ART 104, ART 230 with a minimum C grade
Intensive course designed for the advanced student, making drawing and painting a unique and personal experience. Through instructor guidance, the student develops a personalized approach to composition, color, and technique. Includes classroom critiques, outside assignments, and possible field trips. [Spring offering]  1 lecture / 4 studio hours
ART 233  Watercolor Painting  3 credits
**Prerequisite:** ART 102 with a minimum C grade or permission of instructor
Combining technical knowledge with practice, introduces the beginning watercolor painter to the materials and techniques of the past and present. The student studies various approaches to painting with watercolor, tempera, and wash and acquires a basic understanding of the proper selection of paper, brushes, paints and equipment.  
*1 lecture / 4 studio hours*

ART 240  Raku Workshop  3 credits
**Prerequisite:** previous ceramics experience
Introduction to the Raku process. Students spend an intensive six-week period creating, glazing, and firing functional and sculptural ceramic objects.  
*1 lecture / 4 studio hours*

ART 241  Sculpture II  3 credits
**Prerequisite:** ART 141
Continuation of ART 141 with refinement of presentation of where, when, and how the object is viewed. Concentration on a complete statement of form, space, and content. Further exploration of several media.  
*1 lecture / 4 studio hours*

ART 250  Printmaking II  3 credits
**Prerequisite:** ART 150 with a minimum C grade
Continued exploration and development of surface, relief, and intaglio techniques.  
*1 lecture / 4 studio hours*

ART 280  Special Studies in Drawing  3 credits
**Prerequisites:** ART 102, ART 104 with a minimum 3.0 GPA and/or divisional permission

ART 283  Special Studies in Painting  3 credits
**Prerequisites:** ART 232 and divisional permission

ART 284  Special Studies in Ceramics  3 credits
**Prerequisites:** ART 146 and divisional permission

ART 285  Special Studies in Sculpture  3 credits
**Prerequisites:** ART 241 and divisional permission

ART 286  Special Studies in Printmaking  3 credits
**Prerequisites:** ART 250 and divisional permission

Special courses in specific art forms allow students who have completed regular course offerings to continue their studies at advanced levels. Individual students and faculty develop a project contract that sets forth objectives, standards of quality, evaluation guidelines, and deadlines. [occasional offerings]

ART 281  Special Studies in Art History  3 credits
**Prerequisites:** completion of 15 credits of art/architecture history with minimum 3.0 GPA, sophomore status and divisional permission
Special course in museum/gallery work for art history students who have completed regular course offerings and desire a supervised apprenticeship. Individual students and faculty develop a project contract that sets forth objectives, standards of quality, evaluation guidelines, and deadlines. [occasional offering]

ART 291  Cooperative Education – Visual Arts  3 credits
Integration of classroom study and lab work with specific planned period of learning through job experience. Based on an individualized learning contract, designed for Advertising Design and Digital Media Arts majors who have demonstrated advanced skill levels and for those who have potential to perform professionally in a work environment.  
*270 work experience hours*

**ASL — AMERICAN SIGN LANGUAGE**

**Humanities**

**ASL 101** American Sign Language I  3 credits
The first in a sequence of courses designed for students with little or no prior knowledge of ASL. Voiceless communication in ASL is both the end goal and the means of instruction. Communicative skills and basic grammar are introduced in a culturally authentic context. [satisfies foreign language requirement]  
*3 lecture hours*

**Prerequisite:** ASL 101 with a minimum C grade or permission of instructor

The second in a sequence of courses designed for students with little or no prior knowledge of ASL. Voiceless communication in ASL is both the end goal and the means of instruction. Communicative skills and basic grammar are introduced in a culturally authentic context. [satisfies foreign language requirement]

3 lecture hours

## AUT — AUTOMOTIVE TECHNOLOGY

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>AUT 110</td>
<td>Introduction to Automotive Electronics</td>
<td>3</td>
</tr>
</tbody>
</table>

**Prerequisite:** MAT 033 or MAT 041

Corequisite: AUT 111

An introduction to voltage, current and resistance, series and parallel circuits, batteries, and electronic components. Also covers wiring schematics, wire repair, and circuit troubleshooting. For automotive students.

3 lecture / 1 laboratory hours

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>AUT 111</td>
<td>Automotive Service Fundamentals</td>
<td>5</td>
</tr>
</tbody>
</table>

Corequisite: AUT 110

Introduction to the automobile and its operating systems. Emphasizes theories of operation, service facility practices and current servicing procedures, with detailed attention to each individual system including diagnosis and repair. Personal safety policies in the work environment are stressed in detail.

2 lecture / 6 laboratory hours

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>AUT 112</td>
<td>Automotive Fuel Systems</td>
<td>3</td>
</tr>
</tbody>
</table>

Prerequisites: AUT 110, AUT 111

An examination of gasoline and diesel automotive fuel systems, including fuel basics, electronic fuel injection systems, gasoline direct injection, diesel fuel delivery systems, and On-Board Diagnostics II (OBD II). Lessons focus on theory of operation, driveability diagnostic procedures, and the use of diagnostic equipment.

2 lecture / 3 laboratory hours

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>AUT 113</td>
<td>Suspension, Steering and Alignment</td>
<td>4</td>
</tr>
</tbody>
</table>

Prerequisites: AUT 110, AUT 111 with a minimum C grade

Theory of operation and service of vehicular suspension and steering systems, with emphasis on component inspection and replacement. Addresses four-wheel alignment with lab activities using a drive-on alignment rack and computer alignment machine.

2 lecture / 4 laboratory hours

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>AUT 114</td>
<td>Automotive Electricity and Electronics</td>
<td>3</td>
</tr>
</tbody>
</table>

Prerequisites: AUT 110, AUT 111

An examination of electrical/electronic principles applied to current automotive systems. Subjects include electronic control systems, starting and charging systems, wiring diagrams, chassis wiring service, vehicle communication networks, passive restraints, electrical power management, infotainment, navigation, and electrical accessories. Diagnostic skills, testing procedures, and proper service and repair of components emphasized.

2 lecture / 3 laboratory hours

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>AUT 115</td>
<td>Automotive Brake Systems</td>
<td>4</td>
</tr>
</tbody>
</table>

Prerequisites: AUT 110, AUT 111 with a minimum C grade

The principles and servicing of both disc and drum brake systems used on today's automobiles and light trucks, including computer-controlled anti-lock braking systems with traction and stability control. Emphasis on malfunction diagnosis, use of road testing techniques and visual brake inspection procedures, repair integrity, plus hydraulic theory and component machining operations.

2 lecture / 4 laboratory hours

<table>
<thead>
<tr>
<th>Course</th>

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>AUT 221</td>
<td>Internship in Automotive Technology III</td>
<td>1</td>
</tr>
</tbody>
</table>

Corequisites: AUT 213, AUT 224
**AUT 222  Internship in Automotive Technology IV**  1 credit
*Corequisite: AUT 225*
Application of knowledge acquired from lecture and laboratory instruction to gain relevant on-the-job experience in repairing customer vehicles in an actual automotive service facility. The apprentice is supervised by an experienced service employee who works with the program coordinator in developing goals and evaluating performance.  
*300 work experience hours*

**AUT 211  Automotive Emissions and Driveability**  3 credits
*Prerequisite: AUT 112*
Examines relationships between gasoline and diesel emissions and engine performance. Teachings from AUT 111 and AUT 112 applied to properly diagnose driveability concerns. Recommended repair procedures are explored to achieve the best performance and reduced emissions. Electronic engine controls examined with an emphasis on operation and emission standards.  
*2 lecture / 3 laboratory hours*

**AUT 212  Automotive Air Conditioning**  3 credits
*Prerequisites: AUT 110, AUT 111 with a minimum C grade*
Examines automotive air conditioning/heating systems in use today, with topics ranging from fundamentals of refrigeration to automatic temperature control (ATC) system operation. Addresses proper diagnosis and repair of systems and components as well as environmental obligations.  
*2 lecture / 2 laboratory hours*

**AUT 213  Engine Service**  4 credits
*Prerequisites: AUT 110, AUT 111*
Diagnosis, failure analysis, and rebuilding procedures for automobile engines. Topics include engine operating principles, component measurement techniques, engine removal and installation, and service information usage for diagnosis. Each student is required to completely disassemble, diagnose, and assemble several gasoline and diesel engines. Involves extensive use of special tools and equipment.  
*2 lecture / 5 laboratory hours*

**AUT 223  Internship in Automotive Technology – Independent Study**  1 credit
*Prerequisites: AUT 114, AUT 115, AUT 122, AUT 123, AUT 211, AUT 212, AUT 213, AUT 221, AUT 222, AUT 224, AUT 225*
Application of knowledge acquired from lecture and lab instruction to gain relevant, practical on-the-job experience in repairing customer vehicles in an actual automotive service facility. An experienced service employee within the business supervises the student/apprentice and works with the automotive program coordinator in developing goals and evaluating performance.  
*320 work experience hours*

**AUT 224  Manual Transmissions and Drivelines**  3 credits
*Prerequisites: AUT 110, AUT 111 with a minimum C grade*
Study of automotive systems for torque multiplication and speed reduction includes the relationship of engine speed and vehicle speed and its effect on fuel economy. Other topics include clutch service, front and rear wheel drive applications, component replacement, differentials, diagnosis, removal and reinstallation procedures, and transmission overhaul. Involves extensive use of special tools and test equipment.  
*2 lecture / 3 laboratory hours*

**AUT 225  Automatic Transmission Service**  3 credits
*Prerequisites: AUT 110, AUT 111, AUT 224 with a minimum C grade*
Principles of operation and proper diagnostic and repair procedures for current automatic transmissions and transaxles, including electronic computer-controlled designs. Covers basic hydraulic theory with emphasis on the use of test equipment for diagnosis and in-car service. Each student is required to disassemble, overhaul, and assemble several automatic transmissions and transaxles.  
*2 lecture / 3 laboratory hours*

**AUT 226  Electrified Vehicles**  3 credits
*Prerequisites: AUT 114, AUT 122*
Examination of high-voltage, electrified vehicles and special service techniques necessary to diagnose and repair electrical and mechanical faults. Hybrid, plug-in hybrid, and fully electric vehicle design and operation are explored, including use of special tools and equipment. Strong emphasis placed on personal and workplace safety.  
*2 lecture / 2 laboratory hours*
AVI — AVIATION TECHNOLOGY

All flight training courses involving the use of an aircraft are taught in conjunction with Infinity Flight Group at Trenton-Mercer Airport.

</tbody>
</table>
AVI 203 Aircraft Components 3 credits
Explores basic components and systems of the aircraft including air frames, power plants, wings and empennage, plus elementary concepts of engine operating theory and construction. 3 lecture hours

AVI 208 Aviation Seminar 1 credit
Guest speakers explain their role in the industry and share insights concerning prerequisite experience, the interview process, and prospects for employment. 1 lecture hour

AVI 215 Aerodynamics 3 credits
Corequisite: MAT 115
Analysis of the fundamental theory and elements of applied aerodynamics provides the knowledge and background for safe and effective flying. Lab explores the basic concepts of airfoil angle of attack and lift/drag characteristics. 2 lecture / 2 laboratory hours

AVI 216 Flight V 4 credits
Prerequisites: Helicopter Commercial Certificate with Instrument Rating; FAA-approved Medical; proof of U.S. citizenship or TSA approval
Enrollment limited to Helicopter Commercial Certified, Helicopter Instrument Rated pilots. During this course, students obtain (if not already possessing) an Airplane Private Pilot Certificate and are expected to acquire the aeronautical skill necessary to meet the requirements for the Airplane Single Engine Land Commercial Certificate with an Instrument Airplane Rating. Consists of 81.5 hours of flight training and 25.5 hours of ground/pre/post instruction. Fee required (see Mercer County Community College's Aviation Policies and Procedures Manual). 1 lecture / 140 field study hours

AVI 217 Flight VI 1 credit
Prerequisites: Single Engine Land Commercial Pilot Instrument Rating; FAA-approved Medical; proof of U.S. citizenship or TSA approval
Students develop the proficiency, knowledge, and skills to complete the required practical examination to add a multi-engine class instrument rating to their single-engine commercial certificate and instrument rating. This training and assessment consist of 16.8 hours in a multi-engine aircraft. Fee required (see Mercer County Community College’s Aviation Policies and Procedures Manual). 1 lecture / 45 field study hours

AVI 231 Commercial Pilot III 3 credits
Prerequisite: AVI 132
Corequisite: MAT 115
Complements Flight III and Flight IV courses, with basic information to pass the Federal Aviation Administration Instrument Pilot Examination. Subject areas include altitude instrument flying, instrument flight charts, IFR clearances, and IFR regulations. 3 lecture hours

AVI 240 Flight III 2 credits
Prerequisite: AVI 114
Continuation of flight training to obtain the commercial flight certificate, and beginning of instrument flight training. Students complete solo cross-country requirements. Consists of 56.2 hours of flight time and 12 hours of ground/pre/post instruction. Fee required (see Mercer County Community College’s Aviation Policies and Procedures Manual). 1 lecture / 75 field study hours

AVI 241 Flight IV 2 credits
Prerequisite: AVI 213
Students develop a high degree of proficiency in single-engine commercial maneuvers and instrument flying. Students gain the necessary flight skills required to successfully complete the FAA Instrument Rating and Commercial Certificate as outlined in the FAA Instrument and Commercial Airmen Certification Standards. Consists of 48.8 flight hours and 19.3 hours of ground/pre/post instruction. Fee required (see Mercer County Community College’s Aviation Policies and Procedures Manual). 1 lecture / 75 field study hours

AVI 250 Airline Transport Pilot (ATP) Prep I 6 credits
Prerequisite: AVI 216
Students develop the proficiency, knowledge, and skills to complete the required day and night, VFR and IFR, cross-country hours for graduation to the ATP Prep II course. This training and assessment consist of 116.5 hours of flight training and 12.5 hours of ground/pre/post instruction. Fee required (see Mercer County Community College’s Aviation Policies and Procedures Manual). 2 lecture / 200 field study hours
AVI 251  Airline Transport Pilot (ATP) Prep II  3 credits

Prerequisite: AVI 250

Students develop the proficiency, knowledge and skills to complete the required day and night, VFR and IFR, cross-country hours for completion of the Airline Transport Pilot certificate program. This training and assessment consist of 60.5 hours of flight training and 6 hours of ground/pre/post instruction. Fee required (see Mercer County Community College’s Aviation Policies and Procedures Manual).

1 lecture / 90 field study hours

BCT — BUILDING CONSTRUCTION TECHNOLOGY

BCT 101  Construction Graphics  3 credits

Corequisite: BCT 110 or divisional permission

Introduction to the interpretation of construction drawings for residential and light commercial projects, cultivating an understanding of how plans, elevations, sections, and details relate to each other. Students render basic architectural drawings by hand as well as with CAD software, and consistently practice and apply informal sketching techniques. 2 lecture / 2 laboratory hours

BCT 104  Codes for Construction and Design  3 credits

Prerequisites: BCT 110, BCT 120

An overview of regulations for design and/or construction of residences and small buildings, including their applicability and intent subject to the interpretations imposed by the State of New Jersey. 2 lecture / 2 laboratory hours

BCT 110  Building Construction Materials and Methods I  3 credits

A survey of materials and methods in building construction, emphasizing common construction systems primarily on low-rise light wood and steel structures. Addresses the fundamental processes, organization, and constraints of the construction industry. The building envelope, enclosure systems for thermal insulation, vapor retarders, air barriers, and moisture control are explored with an introduction to the general concepts of sustainable design. 3 lecture hours

BCT 112  Building Construction Materials and Methods II  3 credits

Prerequisites: BCT 110, BCT 120

Continued study of materials and methods in building construction with emphasis on concrete and steel frame structures and masonry load-bearing walls. Exterior wall cladding and curtain wall systems are examined relative to concepts of sustainable design. 3 lecture hours

BCT 232  Construction Estimating  3 credits

Prerequisite: ENG 101 or divisional permission

Examination of the role of construction documents for producing construction job estimates, as well as the roles and responsibilities of the construction cost estimator for both residential and light commercial applications. Along with contracts and various bid types, computer estimating software applications are introduced. 3 lecture hours

BCT 234  Construction Contracts and Specifications  3 credits

Prerequisite: ENG 101 or divisional permission

A detailed examination of construction documents along with methods for producing general, special, and technical sections of construction specifications. Case studies and class discussions contribute toward analysis of construction contracts and practices with regard to business law and liability, as well as contractor, architect, and engineer responsibilities. Students prepare several technical sections for a small commercial building. 3 lecture hours

BCT 236  Construction Project Administration and Management  3 credits

Prerequisites: BCT 232, BCT 234, or divisional permission

Introduction to the design/construction process, contract documents, organization of the construction firm, subcontractor relationships, records and reports, construction safety, and quality control. Bar chart and critical path method scheduling are introduced along with several commonly used computer applications for construction administration and management. 3 lecture hours
### BIO 100 Introductory Biology

**Prerequisite:** ENG 034  
**Corequisite:** MAT 037 or MAT 042 or proficiency in basic algebra  
Selected fundamental principles of biology for students who have not had high school biology or who need a review before taking other courses in biology, horticulture and the life sciences. Topics include scientific inquiry, chemistry of living organisms, techniques of observation, data gathering and analysis. [Does not fulfill any requirements for the Biology A.S. degree.]  
3 lecture hours

### BIO 101 General Biology I

**Prerequisites:** high school biology or BIO 100; MAT 038 or MAT 044  
**Corequisite:** ENG 101  
Introduces fundamental concepts and principles of biology. Topics include biological chemistry, cell biology, metabolism and energy, cell reproduction, molecular biology, and inheritance. Investigative laboratory exercises develop skills in basic techniques and reinforce lecture material. Required for biology majors.  
3 lecture / 3 laboratory hours

### BIO 102 General Biology II

**Prerequisite:** BIO 101 with a minimum C grade  
Introduces fundamental concepts, principles, and applications of biology. Topics include photosynthesis; plant structure, growth and reproduction; animal diversity, form and function; evolution; population ecology; community ecology; and ecosystem dynamics. Investigative laboratory exercises develop skills in basic techniques and reinforce lecture material. Required for biology majors.  
3 lecture / 3 laboratory hours

### BIO 103 Anatomy and Physiology I

**Prerequisites:** proficiency in basic algebra; high school biology or BIO 100  
**Corequisite:** ENG 101  
Systematic approach to the structure and function of the human body; general terminology and organization; cells and tissues; integumentary, muscular, skeletal, and nervous systems. Lab involves microscopy, the study of human anatomy via computer software and preserved specimens, and studies of physiological processes. [Does not fulfill any requirements for the Biology A.S. degree.]  
3 lecture / 3 laboratory hours

### BIO 104 Anatomy and Physiology II

**Prerequisite:** BIO 103 with a minimum C grade or permission of course coordinator  
Continuation of BIO 103, covering digestive, circulatory, urinary, reproductive, respiratory, and endocrine systems. Lab includes cat dissection, human anatomy study via computer software, and quantitative studies of physiological processes. [Does not fulfill any requirements for the Biology A.S. degree.]  
3 lecture / 3 laboratory hours

### BIO 106 Human Anatomy

**Prerequisite:** MAT 037 or MAT 042 or proficiency in basic algebra  
Introduction to the human body with emphasis on terminology and body organization from the cellular level to organs systems. Topics include histology and skeletal, muscular, nervous, integumentary, digestive, respiratory, urinary, reproductive, circulatory and endocrine systems. (Designed for programs requiring a one-semester human anatomy course; does not satisfy requirements in biology or health programs.)  
3 lecture / 2 laboratory hours

<th>Credits</th>
<th>Prerequisite</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIO 113</td>
<td>Biological Science Concepts</td>
<td>3</td>
<td>MAT 037 or MAT 042 or proficiency in basic algebra</td>
<td>Survey of fundamental concepts, principles, and phenomena in biology. Provides a solid scientific basis on which opinions relating to issues in biology can be developed. Topics include diversity of life, cell biology, inheritance, biotechnology, and body processes. Lab exercises employ the scientific method and reinforce lecture concepts. Designed for the non-science major or as a foundational course.</td>
</tr>
<tr>
<td>BIO 114</td>
<td>Environmental Science Concepts</td>
<td>3</td>
<td>ENG 024 or equivalent proficiency</td>
<td>Exploration of the fundamental concepts of our local, regional, and global environment for the non-science major. Topics include aquatic and terrestrial ecosystems, biological and chemical principles relating to current environmental issues, basic ecological relationships which include plants and animals, ecological and technological concerns and advances as well as scientific analysis and solutions to current and future environmental problems.</td>
</tr>
<tr>
<td>BIO 115</td>
<td>Microbiological Science Concepts</td>
<td>3</td>
<td>ENG 101 or permission of instructor</td>
<td>Based on the <em>Unseen Life on Earth</em> series developed in conjunction with the American Society of Microbiology. Topics include microbial cell biology, biotechnological uses of microbes, and microbial evolution and ecosystems. Also explores the control of microorganisms and relationships between microbes and higher organisms. [Meets science and technology general education requirement.]</td>
</tr>
<tr>
<td>BIO 201</td>
<td>Microbiology</td>
<td>4</td>
<td>BIO 101 or BIO 103 with a minimum C grade or permission of course coordinator</td>
<td>Explores morphology, taxonomy, and metabolism of microbes with emphasis on fungi, protozoa, helminths, viruses and bacteria. Covers the role of microbes in nature, including biotechnology applications and medical importance; human defense mechanisms; and immunology. The lab develops techniques, reinforces certain lecture content, and introduces new material.</td>
</tr>
<tr>
<td>BIO 202</td>
<td>Woody Plants</td>
<td>4</td>
<td>BIO 101 or OHT 101 with a minimum C grade or permission of course coordinator</td>
<td>Designed for ornamental horticulture, plant science, and biology majors. The lab consists of field studies stressing sight identification of both native and ornamental species. Covers the use of keys, as time permits. [Spring offering]</td>
</tr>
<tr>
<td>BIO 203</td>
<td>Entomology</td>
<td>4</td>
<td>BIO 101 or BIO 102 with a minimum C grade or permission of course coordinator</td>
<td>Intensive survey of the orders of insects, covering comparative anatomy, life cycles, physiology and economic importance. Includes management, preservation and identification methods. [Fall offering]</td>
</tr>
<tr>
<td>BIO 204</td>
<td>Ecology</td>
<td>4</td>
<td>BIO 101 with a minimum C grade</td>
<td>Fundamental concepts, theoretical principles, and practical applications of modern ecology: the study of the interactions of organisms with each other and their environment. Laboratory classes of this introductory course involve field work and research projects geared towards ecological application.</td>
</tr>
</tbody>
</table>
### Science

**BIO 208** Genetics  
*Prerequisite: BIO 101 with a minimum C grade or permission of course coordinator*  
Explores gene activity at the molecular and organismal levels. Topics include inheritance, chromosome structure and function, gene mapping, genomics, prokaryotic and eukaryotic gene expression, molecular biology, and population genetics. Includes lab exercises in biotechnology, bioinformatics, and classical genetics. *3 lecture / 3 laboratory hours*

**BIO 215** Principles of Microbiology  
*Prerequisites: CHE 100 and BIO 103, BIO 104 or BIO 106*  
Designed for funeral education students, an introduction to the morphology, taxonomy, physiology, and control of microbes. Emphasizes those microbes which cause disease in humans and presents elements of organic chemistry and biochemistry. *3 lecture hours*

**BIO 217** Pathophysiology  
*Prerequisites: RN licensure or BIO 103 and BIO 104 or permission of course coordinator*  
Study of the fundamental changes in body physiology due to disease. Covers the basics of cell biology, inflammation, mechanisms of body defense, specific body systems, and common disorders, with emphasis on disease processes, manifestations, and treatment. *3 lecture hours*

**BIO 293** Honors Research in Biology I  
*Prerequisites: BIO 102 and CHE 102, minimum 3.0 GPA in biology and chemistry courses, and faculty approval*  
Under the guidance of an area sponsor in an industrial or academic environment, students participate in a biology research project. Requires a written report and oral presentation to students and faculty at the conclusion of the project period. [Fulfills a technical elective requirement in the Biology and Chemistry programs.] *5 laboratory hours per week*

### BUS — BUSINESS

**BUS 101** Introduction to Business  
*Corequisite: ENG 101*  
Survey course of the American business system. Topics include forms of business ownership, financing, economic impacts, human resource management, marketing, management, accounting, the role of government, international issues, workplace ethics, legal concerns, and social responsibility. *3 lecture hours*

**BUS 102** Introduction to Sports Management  
*Prerequisite: ENG 101 with a minimum C grade*  
Examination of issues impacting the world of sports and management. Topics include the complexity of leadership, group dynamics, strategic and master planning, risk management, current social issues, Title IX and their effects on professional, intercollegiate, youth and other areas of sport. *3 lecture hours*

**BUS 105** Business Writing  
Intense coverage of grammar, punctuation, and word usage skills. Emphasizes realistic application of current usage and style in today’s work world. *3 lecture hours*

**BUS 107** Business Law I  
Foundation course dealing primarily with contracts: the making of contracts, contractual elements, contracts in action, discharge of contracts, and remedies. Orientation to the legal system includes examination of law history and purpose. Uniform Commercial Code applications are stressed. *3 lecture hours*
<table>

</thead>
<tbody>
<tr>
<td>BUS 108</td>
<td>Business Law II</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td><strong>Prerequisite:</strong> BUS 107 with a minimum C grade</td>
<td></td>
</tr>
<tr>
<td></td>
<td>The law of agency and employment and labor-management relations. Regulation of business organizations: sole proprietorships, partnerships, and corporations. Addresses property law, bailments, personal property, intellectual property, real property, landlord-tenant relationships, wills, estates and trusts, and the evolving role/impact of the global business environment. 3 lecture hours</td>
<td></td>
</tr>
<tr>
<td>BUS 109</td>
<td>Personal Finance</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td><strong>Prerequisite:</strong> MAT 125</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Basics of budgeting, buying, income tax, investments, home ownership, and insurance along with emphasis on wills and trusts. 3 lecture hours</td>
<td></td>
</tr>
<tr>
<td>BUS 111</td>
<td>Sports Law</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td><strong>Prerequisite:</strong> BUS 107</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Examines legal issues that impact the world of sports and sports management. Affecting professional, intercollegiate and other areas of athletics, matters explored include those involving agencies, contracts, torts, crimes, gender, disabilities, antitrust, internationalism, drugs, intellectual property, and alternative dispute resolution. 3 lecture hours</td>
<td></td>
</tr>
<tr>
<td>BUS 202</td>
<td>Customer Orientation</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td><strong>Prerequisite:</strong> ENG 101</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Explores the fundamentals of customer service, with focus on the “human” side of business and the importance of understanding and supporting those who depend on your business. Students develop core competencies necessary for providing excellent customer service, including an appreciation of diversity, developing loyalty, and dealing with customers. 3 lecture hours</td>
<td></td>
</tr>
<tr>
<td>BUS 205</td>
<td>Business Statistics I</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td><strong>Prerequisite:</strong> MAT 038 or MAT 044 or MAT 140 with a minimum C grade</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Emphasis on the application of statistical inference in business and economics, with attention to descriptive statistics, probability theory, sampling distribution and inference statistics. Additionally includes testing of hypotheses and confidence intervals. 3 lecture hours</td>
<td></td>
</tr>
<tr>
<td>BUS 206</td>
<td>Business Statistics II</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td><strong>Prerequisite:</strong> BUS 205</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Further testing of hypotheses and confidence intervals, plus coverage of regression analysis, chi-square, analysis of variance, and non-parametric measurements with use of several computer-based statistical packages. 3 lecture hours</td>
<td></td>
</tr>
<tr>
<td>BUS 209</td>
<td>Business Communications</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td><strong>Prerequisite:</strong> ENG 101</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Practical strategies for developing a clear writing style: organizing ideas, choosing effective words and composing concise paragraphs that make writing clear and persuasive. Includes letters of inquiry, claim, collection, and adjustment as well as resumes and cover letters. Requires oral and written business report. 3 lecture hours</td>
<td></td>
</tr>
<tr>
<td>BUS 210</td>
<td>Principles of Management</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td><strong>Prerequisite:</strong> ENG 101</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Provides a framework for managing an organization, including discussion of the key management functions of planning, organizing, staffing, influencing and controlling, with emphasis on ethics and international management issues. 3 lecture hours</td>
<td></td>
</tr>
<tr>
<td>BUS 211</td>
<td>Funeral Service Internship I</td>
<td>2</td>
</tr>
<tr>
<td>BUS 212</td>
<td>Funeral Service Internship II</td>
<td>2</td>
</tr>
<tr>
<td>BUS 213</td>
<td>Funeral Service Internship III</td>
<td>2</td>
</tr>
<tr>
<td>BUS 214</td>
<td>Funeral Service Internship IV</td>
<td>2</td>
</tr>
<tr>
<td></td>
<td><strong>Prerequisite:</strong> eligibility determined by Director of Funeral Service Programs and is limited to students who are registered as interns with the New Jersey State Board of Mortuary Science or student trainees with the Pennsylvania State Board of Funeral Directors</td>
<td></td>
</tr>
<tr>
<td></td>
<td>These sequential courses in the Funeral Service Preparatory program combine business cooperative education (75 percent) and professional work (25 percent) in a cooperating funeral home, where students work under the direction of a licensed funeral director for 16 hours each week. Courses are supervised by the Director of Funeral Service Programs, a field supervisor, and the sponsoring funeral director. 16 work experience / 1 seminar hour per week</td>
<td></td>
</tr>
</tbody>
</table>
BUS 218  Principles of Financial Management  3 credits
Prerequisites: ACC 111; ECO 103 or ECO 111; BUS 205 or divisional permission
Principles of financial management as applied to the firm, including the role of the finance manager; analysis of financial statements and the firm’s performance; raising capital in the financial markets; the financing mix; valuation of financial assets; long term capital budgeting; working capital management; and international business finance. [occasional offering] 3 lecture hours

BUS 225  Employee Motivation and Leadership  3 credits
Draws together cutting-edge theory and significant achievements in the study of work motivation and leadership, equipping students for success in the business world as team leaders and members. From a workshop format incorporating practical real-world applications and examples, students learn how to design teams to function optimally with a focus on skills for effective team participation. 3 lecture hours

BUS 230  Global Environment of Business  3 credits
Prerequisite: ENG 101 with a minimum C grade
A survey course introducing the challenges confronting global business due to socio-political, economic, and cultural environments, including a discussion of ethics as it relates to these factors. Students are expected to read about topics such as political economy, cultural variation, trade theory, the international monetary system, foreign investment, and foreign exchange markets. 3 lecture hours

BUS 239  Entrepreneurship  3 credits
Prerequisites: ACC 106 or ACC 111 or permission of instructor; ENG 101 with a minimum C grade
Exposes students to the skills and resources necessary to become a successful entrepreneur. Topics include feasibility studies, cash management, business plans, pricing strategies, ethical issues, financing strategies, and financial statements. 3 lecture hours

BUS 240  Human Resource Management  3 credits
Prerequisite: ENG 101 with a minimum C grade
Examination of human resource management including determination of manpower requirements, the employment process, wage and salary administration, insurance, safety, discipline, and employee relations. Related topics include morale, research, and preparation for collective bargaining. 3 lecture hours

BUS 244  Introduction to Supply Chain Management  3 credits
Prerequisites: ACC 106 or ACC 111; ACC 205 or ACC 112; ENG 101 with a minimum C grade; IST 101, IST 102, or CIS 175; MAT 125 or advisor approved equivalent
A survey course designed to introduce students to the integrated activities of the supply chain, with emphasis on the flow of products, information, cash, and demand. Special topics include the global dimension, the role of technology, and strategic challenges. 3 lecture hours

BUS 262  International Dimensions of Management  3 credits
Prerequisite: BUS 230
Study of how management activities in a global enterprise differ from those in a purely domestic company. Emphasis on cross-cultural interaction and its effects on planning, organizing, staffing and controlling the operations of a multinational company. [occasional offering] 3 lecture hours

BUS 299  Business Cooperative Work Experience  3 credits
Prerequisites: sophomore standing and permission of coordinator
For MCCC degree students only. Integration of classroom study with specific planned periods of learning through job experience, designed for all business students. Seminars teach job-specific skills which can be practiced on the job. Course includes employer evaluation. 1 lecture / 180 work experience hours
CHE 100  Introductory Chemistry  3 credits

Prerequisite: MAT 037 or MAT 042 or proficiency in basic algebra

Selected fundamental principles of general chemistry for students who have not had high school chemistry and for those who need a review before taking other chemistry courses. [Does not include laboratory instruction and does not fulfill any requirements in the Chemistry program.] 3 lecture hours

CHE 101  General Chemistry I  4 credits

Prerequisites: high school chemistry or CHE 100; MAT 038 or MAT 044

Corequisite: ENG 101

Basic concepts and theoretical principles of modern chemistry. Topics include stoichiometry; atomic theory and the structure of matter; periodic table; chemical bonding; kinetic-molecular theory and the states of matter; gas laws; solutions; oxidation-reduction; and acid-base systems. Lab work introduces the use of computers for data collection and analysis. 2 lecture / 1 recitation / 3 laboratory hours

CHE 102  General Chemistry II  4 credits

Prerequisite: CHE 101 with a minimum C grade or permission

Corequisite: MAT 146 or approved equivalent

Theoretical and practical aspects of kinetics; simple and ionic chemical equilibria; thermodynamics; spectrophotometry; electrochemistry; nuclear chemistry; and the major families of chemical elements with emphasis on the transition elements. Lab work includes qualitative cation and anion analysis plus additional computer applications for data collection and analysis. 2 lecture / 1 recitation / 3 laboratory hours

CHE 106  Chemical Science Concepts  3 credits

Prerequisite: MAT 037 or MAT 042 with a minimum C grade

Fundamental topics in chemistry and biology are introduced utilizing forensics to explore basic science concepts. Topics include general, organic, and biochemistry, and general and molecular biology. Lab experiments integrate case-study analyses and modern instrumentation with techniques in enzymology, chromatography, microscopy, fingerprinting, DNA analysis, and serology. Prepares the student for informed engagement in society by providing scientific knowledge on which attitudes and opinions can be developed. 2 lecture / 2 laboratory hours

CHE 107  General and Physiological Chemistry  4 credits

Prerequisites: high school chemistry or CHE 100; MAT 037 or MAT 042 or equivalent

Introduction to basic chemical and physical principles and their applications to life processes. Lab exercises illustrate these principles and the behavior of physiologically significant materials. 2 lecture / 1 recitation / 2 laboratory hours

CHE 201  Organic Chemistry I  5 credits

Prerequisite: CHE 102 with a minimum C grade

Theoretical principles of reaction mechanisms and the synthesis of important classes of organic compounds. Topics include stereoisomerism; alcohols; ethers; nucleophilic substitution; elimination reactions; and instrumental methods. Lab work introduces the synthesis, purification, separation and identification of organic compounds. 3 lecture / 4 laboratory hours
CHE 202  Organic Chemistry II  5 credits
Prerequisite: CHE 201 with a minimum C grade
Follows CHE 201 with increased emphasis on spectroscopy and mechanisms. Topics include aromatic compounds; electrophilic substitution reactions; carbonyl chemistry; carboxylic acid derivatives, amines, carbohydrates and proteins. Lab work includes methods of synthesis, purification, and spectroscopic identification of organic compounds. 3 lecture / 4 laboratory hours

CHE 293  Honors Research in Chemistry I  2 credits
Prerequisites: BIO 102 and CHE 102, minimum 3.0 GPA
Under the guidance of an area sponsor in an industrial or academic environment, students participate in a chemistry research project. Requires a written report and oral presentation to students and faculty at the conclusion of the project period. [Fulfills a technical elective requirement in the Biology and Chemistry programs.] 5 laboratory hours per week

CHI — CHINESE

Note: Students who have taken two or more years of a foreign language, and have done so in the last two years, should begin that language at the 200 level or switch to a new language. If there is doubt, placement will be determined by testing or consultation with the academic division.

CHI 101  Beginning Chinese I  3 credits
The first in a sequence of courses designed for students with little or no prior knowledge of Mandarin Chinese. Spoken communication in Chinese is both the end goal and the means of instruction. Emphasizes the four communicative skills in a culturally authentic context. Reading and writing in both Pinyin and Chinese characters are assigned out of class to facilitate effective listening and speaking practice in class. Basic grammar skills are also introduced. 3 lecture hours

CHI 102  Beginning Chinese II  3 credits
Prerequisite: CHI 101 with a minimum C grade or permission of instructor
The second in a sequence of courses designed for students with little or no prior knowledge of Mandarin Chinese. Spoken communication in Chinese is both the end goal and the means of instruction. Emphasizes the four communicative skills in a culturally authentic context. Reading and writing in both Pinyin and Chinese characters are assigned out of class to facilitate effective listening and speaking practice in class. Basic grammar skills are also introduced. 3 lecture hours

CHI 201  Intermediate Chinese I  3 credits
Prerequisite: CHI 102 with a minimum C grade or permission of instructor
The first in a sequence of courses designed for students with a mid to high novice level of competency in Mandarin Chinese. Spoken communication in Chinese continues to be the end goal and the means of instruction. The four communicative skills of reading, writing, listening and speaking are applied to discussions and debates involving Chinese culture, politics, and history. Fundamental grammar points are reviewed. 3 lecture hours
### Humanities

**CHI 202 Intermediate Chinese II**

3 credits  
**Prerequisite:** CHI 201 with a minimum C grade, placement by exam, or permission of instructor

The second in a sequence of courses designed for students with a mid to high novice level of competency in Chinese. Spoken communication in Chinese continues to be the end goal and the means of instruction. The four communicative skills of reading, writing, listening and speaking are applied to discussions and debates involving Chinese culture, politics, and history. Fundamental grammar points are reviewed.  
*3 lecture hours*

### CIS — COMPUTER INFORMATION SYSTEMS

**CIS 105 Excel Basics**

1 credit  
**Prerequisites:** ENG 033, MAT 037

Learn how to increase productivity by designing and organizing worksheets to solve problems. Students acquire a working knowledge of Excel with emphasis on formulas, charts, data analysis, printing, managing large worksheets, and integrating Excel charts and worksheets into Word documents and PowerPoint presentations.  
*1 lecture / 1 laboratory hours*

**CIS 112 Introduction to PC Business Applications**

3 credits  
**Prerequisite:** OST 109 with a minimum C grade or equivalent keyboarding proficiency

Students become proficient in use of Microsoft Office – including Word, Excel, Access, and PowerPoint – to complete practical business projects.  
*2 lecture / 2 laboratory hours*

**CIS 173 PC Applications: Database**

3 credits  
**Prerequisite:** COS 101, COS 102, IST 101, or equivalent proficiency

Students acquire a working knowledge of Access, a relational database, with emphasis on creating tables, queries, reports, and forms.  
*2 lecture / 2 laboratory hours*

**CIS 175 PC Applications: Spreadsheets**

3 credits  
**Prerequisite:** IST 101 or equivalent proficiency

Students acquire a working knowledge of Excel with emphasis on formulas, charts, and managing worksheets and lists.  
*2 lecture / 2 laboratory hours*

**CIS 280 PC Applications: Project Management**

3 credits  
**Prerequisite:** IST 209

Explores frequently used tools for project management. Addresses usage of a major software package to build project plans complete with tasks and resources, to format project reports, to track actual work against the plan, and to take corrective action when things get off track.  
*2 lecture / 2 laboratory hours*

### CIV — CIVIL ENGINEERING TECHNOLOGY

**CIV 101 Surveying I**

3 credits  
**Corequisites:** DRA 190 or divisional permission;  
ENT 116 or prior drafting experience; MAT 115 or approved equivalent

Introduces the three basic surveying tools – the tape, level, and transit/theodolite – along with proper field procedures for basic surveying. These include taking field notes, taping and EDM, leveling, bearings and azimuths, topography, and mapping – the latter including an introduction to computer-aided design.  
*2 lecture / 3 laboratory hours*

**CIV 102 Surveying II**

3 credits  
**Prerequisite:** CIV 101 or permission of instructor

Application of the fundamentals and techniques achieved in elementary surveying to solve additional problems in vertical curves, horizontal curves, traversing computations and profiles. Computations include bearings and azimuths, latitudes and departures, areas, and use of the planimeter. Applies AutoCAD and land development software, plus "Total Station" survey equipment for traversing, radial stakeout, and layout of horizontal curves.  
*2 lecture / 3 laboratory hours*
CIV 103  Statics  3 credits
Prerequisites: MAT 146 with a minimum C grade; one semester of high school or college physics
Corequisite: MAT 151
Calculus-based introduction to the basic principles of engineering statics, including terminology and types of force systems, for engineering science students. Topics include the resultant force of a force system; distributed and concentrated forces; force systems in equilibrium, trusses, frames and machines; friction; centroids; and moments of inertia. 3 lecture hours

CIV 105  Introduction to Engineering  1 credit
Provides an introduction to the practice of engineering including disciplines, work environment, and competencies. Outlines project management topics such as scope, budget, schedule, effective communication, and proposal preparation. Also includes career planning topics such as resumes, interviews, internships, transferring to four-year institutions, and professional licensure. 1 lecture hour

CIV 106  Mechanics  3 credits
Prerequisite: MAT 115 or divisional permission
Introduction to the basic principles of engineering mechanics, including terminology and types of force systems, for engineering technology students. Topics include the resultant force of a force system, distributed and concentrated forces, force systems in equilibrium, trusses, frames and machines, friction, centroids, and moments of inertia. 3 lecture hours

CIV 216  Highway Engineering  3 credits
Prerequisites: MAT 115 and ENT 116
Corequisites: CIV 102, DRA 190, or divisional permission
Explores the planning, design, construction, and characteristics of highways and city streets, including layout, traffic requirements, safety and control, drainage, subgrade structure, base courses, and surface pavements. Problems to be solved include geometric design, traffic volume, channelization, and hydrology. Lab projects involve roadway designing. [Spring offering] 2 lecture / 2 laboratory hours

CIV 223  Fluid Mechanics  4 credits
Prerequisite: MAT 115
Introduction to the field of fluid mechanics. Topics include the properties of fluids, buoyancy, basic fluid power, closed pipe flow, open channel flow, forces due to fluids in motion, flow measuring devices, and the energy balances of fluid systems. Lab experiments (requiring written reports) on non-compressible fluids illustrate the theoretical concepts. [Fall offering] 3 lecture / 3 laboratory hours

CIV 227  Structural Steel Design  3 credits
Corequisite: CIV 229
Application of basic principles of material mechanics to the analysis and design of structural steel members that occur most commonly in bridge and building construction. Requires thorough knowledge of the American Institute of Steel Construction Code as well as orderly computational procedures. Lab work involves the design of a building. [Fall offering] 2 lecture / 3 laboratory hours

CIV 228  Reinforced Concrete Design  3 credits
Prerequisite: CIV 227 or DRA 217
Examines the design of basic reinforced concrete structural members including rectangular beams, slabs, columns, footings, and retaining walls. Requires thorough knowledge of the ACI Standard Code. Covers field inspection procedures. Lab projects involve designing, mixing, and evaluating concrete cylinders and beams, adhering to alternate design and strength design approaches. [Spring offering] 2 lecture / 3 laboratory hours

CIV 229  Mechanics of Materials  4 credits
Prerequisite: CIV 106 with a minimum C grade
With an introduction to engineering materials and their mechanical properties, examines strains that occur in elastic bodies subjected to direct and combined stresses, shear and bending moment diagrams, deflections of beams, and stresses due to torsion. Lab testing involves various materials such as cast iron, steel, brass, aluminum, and wood to determine their physical properties and to demonstrate various testing techniques. [Fall offering] 3 lecture / 3 laboratory hours
CIV 230  Mechanics of Solids  4 credits  
*Prerequisites:* CIV 103 and MAT 151 with a minimum C grade  
Calculus-based introduction to engineering materials and their mechanical properties, examining strains that occur in elastic bodies subjected to direct and combined stresses, shear and bending moment diagrams, deflections of beams, and stresses due to torsion. Lab testing involves various materials such as cast iron, steel, brass, aluminum, and wood to determine their physical properties and demonstrate various testing techniques. 3 lecture / 3 laboratory hours

**CMN — COMMUNICATION**

CMN 101  Mass Media  3 credits  
*Corequisite:* ENG 101  
Survey of the growth and development of books, newspapers, magazines, film, radio, television, cable, the Internet, and new media delivery systems. Analysis of the mass media's impact on society and individuals, and whether the media effectively fulfill their functions as deliverers of information, persuasion, entertainment, and culture. 3 lecture hours

CMN 102  Media Issues and Ethics  3 credits  
*Prerequisite:* ENG 101 with a minimum C grade  
An examination of current issues and ethical dilemmas in mass media such as sensationalism, press censorship, violence, political coverage, rights of privacy, and photo manipulation. The implications of recent developments in mass media and current regulation of broadcast and cable media are discussed. Students read, evaluate and analyze media ethical case studies. 3 lecture hours

CMN 107  Cinema  3 credits  
Study of artistic achievement in the film medium from the point of view of the director (author). Classic and contemporary feature films are viewed, analyzed and discussed, including the works of such directors as Griffith, Eisentein, Chaplin, Hitchcock, Bergman, DeSica, and Welles. 3 lecture hours

CMN 111  Speech: Human Communication  3 credits  
*Prerequisite:* eligibility for placement in ENG 101  
Exploration of the fundamental elements, characteristics, and processes of communication, including communicating in a multicultural society, interpersonal, intrapersonal, as well as small group contexts. Oral presentation experiences are heavily integrated throughout the course with a focus on public speaking design and delivery. 3 lecture hours

CMN 112  Public Speaking  3 credits  
*Corequisite:* ENG 101  
Introduction to principles and practice of audience-centered, credible, confident messages for diverse audiences. Includes a variety of presentations: special occasion, personal experience, impromptu, panel, informative, and persuasive. Special focus on communication anxiety management, organizational patterns, supporting research, visual aids, and dynamic delivery. Sustained reading, writing, and testing are also part of the course. 3 lecture hours

CMN 122  Organizational Communication  3 credits  
*Prerequisite:* ENG 101  
Study of the knowledge, skills, sensitivity, and values associated with the variety of communications within and between organizations. An exploration of various methods, channels, and audiences of organizational communication in the corporate world. 3 lecture hours
CMN 125  Public Relations  3 credits
**Prerequisite:** ENG 101 with a minimum C grade
Comprehensive study of public relations including identifying and reaching internal and external publics, dealing with print and electronic media, advertising, printing, direct mail, and preparing a public relations plan and budget. Also involves the writing of news releases, public service announcements, and advertising copy. [occasional offering] 3 lecture hours

CMN 141  Introduction to Television Production  3 credits
Basic theory and operation of TV production equipment including camera, switcher, character generator, prompter, audio console, and lighting. Following study of studio procedure, students plan, produce, write, and direct several short video productions. 2 lecture / 2 studio hours

CMN 142  Introduction to Field Production  3 credits
Production of programming with complete formats such as news, interview, music, drama, and fashion. Students plan, produce, write, and direct 15-minute interview/demonstration programs. 2 lecture / 2 studio hours

CMN 143  Graphics and Effects for Video  3 credits
**Prerequisite:** CMN 141 with a minimum C grade  
**Corequisite:** CMN 142
Techniques for using graphics and visual effects to enhance video productions through the use of digital imaging and compositing software. A variety of multimedia production projects reinforces proper file management and image compression techniques. 2 lecture / 2 laboratory hours

CMN 144  Screenwriting  3 credits
**Prerequisites or Corequisites:** ENG 101, ENG 102
Aimed at the conception, planning and writing of screenplays. Through a series of writing exercises, scenes, short scripts and treatments, the student is expected to complete a 20-page short film script. The basics of character development, narrative, structure, texture, genre, and the ability to visualize in writing are explored. 2 lecture / 2 laboratory hours

CMN 145  Acting/Directing for the Camera  3 credits
**Corequisite:** ENG 101
Focuses on the application of acting and directing actors for single-camera film production. This hands-on course addresses the aesthetics, theory and practice of camera placement, shot execution, and the many aspects of directing the actor. 2 lecture / 2 laboratory hours

CMN 146  Social Media Technologies  3 credits
Extensive exploration of current social media technologies, utilizing the Mac platform, for storytelling and narrative purposes. With emphasis on usability, management and distribution, topics include multimedia development and design; the media elements of text, graphics, sound and video; and trends in emerging hardware and software. Multimedia projects demonstrate technical understanding and coherent narratives. 2 lecture / 2 laboratory hours

CMN 147  Introduction to Story  3 credits
Aimed at the analysis, deconstruction, and construction of story. Analyzing a series of films, television shows, graphic novels, video games and transmedia properties, students explore the basics of character development, narrative, arc, structure, and genre. 2 lecture / 2 laboratory hours

CMN 148  Introduction to Editing  3 credits
Covers the art of composing space and time through the arrangement and assembly of images and sounds, including basic concepts of editing, storytelling, and emotion. Students develop their editing skills utilizing current and professional non-linear editing software and tools. 2 lecture / 2 laboratory hours

CMN 151  Introduction to Radio  3 credits
An orientation to commercial radio in the United States. Topics include historical development, ownership, management, sales, programming, promotion, commercial and news writing, audience measurement, and government regulation. Students learn the hands-on technical skills necessary to operate broadcast consoles and audio editing applications. Production projects include newscasts, commercials, and a weekly music program. 2 lecture / 2 studio hours

</table>
CMN 250  Announcing for Media  3 credits
Students explore, practice and develop announcing techniques used in broadcasting and other media applications. Practical assignments provide training for a variety of professional roles such as radio disc jockey, talk show host, podcast host, broadcast journalist, and voice-over announcer. Students produce commercials, public service announcements, interview programs, and corporate/industrial voice-overs and host a radio show. 2 lecture / 2 laboratory hours

CMN 252  Applied Radio Programming and Production  3 credits
Prerequisites: CMN 153 and CMN 250 with a minimum C grade
Study of the development and nature of current radio formats, programming philosophies, and group ownership. Students analyze and critique current radio formats and create a commercially-viable format of their own. Students apply advanced production techniques to produce station “ imagers,” format demos, and an audition CD suitable for entry-level positions. 2 lecture / 2 studio hours

CMN 253  Digital Audio Production II  3 credits
Prerequisite: CMN 153
An overview of multitrack recording techniques using state-of-the-art digital audio workstations. Topics include mastering techniques, digital signal processing, auto-tune, session management, and techniques for real-time and processed audio plug-ins including reverb, delay, sampling, automation, MIDI sequencing, and virtual instruments. Students produce multilayered recordings using live talent in a studio environment. 2 lecture / 2 laboratory hours

CMN 254  Live Sound Reinforcement  3 credits
Prerequisite: ETT 102 or permission of coordinator
Basic principles of the behavior of sound in various environments, with emphasis on signal flow, acoustics, sound reinforcement setups and installation, signal processing, as well as microphone selection and placement. Includes setting up sound systems and mixing live music. Topics include microphones, recording equipment, control consoles, reproduction techniques, amplification, distribution, loudspeaker systems, frequency response, decibels, and dynamic range. 2 lecture / 2 laboratory hours

CMN 255  Sound Design for the Entertainment Industry  3 credits
Prerequisites: CMN 153, CMN 254
Examines audio production techniques, technologies, and aesthetics related to the development of a compelling soundtrack for theatre, television, radio or the Internet. Through training in all phases of digital sound recording, editing and mixing, students work with location and field recording equipment and use advanced editing and mixing techniques associated with digital audio workstations. 1 lecture / 4 laboratory hours

CMN 256  Digital Audio Production III  3 credits
Prerequisite: CMN 253
Continues the study of multitrack recording techniques using state-of-the-art digital audio workstations. Topics include advanced mastering techniques, digital signal processing, auto-tune, session management, techniques for real-time and processed audio plug-ins including reverb, delay, sampling, automation, MIDI sequencing, and virtual instruments. Students produce multiple multilayered recordings using live talent in a studio environment acting as a producer, engineer, mixer, and mastering engineer. 2 lecture / 2 laboratory hours

CMN 257  Podcasting  3 credits
[DETAILS AVAILABLE FROM PROGRAM COORDINATOR / ACADEMIC DIVISION]

CMN 260  Convergence Newsroom  3 credits
Prerequisite: CMN 131
A multimedia capstone course in convergence media. Students complete all elements of online and print news including writing a variety of journalistic articles, taking photographs, making and editing video footage, designing info graphics, learning the fundamentals of marketing and preparing all content for both online and print formats. 2 lecture / 2 laboratory hours
CMN 275  TV Technology and Culture  3 credits
Prerequisite: ENG 102
Critical survey of the key areas of television studies: technology and media ownership, textual analysis, and audiences. Topics include federal regulations, audience measurement, distribution and programming strategies, and cultural theory. Promotes industry networking skills through field trips, meeting with media professionals, and creating a resume/portfolio. 3 lecture hours

CMN 285  Special Studies in Television Production  3 credits
Prerequisites: CMN 290, minimum 3.0 GPA, and divisional permission
Opportunity for students who have completed all regular television writing and production courses to continue their studies at an advanced level. Individual students and faculty develop a project contract that sets forth objectives, standards of quality, evaluation guidelines, and deadlines. [occasional offering]

CMN 286  Special Studies in Radio Production  3 credits
Prerequisites: CMN 151, CMN 153, CMN 161, CMN 250, CMN 253, minimum 3.0 GPA, and divisional permission
Opportunity for students who have completed all regular radio writing and production courses to continue their studies at an advanced level. Individual students and faculty develop a project contract that sets forth objectives, standards of quality, evaluation guidelines, and deadlines. [occasional offering]

CMN 287  Special Studies in Communication  3 credits
Prerequisites: second-year standing as a Communication program major at MCCC and permission of the program coordinator; minimum 3.0 GPA
Opportunity for students who have completed all regular communication and communication writing courses to continue their studies at an advanced level. Individual students and faculty develop a project contract that sets forth objectives, standards of quality, evaluation guidelines, and deadlines.

CMN 290  Internship: Communications  3 credits
Prerequisites: second-year standing and coordinator approval
Work experience at a radio station, TV station, cable system, industrial or instructional TV facility, or other allied business. 1 lecture / 180 work experience hours

---

COS 101  Introduction to Computer Science  4 credits
Prerequisite: MAT 037 (or MAT 037A and 037B) or proficiency in basic algebra
Introduces both majors and non-majors to the concepts and topics of computer science, including computer architecture, algorithm analysis, operating systems, and programming languages. Students develop algorithmic thinking and abstraction using a 3-D animation programming language and MATLAB, a numerical programming tool for scientists and engineers. 3 lecture / 2 laboratory hours

COS 102  Computer Science I – Algorithms and Programming  4 credits
Prerequisite: COS 101, IST 107, IST 108, IST 109, or IST 123
Corequisite: MAT 146 or higher
Algorithm design and object-oriented programming in the Java language. Topics include data representation, input/output, control structures, exception handling, classes, methods, inheritance, polymorphism, encapsulation, overloading and dynamic memory. 3 lecture / 2 laboratory hours

COS 204  Discrete Mathematical Structures  4 credits
Prerequisite: MAT 151 or equivalent
Primarily intended for Computer Science majors, covers wide variety of topics serving as the mathematical framework for the design and analysis of algorithms. Topics include induction and recursion, relations, functions, sets, propositional logic, Boolean algebra, grammars, permutations and combinations, and finite state machines. 4 lecture hours
COS 210  Computer Science II – Data Structures  4 credits
Prerequisites: COS 102 or equivalent and MAT 146 or MAT 151
Study of advanced programming topics focused on logical structures of data as well as the design, implementation and analysis of algorithms operating on these structures. Topics include linked lists, stacks, trees, queues, graphs and analysis of efficiency. Also covers searching, sorting and hashing techniques. 3 lecture / 2 laboratory hours

COS 231  Fundamentals of Computer Architecture  4 credits
Prerequisites: COS 102 or equivalent and MAT 146 or MAT 151
Explores the levels of organization in digital computers: logic circuit design, integrated circuits, and assembly language coding. 3 lecture / 2 laboratory hours

CRJ — CRIMINAL JUSTICE

CRJ 101  Introduction to the Criminal Justice System  3 credits
Overview of the systems of criminal justice in the United States, including a survey of the agencies for the administration of justice and the relationships among them. 3 lecture hours

CRJ 102  Police in the Community  3 credits
Study of the relationship between the police and the public they serve with particular emphasis on ethical standards, human relations, civil rights, and community service. 3 lecture hours

CRJ 103  Introduction to Corrections  3 credits
Study of the relationship between the correction officer and the prisoner including the history of corrections, the rights of the confined, parole and work release, and the philosophies of rehabilitation and punishment. 3 lecture hours

CRJ 104  Introduction to Security  3 credits
Introduction to the historical, philosophical, and legal bases of the security field. Examines all aspects of private security systems and functions, including the technology of security and the role of security in different organizational settings. [occasional offering] 3 lecture hours

CRJ 105  Criminology  3 credits
In-depth analysis and evaluation of criminal behavior including street crime, organized crime, and occupational crime. Students learn to investigate, categorize, and describe the theories of criminality and social control. 3 lecture hours

CRJ 202  Criminal Law  3 credits
Examines the evolution and development of criminal laws as well as the nature of crime, basic principles of criminal law, plus defenses and court presentations. 3 lecture hours

CRJ 206  Police Administration  3 credits
Examines the contemporary law enforcement agency and its functions, structure, and operational techniques; implications of generalized and specialized units; development of resources by time and area of function; analysis of line, staff, and auxiliary functions; and current issues facing today's police agencies. 3 lecture hours

CRJ 207  Criminal Investigation  3 credits
The strategies, techniques, and methods employed in criminal investigations – at the crime scene, follow-up investigation, modus operandi, sources of information, and interrogation. 3 lecture hours

CRJ 211  Community Corrections  3 credits
Examines the major types of community-based correctional alternatives such as fines, community service, drug courts, probation, day reporting centers, halfway houses, parole, and other intermediate sanctions. Covers correctional law and management, controversies, political pressures, and emerging trends. 3 lecture hours
**CRJ 212  Juvenile Justice**  
3 credits  
Overview of the major issues in the field of juvenile justice, including causes of delinquency and the development of modern treatment methods. Emphasis on the delinquent's relationships with family, school, peers, and the juvenile justice system.  
*3 lecture hours*

**CRJ 299  Cooperative Education – Criminal Justice**  
3 credits  
*Prerequisites:* sophomore status; CRJ 101; CRJ 206 or CRJ 103; divisional permission  
Exposure to the philosophy, goals, and daily operations of a criminal justice agency. Through supervised work, the student experiences the roles of criminal justice employees and evaluates their responsibilities. Designed for the student interested in the realistic application of criminal justice theory to the justice system.  
*1 lecture / 180 work experience hours*

---

**CSB — COLLEGE SUCCESS FOR BUSINESS**

**CSB 100  College Success and Wellness for Business**  
2 credits  
A comprehensive orientation to the college experience providing academic and personal wellness management tools geared toward students studying in business-related disciplines. Topics include general study skills, academic technology, introduction to college resources and services, an exploration of business careers, financial literacy, and general wellness.  
*2 lecture hours*

---

**CSH — COLLEGE SUCCESS FOR HEALTH PROFESSIONS**

**CSH 100  College Success for Health Professions**  
2 credits  
A complete orientation to the college experience providing academic, interpersonal, and wellness strategies geared toward students in pursuit of a health professions related degree. Topics include study skills, soft skills development, and investigation of health professions related careers. Students also apply strategies to promote optimal physical and emotional wellness.  
*1 lecture / 1 laboratory hours*

---

**CSW — COLLEGE SUCCESS AND WELLNESS**

**CSW 100  College Success and Personal Wellness**  
2 credits  
A comprehensive orientation to the college experience providing academic and personal wellness management tools. Topics include general study skills, academic technology, introduction to college resources and services, and healthy living.  
*2 lecture hours*

---

**DAN — DANCE**

**DAN 101  Introduction to Dance and Culture**  
3 credits  
*Prerequisite:* ENG 101 or permission of instructor  
Introductory study of dance as an art form, investigating the impact of gender, politics, religion, and culture on how dance is perceived. Develops a fuller appreciation of how dance has been used over the course of human history in western and non-western cultures to communicate human needs and to express what words cannot communicate. [Fall and Spring offering]  
*3 lecture hours*

**DAN 102  Ballet I**  
2 credits  
Introduces traditional or classic ballet terminology, forms, and techniques. Emphasizes body alignment and physical skill needed for proper classical ballet movements. [Spring offering]  
*1 lecture / 2 studio hours*

**DAN 103  Modern Dance I**  
2 credits  
Introduces the techniques and motor skills of modern dance, including basic body skills, placement, alignment, and continuity. [Fall offering]  
*1 lecture / 2 studio hours*
DAN 105  Jazz Dance I  2 credits
Fundamentals of jazz dance techniques with emphasis on syncopated rhythms and isolations of the body. [Fall and Spring offering]  1 lecture / 2 studio hours

DAN 112  Ballet II  2 credits
Prerequisite: DAN 102 or permission of instructor
Study of ballet technique on an intermediate level. [Spring offering]  1 lecture / 2 studio hours

DAN 113  Modern Dance II  2 credits
Prerequisite: DAN 103
Study of modern dance techniques on an intermediate level, and an introduction to repertory. [Fall offering]  1 lecture / 2 studio hours

DAN 115  Jazz Dance II  2 credits
Prerequisite: DAN 105 or permission of instructor
Study of jazz dance techniques on an intermediate level, with emphasis on syncopated rhythms and isolations of the body. [Fall and Spring offering]  1 lecture / 2 studio hours

DAN 116  Studio Dance Technique I  3 credits
DAN 117  Studio Dance Technique II  3 credits
DAN 118  Studio Dance Technique III  3 credits
DAN 119  Studio Dance Technique IV  3 credits
A sequence of courses required of all students in the dance program, provides an intensive approach to skill development, discipline, and knowledge for mastery of the three concert dance styles: ballet, jazz, and modern. Daily technique classes cater to specific needs and abilities. Related issues of career planning, personal health, and ensemble work are also addressed. [Fall and Spring offering]  6 studio hours

DAN 120  Choreography I  3 credits
Prerequisite: DAN 116 or divisional permission
Introduces several choreographic strategies used to develop an idea into a dance structured for the stage. Students are exposed to the tools of choreography beginning with basics – time, space, and force – and then move on to more complex issues faced by intermediate choreographers: form, style, abstraction, compositional structures, and choreographic devices. [Spring offering]  2 lecture / 2 studio hours

DAN 285  Special Studies in Dance  3 credits
Prerequisites: DAN 101, DAN 116, DAN 117, DAN 120 and permission of program coordinator
Opportunity for students who have completed regular course offerings to continue their studies at an advanced level. Individual students and faculty develop a project contract that sets forth objectives, standards of quality, evaluation guidelines, and deadlines. [Fall offering]  6 studio hours

DMA — DIGITAL MEDIA ARTS

DMA 110  Digital Imaging  3 credits
Designed to meet the needs of artists and designers in diverse fields, involves the leading professional paint and photo retouching software. Addresses the practical and creative aspects of producing art and illustrations and manipulating photographs and other images through a series of hands-on assignments.
1 lecture / 4 laboratory hours

DMA 115  Vector Drawing  3 credits
Acquaints with the basics of production and use of vector graphics for use in print and illustration, web-based media, and animation. Skill development concentrates on the use of tools and transformation options of Adobe Illustrator, with emphasis on digital drawing for both text and graphics, use of Wacom pen tablet, key tools within Illustrator, and production of standard industry graphics for use in print, web, and animation.
1 lecture / 4 laboratory hours

DMA 120  3-D Modeling I  3 credits
Develops visual problem-solving abilities using computers as art and design tools. Students create and manipulate three-dimensional forms and scenes, their colors, surface textures, lighting and cameras to design effective compositions in virtual 3-D space. Useful for graphic arts, communications, interior design and architectural professions, prepares students for Animation I and 3-D Modeling II. Windows-based PC computers, scanners, and current professional software are used.
1 lecture / 4 laboratory hours
DMA 135  Digital Narrative  3 credits
Exploration of narrative art, its structure and approaches as it applies to time-based graphics. Students investigate narrative in a variety of formats – from comics to animation to film editing and various “artistic” permutations in between – with emphasis on current digital practices. 1 lecture / 4 studio hours

DMA 144  Internet Tools and Techniques  3 credits
Introduction to the tools and techniques used to create blogs, commercial websites and Internet applications. Topics include the history of the Internet, Internet software and hardware, ethical issues surrounding privacy, accessibility and ownership on the Internet, information architecture and content strategies, and the tools used for blogging, creating web pages and rich web applications. Students research, analyze, diagram, and create Internet applications and websites. 1 lecture / 4 studio hours

DMA 145  Web Design I  3 credits
Prerequisites: DMA 110, placement in college-level English
Introduction to web design using a professional software application. Focuses on principles of design and interactivity. Students learn how to create images for the web, manage files, organize imagery using tables, style text using cascading style sheets, create animated gifs, and add interactivity using basic JavaScript behaviors. 1 lecture / 4 studio hours

DMA 210  Motion Graphics  3 credits
Prerequisite: CMN 141 or DMA 135 with a minimum C grade or divisional permission
Digital art in motion: concepts and techniques of visual storytelling emphasizing issues of pacing, continuity and dramatic structure. 2-D graphics, video and sound are combined using new media tools to explore the possibilities of new media art. Course content is applicable to the fields of 3-D animation, film and television title sequences, commercials, multimedia design and music videos. [Spring offering] 1 lecture / 4 studio hours

DMA 225  Computer Animation I  3 credits
Prerequisites: DMA 120 and DMA 135 with a minimum C grade or divisional permission
Using 3-D animation software and video interface, students produce special effects and character animations from storyboard to output. Windows-based personal computers and current professional software are used. [Fall offering] 1 lecture / 4 studio hours

DMA 226  Computer Animation II  3 credits
Prerequisites: DMA 120 and DMA 135 with a minimum C grade or divisional permission
Advanced 3-D character animation and special effects involving character animation, inverse kinematics, and particle systems. Students produce a recording of their work and develop presentation skills. Windows-based personal computers and current professional software are used. [Spring offering] 1 lecture / 4 studio hours

DMA 245  Web Design II  3 credits
Prerequisite: DMA 145 with a minimum C grade
Applies intermediate to advanced web design concepts with an emphasis on UI Design. Students design and develop websites utilizing professional software, identify target audiences based on client needs, produce websites according to accessibility standards, manage digital assets online, build website components, and work in a team-based environment. 1 lecture / 4 studio hours

DMA 250  Digital Portfolio Seminar  3 credits
Prerequisite: DMA 115 or ART 105 or PHO 203 or CMN 241 or CMN 250 with a minimum C grade or divisional permission
Introduction to the culture, technologies, history, and theories of new media. Advanced digital media arts students explore topics in digital media while developing a digital portfolio to present their work. 1 lecture / 4 studio hours

DMA 275  Interdisciplinary Studio  3 credits
Prerequisite: DMA 115 with a minimum C grade or divisional permission
Students explore the possibilities and implications of combining digital and traditional tools and techniques in the service of personal expression as fine art. Focuses on exploring each individual's aesthetic expression and the development of individual style. A variety of techniques, software, and theoretical issues are presented. Students are expected to create a series of pieces for exhibition, with emphasis on the printed output. [occasional offering] 1 lecture / 4 studio hours
DMA 285  Special Studies in Digital Media Arts  3 credits
Prerequisites: DMA 226 or DMA 245 and divisional permission
Special courses in specific art forms allow students who have completed regular course offerings to continue their studies at advanced levels. Individual students and faculty develop a project contract that sets forth objectives, standards of quality, evaluation guidelines, and deadlines. [occasional offering] 1 lecture / 4 studio hours

DMA 290  Digital Media Arts Internship  3 credits
Prerequisite: coordinator approval
Work experience at participating animation studios, advertising agencies, design firms, and film and video effects houses. 1 lecture / 180 work experience hours

DRA — DRAFTING / COMPUTER-AIDED DESIGN

DRA 132  Architectural Computer Drafting  3 credits
Prerequisites: BCT 110, BCT 120, DRA 190 or divisional permission
Using architectural software, students produce professional drawings; compile contract documents; and date, store and retrieve information on both two- and three-dimensional projects. Involves creation of walls, doors, windows and roofs as well as implementation of symbols for structural, electrical, mechanical, plumbing, furnishing, and site work. 2 lecture / 2 laboratory hours

DRA 190  Introduction to Computer-Aided Drafting  2 credits
Introduction to the use of the computer as a drafting tool. Includes concepts, terminology, and basic commands necessary to prepare drawings using CAD software. Requires basic knowledge of the computer keyboard. 1 lecture / 2 laboratory hours

DRA 191  Introduction to Building Information Modeling  2 credits
Introduction to the use of the computer using building information modeling software. Topics include basic terminology and concepts of modeling, geometry, and the basic commands necessary to prepare a building model and several drawings. 1 lecture / 2 laboratory hours

DRA 216  Heating, Refrigeration and Air Conditioning Drafting  3 credits
Prerequisites: ENT 116 or permission of instructor, HRA 102
Study of the aspects of drawing needed by a drafter in order to prepare finished drawings for the installation of heating, refrigeration, and air conditioning systems. Intended primarily for students in the Heating, Refrigeration and Air Conditioning program. [occasional offering] 1 lecture / 4 laboratory hours

DRA 217  Structural Steel Design and Drafting  3 credits
Corequisite: CIV 104
Examines the problems common to structural design of steel and similar materials relative to the architectural frame of a structure. Relies heavily on the principles of mechanics and mechanics of materials fundamentals. Requires familiarity with general steel design codes and the preparation of structural drawings. 2 lecture / 3 laboratory hours

DRA 218  3-D Modeling / 3-D Printing  3 credits
Prerequisite: MET 122 or advisor permission
An introduction to 3-D solids modeling and printing software. Students build a prototype model using SolidWorks software and print a 3-D model to explore the basic size and look of a product or machine part. Orthographic drawings with dimensions are also produced for part building using traditional machining techniques. 2 lecture / 2 laboratory hours

DRA 238  Advanced Computer-Aided Design  3 credits
Prerequisite: DRA 190
Advanced computer drafting course using CAD software. Includes a review of basic command options, display options, hatching and sectioning, text, and dimensioning. Introduces 3-D drawing and surface modeling. 2 lecture / 2 laboratory hours
DRA 248  Advanced Building Information Modeling  3 credits
Prerequisite: DRA 191 with a minimum C grade
Advanced computer-aided design and drafting using BIM software. Students build intelligent 3-D models of
designs using parametric, feature-based modeling software. After refinement, 2-D drawings are created from
the 3-D model. 2 lecture / 2 laboratory hours

DRA 251  Solids Modeling  3 credits
Prerequisite: DRA 238 with a minimum C grade
An introduction to solids modeling and rendering software. Students explore the capabilities and potentials of
computer software used to construct solids models then render the resulting image.
2 lecture / 2 laboratory hours

ECO — ECONOMICS

Social Science
ECO 103  Basic Economics  3 credits
Prerequisites: ENG 101 and MAT 037 (or MAT 037A and 037B)
with a minimum C grade or placement in college-level mathematics
Basic economics concepts enable students to better understand, analyze, and discuss current economic
events and problems. Includes demand, supply and prices, measures of gross domestic product, the
circular flow of income, market structures, government fiscal policy, monetary policy, the national banking
system, and international trade. 3 lecture hours

Social Science
ECO 111  Macroeconomics  3 credits
Prerequisites: ENG 101 and MAT 038 or MAT 044 or MAT 140 with a minimum C grade
Analysis of the determinants of aggregate income, output, employment and price level under various
market conditions. Includes national income and product account, consumption and investment theory,
government stabilization via fiscal and monetary policy, macroeconomic impact of international trade and
finance, and inflation/unemployment trade-off controversies. 3 lecture hours

Social Science
ECO 112  Microeconomics  3 credits
Prerequisites: ENG 101 and MAT 038 or MAT 044 or MAT 140 with a minimum C grade
Introduction to economic principles and their application to major issues of public policy: concepts of supply
and demand, nature and operation of market structures, analysis of costs and revenues, theory of
production, selected problems of public policy in relation to agriculture, antitrust policy, labor relations and
microeconomic aspects of world trade. 3 lecture hours

EDU — EDUCATION

EDU 102  Introduction to Exceptional Children  3 credits
Introduction to the field of special education and to exceptionality. Inclusion, an approach to teaching students
with special needs in general education, is emphasized. Topics include historical overview, legislation,
consideration of specific disabilities, instructional techniques and equipment, as well as teaching gifted
students and non-native speakers. 3 lecture hours

Introduction to American education and the teaching/learning process for future educators. Topics include
history and philosophy of education, curriculum, teaching strategies, school law, diversity, technology and
recent trends. Students are involved in creative activities, research, and analysis of current literature. Requires
25 hours of field observation in an educational setting. 3 lecture hours
EDU 120  Introduction to Early Childhood Education  3 credits
Emphasizes the needs of young children in conjunction with appropriate care and educational programs. Topics include environment, developmentally appropriate practices, emerging literacy, cognitive development, learning through play, and school/home relationships. Observation and/or participation in a childcare setting are required. 3 lecture hours

EDU 130  Infant/Toddler Social and Emotional Well-Being  3 credits
Designed for students interested in a career in a childcare or nursery school environment. A component of the New Jersey Infant/Toddler Credential, the course supports practitioners working with infants and toddlers to strengthen their capacity as caregivers of the very young. 3 lecture hours

EDU 131  Supervised Field Experience in Infant/Toddler Settings  3 credits
Prerequisite or Corequisite: EDU 130
A companion course to EDU 130, designed for students interested in a career in a childcare or nursery school environment. Student field experiences critically evaluated by both students and teachers serve as a forum for discussion. A component of the New Jersey Infant/Toddler Credential, the course supports practitioners working with infants and toddlers to strengthen their capacity as caregivers of the very young. 2 lecture / 60 practicum hours

EDU 210  Education Field Experience  6 credits
Prerequisites: minimum C grade in EDU 109 and SOC 104, or minimum C grade in EDU 102 and EDU 201, and divisional permission
Corequisite: EDU 211
Internship of 15-20 hours per week in a New Jersey school approved by the coordinator of the Education / Special Education Assistant program. The student performs the duties of an education assistant under the supervision of cooperating teachers. Assignments to schools are made on the basis of the student's interests and occupational goals; arrangements must be made during the preceding semester. [Spring offering] 4 days per week

EDU 211  Education Seminar  3 credits
Prerequisites: minimum C grade in EDU 109 and SOC 104, or minimum C grade in EDU 102 and EDU 201, or divisional permission
Corequisite: EDU 210
Examines the correlation between educational theory and practice. Students engage in research with professional journals, demonstration classes illustrating varied methods and materials, teaching units, and observation visits to area schools. [Spring offering] 3 lecture hours

EDU 214  Curriculum and Methods for Early Childhood  3 credits
Prerequisite: EDU 120
Exposes students to a variety of methods for the planning and implementation of quality instruction in an early childhood setting. Students study strategies for creating positive learning environments while developing curricula for various subjects and learning styles. 3 lecture hours

---

EET — ELECTRONICS ENGINEERING TECHNOLOGY

EET 130  Fundamentals of Electronics  3 credits
Prerequisite or Corequisite: MAT 037 (or MAT 037A and 037B)
Introduction to DC and AC circuits, electromagnetic devices, electronic components, and analog and digital circuits. For non-electronics majors. 2 lecture / 2 laboratory hours

EET 138  Introduction to Electronics I  4 credits
Prerequisite or Corequisite: MAT 038 or MAT 044
Focuses on direct current (DC) devices and circuits. Progresses from the fundamentals of electricity, Ohm's Law, Kirchoff's Law, series and parallel circuits to the study of resistors, capacitors, inductors, batteries, transistors, and diodes as they pertain to DC circuits. 3 lecture / 3 laboratory hours
<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>EET 139</td>
<td>Introduction to Electronics II</td>
<td>4</td>
</tr>
<tr>
<td></td>
<td>Prerequisite: EET 138 or equivalent</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Continuation of EET 138. Covers the basics of AC circuits and devices including resistors, capacitors, inductors and semiconductors. Introduces fundamental waveforms such as sine waves and pulses and their behavior in solid state circuits.</td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td>3 lecture / 3 laboratory hours</td>
</tr>
<tr>
<td>EET 140</td>
<td>Electronic Construction</td>
<td>2</td>
</tr>
<tr>
<td></td>
<td>Teaches the use of hand tools, drilling and other metalworking methods as well as correct soldering and repair techniques. Students apply these skills to chassis construction and wiring, and also gain experience in working with printed circuit boards.</td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td>1 lecture / 3 laboratory hours</td>
</tr>
<tr>
<td>EET 141</td>
<td>Electrical Wiring and Cabling</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Prerequisite: EET 130</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Focus on electrical wiring techniques starting with 120/240 volts. Instruction for adding connectors to and installing coax, CAT5/6, and fiber optic cables emphasizes the codes and standards to be followed along with the correct tools to be used. Class time allot equally between lectures reinforced by hands-on practice.</td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td>2 lecture / 2 laboratory hours</td>
</tr>
<tr>
<td>EET 145</td>
<td>Fiber Optics</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Prerequisites: EET 130 or EET 138; MAT 038</td>
<td></td>
</tr>
<tr>
<td></td>
<td>A study of fiber optics as it pertains to the communications process. Topics include the physics and behavior of light in a fiber. Skills learned include connectorization of fiber and the use of the special tools and test equipment required. Successful completion of this course can lead to FOA certification.</td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td>2 lecture / 3 laboratory hours</td>
</tr>
<tr>
<td>EET 214</td>
<td>Communications Electronics</td>
<td>4</td>
</tr>
<tr>
<td></td>
<td>Prerequisite: EET 219</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Study of information transmission and reception involving both digital and analog systems. Topics include AM, FM, noise, spectra, receivers, transmitters, lines and cables, and antennas.</td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td>3 lecture / 3 laboratory hours</td>
</tr>
<tr>
<td>EET 219</td>
<td>Electronic Networks</td>
<td>4</td>
</tr>
<tr>
<td></td>
<td>Prerequisite: EET 139 or EET 144</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Analysis and design considerations for electronic circuits, including power supplies using semiconductor diodes and zener diodes, and Class A amplifiers using bipolar and FET transistors.</td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td>3 lecture / 3 laboratory hours</td>
</tr>
<tr>
<td>EET 230</td>
<td>Linear Integrated Circuits</td>
<td>4</td>
</tr>
<tr>
<td></td>
<td>Prerequisite: EET 219 or EET 131</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Covers the basic building blocks of linear systems, such as inverting and non-inverting amplifiers, comparators, and filters.</td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td>3 lecture / 3 laboratory hours</td>
</tr>
<tr>
<td>EET 251</td>
<td>Digital Circuit Fundamentals</td>
<td>4</td>
</tr>
<tr>
<td></td>
<td>Prerequisite: EET 130 or EET 139 or EET 144</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Introduces the basic theory, concepts and devices behind digital circuitry and computers, including gates, registers, flip-flops, counters, decoders and encoders, half- and fulladders, and clocks. The electrical characteristics, limitations, and connections of digital integrated circuit packages are explored. Corresponding labs reinforce lecture materials through practical examples.</td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td>3 lecture / 3 laboratory hours</td>
</tr>
<tr>
<td>EET 263</td>
<td>Digital Technology – Introduction to Microprocessors and Assembly Language</td>
<td>4</td>
</tr>
<tr>
<td></td>
<td>Prerequisite: EET 251</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Introduces the operation of a simple computer at the physical (electrical) level using gates, registers, and other basic circuits introduced in the prerequisite course. Students gain experience building and programming a simple computer. Covers memory, basic microprocessor architecture, assembly language programming, and analog-to-digital as well as digital-to-analog converters.</td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td>3 lecture / 3 laboratory hours</td>
</tr>
<tr>
<td>EET 266</td>
<td>Programmable Logic Controllers</td>
<td>4</td>
</tr>
<tr>
<td></td>
<td>Prerequisite: EET 251</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Introduces the theory and practical concepts of programmable logic controllers and their applications within industrial or manufacturing environments. Topics include PLC components, digital logic, ladder logic design, and software programming. Corresponding labs reinforce lectures with practical hands-on programming of Allen-Bradley PLC units using RSLogix software.</td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td>3 lecture / 3 laboratory hours</td>
</tr>
</tbody>
</table>
Note: Initial selection of an English composition course is determined by results of college skill placement testing. Applicability of credits for courses below the 100 level toward degree requirements is limited. Consult an academic advisor.

**ENG 023**
**Introduction to College Composition I**
4 credits
First-level developmental course designed to help students write 400- to 650-word essays on topics in various academic disciplines. Students are guided in developing a writing process that improves essay development, coherence, grammar, and punctuation. Prepares students for Introduction to College Composition II, a second-level foundation course. 4 lecture hours

**ENG 024**
**Introduction to College Composition II**
4 credits
Prerequisite: ENG 023 or placement test
Second-level developmental course. Students write 400- to 750 word essays about concepts in various academic disciplines. Focus is on developing a writing process that helps student writers to form positions and analyze and evaluate their own and other writers’ ideas. Students also improve their sentence and essay structure, tone, and overall coherence. 4 lecture hours

**ENG 033**
**Introduction to College Reading I**
4 credits
Prerequisite: placement test
Designed to provide access to collegiate study through engaging students as readers and thinkers while drawing on and integrating their individual life experiences. Students read, respond to, and think critically about readings, using literacy approaches that help them grow as readers and thinkers during the semester and beyond. 4 lecture hours

**ENG 034**
**Introduction to College Reading II**
4 credits
Prerequisite: ENG 033 or placement test
Designed to foster student engagement with complex ideas from college-level texts and other media. Students critically read, analyze, and synthesize readings from across academic disciplines, and problem-solve when course material allows, using literacy approaches that help them grow as readers and thinkers during the semester and beyond. 4 lecture hours

**Communication**

**ENG 101**
**English Composition I**
3 credits
Prerequisite: placement test or minimum C grade in ENG 024 and ENG 034
College-level composition course designed to assist students in writing 750- to 1500-word essays on topics in various academic disciplines. Focuses on development and support of ideas, essay structure, critical thinking, analysis of readings, and other aspects of writing. Students are introduced to research techniques and documentation. 3 lecture hours

**ENG 102**
**English Composition II**
3 credits
Prerequisite: ENG 101 with a minimum C grade
Second-level composition course designed to assist students in writing 1500- to 3000-word essays, including a formally documented research paper. Readings introduce students to literature and the analysis of concepts, language, and formal elements. 3 lecture hours

**ENG 112**
**English Composition II with Speech**
3 credits
Prerequisite: ENG 101 with a minimum C grade
A variation on standard ENG 102, differing with its focus on the interpretation, analysis and creation of a broad spectrum of workplace documents rather than on literature. Construction of a lengthy, well-supported research paper and accompanying PowerPoint presentation is central. Speech component is fulfilled through multiple in-class presentations. 3 lecture hours
**ENG 131** Journalism I  
3 credits

Corequisite: ENG 101  
Introduction to the news media with particular emphasis on the newspaper and newswriting, the history of the press, and controversial issues facing the press. Active participation with the student paper, *The College Voice*, is integral.  
3 lecture hours

<tbody>
<tr>
<td>ENG 211</td>
<td>Shakespeare</td>
<td>3</td>
<td>minimum C grade in ENG 102 or divisional permission</td>
<td>A survey of Shakespeare’s tragedies, comedies, and histories – a body of work whose characters, themes, and language influence and permeate literature worldwide, and is essential to cultural literacy. [occasional offering]</td>
</tr>
<tr>
<td>ENG 212</td>
<td>Introduction to Literature: Poetry</td>
<td>3</td>
<td>minimum C grade in ENG 102 or divisional permission</td>
<td>Explores poetry as imagery, figurative language, allusion, tone, rhythm, meter, rhyme and stanza form. Students read major English and American poetry as well as verse from a variety of cultures to provide background for reading poems more incisively. [Fall offering - alternate semesters]</td>
</tr>
<tr>
<td>ENG 213</td>
<td>African American Literature</td>
<td>3</td>
<td>minimum C grade in ENG 102 or divisional permission</td>
<td>A survey of literary works by writers of the African Diaspora produced in the Americas from the 18th century to the present. Proceeds chronologically, starting with African-born producers of the literature, oral and written, continuing with the folk tradition, moving through the slave narratives, the Harlem Renaissance, the Black Arts Movement and ending with contemporary works and the immigrant experiences. [Spring offering]</td>
</tr>
<tr>
<td>ENG 215</td>
<td>Creative Writing I</td>
<td>3</td>
<td>minimum C grade in ENG 102 or divisional permission</td>
<td>Develops writing skills in various genres, such as fiction, poetry, and essay. Recognized models in literary modes are analyzed for craftsmanship. Through workshop framework, students benefit from peer and instructor criticism and are encouraged to find individual voice under instructor guidance. [not a Literature elective]</td>
</tr>
<tr>
<td>ENG 216</td>
<td>Literature Into Film</td>
<td>3</td>
<td>minimum C grade in ENG 102 or divisional permission</td>
<td>Focuses on the marriage of two art forms – literature and film – and pays particular attention to how the medium affects the writer and the writer the medium. Examines selected novels, short stories, plays, essays and/or memoirs as original works and as each evolves into film. [Fall and Spring offering]</td>
</tr>
<tr>
<td>ENG 218</td>
<td>Creative Writing II</td>
<td>3</td>
<td>minimum C grade in ENG 102 or divisional permission</td>
<td>Promotes continuing development of creative writing skills; analyzes recognized models by major modern writers. Through workshop framework, peers and instructor critique student work. Students are encouraged to hone their writing voices under instructor guidance. [not a Literature elective]</td>
</tr>
</tbody>
</table>
### Humanities

**ENG 220  Science Fiction Literature**  
3 credits  
*Prerequisite:* minimum C grade in ENG 102 or divisional permission  
Explores science fiction through a study of genre elements and the challenges these genres present. By examining a diverse selection of speculative literature, participants better appreciate and interpret such works and how they both reflect and change our culture. [Spring offering]  
3 lecture hours

### Humanities / Diversity and Global Perspective

**ENG 221  Women in Literature**  
3 credits  
*Prerequisite:* minimum C grade in ENG 102 or divisional permission  
A discussion-based course that explores literature by women writers. Texts cover a variety of authors and genres as well as themes, issues and theories concerning the production of gender in literary works. Further develops the literary analysis and academic writing skills acquired in ENG 102. [Fall offering]  
3 lecture hours

### Diversity and Global Perspective

**ENG 222  Children's Literature**  
3 credits  
*Prerequisite:* minimum C grade in ENG 102 or divisional permission  
Critical evaluation of the various genres of literature written for children. Examines ancient folk tales like Aesop's Fables, modern picture books such as those by Maurice Sendak, and classic fiction such as the masterpieces of Lewis Carroll and Mark Twain. [Fall and Spring offering]  
3 lecture hours

### Humanities

**ENG 227  English Literature I**  
3 credits  
*Prerequisite:* minimum C grade in ENG 102 or divisional permission  
Survey of representative English literature from the Middle English period through the Neoclassical period. Particular attention to the works of Chaucer, Shakespeare, Milton, Donne, Dryden and Pope. [Fall offering - alternate semesters]  
3 lecture hours

### Humanities

**ENG 228  English Literature II**  
3 credits  
*Prerequisite:* minimum C grade in ENG 102 or divisional permission  
Survey of representative English literature from the Romantic and Victorian periods up to the present. [Spring offering - alternate semesters]  
3 lecture hours

### Diversity and Global Perspective

**ENG 232  Post-Colonial Women Writers**  
3 credits  
*Prerequisite:* minimum C grade in ENG 102 or divisional permission  
Examines works written in English by women of color in Asia, Africa, the Americas, and Australia. Explores contributions of the writer to the body of modern world literature – poetry, fiction, drama – along with aspects of the writers' politics and the social milieus that form their work. [occasional offering]  
3 lecture hours

### Humanities

**ENG 238  American History and Literature**  
3 credits  
*Prerequisite:* minimum C grade in ENG 102 or divisional permission  
[also offered as HIS 238] An interdisciplinary examination of American literature and society with special emphasis on contemporary perspectives and the historical context in which texts were written. Focuses on American history and literature since 1865, covering such topics as gender, race, ethnicity and immigration, social class, the West, war, and popular culture. [occasional offering]  
3 lecture hours

ESL 073     ESL Writing Concepts III     4 credits
Prerequisite: ESL 063 or score of 3-4 on WritePlacer section of Accuplacer test
Develops academic writing in English. Guides critical analysis of academic texts in English. Supports the
development of ideas and the effective structure of essays and a research paper. New vocabulary and
grammar are acquired from reading meaningful texts and practiced through meaningful original writing.
4 lecture hours

ETT — ENTERTAINMENT TECHNOLOGY

ETT 102     Introduction to the Entertainment Industry     3 credits
Prerequisite: eligibility for placement in ENG 101
An introduction to terminology, working methods, processes, equipment, and facilities for various
entertainment industry venues with a particular emphasis on theatre and music technology and production.
Laboratory work includes an introduction to various lighting programs and digital audio production software.
Related current events and career opportunities are discussed. Attendance at several applicable events is
required. 2 lecture / 2 laboratory hours

ETT 200     Technical Production     1 credit
Prerequisites: ETT 102, THR 102, and prior advisor approval
Supervised laboratory areas of production including planning, construction, and running of
productions. Emphasizes careful pre-planning and appropriate safety procedures along with follow-up critiques
and evaluation of the work done. Graded on pass-fail basis. 90 hours minimum

ETT 205     Arts and Entertainment Management     3 credits
Prerequisite: ETT 102 with a minimum C grade
An introduction to common issues and best practices in the management of arts and entertainment
organizations. Students gain a basic understanding of business requirements and challenges in producing
entertainment. Topics include common management structures in not-for-profit and for-profit arts and
entertainment organizations, marketing, public relations, fundraising, budgeting, and human resources. Legal
concerns addressed include contracts, copyright, licensing, and royalties. 3 lecture hours

ETT 290     Entertainment Technology Internship     2 credits
Prerequisites: ETT 200 and prior advisor approval
Work experience at a professional scenery fabrication shop, rental/supply house, off-Broadway theater, or any
entertainment-related organization. Serves to bridge the student’s academic and commercial careers by
cultivating professional work experience and industry contacts. Each student, supervised by faculty and a
manager at the internship site, creates a portfolio and keeps a log/journal to be shared in group seminars.
Graded on pass-fail basis. 1 class hour every other week. 190 internship hours

FAS — FASHION

FAS 105     Fashion: The Global Marketplace     3 credits
Prerequisite: placement in college-level English
An overview of the fashion industry beginning with a historical perspective that covers both domestic and
international influences. Integrates creative fashion concepts with business concepts commonly used in
general marketing. Topics include international sourcing and trade, and retailing. 3 lecture hours

FAS 110     Introduction to Fashion Drawing     3 credits
Prerequisite: ART 102
Coordinated with Fashion Design I, develops techniques, skills, and knowledge needed to produce fashion
drawings that are clear, accurate, realistic and attractive. Vocabulary of various clothing styles and details are
introduced. 1 lecture / 4 laboratory hours

FAS 120     Introduction to Fashion Industries     3 credits
Corequisite: FAS 130
Coordinated with Introduction to Fashion Drawing, emphasizes development of color stories, concepts and
fabrications. Study includes exploration of visual sensitivity, mastering fashion terminology, developing original
design concepts, as well as storyboard compiling and design research. 1 lecture / 4 laboratory hours

Note: Students who have taken two or more years of a foreign language, and have done so in the last two years, should begin that language at the 200 level or switch to a new language. If there is doubt, placement will be determined by testing or consultation with the academic division.

**FRE — FRENCH**

Humanities

**FRE 101** Beginning French I
3 credits
The first in a sequence of courses designed for students with little or no prior knowledge of French. Spoken communication in French is both the end goal and the means of instruction. Emphasizes the four communicative skills in a culturally authentic context. Reading and writing are assigned out of class to facilitate effective listening and speaking practice in class. Basic grammar skills are also introduced.

3 lecture hours

Humanities

**FRE 102** Beginning French II
Prerequisite: FRE 101 with a minimum C grade, placement by exam, or permission of instructor
The second in a sequence of courses designed for students with little or no prior knowledge of French. Spoken communication in French is both the end goal and the means of instruction. Emphasizes the four communicative skills in a culturally authentic context. Reading and writing are assigned out of class to facilitate effective listening and speaking practice in class. Basic grammar skills are also introduced.

3 lecture hours

Humanities

**FRE 201** Intermediate French I
Prerequisite: FRE 102 with a minimum C grade, placement by exam, or permission of instructor
The first in a sequence of courses designed for students with a mid to high novice level of competency in French. Spoken communication in French continues to be the end goal and the means of instruction. The four communicative skills of reading, writing, listening and speaking are applied to discussions and debates involving Francophone culture, politics, and history. Fundamental grammar points are reviewed.

3 lecture hours

Humanities

**FRE 202** Intermediate French II
Prerequisite: FRE 201 with a minimum C grade, placement by exam, or permission of instructor

3 lecture hours

**FUN — FUNERAL SERVICE**

**FUN 203** Funeral Service Principles
Prerequisites: ENG 101 and enrollment in Funeral Service Program
Introduction to the basic services performed by the funeral director from first call to final disposition. Includes religious practices, Veterans Administration and Social Security, transportation and funeral merchandise. Emphasizes vocabulary, ethical practices and professional attitudes.

3 lecture hours

**FUN 206** Introduction to Funeral Service
Prerequisites: ENG 101 and enrollment in Funeral Service Program
Focus on terminology, the impact of grief on society, the history of funeral service, and various professional organizations. Includes variations in funeral practices due to cultural differences, reactions to death, grief and bereavement, and the impact of family structures.

3 lecture hours
FUN 215  Funeral Service Law  3 credits
Prerequisites: BUS 107 and enrollment in Funeral Service Program
Basic principles of law impacting the funeral service profession, with emphasis on common law, New Jersey statutes, rules and regulations and FTC compliance. Includes cemetery law, burial standards, rights and wrongs concerning the body and burial, and zoning restrictions. 3 lecture hours

FUN 217  Funeral Service Management  3 credits
Prerequisites: ACC 106, FUN 203, FUN 215
Business and management practices pertinent to funeral service with emphasis on small business. Particular consideration to staff organization, employer/employee relations, funeral home budget, funeral service merchandising, insurance, price determination and quotation, advertising, OSHA, and applicable federal regulations. 3 lecture hours

FUN 220  Funeral Service Laws, Rules and Regulations  1 credit
Prerequisite: FUN 215 or permission of Director of Funeral Service Programs
Laws, rules and regulations that specifically influence funeral service practice in New Jersey. Covers general licensure and intern requirements, rules for operating a funeral home, embalming procedures, general and specific rules of practice, advertising and continuing education. Compares and contrasts practices in New Jersey and Pennsylvania. 1 lecture hour

FUN 223  Funeral Service Pathology  3 credits
Prerequisite: BIO 106 (or BIO 103 and BIO 104) or permission of Director of Funeral Service Programs
Survey of the major diseases, including pathological changes related to disease processes and the effects of physical and chemical trauma on the human body. Facilitates understanding of medical terminology relevant to funeral service. 3 lecture hours

FUN 227  Restorative Art  3 credits
Prerequisites: BIO 106 (or BIO 103 and BIO 104); FUN 247 or permission of Director of Funeral Service Programs
Examines facial anatomy including underlying structures and facial features, restoration, color and cosmetics. Lab work develops proficiency in anatomical modeling and the practical application of cosmetics. 2 lecture / 2 laboratory hours

FUN 229  Funeral Service Counseling  3 credits
Prerequisites: FUN 206 and PSY 101 or permission of Director of Funeral Service Programs
Promotes an appreciation of care-giving roles in relation to grieving persons and addresses the background material, skills and procedures needed for helping situations. Situations requiring professional therapy are differentiated from those requiring referrals for more specialized counseling. 3 lecture hours

FUN 247  Principles of Embalming I  3 credits
Prerequisites: BIO 106 (or BIO 103 and BIO 104), ENG 101 and enrollment in Funeral Service Program
Includes review of historical background, ethical and sanitary considerations, signs and tests of death, postmortem changes and basic procedures, instruments and equipment employed in embalming with emphasis on procedures for handling infectious/contagious disease. 3 lecture hours

FUN 249  Principles of Embalming II  2 credits
Prerequisite: FUN 247 with a minimum C grade
Continuation of FUN 247. Topics include cavity treatment, types of embalming chemicals and their uses, causes of embalming failure, discolorations, vascular difficulties, decomposition, dehydration, edema, deformities and malformations, and radiation. 2 lecture hours

FUN 251  Embalming Lab and Practicum  3 credits
Prerequisites: permission of Director of Funeral Service Programs; students must be registered interns
Develops practical embalming skills, combining work experience in a funeral home (16-20 hours per week) and at the MCCC embalming facility with discussion of applications. Topics include OSHA, embalming procedures, embalming products, cavity treatment, infant embalming and special cases. 3 laboratory and/or discussion hours plus 224 hours of work experience
FUN 295  Funeral Service Field Experience  3 credits
Prerequisites: approval from Director of Funeral Service Programs; students must be registered interns
Combines classroom discussion with 16-20 hours per week as an intern (or student-trainee) in an approved funeral home. Topics include death certificates, permits, vital statistics compliance, computer applications, Social Security and Veterans Administration paperwork, obituary writing, government compliance and other current issues. 2 hours seminar plus 224 hours of work experience

FUN 299  NBE Preparation  1 credit
Prerequisite or Corequisite: required Funeral Service courses
In preparation for the Funeral Service program capstone event, the National Board Examination (NBE), students review topics covered in the curriculum through classroom discussion and practice tests. Students must take the NBE in order to graduate from the Funeral Service program(s). 1 lecture / 1 studio hour

---

GAM — GAME DESIGN

GAM 120  Game Design Theory and Culture  3 credits
Students explore the historical and cultural significance of play through human history to include today’s video game phenomenon by examining many game models across several genres. Conceptual and production processes involved in current industry game design and development are introduced, with particular emphasis on the design of creative models expressing gaming concepts. 1 lecture / 4 laboratory hours

GAM 140  Game Design I  3 credits
Prerequisites: ART 102 and DMA 110 with a minimum C grade
Students develop fundamental skills designing computer games. Topics include environments, interfaces, rules, dynamics, play mechanics, goals, conflicts and aesthetics. Students learn to use standard industry level-building software and digital sculpting tools. Emphasis is placed on conceptual design of game play, interface, and the processes of 2-D and 3-D content creation. 1 lecture / 4 laboratory hours

GAM 145  Game Programming I  3 credits
Prerequisite: GAM 120
Analysis of an existing professional game engine contributes to an understanding of a game’s architecture and development. Working within the limits of the game engine, students design their own programming projects, modifying the logic and engine to create custom game experiences. 2 lecture / 2 laboratory hours

GAM 240  Game Design II  3 credits
Prerequisite: DMA 120 with a minimum C grade
Emphasis on prototyping and level-building of game design concepts expands on the topics explored and skills developed in Game Programming I. Additional topics include content importing and configuration, mapping, lighting, physics, and scripted interaction. 1 lecture / 4 laboratory hours

GAM 245  Game Programming II  3 credits
Prerequisite: GAM 145
Builds upon the existing skills developed in GAM 145 - Game Programming I. Students expand their knowledge of the Unity3D Game Engine and C# programming language to learn higher-level programming techniques for topics such as quaternion computation, AI behaviors, pathfinding, networking, advanced collision detection, and task management for large-scale games. 1 lecture / 4 laboratory hours

GAM 260  Game Development  3 credits
Prerequisites: GAM 140 and GAM 240 with a minimum C grade
In this capstone course, students work in interdisciplinary production teams to develop computer games and modules utilizing industry-standard game engines. Coursework centers on producing scripted real-time modules, play testing, and documentation to specify game design concepts. 1 lecture / 4 laboratory hours

HIS 113  World History Since 1500  3 credits
[not recommended for students who have taken HIS 102] Survey of world history from 1500 to the present, examining the development of societies in Asia, Europe, Africa, the Americas, and Oceania. Charts the development of individual societies in the Modern Age by focusing on interactions among diverse cultures and the driving forces of changes such as industrialization/technology, nationalism and colonization/decolonization. 3 lecture hours

HIS 122  American Sports History  3 credits
Examines sports’ prominence in American life since the mid-19th century. Focuses on sports as a reflection of our social, political and economic make-up and on sports' ability to affect and shape our institutions. Particular attention is given to social class, race and ethnicity, gender, community, technology, and commercialization and the media. 3 lecture hours

HIS 207  American Constitutional History  3 credits
Study of the Constitution's place in American history with emphasis on presidential authority, judicial interpretation, constitutional crises, the evolution of Federalism, and the status of civil liberty, past and present. 3 lecture hours

HIS 210  History of American Popular Culture  3 credits
Explores social, economic, and political contexts through examination of the films, sports, television, music, print media, literature, and fads that shape, influence, and respond to cultural trends. 3 lecture hours

HIS 213  Twentieth-Century World History  3 credits
Corequisite: ENG 101
Study of world history from the age of imperialism through the modern era. Focuses on the World Wars, the Cold War, colonization and decolonization, political ideologies, genocides, gender, race and ethnicity, religion, class, technology, poverty, terrorism, cultural history, and other global issues. 3 lecture hours

HIS 214  The United States Since 1945  3 credits
Intensive study of American history since World War II examines World War II, the Cold War at home and abroad, the Civil Rights movement, Vietnam, social upheavals and new forms of cultural expression during the 1960s, gender and class, technology, and 21st century issues. 3 lecture hours

HIS 215  The Holocaust and Other Genocides  3 credits
Prerequisite: HIS 102 or HIS 113 recommended
Analyzes the Holocaust and other genocides of the 20th and 21st centuries from an historical perspective. Specific topics include anti-Semitism in Europe, Nazism, the Final Solution, Armenian nationalism, the Khmer Rouge, and African genocides. Texts, testimonies, films, and other resources contribute to understanding events and responses. Particular attention is given to universal themes including prejudice, racism, evil, and moral responsibility. 3 lecture hours

HIS 218  History of Latin America  3 credits
Survey of Latin America from pre-Columbian origins to current times. Topics include Indian civilizations, discovery and conquest, colonial rule, independence movements, as well as 19th century and current issues and events. 3 lecture hours

HIS 220  History of Daily Life in the Modern Western World  3 credits
Examines the continuities and changes in daily life among ordinary people from the 17th century to the present. Although seemingly powerless for much of this period, certain social categories such as peasants, slaves, poor workers, and women played significant roles in the development of the modern world. This course explores those roles by studying the social and cultural aspects of daily life as revealed through a variety of primary sources and secondary studies. 3 lecture hours
HIS 221 History of American Women
3 credits
Studies the role and lives of outstanding women in selected historical periods, focusing on composite historical forces that shaped their lives. Current research in anthropology, psychology, and sociology supplements the historical content. [occasional offering] 3 lecture hours

HIS 226 History of New Jersey
3 credits
Surveys New Jersey history from the pre-colonial era to the present, with special emphasis on race, gender, ethnicity, social class, and the state's meaningful place in the larger story of American history. [occasional offering] 3 lecture hours

HIS 230 Special Topics in History
3 credits
Prerequisite: ENG 101 or permission of instructor
In-depth and specialized variable studies of some of the major individuals and cultural forces in U.S. and world history. Content may vary each time the course is offered. [occasional offering] 3 lecture hours

HIS 231 Women in Antiquity
3 credits
Examines the legal, social, and cultural roles and status of women in the Ancient Near East, Egypt, Greece, and Rome through review of ancient literature, legal and economic texts, art, and archaeology, supplemented with scholarly commentaries. 3 lecture hours

HIS 232 Women in Europe Since 1500
3 credits
Examines, through a variety of sources, the history of women in Western society since 1500. Through close readings and critical discussion of literature, legal and economic texts, art, as well as scholarly commentary, a deeper appreciation of the legal, social, and cultural roles and status of women in Europe from the Reformation to the present is developed. While focusing mostly on the historical conditions of women, this course also explores the history of gender and sexuality. 3 lecture hours

HIS 233 Medieval European History
3 credits
Corequisite: ENG 101
Social, economic, technological, political, and religious history of Europe, the Middle East, and North Africa from the fall of the Roman Empire to the 1500s with particular attention given to Byzantium, the Muslim empires, the Crusades, and the origins of modern Europe by the early Renaissance. 3 lecture hours

HIS 235 Early Modern Europe
3 credits
Corequisite: ENG 101
Introductory survey of European history between 1500 and 1800, including the Renaissance, Reformation, Scientific Revolution, Europe’s encounters with non-European societies, and the development of absolutism. National developments are examined and placed in a broad, comparative context. Emphasis on primary sources to provide a deeper appreciation for events and people of the period. 3 lecture hours

HIS 238 American History and Literature
3 credits
Prerequisite: ENG 102 with a minimum C grade
[also offered as ENG 238] An interdisciplinary examination of American literature and society with special emphasis on contemporary perspectives and the historical context in which texts were written. Focuses on American history and literature since 1865, covering such topics as gender, race, ethnicity and immigration, social class, the West, war, and popular culture. 3 lecture hours
### HOS — HOSPITALITY

<tbody>
<tr>
<td>HOS 100</td>
<td>Hospitality Success Skills</td>
<td>1</td>
</tr>
<tr>
<td></td>
<td>Introduces skills necessary to be successful in the hospitality program and the hospitality industry. Emphasizes career options and how to make the most of the educational experience through self management, internship opportunities, and effective study habits. Additional topics include customer service, history and trends of the hospitality industry, and the role of cultural diversity.</td>
<td></td>
</tr>
<tr>
<td>HOS 101</td>
<td>Food Preparation I</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Corequisites: HOS 111, HOS 118</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Introduction to the principles, skills, and techniques associated with the culinary arts, involving various cooking methods including classic and modern techniques. Identification of various kitchen staples, food products, and equipment used within the commercial food operation. Hands-on activities require the preparation of a wide variety of recipes. Chef whites required.</td>
<td></td>
</tr>
<tr>
<td>HOS 102</td>
<td>Food Preparation II</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Prerequisites: HOS 101 and HOS 118 or equivalent proficiency</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Refines culinary skills in quantity food preparation through operation of a student-run restaurant. Includes kitchen and dining room organization and operations; menu development and design; management of service and culinary personnel; service standards; serving the general public; merchandising and sales promotion; and banquet management. Chef whites required.</td>
<td></td>
</tr>
<tr>
<td>HOS 103</td>
<td>Protocol for International Travel</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Develops awareness of other cultures as needed for international travel. Covers itinerary preparation, currency exchange, passports and visas, health and safety hazards, plus proper use of English and cultural interpretations of gestures.</td>
<td></td>
</tr>
<tr>
<td>HOS 104</td>
<td>Hotel Management and Lodging Operations</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Preliminary study of operations and management in the lodging industry with special emphasis on front desk operations and management, housekeeping, corporate structure, staffing, sales, security, and accounting.</td>
<td></td>
</tr>

<td>Advanced Culinary Arts</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Prerequisites: HOS 101 and HOS 118 or equivalent proficiency</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Comprehensive review of current culinary arts practices, including advanced professional culinary skills, recipes, techniques, and use of ingredients. Involves practice of a wide variety of classical and modern cooking techniques as well as basic and advanced sanitation measures in kitchen operations.</td>
<td></td>
</tr>
<tr>
<td>HOS 110</td>
<td>Breakfast / Pantry</td>
<td>2</td>
</tr>
<tr>
<td></td>
<td>Prerequisites: HOS 101, HOS 118</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Covers basic breakfast preparation, presentation, and merchandising techniques for some basic baked goods, breakfast proteins, as well as garnishes. Practical laboratory experience involves preparing and serving meals. Use, safety, care, and storage of hand tools – including cook’s and vegetable knives – are emphasized.</td>
<td></td>
</tr>
<tr>
<td>HOS 111</td>
<td>Culinary Math</td>
<td>1</td>
</tr>
<tr>
<td></td>
<td>Prerequisite: MAT 037 (or MAT 037A and 037B)</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Focus on key mathematic concepts related to culinary arts. Students demonstrate a working knowledge of topics including calculating yield percent, determining portion costs, periodic food costs, ‘selling price’ determinations, weights and measures, changing recipe yields, and converting between metric and U.S. measurements.</td>
<td></td>
</tr>
<tr>
<td>HOS 115</td>
<td>Food and Culture</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Applying a global perspective of the symbolic, social, political, and economic role of food in different cultures, examines the geographical and historical conditions that give rise to various regional cuisines. Lectures, demonstrations, and hands-on participation reveal how institutions and organizations influence food habits and beliefs.</td>
<td></td>
</tr>

</tbody>
</table>
HOS 219  Professional Baking III  2 credits  
Prerequisites: HOS 118, HOS 217  
Advanced principles and procedures for preparing baked goods, specialty cakes, pastries and pies, and other specialty desserts. Emphasizes producing high-quality items. 1 lecture / 3 laboratory hours

HOS 230  Experimental Kitchen  2 credits  
Prerequisites: HOS 101, HOS 111, HOS 118  
Covers tastes and flavors (sweet, salt, bitter, sour, and umami). Students explore culinary herbs and spices, salts, peppers, oils, vinegars, essences, fragrances, oleoresins, concentrates, freeze dried fruit and vegetable products, and other flavor carriers used in cooking and culinary research and development. Includes a hands-on lab application of techniques learned. 1 lecture / 3 laboratory hours

HOS 231  Meat, Poultry and Fish Fabrication  1 credit  
Prerequisites: HOS 101, HOS 118  
Addresses the fundamentals of purchasing specifications; receiving, handling, and storing meat and seafood; plus techniques for fabricating cuts for professional kitchens. 2 laboratory hours

HOS 235  American Regional Cuisine  2 credits  
Prerequisite: HOS 109  
Prepare, taste, serve, and evaluate traditional regional dishes of America. Study and practices emphasize ingredients, flavor profiles, preparations, and techniques representative of cuisines of the United States. 1 lecture / 3 laboratory hours

HOS 240  Classical Cuisine / Advanced International  2 credits  
Prerequisite: HOS 109  
Students demonstrate a working knowledge in their approach to flavor profiles by applying cooking methods practiced by each ethnic group visited. Traditional preparation and plate presentation is emphasized utilizing both classic and modern approaches. 1 lecture / 3 laboratory hours

HOS 245  Chocolates and Confections / Retail Bakeshop  3 credits  
Prerequisite: HOS 217  
The essentials for creating sculptures, forming simple centerpieces, and preparing chocolates and other confections with soft, hard, and liquid centers. Along with merchandising concepts, traditional and contemporary production practices are explored for products including pastillage, nougatine, and assorted sugar and chocolate decorative pieces. 1 lecture / 4 laboratory hours

HOS 246  Artisanal Breads  2 credits  
Prerequisites: HOS 218, HOS 219  
An in-depth study and practice of Artisan bread baking. Old World techniques are applied with an emphasis on levians, poolish, and sponge bread methods. 1 lecture / 3 laboratory hours

HOS 247  Restaurant Desserts  3 credits  
Prerequisite: HOS 218  
How to produce and merchandise restaurant-style desserts. Along with an emphasis on dessert menu planning, production techniques are practiced involving plate-up, garnish, and component style desserts. 1 lecture / 4 laboratory hours

HOS 249  Advanced Pastry  2 credits  
Prerequisite: HOS 218  
How to produce and merchandise restaurant-style desserts. Along with an emphasis on dessert menu planning, production techniques are practiced involving plate-up, garnish, and component style desserts. 1 lecture / 3 laboratory hours

HOS 255  Garde Manger  2 credits  
Prerequisites: HOS 101, HOS 118  
Addresses basic and advanced garde manger and charcuterie techniques such as the preparation and serving of hot and cold hors d'oeuvres, aspics, pates, mousses, terrines, and cold dishes along with advanced techniques for the planning and arrangement of buffets. Covers table arrangement and planning, creation of model nonedible food displays, as well as manipulation of specialized tools to produce decorative buffet items and showpieces such as ice sculptures, pastillage, marzipan, and fondant. 1 lecture / 3 laboratory hours
HOS 267  Event Planning  3 credits
Corequisite: ACC 111
Examines the various aspects required in planning and implementing meetings, expositions, conventions, and other events large and small. Along with methods and strategies for overall project management and organization, special emphasis addresses budgeting, promotion, and designing the event environment.
3 lecture hours

HOS 287  Hotel / Restaurant Management Internship  1 credit
Prerequisites: minimum GPA of 2.0 or permission of program coordinator; eligibility usually limited to students who have completed their second semester or with permission of the HRIM coordinator
Supervised field experience in the operation and management of various departments or functional areas at selected hotels, restaurants, and institutions. Focus on leadership skills, human relations development, service in the hospitality industry, and reducing turnover with teamwork.
240 internship hours

HOS 289  Culinary / Pastry Arts Internship  1 credit
Prerequisites: minimum GPA of 2.0 or permission of program coordinator; eligibility usually limited to students who have completed their second semester or with permission of the HRIM coordinator
Supervised field experience in the operation and management of various departments or functional areas at selected hotels, restaurants, and institutions. Focus on leadership skills, human relations development, service in the hospitality industry, and reducing turnover with teamwork.
400 internship hours

**HPE — HEALTH / PHYSICAL EDUCATION**

HPE 091  Introduction to Health Careers  2 credits
Prerequisite: ENG 034
Designed for any student interested in a career in the health professions. Provides an introduction to the educational pathways, roles, and responsibilities of health care providers, and an overview of a variety of health professions, plus opportunities to actually observe additional career options in the health care field.
2 lecture hours

HPE 101  Basic Concepts of Nutrition  3 credits
Prerequisites: MAT 033 and ENG 024 or equivalent
Study of the fundamental concepts of nutrition with emphasis on the relationships of nutrients to health. Topics include basic diet constituents, principles of body function, considerations for various age groups, dietary regulations, myths, food patterns, weight control, and food safety.
3 lecture hours

HPE 105  First Aid, CPR and AED  3 credits
Prepares rescuers and lay responders with the knowledge and hands-on skills necessary to safely minimize the consequences of injury and illness and help sustain life in an emergency until medical help arrives. Successful candidates earn Basic Life Saving Healthcare Provider CPR/AED and Heartsaver First Aid Certifications through the American Heart Association.
2 lecture / 2 laboratory hours

HPE 110  Concepts of Health and Fitness  2 credits
Prerequisite: ENG 033 or equivalent
Through lectures and laboratories, essential knowledge and skills in health and all dimensions of wellness are explored. Through self-assessments, students develop a wellness profile and program designed to achieve and/or maintain optimal lifelong health and wellness. Physical activity is required.
1 lecture / 2 laboratory hours

HPE 111  Living with Health  3 credits
Prerequisite: ENG 034 or college-level proficiency in reading
Through self-assessments and critical thinking, students optimize their physical, psychological, social, intellectual and environmental well-being. Topics include health determinants, disease, disability, consumer education, health literacy, infectious and chronic diseases, aging, diversity, immediate and long-term effects of lifestyle choices including fitness, diet, stress management, destructive behaviors, dependency, and sexuality.

HRA — HEATING, REFRIGERATION AND AIR CONDITIONING

HRA 101  Principles of Refrigeration / Air Conditioning I  2 credits
Corequisite: MAT 037 (or MAT 037A and 037B) or equivalent proficiency
Fundamental principles of pressure and temperature relationships, heat transfer, and heating and cooling concepts. Specific topics include leak detection, types of refrigerants, piping materials, and connections. [Fall offering] 1 lecture / 2 laboratory hours

HRA 102  Principles of Refrigeration / Air Conditioning II  2 credits
Prerequisite: HRA 101
Corequisite: EET 130 or equivalent
Fundamental operating principles of compressors, condensers, and evaporators. Specific topics include types of metering devices, general accessory configuration, and procedures for charging and evaluating systems. [Fall offering] 1 lecture / 2 laboratory hours

HRA 103  Refrigeration / Air Conditioning Electrical Controls  4 credits
Prerequisites: EET 130, HRA 102
Examines types and application of various electromechanical devices such as motors, contractors, overload devices, thermostats, controls, and relays as well as various types of test and metering equipment. 2 lecture / 4 laboratory hours

HRA 104  Domestic Heating and Air Conditioning Systems  4 credits
Prerequisite: HRA 103
Operating fundamentals for the diagnosis and repair of various domestic heating and cooling units including window and central units, refrigerators, freezers, gas furnaces, and heat pumps. 2 lecture / 4 laboratory hours

HRA 202  Light Commercial Systems I  2 credits
Prerequisites: EET 130, HRA 103, HRA 104
Corequisite: HRA 203
Explores electrical and mechanical component configurations, including wiring and controls, for light commercial systems. 1 lecture / 2 laboratory hours

HRA 203  Light Commercial Systems II  2 credits
Prerequisites: EET 130, HRA 104
Corequisite: HRA 202
Study of electromechanical light commercial system operation, diagnosis and repair, including piping configurations, defrost systems, pressure switches, and pressure regulators. 1 lecture / 2 laboratory hours

HRA 205  Heavy Commercial Systems  4 credits
Prerequisite: HRA 104
Operation, maintenance, diagnosis, and repair of heavy commercial systems including electrical controls, mechanical components, and electrical circuitry. [Fall offering] 1 lecture / 4 laboratory hours

IST — INFORMATION SYSTEMS TECHNOLOGY

Note: Students should consult their academic advisor and the college or university to which they intend to transfer regarding information technology course requirements. The receiving institution always makes the final decision concerning transferability of credits.

IST 033  Tech Studio  2 credits
Prerequisite: instructor or advisor permission
An introductory hands-on computer technology course for students who have had little or no exposure to computers. Topics include the basics of operating systems, the Internet, word processing, multi-media, the cloud, programming, and e-mail. Students develop file management skills and work with web-based applications. 1 lecture / 2 laboratory hours
### IST 101  Computer Concepts with Applications
Prerequisite: ENG 033
Corequisite: MAT 037 (or MAT 037A and 037B)
Software Requirements: Office 2016 or Office 365 (free from MCCC), MyITLab, Alice
(Hardware Requirements: latest operating system for PCs, desktops, and Mac computers; Mac users may experience some compatibility issues with MyITLab Grader Projects)
 Addresses computer literacy involving hardware, software (Microsoft Word, Excel, and PowerPoint as well as programming using object-oriented Alice software), networking, databases, information literacy, and ethical aspects of technology. Students learn to develop APA research papers based on current information technology topics. Lab time includes exposure to popular operating systems, web searching, and cloud-based software.  

2 lecture / 2 laboratory hours

### IST 102  Computer Concepts with Programming
Prerequisites: ENG 034; MAT 037 (or MAT 037A and 037B) or equivalent proficiency
An introduction to computer literacy including a programming laboratory. Lectures cover the Internet; software; system components; peripherals; communications; databases; security, ethics, and privacy; programming languages; and enterprise computing. The laboratory covers forms, menus, decisions, loops, arrays, searching, the user interface, and database programming with Java.  

2 lecture / 2 laboratory hours

### IST 108  Introduction to Programming with Mobile Application Development
Prerequisite: MAT 037 or MAT 042 or proficiency in basic algebra
Introduces computing and programming concepts, and explores mobile and web technologies. Topics include variables, decision-making, iteration, lists, functions, decomposition, event-driven programming, databases, client-server computing, web services, platforms, programming languages, animation, texting, and geolocation. Students learn by creating Android mobile applications using App Inventor, a visual programming language.  

3 lecture / 2 laboratory hours

### IST 109  Introduction to Programming
Prerequisites: proficiency in basic algebra, MAT 037 (or MAT 037A and 037B)
Introduces fundamental programming structure, tools and documentation, including how to design interfaces and develop Task Object Event (TOE) and Object Properties and Settings charts, hierarchy charts, pseudocode, and flowcharts. Problem-solving techniques and program design using logic control structures of sequence, selection, iteration, arrays, and sequential files are emphasized in laboratory exercises using VB.NET.  

2 lecture / 2 laboratory hours

### IST 110  Introduction to Python
Prerequisite: IST 101 or IST 102
Designed for students majoring in Computer Information Systems or those with little or no programming background. Python is a widely used interpreted, object-oriented programming language focused on readability and code optimization with a simple, easy to learn syntax. This course is designed for students with basic programming experience in an object-oriented language.  

2 lecture / 2 laboratory hours

### IST 123  Programming in Visual Basic.NET
Prerequisite: IST 109
Overview of Visual Basic.NET language to create event-driven programming applications to be run in a Windows environment. Develops object-oriented solutions for a variety of problems in personal and business computing.  

2 lecture / 2 laboratory hours

### IST 140  The Internet and Computer Technology
Prerequisite: computer literacy
Introduction to Internet technology and the use of the World Wide Web as a tool. Topics include Internet and web history, client-server networks, web browsers, search engines and queries, multimedia, electronic commerce, social networking utilities, electronic mail, and computer security. Students design a web page using HTML.  

2 lecture / 2 laboratory hours
IST 144 Website Development
4 credits
Introduces website development skills. Thorough examination of Hypertext Markup Language (HTML) includes navigations, tables, Cascading Style Sheets (CSS), images, audios, videos, and forms. Students learn the latest web design and development technologies including HTML5, CSS3, JavaScript, and jQuery.
3 lecture / 2 laboratory hours

IST 208 Android Application Development
4 credits
Prerequisite: COS 102 or equivalent
Teaches how to develop applications for Android devices using Java programming language along with the Android SDK. Students learn how to apply Java and object-oriented technology to mobile application development. Doing real projects within the Eclipse integrated development environment further advances practical programming knowledge and skills. 3 lecture / 2 laboratory hours

IST 209 Project Management Concepts
3 credits
Cultivates strategies to orchestrate carefully designed action plans to complete projects successfully, often incorporating complex, dynamic and changing requirements. Explores the management of technology, people, and change to achieve goals, reach targets, and deliver the project on time and within budget.
2 lecture / 2 laboratory hours

IST 218 iOS Application Development
4 credits
Prerequisite: COS 102 or equivalent
Introduces the tools and skills needed to create apps for iPhone and iPad. Students learn the Swift programming language and use it with Xcode to create apps on the iOS platform. The course uses Apple’s latest “Everyone Can Code” college curriculum with hands-on, real world projects.
3 lecture / 2 laboratory hours

IST 222 PL/SQL Programming
3 credits
Prerequisites: IST 109, IST 262
Incorporates programming, problem solving, programming logic, and design techniques. Students acquire advanced programming skills such as accessing and updating data in a relational database and developing applications using PL/SQL. 2 lecture / 2 laboratory hours

IST 244 Web Application Development
4 credits
Prerequisites: IST 108, IST 109, IST 144; or COS 101, COS 102; or DMA 145 or equivalent
Introduction to server-side programming and database integration contributes to the creation of dynamic and interactive web applications. Primary programming languages and technologies covered include ASP.NET, C#, SQL Server, and MVC (Models, Views and Controllers) programming model. 3 lecture / 2 laboratory hours

IST 250 Decision Support Using MS Excel
4 credits
Prerequisites: IST 102, IST 109, IST 123
Techniques for building complete Excel-based decision support systems in a highly accessible manner. Topics include referencing and names, functions and formulas, charts, pivot tables, macros, programming structures, building user interfaces, and VBA for optimization and simulation. The extended functionality topics include statistical analysis, the Solver and modeling, simulation, and working with large datasets.
3 lecture / 2 laboratory hours

IST 251 Management of Computer Technology
3 credits
Prerequisite: completion of 30 credits toward Information Systems or Information Technology degree program
Explores solutions to the challenges facing a typical computer technology manager, including project life-cycles, security, access, end-user computing, project planning, scheduling, staffing, employee development, and external threats to private computers. 2 lecture / 2 laboratory hours

IST 253 Database Concepts
3 credits
Prerequisite: IST 102 or IST 109
Covers relational database technology and how to apply it in solving basic and advanced database problems and cases. Provides the foundation for the advanced study of individual database management systems, electronic commerce, and enterprise computing. 2 lecture / 2 laboratory hours
IST 256  Systems Analysis  3 credits
An introduction to systems analysis and design, including analyzing the business case, requirements modeling, and development strategies. Additionally covers output and user interface design, data design, systems architecture and implementation, and systems operation, support, and security. 2 lecture / 2 laboratory hours

IST 259  Project Management  4 credits
How to select, initiate, operate, and control all types of projects, including how to manage risks and uncertainties. Equip students with the quantitative skills, knowledge of organizational issues, and insights into human behavior that are needed for effective project management. 3 lecture / 2 laboratory hours

IST 260  SQL Server Database Design  4 credits
Covers user-defined functions and constraints, database methodologies including OLAP (Online Analytical Processing) and OLTP (Online Transaction Processing) issues, and SQL Server. Additionally covers the relational database model, normalization issues, and ensuring data integrity through the use of views, triggers, and stored procedures. 3 lecture / 2 laboratory hours

IST 261  SQL Server System Administration  4 credits
Prerequisite: IST 260
Covers the concepts and skills required for support of SQL Server and Microsoft Certified Database Administration (MCDBA) certification: backing up and restoring databases, setting up and managing users, managing database security, managing the replication environment, tuning the database system, and troubleshooting any problems that arise. 3 lecture / 2 laboratory hours

IST 262  Oracle SQL  4 credits
Prerequisite: IST 109
Introduces Oracle services, including writing SQL statements, creating databases, manipulating data and tables, working with log files, and performing general database administration. Assists students with preparing for series of examinations leading to the Oracle Certified Associate (OCA) Certificate. 3 lecture / 2 laboratory hours

IST 263  Database Administration I  4 credits
Prerequisite: IST 262
Addresses Oracle Database software installation along with new database creation and administration. Students configure the database to support an application, create users, define storage structures, set up security, design a backup and recovery strategy, and monitor the database to ensure its smooth operation. 3 lecture / 2 laboratory hours

IST 264  Database Administration II  4 credits
Prerequisite: IST 263
Combines training, experience, and testing to ensure a strong foundation and expertise in the industry's most advanced database management system. Focus includes an Oracle database configuration for multilingual applications, the Oracle Recovery Management and Flashback technology, and database performance monitoring tools. 3 lecture / 2 laboratory hours

IST 265  Database Cloud Computing Concept  3 credits
Prerequisites: IST 109, IST 253
Corequisite: IST 262
Teaches database deployment using cloud platforms to program and administer databases in a variety of cloud computing scenarios while managing the platform for scalability, troubleshooting performance issues, and implementing strong security. 2 lecture / 2 laboratory hours

IST 298  Information Systems Cooperative Education  2 credits
Prerequisite: final course for degree in Information Technology
Integration of classroom study with specific planned period of learning through job experience. Based on individualized learning contract. 180 work experience hours
Note: Students who have taken two or more years of a foreign language, and have done so in the last two years, should begin that language at the 200 level or switch to a new language. If there is doubt, placement will be determined by testing or consultation with the academic division.

**ITA — ITALIAN**

**Humanities**

**ITA 101  Beginning Italian I**  3 credits
The first in a sequence of courses designed for students with little or no prior knowledge of Italian. Spoken communication in Italian is both the end goal and the means of instruction. Emphasizes the four communicative skills in a culturally authentic context. Reading and writing are assigned out of class to facilitate effective listening and speaking practice in class. Basic grammar skills are also introduced.

*3 lecture hours*

**Humanities**

**ITA 102  Beginning Italian II**  3 credits
Prerequisite: ITA 101 with a minimum C grade or permission of instructor
The second in a sequence of courses designed for students with little or no prior knowledge of Italian. Spoken communication in Italian is both the end goal and the means of instruction. Emphasizes the four communicative skills in a culturally authentic context. Reading and writing are assigned out of class to facilitate effective listening and speaking practice in class. Basic grammar skills are also introduced.

*3 lecture hours*

**Humanities**

**ITA 201  Intermediate Italian I**  3 credits
Prerequisite: ITA 102 with a minimum C grade or permission of instructor
The first in a sequence of courses designed for students with a mid to high novice level of competency in Italian. Spoken communication in Italian continues to be the end goal and the means of instruction. The four communicative skills of reading, writing, listening and speaking are applied to discussions and debates involving Italian culture, politics, and history. Fundamental grammar points are reviewed.

*3 lecture hours*

**Humanities**

**ITA 202  Intermediate Italian II**  3 credits
Prerequisite: ITA 201 with a minimum C grade or permission of instructor
The second in a sequence of courses designed for students with a mid to high novice level of competency in Italian. Spoken communication in Italian continues to be the end goal and the means of instruction. The four communicative skills of reading, writing, listening and speaking are applied to discussions and debates involving Italian culture, politics, and history. Fundamental grammar points are reviewed.

*3 lecture hours*

**JPN — JAPANESE**

Note: Students who have taken two or more years of a foreign language, and have done so in the last two years, should begin that language at the 200 level or switch to a new language. If there is doubt, placement will be determined by testing or consultation with the academic division.

**Humanities**

**JPN 101  Beginning Japanese I**  3 credits
The first in a sequence of courses designed for students with little or no prior knowledge of Japanese. Spoken communication in Japanese is both the end goal and the means of instruction. Emphasizes the four communicative skills in a culturally authentic context. Reading and writing are assigned out of class to facilitate effective listening and speaking practice in class. Basic grammar skills are also introduced.

*3 lecture hours*
Humanities

**JPN 102  Beginning Japanese II**

3 credits

*Prerequisite: JPN 101 with a minimum C grade or permission of instructor*

The second in a sequence of courses designed for students with little or no prior knowledge of Japanese. Spoken communication in Japanese is both the end goal and the means of instruction. Emphasizes the four communicative skills in a culturally authentic context. Reading and writing are assigned out of class to facilitate effective listening and speaking practice in class. Basic grammar skills are also introduced.  

3 lecture hours

---

**LAS — LIBERAL ARTS STUDIES**

**LAS 101  Introduction to Liberal Arts Studies**

1 credit

Introduction to reading and inquiry in the social sciences and humanities. By exploring a common book-length reading, students build interdisciplinary knowledge and skill in critical reading and response, including discussion, interpretation, and writing. For first-year Liberal Arts majors needing one credit for full-time status; often paired with CSW 100. 1 lecture hour

**LAS 201  Liberal Arts Special Topics**

1 credit

Investigation of a specialized liberal arts topic chosen by individual instructors, allowing students to delve into a focused interest. Recommended for second-year students who need one credit and wish to engage in close study. Upcoming topics available in the Liberal Arts Division office each semester before class registration begins. 1 lecture hour

**LAS 225  Liberal Arts Studies Internship**

1 credit

*Prerequisites: 3.0 GPA, permission of internship advisor*

Liberal Arts program students in their last 30 credits gain practical experience in an approved social science or humanities-related setting outside of the college, guided by a faculty internship advisor. Interns demonstrate their ability to apply liberal arts concepts and objectives via employer evaluation, written self-evaluation, and discussion with advisor. 60 hours including supervised internship, independent work, and advisor meetings

---

**LAT — LATIN**

**Note:** Students who have taken two or more years of a foreign language, and have done so in the last two years, should begin that language at the 200 level or switch to a new language. If there is doubt, placement will be determined by testing or consultation with the academic division.

---

**Humanities**

**LAT 101  Beginning Latin I**

3 credits

The first in a sequence of courses designed for students with little or no prior knowledge of Latin. Reading comprehension of literary and scholarly texts in Latin being the end goal, emphasizes the communicative skills of reading and writing based on culturally authentic texts. Grammar is thoroughly introduced and analyzed. Some spoken communication in Latin is practiced. 3 lecture hours

**Humanities**

**LAT 102  Beginning Latin II**

3 credits

*Prerequisite: LAT 101 with a minimum C grade or permission of instructor*

The second in a sequence of courses designed for students with little or no prior knowledge of Latin. Reading comprehension of literary and scholarly texts in Latin being the end goal, emphasizes the communicative skills of reading and writing based on culturally authentic texts. Grammar is thoroughly introduced and analyzed. Some spoken communication in Latin is practiced. 3 lecture hours
LAT 201  Intermediate Latin I  3 credits
Prerequisite: LAT 102 with a minimum C grade or permission of instructor
Designed for students with a mid to high novice level of reading competency in classical Latin. Reading comprehension of literary and scholarly texts in Latin continues to be the end goal. With Latin being the language of instruction for at least half of class time, some conversation is practiced. 3 lecture hours

LEG — LEGAL STUDIES

LEG 129  Role of the Paralegal  3 credits
Study of the relationship among paralegals, attorneys, and clients particularly as it relates to law office economics, legal ethics, and confidentiality. Stages in a civil lawsuit and a criminal prosecution are examined; legal interviewing, investigation, and an orientation to legal research are stressed. 3 lecture hours

LEG 130  Civil Litigation I  3 credits
Study of the law of torts designed to acquaint the paralegal with the various forms of tort actions encountered in the law office. 3 lecture hours

LEG 132  Civil Litigation II  3 credits
Prerequisite: ENG 101 with a minimum C grade
Overview of the litigation process covering the pleadings of cases from initial complaint through ultimate judgment, with emphasis on tasks performed by paralegals. Addresses medical terminology and rules of evidence. 3 lecture hours

LEG 133  Legal Research and Writing  3 credits
Prerequisite: ENG 101
Study of basic skills often required in the general practice of law. Utilizing computer-assisted legal research, includes an introduction to several common kinds of legal writing with an emphasis on that which the paralegal encounters on a day-to-day basis in a law office. 3 lecture hours

LEG 143  Family Law  3 credits
Survey of procedures and pleadings in domestic relations including the preparation of divorce complaints, answers, counterclaims, motions, disclosure statements, and property settlement agreements. Includes issues of custody, visitation rights, child support and maintenance, adoptions and name changes. [Spring offering] 3 lecture hours

LEG 208  Wills and Probate  3 credits
Survey of basic wills and basic probate practice, including interviewing for and preparation of a will, procedures involved in probate, New Jersey state inheritance tax, and federal estate tax. [Fall offering] 3 lecture hours

LEG 232  Civil Litigation III  3 credits
Prerequisite: LEG 132 with a minimum C grade
Advanced litigation course stressing the preparation of a wide range of pleadings involved in a civil lawsuit. One-third of class time involves extensive practical litigation exercises and applications in a lab setting. 2 lecture / 2 laboratory hours

LEG 255  Legal Ethics  3 credits
Prerequisite: LEG 129
A legal technology enhanced capstone course with a focus on advanced legal research and writing. Covers legal ethics rules on professionalism, UPL, confidentiality, client funds, solicitation of cases, competence, and case conflicts. Applying CIRAC/IRAC analysis principles, students research the law and Model Rules and prepare an analysis of legal ethics issues. 3 lecture hours

LEG 256  Career Development for Law and Justice Professionals  1 credit
Students prepare essential documents for the job market correlating to their major (Criminal Justice A.S. degree or Paralegal Studies A.A.S.) including resumes, cover letters, and professional emails. Students learn networking skills, job search strategies, and interviewing techniques. 1 lecture hour
LEG 257  Law Office Management and Technology  3 credits
Prerequisite: LEG 129
Focus on the role of the law office manager and their ethical, administrative, and practical responsibilities. Exploration of various applications for legal technology in the law office. 3 lecture hours

LIB — LIBRARY TECHNOLOGY

LIB 101  The Library / Media Center: an Introduction  3 credits
Corequisite: ENG 101
Explores the range of materials and services available in libraries for lifelong learning along with the operation and organization of libraries and information centers. Provides practical experience in using basic resources and new technologies. 3 lecture hours

LIB 103  Introduction to Academic Research  1 credit
Prerequisite: eligibility for placement in ENG 101
Basic principles of scholarly research and inquiry. Focuses on information literacy skills needed for developing effective search processes and critical evaluation of academic resources, plus the ethical use of information. Students are introduced to multi-disciplinary resources including periodical databases, books, e-books, multimedia, reference sources, and web-based information. 1 lecture / 1 laboratory hours

MAT — MATHEMATICS

Note: Students should check mathematics course recommendations with the college or university to which they intend to transfer. The receiving institution always makes the final decision concerning transferability of credits. Information about mathematics course equivalencies among New Jersey institutions is available at www.njtransfer.org

Initial selection of a mathematics course is determined by results of college skills placement testing. Students who have completed math courses at another college must present transcripts and course outlines or syllabi. Consult mathematics faculty for advice.

Applicability of credits for courses below the 100 level toward degree requirements is limited. Consult an academic advisor. All prerequisite courses must be passed with a minimum C grade before enrolling in any subsequent mathematics course.

MAT 033  Pre-Algebra  4 credits
Developmental mathematics course designed for students needing a review of basic arithmetic, including an introduction to algebra. Topics include operations with whole numbers, decimals, fractions, percents, ratio and proportion, signed numbers, and an introduction to algebraic equations. [Foundation course does not fulfill mathematics elective requirement; only offered by special request at off-campus locations.] 4 lecture hours

MAT 037  Beginning Algebra  4 credits
Foundation mathematics course designed for students with experience in algebra but who need to strengthen their mastery of the fundamentals. Topics include exponents, polynomials, factoring, graphing first-degree equations, quadratic equations, rational expressions, and radical expressions. [Foundation course does not fulfill mathematics elective requirement.] 4 lecture hours

MAT 038  Intermediate Algebra for STEM  4 credits
Prerequisite: MAT 037 or MAT 042 with a minimum C grade or placement by Mathematics department
Developmental mathematics course designed for students needing an introduction to intermediate algebra. Topics include graphing linear equations in two variables, systems of two linear equations, rational expressions and equations, radicals and rational exponents, and linear and quadratic functions. Those who complete this course with a grade of C or better may register for MAT 146. [Foundation course does not fulfill mathematics elective requirement.] 4 lecture hours
MAT 042  Foundation Math for Non-STEM  3 credits  
*Prerequisite:* MAT 041 with a minimum C grade or appropriate placement test score  
Foundation mathematics course designed for students with experience in algebra but who need to strengthen their mastery of the fundamentals. Topics include linear equations, linear inequalities, absolute value equations, absolute value inequalities, exponents, polynomials, factoring, and quadratic equations. Those who complete this course may register for MAT 115, MAT 120, or MAT 125. [Foundation course does not fulfill mathematics elective requirement.]

6 laboratory hours

MAT 044  Foundation Math for STEM  3 credits  
*Prerequisite:* MAT 037 or MAT 042 with a minimum C grade  
Developmental mathematics course designed for students needing an introduction to intermediate algebra. Topics include graphing linear equations in two variables, systems of two linear equations, rational expressions and equations, radicals and rational exponents, and linear and quadratic functions. Those who complete this course with a grade of C or better may register for MAT 146. [Foundation course does not fulfill mathematics elective requirement.]

6 laboratory hours

</tr>
<tr>
<td>An applied statistics course for the social sciences, nursing, etc. Topics include sampling procedures, descriptive statistics, regression and correlation, discrete, binomial and normal probability distributions, confidence intervals and hypothesis tests for one mean, two means, one proportion, and two proportions, one-way and two-way ANOVAs, goodness-of-fit tests and tests of independence. Uses Minitab statistical software.</td>
<td>3 lecture hours</td>
<td></td>
</tr>
</tbody>
</table>
### Mathematics

**MAT 201** Probability and Statistics for Science and Engineering 4 credits

*Prerequisite: MAT 151 or MAT 149 with a minimum C grade*

Calculus-based course designed for engineers, computer scientists and science majors with emphasis on applications of statistical techniques to the analysis of data. Topics include descriptive statistics; probability theory; probability distributions including binomial, Poisson, uniform, exponential, normal, chi square; one and two variable mean and proportion data analysis, simple regression and correlation and analysis of variance. Requires use of Minitab statistics software. 4 lecture hours

**MAT 208** Linear Algebra 4 credits

*Prerequisite: MAT 151 with a minimum C grade and consultation with Mathematics faculty member*

An introduction to linear algebra topics including linear equations and matrices, determinants, independence and basis, vector spaces and subspaces, the four fundamental subspaces, orthogonality, linear transformations and eigenvalues and eigenvectors. Applications of linear algebra are included. 4 lecture hours

**MAT 251** Calculus III 4 credits

*Prerequisite: MAT 152 with a minimum C grade and consultation with Mathematics faculty member*

Continuation of MAT 152. Includes parametric equations, vectors, solid analytic geometry, partial derivatives, multiple integrals, and topics in vector calculus including Green's theorem and Stoke's theorem. 4 lecture hours

**MAT 252** Differential Equations 4 credits

*Prerequisite: MAT 152 with a minimum C grade and consultation with Mathematics faculty member*

Topics include solutions of ordinary differential equations, solving linear differential equations of higher order using differential operators, methods of undetermined coefficients and variation of parameters. Strong emphasis on solving differential equations using the Laplace transform, Cauchy-Euler equation, infinite series, and matrix methods. Applications to geometry and physical science are discussed. 4 lecture hours

### MKT — MARKETING

**MKT 101** Principles of Marketing 3 credits

*Prerequisite: ENG 101 with a minimum C grade*

A study of the process of planning and executing the conception, pricing, promotion, and distribution of ideas, goods, and services that satisfy individual and organizational objectives. 3 lecture hours

**MKT 106** Introduction to Sports Marketing 3 credits

*Prerequisite: ENG 101 with a minimum C grade*

Exploration of the comprehensive nature of sports marketing from a strategic marketing perspective. Examination of basic and detailed concepts covers such areas as sponsorships, branding, promotions, public relations, licensing, and consumer research and behavior, including their effects on professional, intercollegiate and other areas of sport. 3 lecture hours

**MKT 230** Principles of Retailing 3 credits

*Prerequisite: MKT 101*

Introduction to the field of retailing. Issues include establishment of a store, store location, layout, organization and planning, buying, merchandising, promotion, credit, control and personnel. 3 lecture hours

2022-2023 ACADEMIC YEAR Mercer County Community College CATALOG page 69 of 95
### MLT 215  Clinical Practice  10 credits
*Prerequisites:* MLT 112, MLT 200, MLT 207, MLT 212, MLT 214, or permission of program coordinator
Clinical practice at an affiliated facility under the direction and supervision of laboratory educators. Students conduct routine analytical procedures, develop laboratory skills, apply knowledge of testing principles, and demonstrate acquired laboratory competencies. Includes presentation of a laboratory case study correlating test results with clinical condition. 560 clinical hours

### MOA — MEDICAL OFFICE ASSISTANT

<table>

### MUS — MUSIC

**Appreciation and History**

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
<th>Prerequisites</th>
</tr>
</thead>
<tbody>
<tr>
<td>MUS 103</td>
<td>Introduction to Music</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Enhances the student's knowledge and enjoyment of a variety of music styles and historical contexts through listening and discussion. Requires attendance at live concerts. No prior musical training necessary.</td>
<td></td>
<td>3 lecture hours</td>
</tr>
<tr>
<td>MUS 155</td>
<td>History of Jazz and Blues</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Study of the evolution of jazz and blues from their origins in West African music and dance to their development as major 20th century art forms. Examines the significant stylistic phases of jazz from early blues and ragtime through swing and be-bop to avant garde and fusion. Also explores the impact of the African American tradition on contemporary rock and pop music.</td>
<td></td>
<td>3 lecture hours</td>
</tr>
<tr>
<td>MUS 156</td>
<td>History of American Pop Music</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Analytical and historical survey of American popular music with an emphasis on the period from 1950 to the present. Students develop an understanding of the cultural, social, technological, and musical forces shaping each decade covered. Students apply critical analysis to musical styles, instrumentation, and song structure in addition to issues of race, ethnicity, social class, and gender as formative factors influencing its evolution.</td>
<td></td>
<td>3 lecture hours</td>
</tr>
<tr>
<td>MUS 224</td>
<td>Music History and Literature I – Antiquity Through Baroque</td>
<td>3</td>
<td>MUS 103 and MUS 105 or equivalent experience</td>
</tr>
<tr>
<td></td>
<td>Study of the evolution of Western European music from its ideological and practical origins in ancient Greece and Rome through the Medieval, Renaissance, and Baroque periods, in the context of sociohistorical forces and events affecting its development. Basic music theory background desirable.</td>
<td></td>
<td>3 lecture hours</td>
</tr>
</tbody>
</table>
MUS 225  Music History and Literature II – Baroque Through Modern  
3 credits
Prerequisite: MUS 224
Continued study of the evolution of Western European music from the classical period, with its roots in the Enlightenment and culmination in Romanticism, through its variegated manifestations in the 20th century. Basic music theory background desirable. 3 lecture hours

Music Theory

MUS 105  Fundamentals of Music Theory  
3 credits
Offers the student with no prior musical training an introduction to the basics of music theory. Topics include notation of pitch and rhythm, scale structure, key signatures in major and minor keys, plus chord construction and voice leading. [Fall offering] 2 lecture / 2 laboratory hours

MUS 127  Music Theory I  
3 credits
Prerequisite: MUS 105 or permission of department
Corequisite: MUS 167
Topics include more advanced chord construction, figured bass, harmonic analysis, the principles and procedures of four-part writing emphasizing the primary triads and their inversions, as well as non-harmonic tones. Reinforced through ear training and sight singing. [Spring offering] 2 lecture / 2 laboratory hours

MUS 128  Music Theory II  
3 credits
Prerequisite: MUS 127
Corequisite: MUS 168
Completion of the diatonic system. Harmonic principles and procedures introduced in MUS 127 are expanded to include application to the supertonic, leading tone, mediant and submediant harmonies in both triad and seventh chord form. Introduces more advanced part-writing, as well as harmonic and structural analysis of 18th and 19th century repertoire. Reinforced through aural skills training and keyboard harmony. [Fall offering] 2 lecture / 2 laboratory hours

MUS 167  Musicianship I  
1 credit
Corequisite: MUS 127
Progressive exercises in sight singing, ear training in the form of melodic, rhythmic and harmonic dictation, as well as the practice of keyboard harmony. Emphasis on diatonic materials and the primary triads. Coordinated with conceptual materials presented in MUS 127. 2 laboratory hours

MUS 168  Musicianship II  
1 credit
Prerequisites: MUS 127, MUS 167
Corequisite: MUS 128
Continuation of studies begun in MUS 167 with more advanced exercises in sight singing, ear training and keyboard harmony as well as expanded use of the diatonic system including all diatonic triads. Coordinated with conceptual materials presented in MUS 128. 2 laboratory hours

MUS 227  Music Theory III  
3 credits
Prerequisite: MUS 128
Corequisite: MUS 267
Study of chromatic harmony especially as used in modulation. Students recognize and compose harmonic progressions involving secondary dominants, diminished seventh chords, as well as altered and borrowed chords, correlated with exercises in ear training, sight-singing, and keyboard harmony. Also includes harmonic and formal analysis of 18th and 19th century repertoire. [Spring offering] 2 lecture / 2 laboratory hours

MUS 267  Musicianship III  
1 credit
Prerequisites: MUS 128, MUS 168
Corequisite: MUS 227
Further studies in sight singing, ear training, and keyboard harmony building upon skills acquired in MUS 167 and MUS 168. Introduces chromatic materials including modulation to the dominant and to the relative major and minor. Coordinated with conceptual materials presented in MUS 227. 2 laboratory hours
### Piano Class

</tr>
<tr>
<td>MUS 152</td>
<td>Jazz Improvisation II</td>
<td>2 credits</td>
</tr>
</tbody>
</table>

Prerequisites: MUS 120 with a minimum C grade

Introductory-level course emphasizing use of the Mixolydian mode and the blues scale as applied to the dominant 7th family chords. Explores the twelve-bar blues and related forms as vehicles for improvisation with an emphasis on swing and funk rhythms. *1 lecture / 2 laboratory hours*

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MUS 223</td>
<td>Jazz Keyboard Harmony and Improvisation</td>
<td>1 credit</td>
</tr>
</tbody>
</table>

Prerequisite: MUS 221

Introductory course presenting the fundamentals of jazz harmony, chord progressions, scales, and tools for improvisation at the keyboard. *2 laboratory hours*

### Music Production and Business

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MUS 123</td>
<td>Music Business</td>
<td>3 credits</td>
</tr>
</tbody>
</table>

Overview of the music industry including copyright law, publishing, contracts, management, licensing, and merchandising. Students gain an overall understanding of the people, technologies, and laws that affect all aspects of the music business, culminating in a discussion of career opportunities. *3 lecture hours*

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MUS 235</td>
<td>Music Composition in the Virtual Studio</td>
<td>3 credits</td>
</tr>
</tbody>
</table>

Prerequisites: CMN 253, MUS 127

Strategies for writing, recording, and producing music in the context of an integrated MIDI/digital audio production environment. Topics include MIDI data entry, recording live sound sources, editing, plug-ins, mixing, mastering, digital music production, and generating .wav and .mp3 files. Assignments include creative projects and listening/discussion of relevant “popular” and “art” music. *2 lecture / 2 laboratory hours*
**Advanced Studies**

**MUS 285**  Special Studies in Instrumental Music  3 credits

**MUS 286**  Special Studies in Choral/Vocal Music  3 credits

*Prerequisites: MUS 128 and MUS 204 and/or permission of music faculty*

Opportunity for students who have completed regular course offerings to continue their studies at advanced levels. Individual students and faculty develop a project contract that sets forth objectives, standards of quality, evaluation guidelines, and deadlines. [occasional offering] 3 lecture hours

---

**NET — NETWORKING TECHNOLOGY**

*Note: Students should consult their academic advisor and the college or university to which they intend to transfer regarding networking technology course requirements. The receiving institution always makes the final decision concerning transferability of credits.*

**NET 102**  Introduction to PC Hardware and Software  3 credits

Students learn to install, configure, diagnose, and troubleshoot microcomputer hardware components and various operating systems. Includes an introduction to local area networks, the identification and installation of memory, preventative maintenance, plus coverage of terminology and concepts that will assist students preparing for the A+ Certification exams. 2 lecture / 3 laboratory hours

**NET 103**  IT Essentials  3 credits

*Prerequisite: basic computer literacy*

A continuation of NET 102. Students learn advanced concepts regarding the installation, configuration, diagnosis, and troubleshooting of microcomputer hardware components and operating systems. Includes coverage of terminology and concepts that will assist students preparing for the Server+ Certification exam. 2 lecture / 3 laboratory hours

**NET 104**  Fundamentals of Computer Networks  3 credits

*Prerequisite: basic computer literacy*

Fundamentals of data communications theory, network management, connectivity, the OSI model, and internetworking protocols and standards. Covers topologies, architectures, operating systems, security, LAN/WAN components, modern implementation, LAN troubleshooting and support resources, fault tolerance, network adapters, and client-server environments. Assists students preparing for the Network+ Certification exam. 2 lecture / 2 laboratory hours

**NET 120**  Windows Desktop Operating System Administration  3 credits

*Prerequisite: basic computer literacy*

Students learn to install the Windows desktop OS; create users/groups; administer file/print resources; manage hardware; optimize performance and reliability; configure desktops using control panel, registry, system policies; and configure network protocols and services. Covers resource auditing, data storage management, network monitoring, and security, plus introduction to DNS and Active Directory. Hands-on exercises reinforce Microsoft certification exam objectives. 2 lecture / 2 laboratory hours

**NET 122**  Windows Server Operating System Administration  3 credits

*Prerequisites: NET 102 or A+ Certification; NET 120 or permission of program coordinator*

Students learn to install and configure the Windows server network OS, including overall administration, advanced file system concerns, and active directory services. Covers routing, remote access, network security, fault tolerance, and server and network resource optimization. Introduces application servers and troubleshooting in a network environment. Hands-on exercises reinforce Microsoft certification exam objectives. 2 lecture / 2 laboratory hours

**NET 124**  Network Infrastructure Administration  3 credits

*Prerequisite: NET 122*

Windows-based focus includes implementing TCP/IP for cross-platform and Internet connectivity, WINS and DNS to resolve hosts on local and remote networks, DHCP to manage address configuration, RAS including dial-up connectivity and virtual private networks, and Internet connection sharing with NAT. Covers securing network communications with certificates, IP security, authentication, and encryption. Hands-on exercises reinforce Microsoft certification exam objectives. 2 lecture / 2 laboratory hours
**NET 126** Network Directory Services Administration 3 credits
*Prerequisite: NET 122*
Students plan, configure, and administer a directory services infrastructure. Includes DNS configuration, administering user environments with group policy, remote OS deployment using RIS, and centrally managing users, groups, shared folders, and network resources. Covers implementing and troubleshooting security as well as monitoring and optimizing directory services performance. Hands-on exercises reinforce Microsoft certification exam objectives. *2 lecture / 2 laboratory hours*

**NET 130** Routing and Switching Essentials 3 credits
*Prerequisite: NET 104 or Network+ Certification*
Study of the concepts and commands required to configure switches and routers in multiprotocol internetworks. Identifies solutions for small to medium-sized businesses, with procedures to configure multirouter, multigroup internetworks using LAN/WAN interfaces for common routed protocols. Also covers installation, configuration, and troubleshooting essentials required by technicians to install and maintain these devices. Hands-on exercises reinforce Cisco certification exam objectives. *2 lecture / 2 laboratory hours*

**NET 212** Linux 3 credits
*Prerequisites: NET 102 or A+ Certification; NET 104 or Network+ Certification*
Study of current hardware and software components of two operating system environments: Linux and AS/400. Major concentration is on Linux with an introduction to AS/400. Hands-on lab projects reinforce selected Linux lecture topics. *2 lecture / 2 laboratory hours*

**NET 230** Scaling Networks 3 credits
*Prerequisite: NET 130*
Study of the concepts and commands required to use routing and switching technologies together, including recommended campus network design methodologies. Topics include Layer 2 switching technologies including Spanning Tree, VLAN, frame tagging, and protocols; and Layer 3 routing services including inter-VLAN routing, multilayer switching, Hot Standby Routing Protocol (HSRP), and IP multicast. Hands-on exercises reinforce Cisco certification exam objectives. *2 lecture / 2 laboratory hours*

**NET 239** Connecting Networks 3 credits
*Prerequisite: NET 130*
Covers the technology and terminology required to use routing and switching technologies together in a wide area network (WAN) infrastructure, including advanced IP addressing techniques, NAT, PAT, DHCP, PPP, ISDN, DDR, frame relay, and an introduction to optical networking. Hands-on exercises reinforce Cisco certification exam objectives. *2 lecture / 2 laboratory hours*

**NET 240** Network Security 3 credits
*Prerequisite or Corequisite: NET 130; NET 244 recommended*
Explores security design considerations for enterprise networks through the evaluation of existing and planned technical environments, including identifying security risks and defining security baselines. Topics include controlling resource access using various security techniques. Hands-on exercises reinforce certification exam objectives. *2 lecture / 2 laboratory hours*

**NET 242** Directory Services Infrastructure Design 3 credits
*Prerequisites: NET 124, NET 126*
Analyzes requirements related to the design of a directory services infrastructure, including connectivity and access, security, performance, and end user support. Topics include assessment of the impact on existing systems and processes, creating a forest model and schema modification plan, and defining and naming domains. Hands-on exercises reinforce Microsoft certification exam objectives. *2 lecture / 2 laboratory hours*

**NET 244** Network Defense and Countermeasures 3 credits
*Prerequisite: NET 104 or Network+ Certification*
Examines current risks and threats combined with structured safeguarding of an organization’s critical electronic assets. Provides a foundation for those new to information security as well as those responsible for protecting network services, devices, traffic, and data. Broad-based, in-depth coverage prepares students for further study in other specialized security fields. Hands-on activities reinforce certification exam objectives. *2 lecture / 2 laboratory hours*
NET 245   Ethical Hacking  
Prerequisites: NET 102, NET 104  
Combines an ethical hacking methodology with the hands-on application of security tools to better help students secure their systems. Students are introduced to common countermeasures that effectively reduce and/or mitigate attacks, including penetration testing, reconnaissance/open source intelligence gathering, scanning, enumeration, exploitation, and post-exploitation. Hands-on activities reinforce certification exam objectives. 2 lecture / 2 laboratory hours  

NET 256   Cloud Foundations  
Prerequisite: IST 101 or IST 102  
Introduces students to cloud computing foundations, including a detailed overview of cloud concepts, AWS core services, security, architecture, pricing, and support. Designed for students majoring in Computer Information Systems or obtaining a Network Engineering Technology certificate. 2 lecture / 2 laboratory hours  

NRS 111   Clinical Reasoning in Nursing Practice  
Prerequisite: formal admission into the Nursing program or current NJ Licensed Practical Nurse (LPN) license  
Corequisite: NRS 112 or current LPN license  
Introduces the skill of clinical reasoning as it applies to nursing practice and clinical decision-making. Clinical reasoning builds on the skills of critical thinking to move the student to engaged, practical reasoning that complements the scientific reasoning represented in the nursing process. This course introduces critical thinking skills and strategies and forms the basis for the clinical reasoning processes applied throughout all nursing courses. 1 lecture hour  

NRS 112   Concepts of Nursing Practice I  
Prerequisite: formal admission into the Nursing program  
Corequisite: NRS 111  
Introduces the student to the fundamental concepts of nursing practice and the application of the concepts with a focus on wellness and health promotion across the lifespan. The application of knowledge and skills occurs in the nursing laboratories and a variety of clinical settings. 3 lecture / 3 college laboratory / 6 clinical hours  

NRS 125   Concepts of Nursing Practice II  
Prerequisites: BIO 104 with a minimum C+ grade, NRS 111, NRS 112  
Builds on the first semester courses to further refine the concepts of nursing practice with application to the care of diverse clients with uncomplicated acute and chronic conditions across the lifespan. Application of knowledge and skills occurs in the nursing laboratories and a variety of clinical settings. 3 lecture / 3 college laboratory / 12 clinical hours  

NRS 225   Concepts of Nursing Practice III  
Prerequisites: BIO 201 with a minimum C+ grade, NRS 125  
Builds on the previous nursing courses to further refine and apply the concepts of nursing practice in the care of diverse clients with complicated acute and chronic conditions across the lifespan. Application of knowledge and skills occurs in the nursing laboratories and a variety of clinical settings. 3 lecture / 3 college laboratory / 12 clinical hours  

NRS 235   Concepts of Nursing Practice IV  
Prerequisite: NRS 225  
Builds on all previous nursing courses to further refine and apply the concepts of nursing practice in the care of diverse client populations with acute and chronic complex conditions across the lifespan. Application of knowledge and skills occurs in the nursing laboratories and a variety of clinical settings. 3 lecture / 3 college laboratory / 12 clinical hours
### NSG — NURSING: COOPERATIVE PROGRAM

All NSG courses are based with and taught at St. Francis Medical Center School of Nursing.

<table>
<thead>

<tr>
<td></td>
<td>Corequisites: BIO 103, PSY 101</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Introduction to concepts and procedures of nursing practice. Fundamental skills are developed and applied within the framework of the nursing process to meet the physiological, social, and psychological needs of clients. Clinical experiences focus on alterations in health of the adult client with acute and chronic medical-surgical conditions.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>4 lecture / 120 clinical hours</td>
<td></td>
</tr>
<tr>
<td>NSG 133</td>
<td>Concepts of Nursing III</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Prerequisites: BIO 104, NSG 134, NSG 135, PSY 207</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Assists students in the use of the nursing process when caring for the client experiencing mental health problems. Emphasizes client care during all phases of mental health disorders, from prevention through rehabilitation. Explores concepts of groups. Provides experiences in a variety of mental health settings.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>2 lecture / 60 clinical hours</td>

<tr>
<td></td>
<td>Corequisite: BIO 104 or NSG 134</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Prepares students to use the nursing process in caring for clients experiencing common physiological alterations. Introduces concepts of leadership and management. Builds on previous learning to develop additional skills. Provides clinical experience in a variety of settings.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>4 lecture / 180 clinical hours</td>
<td></td>
</tr>
<tr>
<td>NSG 136</td>
<td>LPN Transition: Nursing Through the Life Span</td>
<td>9</td>
</tr>
<tr>
<td></td>
<td>Prerequisites: BIO 103, BIO 104, ENG 101, PSY 101, PSY 207, NSG 137, NUR 151</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Corequisite: BIO 201</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Designed to assist in the transition from licensed practical nurse to registered nurse. Building on previous learning while introducing new knowledge and skills that pertain to the registered nurse role, prepares for the final two nursing courses in the curriculum. Emphasizes use of the nursing process in meeting the self-care deficits of clients and families through the life span.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>5 lecture / 180 clinical hours</td>
<td></td>
</tr>
<tr>
<td>NSG 137</td>
<td>Physical Assessment</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Prerequisite: formal admission into the Nursing program</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Corequisites: BIO 103, PSY 101</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Provides the knowledge and skills necessary to perform a comprehensive adult health assessment. Through discussion as well as laboratory and individual practice, all body systems are assessed. Emphasizes interviewing, obtaining a complete health history, performing a physical assessment, and systematic documentation of findings.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>2 laboratory hours</td>
<td></td>
</tr>
<tr>
<td>NSG 232</td>
<td>Concepts of Nursing V</td>
<td>9</td>
</tr>
<tr>
<td></td>
<td>Prerequisites: BIO 201, ENG 101, NSG 133, PSY 207</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Develops knowledge and skills to care for clients – individuals and groups – with multiple needs requiring complex interventions. Explores complex client problems, resulting in alteration of homeostatic mechanisms. Expands leadership and management skills. Clinical learning experiences are provided in a variety of settings including critical care areas.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>6 lecture / 180 clinical hours</td>
<td></td>

</table>
**NUR — NURSING**

**NUR 151  Pharmacology in Nursing**  
3 credits  
*Prerequisite: Nursing program first year completion, or permission of instructor*  
Theoretical approach to pharmacology, expanding basic concepts of drug knowledge required to administer medication safely. Emphasizes pharmacology as an integrated science requiring up-to-date information consistent with current nursing responsibilities, technology, and practice. Drug therapies affecting body systems are a major consideration. *3 lecture hours***

**NUR 215  Precepted Clinical Experience**  
2 credits  
*Prerequisites: Nursing program first year completion, and externship acceptance*  
Supervised clinical experience in conjunction with externship at an approved local healthcare facility. Designed to strengthen and broaden the competencies of second-year nursing students and enhance their knowledge of the role of the RN. Participants must be accepted into the facility’s externship program. Includes periodic on-campus seminars. *0.5 seminar hours / 40 clinical days***

**OHT — ORNAMENTAL HORTICULTURE**

**OHT 101  Plant Science**  
3 credits  
Introduction to the field of plant science. Topics include basic botany and plant physiology; plant growth; leaves, roots, fruits, stems, and flowers; cells; plant reproduction; genetics; and the plant kingdoms. [Fall offering] *2 lecture / 2 laboratory hours***

**OHT 102  Ornamental Horticulture**  
3 credits  
Examines plant propagation, plant pests, landscape establishment and maintenance, greenhouse management, principles of landscape design, and fruit and vegetable production. [May be taken independently of OHT 101.] [Spring offering] *2 lecture / 2 laboratory hours***

**OHT 108  Soil and Plant Nutrition**  
4 credits  
*Prerequisite: CHE 100 or equivalent with a minimum C grade or permission of program coordinator*  
Explores the origins, composition, and properties of soils. Addresses physical and chemical properties including ion exchange and pH effects, soil organic matter, soil-water relationships, the nature of and reasons for soil nutrient deficiencies, composition, and the use of fertilizers and other soil adjuvants. Lab work involves representative New Jersey soils to illustrate basic soil behavior. [Spring offering] *3 lecture / 3 laboratory hours***

**OHT 121  Herbaceous Plants**  
3 credits  
*Prerequisite: BIO 101 or OHT 101 with a minimum C grade or permission of program coordinator*  
Study of cultivated, ornamental herbaceous plant species including annuals, perennials, bulbs, herbs, and grasses. Emphasizes identification, use, color, height, and season of bloom. Special topics include planning a herbaceous garden, insect pests, diseases, and propagation. [Fall offering] *2 lecture / 2 laboratory hours***

**OHT 201  Basic Landscaping and Planning I**  
3 credits  
Principles and technology of landscape design. Covers the practical and aesthetic aspects of planning the residential landscape, involving both materials and methods. Emphasizes design and graphics skills. [Fall offering] *2 lecture / 3 laboratory hours***

**OHT 202  Basic Landscaping and Planning II**  
3 credits  
*Prerequisite: OHT 201 with a minimum C grade*  
Continuation of OHT 201. Emphasizes practical projects for residential areas and public common spaces. [Spring offering] *2 lecture / 3 laboratory hours***
OHT 204  Plant Diseases  3 credits
Prerequisite: OHT 101 or permission of program coordinator
Introduction to the history, economic importance, symptoms, causal agents and management of plant diseases. Lab exercises include the isolation, culture, and identification of plant pathogens. [Fall offering]
2 lecture / 2 laboratory hours

OHT 207  Floral Design I  3 credits
Basic principles and elements of design as applied to floral arranging. Emphasizes the primary types of arrangements, flower and greens identification, history of floral design, and an introduction to the floral industry. [Fall offering] 2 lecture / 2 laboratory hours

OHT 212  Landscape Construction  3 credits
Prerequisite: OHT 102 or permission of program coordinator
Introduces students to the implementation and maintenance of landscape projects. Dominant areas of study include bidding and estimating; hardscape installation and maintenance; and advanced landscaping skills and techniques. Advanced skills covered include lighting, drainage, irrigation, planting and pruning.
2 lecture / 2 laboratory hours

OHT 214  Floral Design II  3 credits
Prerequisite: OHT 207 or permission of program coordinator
Emphasis on the commercial rate of production and pricing for corsage, funeral, and bridal work. Includes complete study of floral decorations for formal and informal occasions; advanced color theory and use of textures in designs; creative thinking with designs and containers; and further exploration of the floral industry. [Spring offering] 2 lecture / 2 laboratory hours

OHT 219  Plant Propagation  3 credits
Prerequisite: OHT 101 or permission of program coordinator
Principles and techniques involved in the selection, propagation, and growth of garden flowers, greenhouse crops, woody plants, turfgrass, and plants for interior landscape. [Fall offering] 2 lecture / 2 laboratory hours

OHT 223  Topics in Horticulture: Gardening  1 credit
Explores topics in gardening, including triumphs and pitfalls of growing annuals, perennials, bulbs, fruits, vegetables and woody plants. Involves fieldwork. [Summer offering] 2 laboratory hours

OHT 224  Topics in Horticulture: Landscaping  1 credit
Prerequisite: OHT 201
Application of computer programs to enhance design presentation skills. [Occasional offering] 2 laboratory hours

OHT 226  Interior Landscape Design  3 credits
Prerequisite: OHT 101 or OHT 102 or permission of program coordinator
Emphasizes the key ornamental aspects, cultural requirements, and uses of each species covered. Specific topics include indoor landscaping, propagation, terrariums, and environmental requirements. Involves both taxonomic and common nomenclature. [Spring offering] 2 lecture / 2 laboratory hours

OHT 231  Turfgrass Management I  3 credits
Prerequisite: OHT 101 or OHT 102 or permission of program coordinator
How to establish and maintain turfgrass for residential and commercial applications. Includes identification and use of cultivars, seeding and sodding, insects and pests, fertilization, and irrigation methods. [Spring offering] 2 lecture / 2 laboratory hours

OHT 232  Nursery Management I  3 credits
Prerequisite: OHT 101 or OHT 102 or permission of program coordinator
Examines nursery operations and mechanics. Topics include planting and transplanting trees and shrubs, fertilization, pest control, irrigation, pruning, propagation techniques, business operations, and employee management. Lab exercises and a field study of local businesses reinforce material. [Spring offering] 2 lecture / 2 laboratory hours
**OHT 241**  
Equipment and Integrated Pest Management  
3 credits  
*Prerequisite: OHT 102 or permission of program coordinator*

Review of the equipment and procedures used in horticultural settings with an emphasis on pest management. Topics include theories and strategies for integrated pest management, pest identification, application of pesticides, calibration of equipment, and equipment operation.  
*Spring offering*  
2 lecture / 2 laboratory hours

**OHT 291**  
Ornamental Horticulture Cooperative Education I  
3 credits  
*Prerequisite: OHT 291*

Required capstone experience for Ornamental Horticulture degree and certificate candidates. In approved positions related to their specializations, students work for cooperating employers. Includes performance reviews by faculty observers, employer evaluations of proficiencies, periodic seminars, and a final assessment.  
*Spring, Summer, Fall offering*  
175 work experience hours

**OHT 292**  
Ornamental Horticulture Cooperative Education II  
1 credit  
*Prerequisite: OHT 291*

Continuation of OHT 291.  
*Spring, Summer, Fall offering*  
85 work experience hours

---

**OST — OFFICE SYSTEMS TECHNOLOGY**

**OST 109**  
Keyboarding for Computer Users  
1 credit  
*Prerequisite: computer literacy*

Students use computers to learn the touch method of keyboarding. Fast-paced course designed for those familiar with computers but who need to develop keyboarding skills to improve their productivity.  
2 lecture / 2 laboratory hours (5 weeks)

**OST 219**  
Word Processing Concepts and Applications  
3 credits  
*Prerequisite: OST 109 with a minimum C grade or equivalent keyboarding proficiency*

Students develop proficiency in a wide range of word processing functions using Microsoft Word software. Covers generic concepts pertinent to all word processing software, as well as correct document formatting.  
2 lecture / 2 laboratory hours

---

**PBH — PUBLIC HEALTH**

**PBH 101**  
Principles of Public Health  
3 credits  
*Prerequisite: placement in college-level English*

A broad overview of public health including historical perspectives, communicable disease, epidemiology, health policy, environmental health, emergency preparedness, as well as social, cultural, and behavioral aspects of health across the life span. Additional topics present an introduction to public health infrastructure, delivery of local, state and national services, and core competencies for public health professionals.  
3 lecture hours

---

**PBT — PHLEBOTOMY**

**PBT 101**  
Phlebotomy for Healthcare Professionals  
4 credits  
*Prerequisite: high school diploma/GED*

Provides theory and skill development for healthcare professionals in the performance of blood collection using proper techniques and infection precautions. Student are provided with hands-on training to perform venipunctures and capillary skin puncture. The student is instructed in the anatomy and physiology of the circulatory system, specimen collection, specimen processing and handling, safety, and quality control. Upon successful completion, the student will be able to perform phlebotomy in a clinical setting.  
3 lecture / 3 laboratory hours

**PBT 102**  
Phlebotomy Practicum  
2 credits  
*Prerequisite: PBT 101*

Supervised experience in the performance of venipuncture and microcollection techniques in a clinical facility. Emphasis on patient interaction and application of universal precautions, proper collection techniques, special procedures, specimen handling, and data management. Upon completion, students should be able to safely perform procedures necessary for specimen collections on patients in various health care settings.  
100 studio hours
<table>
<thead>
<tr>
<th>Humanities</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>PHI 102</strong> Introduction to Philosophy</td>
</tr>
<tr>
<td>A study of the basic problems and methods of philosophical inquiry. Topics include theories about knowledge, reality, human nature, ethics, religion and science, with consideration of the thought of such major thinkers as Plato, Aristotle, Descartes, Hume, Kant, Nietzsche, and Sartre.</td>
</tr>
</tbody>
</table>

</tr>
<tr>
<td>---------</td>
<td>-------------------------------------------------</td>
<td>---------</td>
</tr>
<tr>
<td>PHY 102</td>
<td>College Physics II</td>
<td>4</td>
</tr>
<tr>
<td></td>
<td><em>Prerequisites:</em> PHY 101 and MAT 115 with a minimum C grade or approved equivalent. The second of a two-semester non-calculus sequence. Topics include electricity and magnetism, optics, atomic physics, and nuclear physics. 3 lecture / 3 laboratory hours.</td>
<td></td>
</tr>
<tr>
<td>PHY 109</td>
<td>Fundamentals of Physics</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td><em>Prerequisite:</em> MAT 037 or MAT 042. An introduction to the fundamental principles – underlying science and technology – of physics. Intended for the health fields, life sciences, and other areas requiring basic physics literacy. Topics of emphasis include Newtonian mechanics, work and energy, electricity and magnetism, electromagnetic waves, optics, as well as atomic and nuclear physics. 2 lecture / 2 laboratory hours.</td>
<td></td>
</tr>
<tr>
<td>PHY 111</td>
<td>Physical Science Concepts</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td><em>Prerequisite:</em> proficiency in basic algebra. Survey of fundamental concepts in the physical sciences for students not majoring in science or engineering. Covers a broad range of topics in the fields of chemistry, physics, and astronomy such as measurement, motion, forces (gravitational, electromagnetic, nuclear), light, sound, atomic structure, molecular structure, crystal structure, nuclear structure, and various technological applications. Lab exercises support and supplement the lecture topics. 2 lecture / 2 laboratory hours.</td>
<td></td>
</tr>
<tr>
<td>PHY 115</td>
<td>University Physics I</td>
<td>4</td>
</tr>
<tr>
<td></td>
<td><em>Prerequisites:</em> MAT 146 with a minimum C grade; one semester of high school or college physics. <em>Corequisite:</em> MAT 151. The first course in a calculus-based physics sequence intended for students majoring in physics, engineering science, computer science, mathematics, and other technical areas. Topics include kinematics, dynamics, statics, energy, momentum, oscillations, gravity, as well as solid and liquid materials. The laws of physics are investigated and applied to problem solving. 3 lecture / 3 laboratory hours.</td>
<td></td>
</tr>
<tr>
<td>PHY 121</td>
<td>The Universe</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td><em>Prerequisite:</em> MAT 038 or MAT 044. Introduces students to the world beyond Earth with a survey of modern astrophysics. Study encompasses three dominant sections: stellar astronomy, planets and life, and galaxies and cosmology. Laboratory data analysis requires algebra. Offered at off-site locations only. 2 lecture / 2 laboratory hours.</td>
<td></td>
</tr>
<tr>
<td>PHY 215</td>
<td>University Physics II</td>
<td>4</td>
</tr>
<tr>
<td></td>
<td><em>Prerequisites:</em> PHY 115 and MAT 151 with a minimum C grade. The second course in a calculus-based physics sequence intended for students majoring in physics, engineering science, computer science, mathematics, and other technical areas. Topics include electricity, magnetism, circuits, electromagnetic fields, as well as electromagnetic waves. The laws of physics are investigated and applied to problem solving. 3 lecture / 3 laboratory hours.</td>
<td></td>
</tr>
<tr>
<td>PHY 225</td>
<td>University Physics III</td>
<td>4</td>
</tr>
<tr>
<td></td>
<td><em>Prerequisite:</em> PHY 115 with a minimum C grade. The third course in a calculus-based physics sequence intended for students majoring in physics, engineering science, computer science, mathematics, and other technical areas. Topics include thermodynamics, gases, optics, as well as modern physics. The laws of physics are investigated and applied to problem solving. 3 lecture / 3 laboratory hours.</td>
<td></td>
</tr>
</tbody>
</table>
PHY 293  Honors Research in Physics I  2 credits
Prerequisites: PHY 101 or PHY 115; divisional permission
PHY 294  Honors Research in Physics II  2 credits
PHY 295  Honors Research in Physics III  2 credits
PHY 296  Honors Research in Physics IV  2 credits
Under the guidance of an area sponsor in an industrial or academic environment, students participate in a physics research project. Requires a written report and oral presentation to students and faculty at the conclusion of the project period. [May be applied toward fulfilling Science elective requirements in the Physics program or other program upon program coordinator’s approval.] 5 laboratory hours per week

POL — POLITICAL SCIENCE

POL 101  The American Political System  3 credits
Introduction to the basic structures of the United States national government and political processes with a view toward helping the student better understand current issues and policies. Topics include the Constitution, national-state relations and powers, the legislative and judicial processes, elections, and the activities of interest groups. 3 lecture hours

POL 102  State and Local Government  3 credits
Analysis of the structure and processes of state and local groups, parties and candidates. Examination of current events and trends in modern politics further enhances awareness of the nature, strengths and weaknesses of government. 3 lecture hours

POL 201  International Relations  3 credits
A broad-based survey of international relations using a variety of theoretical perspectives that allow students to better understand and analyze current and past international behavior. Concepts include balance of power, economic interaction, diplomacy, the role of international organizations, leadership styles, and public policymaking in the international context. 3 lecture hours

POL 203  Law and Society  3 credits
Explains the interaction of American law and society and the influence of legal doctrine and thought on broad trends in society with an emphasis on the role of the Supreme Court in American life. Examines recent major Supreme Court decisions. [occasional offering] 3 lecture hours

POL 205  Constitutional Law  3 credits
Introduces the principles of U.S. constitutional law including the constitutional basis for the federal system: powers of national government; the rights against national and state government; and the process of judicial review and the role of constitutional interpretation. 3 lecture hours

PSY — PSYCHOLOGY

PSY 101  Introduction to Psychology  3 credits
The scientific study of human nature – facts, principles, and theories concerning the mental, emotional, neurological, and social dimensions of human experience. Topics include consciousness, learning, thinking, memory, brain structure and function, motivation and emotion, development, personality, mental illness and its treatment, relationships, and social influence. 3 lecture hours
<table>

<th>Credits</th>
<th>Prerequisite</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSY 201</td>
<td>Educational Psychology</td>
<td>3</td>
<td>PSY 101 with a minimum C grade</td>
<td>An in-depth study of fundamental concepts and principles with broad applicability to classroom practice, supporting the preparation and continuing development of educational and human-service professionals. Topics include student development, student diversity, learning, cognitive processes, motivation, and instructional and assessment strategies. 3 lecture hours</td>
</tr>
<tr>
<td>PSY 204</td>
<td>Social Psychology</td>
<td>3</td>
<td>PSY 101 with a minimum C grade</td>
<td>Studies the behavior and development of the individual in society, the function of social attitudes, and the emergence of social awareness. Topics include socialization and identity, person perception, attraction, attribution, theory, conformity and obedience, and attitudes and prejudices. 3 lecture hours</td>
</tr>
<tr>
<td>PSY 206</td>
<td>Child Development</td>
<td>3</td>
<td>PSY 101 with a minimum C grade</td>
<td>Studies the physical, mental, emotional, and social development of the individual from conception through adolescence. Topics include motor and language development, attachment, temperament, gender and identity development, intelligence, prosocial and aggressive behavior, play, and family influences on development. 3 lecture hours</td>
</tr>
<tr>
<td>PSY 207</td>
<td>Developmental Psychology: Across the Life Span</td>
<td>3</td>
<td>PSY 101 with a minimum C grade</td>
<td>Studies the physical, mental, emotional and social development of the individual throughout the life span. Students learn to evaluate major theories and methods of study in developmental psychology, to identify the opportunities and dangers inherent at each phase of life, and to understand the factors that influence developmental processes. 3 lecture hours</td>
</tr>
<tr>
<td>PSY 208</td>
<td>Theories of Personality</td>
<td>3</td>
<td>PSY 101 with a minimum C grade</td>
<td>Defines and assesses human personality within the context of current scientific advances as well as seminal historical perspectives. Examines the impact of individual psychological differences in predicting various life outcomes. 3 lecture hours</td>
</tr>
<tr>
<td>PSY 210</td>
<td>Abnormal Psychology</td>
<td>3</td>
<td>PSY 101 with a minimum C grade</td>
<td>Discusses the question: What is abnormal behavior and when does this behavior become a diagnosable disorder? History of psychological disorders and early treatments are examined along with the current classifications of psychological disorders as defined by the American Psychological Association. Theories of causation, prevalence, and treatments are also explored. 3 lecture hours</td>
</tr>
<tr>
<td>PSY 215</td>
<td>Human Sexuality</td>
<td>3</td>
<td>PSY 101 with a minimum C grade</td>
<td>Describes the anatomy and physiology of the human reproductive system and the physiology of human sexual functioning. Emphasizes human sexuality as reflecting the psychological makeup of the individual. Stresses the importance of cultural influences on an individual's behavior, along with interpersonal relationship factors. 3 lecture hours</td>
</tr>
<tr>
<td>PSY 221</td>
<td>The Psychology of Women</td>
<td>3</td>
<td>PSY 101 with a minimum C grade</td>
<td>Exploration of the psychological, biological, and cultural factors influencing the lives of women. Critical analysis of differences and similarities between men and women, gender roles, and the effect of gender on contemporary issues in psychology including physical and emotional health, academic and occupational achievement, relationships, sexual intimacy, violence, and aging. 3 lecture hours</td>
</tr>
</tbody>
</table>
**PSY 230**  Special Studies in Psychology  
3 credits  
*Prerequisites: ENG 102 and PSY 101 with a minimum C grade or permission of instructor*

Consists of special courses in psychology which cater to needs expressed by the student and the broader general community. Taking advantage of particular faculty expertise, the course is offered on occasion in response to specific demand. 3 lecture hours

---

## PTA — PHYSICAL THERAPIST ASSISTANT

Except as noted, enrollment in PTA courses is limited to students who have completed all basic skill requirements and who have received full acceptance into the program. PTA majors are required to earn a minimum grade of C+ in PTA courses.

### PTA 101  
**Introduction to PTA**  
1 credit  
*Prerequisite: ENG 101*

Open to all students interested in physical therapy as a potential career. Provides an overview of the healthcare system and the specific roles of physical medicine and rehabilitation professionals. Topics include medical terminology, documentation, and communication skills. 1 lecture hour

### PTA 105  
**Kinesiology**  
3 credits  
*Prerequisite: BIO 103 with a minimum C grade completed within the past five years*

Open to all students interested in physical therapy as a career or in the study of human movement; required for Physical Therapist Assistant majors. Introduces the concepts of locomotion, forces, levers, and biomechanics. Topics include origins, insertions, innervations, and actions of the prime movers of the musculoskeletal system. 3 lecture hours

### PTA 107  
**Therapeutic Measurement**  
2 credits  
*Prerequisites: BIO 104 with a minimum C+ grade completed within the past five years; PTA 105  
Corequisite: PTA 201*

Addresses bony landmarks, muscle length, measurement of joint range of motion and muscle strength. Medical documentation is introduced. Students develop their skills through practice with each other. Competencies evaluated throughout the course. 1 lecture / 2 laboratory hours

### PTA 112  
**Pathology for PTAs**  
3 credits  
*Prerequisites: BIO 104 with a minimum C+ grade completed within the past five years; PTA 105*

Covers the essential nature of diseases, abnormalities of structure, and function characteristic of diseases. 3 lecture hours

### PTA 201  
**Therapeutic Exercise**  
2 credits  
*Prerequisite: PTA 105  
Corequisite: PTA 207*

Review and discussion of treatment interventions correlating with therapy goals. Topics include interpreting a physical therapy initial evaluation, stretching, strengthening, joint mobilization, massage, aerobic exercise, exercise parameters and progression. Students develop skills through practice with each other using patient scenarios to promote clinical decision-making. Competencies evaluated throughout the course. 1 lecture / 2 laboratory hours

### PTA 205  
**Motor Development**  
1 credit  
*Prerequisites: PTA 210, PTA 211  
Corequisite: PTA 213*

Introduces developmental milestones, lifespan motor development, motor control, motor learning, recovery of function, neuroplasticity, reflexes and reactions, adaptive equipment, and various treatment approaches for neurological impairments. 1 lecture hour
PTA 210  
PTA Techniques  
4 credits  
**Prerequisites:** PTA 105, PTA 107  
**Corequisite:** PTA 211  
Addresses patient care and handling, including patient positioning and bed mobility, vital signs, transfers and gait, aseptic techniques, wound care, pharmacology, edema management, wheelchair use, body mechanics, and cardiac and pulmonary interventions. Students develop their skills through practice with each other. Competencies evaluated throughout the course.  
*3 lecture / 2 laboratory hours*

PTA 211  
Physical Agents  
4 credits  
**Prerequisites:** PTA 107; MAT 115 or MAT 140 or PTA program approved  
**MAT equivalent with a minimum C grade (C+ if taken during or after Spring 2020)**  
Study of biophysical agents and therapeutic modalities in physical therapy practice. Lab and lecture activities develop problem-solving and critical thinking in the use of electrical stimulation, therapeutic heat, cold, traction, and hydrotherapy for therapeutic interventions. Competencies evaluated throughout the course.  
*3 lecture / 3 laboratory hours*

PTA 213  
PTA Therapy Clinic  
3 credits  
**Prerequisites:** PTA 210, PTA 211  
**Corequisite:** PTA 205  
Therapeutic interventions for conditions arising from cerebral vascular accidents, traumatic brain injury, spinal cord injury, amputations, joint replacement, cardiac disease, and neurologic dysfunction. Emphasizes activities to promote optimal functional outcomes. Lab develops decision-making skills involving assistive devices, orthotics and prosthetics. Competencies evaluated throughout the course.  
*3 lecture / 3 laboratory hours*

PTA 216  
Orthopedics in PTA  
2 credits  
**Prerequisites:** PTA 210, PTA 211  
**Corequisite:** PTA 205  
A study of orthopedic conditions and their underlying pathology. Emphasis on physical therapy interventions utilized in the rehabilitation of specified conditions.  
*2 lecture / laboratory hours*

PTA 224  
PTA Clinical Education I  
3 credits  
**Prerequisites:** PTA 210, PTA 211  
Supervised full-time clinical instruction to observe the clinic environment and PT/PTA interactions; develop professional deportment and communication; refine measurement and time management skills; and learn about patient chart information.  
*40 hours per week for 4 weeks = 160 clinical hours*

PTA 227  
PTA Seminar  
3 credits  
**Prerequisite:** PTA 107  
**Corequisite:** PTA 210  
Overview of the healthcare system and the specific roles of professionals in healthcare fields. Topics include medical terminology, psychosocial aspects of disability, medical documentation, professional growth and development, evidence-based practice, and communication skills.  
*3 lecture hours*

PTA 235  
PTA Clinical Education II  
4 credits  
**Prerequisites:** PTA 213, PTA 224  
Supervised full-time clinical experience allows students to apply and practice skills learned in other classes and learn to become an integral part of a physical therapy department.  
*40 hours per week for 5 weeks = 200 clinical hours*

PTA 237  
PTA Professional Development  
3 credits  
**Prerequisite:** PTA 227  
Explores teaching, learning and communication styles, the development of an in-service presentation, and professional tools students will need following graduation. Includes observing the fabrication of prosthetics and witnessing physical therapy in an urban-based rehabilitation setting to be able to teach future patients more effectively.  
*3 lecture hours*

PTA 240  
PTA Clinical Education III  
5 credits  
**Prerequisite:** PTA 235  
Supervised full-time clinical experience allows students to practice all of the techniques and procedures taught in the program, performing all that is normally expected of a physical therapist assistant.  
*40 hours per week for 6 weeks = 240 clinical hours*
Enrollment in radiography courses is limited to students who have completed all basic skill requirements and who have received full acceptance into the program. The minimum passing grade for all RAD courses is C+.

Student learning outcomes in RAD courses support Radiography program goals in accordance with the Joint Review Committee on Education in Radiologic Technology external accreditation Standards.

**RAD 102 Introduction to Radiography and Patient Care**
- **2 credits**
- **Prerequisite:** formal acceptance into professional phase of Radiography program
- **Corequisites:** RAD 119, RAD 127
- An introduction to radiography including accreditation requirements, professional organizations, professional ethics, legal responsibilities, and patient care. **1 lecture / 2 laboratory hours**

**RAD 117 Radiation Protection and Biology**
- **2 credits**
- **Prerequisites:** RAD 120, RAD 128
- **Corequisite:** RAD 207
- Explores principles of radiation biology and radiation protection, including the production of X-rays, the interaction of radiation and matter, radiation units, and methods to protect the radiographer and patient. [Summer offering] **2 lecture hours**

**RAD 119 Principles of Imaging Science I**
- **2 credits**
- **Prerequisite:** formal acceptance into professional phase of Radiography program
- **Corequisites:** RAD 102, RAD 127
- Examines fundamental principles of radiation physics including the atom, electromagnetic radiation, X-ray tube components, and X-ray production. Presents imaging science principles including the primary factors of technique formation and the art of film critique, with clinical application of these principles. [Fall offering] **2 lecture hours**

**RAD 120 Principles of Imaging Science II**
- **3 credits**
- **Prerequisites:** RAD 102, RAD 119, RAD 127
- **Corequisite:** RAD 128
- Radiographic principles of image acquisition and evaluation are examined. Imaging physics principles of electricity, magnetism and X-ray circuitry are presented. The laboratory component is designed to demonstrate the application of image acquisition and evaluation. [Spring offering] **2 lecture / 2 laboratory hours**

**RAD 127 Radiographic Procedures I**
- **6 credits**
- **Prerequisite:** formal acceptance into professional phase of Radiography program
- **Corequisites:** RAD 102, RAD 119
- Focuses on standard radiographic positioning and related medical terminology of the chest, abdomen, and upper and lower extremities with laboratory simulation and evaluation. Students acquire correlated clinical experience and begin the clinical competency evaluation process at a clinical affiliate. Radiographic image analysis is assigned. [Fall offering] **3 lecture / 3 laboratory / 210 clinical hours**

**RAD 128 Radiographic Procedures II**
- **6 credits**
- **Prerequisites:** RAD 102, RAD 119, RAD 127
- **Corequisite:** RAD 120
- Focuses on standard radiographic positioning and related medical terminology of the bony thorax, pelvic girdle, upper femora, and vertebral column with laboratory simulation and evaluation. Students acquire correlated clinical experience and continue the clinical competency evaluation process at a clinical affiliate. Radiographic image analysis is assigned. [Spring offering] **2 lecture / 3 laboratory / 225 clinical hours**

**RAD 207 Clinical Experience**
- **2 credits**
- **Prerequisites:** RAD 120, RAD 128
- **Corequisite:** RAD 117
- Students participate in clinical education at a clinical affiliate, performing radiographic procedures in accordance with the clinical competency evaluation process. Radiographic procedures range from routine to complex and are performed on all populations, pediatric through geriatric. Radiographic image analysis is assigned. [Summer offering] **225 clinical hours**
RAD 217  Advanced Imaging Modalities  3 credits
Prerequisites: RAD 117, RAD 207
Corequisite: RAD 228
Presents an overview of special radiographic procedures and advanced imaging and therapeutic technologies. [Fall offering] 3 lecture hours

RAD 224  Introduction to Pathology  2 credits
Prerequisites: RAD 217, RAD 228
Corequisites: RAD 232, RAD 240
Survey of the disease process and pathological conditions. Includes an in-depth study of diseases commonly demonstrated radiographically. [Spring offering] 2 lecture hours

RAD 228  Radiographic Procedures III  7 credits
Prerequisites: RAD 117, RAD 207
Corequisite: RAD 217
Focuses on standard radiographic positioning and related medical terminology of the urinary system, alimentary canal, biliary system and cranium with laboratory simulation and evaluation. Students acquire correlated clinical experience and continue the clinical competency evaluation process at a clinical affiliate. Radiographic image analysis is assigned. [Fall offering] 2 lecture / 3 laboratory / 340 clinical hours

RAD 232  Imaging Equipment and Radiography Seminar  4 credits
Prerequisites: RAD 117, RAD 207
Corequisites: RAD 224, RAD 240
Evaluation of radiographic equipment in tandem with quality control standards to ensure optimal diagnostic images. Includes discussion of state, federal and non-governmental requirements. The seminar focuses on professional development and helps students prepare for the A.R.R.T. examination. [Spring offering] 3 lecture / 2 laboratory hours

RAD 240  Advanced Clinical Experience I  3 credits
Prerequisites: RAD 217, RAD 228
Corequisites: RAD 224, RAD 232
Offers advanced clinical experience in all aspects of radiologic technology in cooperation with clinical affiliates. Students acquire clinical experiences and proficiencies sufficient to demonstrate competency in a specified number and variety of diagnostic radiographic procedures. Radiographic image analysis is assigned. [Spring offering] 340 clinical hours

RAD 242  Advanced Clinical Experience II  2 credits
Prerequisites: RAD 224, RAD 232, RAD 240
In cooperation with clinical affiliates, students enhance proficiency in all aspects of radiologic technology by performing diagnostic radiographic examinations on a variety of patients. Competency evaluations and academic assessments test skills expected of entry-level radiographers. [Summer offering] 225 clinical hours

REL — RELIGIOUS STUDIES

REL 101  Introduction to Religious Studies  3 credits
An introduction to the study of religions, focusing on the nature of religious beliefs and practices, such as sacred power, myths, texts, art and rituals, the problem of evil, and the relationship between cultures, ethics and religions. 3 lecture hours

REL 102  Living World Religions  3 credits
A comparative study of the world’s major religions, through a critical exploration of the essential teachings and cultural context of Hinduism, Buddhism, Judaism, Christianity, Islam, Daoism, Confucianism among others, including pre- and post-colonial African and American traditions. 3 lecture hours

SOC 230  Special Studies in Sociology  3 credits

Prerequisites: SOC 101 or SOC 107 with a minimum C grade; ENG 102 or divisional permission

Consists of special courses in sociology which cater to needs expressed by the student and the broader community. Taking advantage of particular faculty expertise, the course is offered on occasion in response to specific demand. 3 lecture hours

**SPA — SPANISH**

Note: Students who have taken two or more years of a foreign language, and have done so in the last two years, should begin that language at the 200 level or switch to a new language. If there is doubt, placement will be determined by testing or consultation with the academic division.

### Humanities

**SPA 101**  Beginning Spanish I  3 credits

Prerequisite: placement by exam or permission of instructor

[not open to students who received a C- or better in high school Spanish] The first in a sequence of courses designed for students with little or no prior knowledge of Spanish. Spoken communication in Spanish is both the end goal and the means of instruction. Emphasizes the four communicative skills in a culturally authentic context. Reading and writing are assigned out of class to facilitate effective listening and speaking practice in class. Basic grammar skills are also introduced. 3 lecture hours

**SPA 102**  Beginning Spanish II  3 credits

Prerequisite: SPA 101 with a minimum C- grade, placement by exam, or permission of instructor

[not open to students who have passed two or more years of high school Spanish] The second in a sequence of courses designed for students with little or no prior knowledge of Spanish. Spoken communication in Spanish is both the end goal and the means of instruction. Emphasizes the four communicative skills in an authentic language context. Reading, writing, and grammar study are assigned out of class to facilitate effective listening and speaking practice in class. 3 lecture hours

### Humanities / Diversity and Global Perspective

**SPA 110**  Hispanic Culture  3 credits

A survey course that explores the culture, nation, language, geography, and power within a region or regions of the Spanish-speaking world; topic to be determined by instructor based on expertise or, in the case of study abroad, based on the country or region of travel. Concepts are treated synchronically, diachronically, and politically. [Taught in English; does not fulfill foreign language requirement.] 3 lecture hours

**SPA 121**  Spanish for Health Providers I  3 credits

The first in a sequence of courses designed for healthcare students and professionals with little or no prior knowledge of Spanish. Spoken communication in Spanish is both the end goal and the means of instruction. Emphasizes listening, speaking, reading, and writing Spanish within the context of providing healthcare, medicine, and well-being. Reading and writing are assigned out of class to facilitate effective listening and speaking practice in class. Basic grammar is also introduced. 3 lecture hours

**SPA 122**  Spanish for Health Providers II  3 credits

Prerequisite: SPA 101 or SPA 121

The second in a sequence of courses designed for healthcare students and professionals with little or no prior knowledge of Spanish. Spoken communication in Spanish continues as both the end goal and the means of instruction. Builds on listening, speaking, reading, and writing Spanish within the context of providing healthcare, medicine, and well-being. Reading and writing are assigned out of class to facilitate effective listening and speaking practice in class. Basic grammar is also introduced. 3 lecture hours
SPA 151 Intermediate Spanish I  
**3 credits**  
*Prerequisite:* SPA 102 with a minimum C grade, placement by exam, or permission of instructor  
The first third (five weeks) of the semester is dedicated to a review of beginner-level grammar and vocabulary. The class then transitions to short readings and guided discussions which apply the reviewed language to topics of Hispanic culture, politics, and history. Spanish communication is the means and end goal of instruction.  

SPA 152 Intermediate Spanish II  
**3 credits**  
*Prerequisite:* SPA 151 with a minimum C- grade, placement by exam, or permission of instructor  
Continuation of SPA 151. Previously learned grammar is reviewed and applied – typically in the present tense – to discussions and debates of topics in Hispanic culture, politics, and history. Spanish reading, writing, listening and speaking are the means and end goal of instruction.  

SPA 251 Advanced Spanish I  
**3 credits**  
*Prerequisite:* SPA 152 or permission of instructor  
A conversation course which covers a variety of topics related to Hispanic culture through the reading and interpretation of texts including examples of authentic Hispanic literature. Taught entirely in Spanish, this course additionally develops speaking and writing skills, builds vocabulary, and stimulates debate, conversation, and class discussion.  

SPA 252 Advanced Spanish II  
**3 credits**  
*Prerequisite:* SPA 152 or permission of instructor  
A grammar course taught conversationally in Spanish and within the context of topics related to Hispanic culture and society, including some reading from authentic Hispanic literature. Involves vocabulary building, but mainly emphasizes review and oral practice of grammatical constructions to improve the non-native student’s oral and written communication skills.  

### SST — SECURITY SYSTEMS TECHNOLOGY

SST 200 Physical Security Product Technologies  
**3 credits**  
*Prerequisites:* NET 103 and NET 104 or equivalent experience  
Addresses the operation and integration of physical security products and technologies including IP-based video surveillance equipment, analytics software, and physical security information management (PSIM), how to satisfy the needs of end user customers by reducing operating costs, and how these technologies keep assets safe around the world.  

SST 210 Security Project Management  
**3 credits**  
*Prerequisite:* SST 200  
Examines the role of the security project manager, including the concepts and tools of professional project management. Topics include managing costs, assuring quality, and controlling all aspects of projects throughout the lifecycle, plus fundamental factors affecting a given project, such as stakeholder influence, cash flow, and risk management.  

SST 220 Systems Integration: A Business Blueprint  
**3 credits**  
*Prerequisite:* SST 200  
Students learn to build a security solution which combines equipment, engineering and service, analyze the attributes of products and services, assess customer needs, align organizational strategy to leverage the most powerful features and strengths of products and services, and create a system to meet a client need or solve a client problem.
SST 230  Security Sales: The Consultative Approach  3 credits

*Prerequisite: SST 200

An introduction to the sales process, focusing on security solutions. Students learn how to organize the sales effort; assess customer needs and present security solutions; organize constituencies to develop, design, and implement security systems solutions; assess return on security investment; manage the customer experience; and maintain consultative, profitable customer relationships. *2 lecture / 2 laboratory hours*

### STA — STUDY ABROAD

STA 101  Study Abroad Seminar  1 credit

*Prerequisite: prior approval to travel abroad
Corequisite: Study Abroad course(s)*

A complement to a student’s study abroad experience. Students are challenged to reflect on their exposure to culturally diverse people, examine multicultural experiences, and draw connections between study abroad and future endeavors, with the goal of articulating this significance to potential employers and other audiences. Students construct an e-portfolio to catalog their work. *1 lecture hour*

### SUS — SUSTAINABILITY

SUS 101  Introduction to Sustainability  3 credits

*Prerequisites: ENG 024, ENG 034*

Examination of the fundamental concepts and principles supporting long-term preservation and availability of natural resources and ecological balance. Factors of sustainability explored include global population growth and consumption, climate change, energy, ecosystems, and community design. *3 lecture hours*

### THR — THEATRE

THR 101  Introduction to Theatre  3 credits

*Humanities*

Beginning study of the theatre as an art form, examines how a dramatic text is transformed into a stage production. Students read and analyze plays to understand theatre production practices – historical as well as current – and dramatic theory. Requires attending current theatre productions. [Fall and Spring offering] *3 lecture hours*

THR 102  Stagecraft  3 credits

Introduction to the skills and practice of technical theatre. Studies include elementary carpentry and set construction, scene painting, shop procedures, lighting, cost efficiency, and safety. Students work on college theatre productions. [Fall and Spring offering] *2 lecture / 2 laboratory hours*

THR 104  Fundamentals of Acting  3 credits

Introductory course for both actors and non-actors, examines the history and theory of acting with emphasis on Stanislavski and 20th century methods. Students participate in breathing, relaxation, and centering exercises, theatre games, and improvisational work to develop basic acting skills. Study includes the fundamentals of text analysis, group rehearsal dynamics, and verbal evaluation of other acting work. The class concludes with a public performance. [Fall and Spring offering] *2 lecture / 2 laboratory hours*

THR 105  Acting II: Principles of Characterization  3 credits

*Prerequisite: THR 104*

Continuation of the skills developed in THR 104. Focuses on the actor’s movement and voice skills to support character work. Students utilize Michael Chekhov’s Acting Technique, mask work, and improvisation to broaden basic acting skills. Attendance at dance, chorus, and theatre productions is required. [Spring offering] *2 lecture / 2 studio hours*
THR 107  Dramatic Writing for Stage and Screen  3 credits

Prerequisite: ENG 101 or divisional permission

Works of master playwrights and screenwriters are read and discussed. In-class writing exercises, “sense memory” prompts, and strategies for developing dynamic character-based storytelling for the stage are covered during first half of course. Students then adapt and expand this work to create a 20-minute screenplay. 2 lecture / 2 laboratory hours

THR 150  Scenic Techniques for the Entertainment Industry  3 credits

Prerequisites: ETT 102, THR 102 with a minimum C grade

Through a variety of projects, students are introduced to fundamental techniques and materials used in scenic art. Explores color theory, various media, proper preparation of surfaces, different painting techniques, Pissaro shapes, cartooning backdrops, trompe l'oeil, and teamwork. Examines ways these techniques and materials are used in the theatre and other entertainment industries including film, television, theme parks, and casinos. [occasional offering] 2 lecture / 2 laboratory hours

THR 152  Lighting Technology  3 credits

Prerequisite: ETT 102

Introduction to stage lighting and to the aesthetics of scenic lighting as a visual art. Involves hanging, alignment, focusing, maintenance, and operation of various types of stage lighting fixtures. Students are required to work as a lighting technician at approved venues. 2 lecture / 2 laboratory hours

THR 207  Scene Study I  3 credits

Combines literary and theatrical skills. Students analyze scenes from plays, screenplays, and non-dramatic literature to discover how theatre artists use character, setting, circumstance, and dialogue when transforming text into performance. The interaction of writers, actors, and directors in developing and presenting scenes in performance is also observed. The class concludes with a public performance. [Fall offering] 3 lecture hours

THR 210  Theatre History: Classical to Elizabethan  3 credits

A study of the evolution of theatre from classical Greek and Roman traditions through the Elizabethan period. Emphasis on the play in performance reflecting the changing physical theatre, as well as the social, political, and artistic currents of each period. [Spring offering] 3 lecture hours

THR 212  Central Voices in World Drama  3 credits

Prerequisite: ENG 102 or divisional permission

Introduces students to important dramatic texts and examines them beyond the page as blueprints for performance. Emphasizes playwriting conventions, elements, styles, trends, and movements to chart changing dramaturgy and production practices in the world. Some playwrights include Christopher Marlowe, Henry David Hwang, Tennessee Williams, Bertolt Brecht, Amiri Baraka, Arthur Miller, Caryl Churchill, and Wole Soyinka. [Fall offering] 3 lecture hours

THR 217  Theatre Workshop  3 credits

Prerequisites: THR 104 and THR 105 and/or permission of instructor

A practical study of theatrical production by intensive script study and supervised technical projects which culminates in performances for a live audience. Students apply techniques they have learned in prior acting and technical classes to the research, rehearsal and performance of a role in a fully realized theatrical production. [Spring offering] 1 lecture / 5 laboratory hours

THR 252  Lighting Design  3 credits

Prerequisites: ETT 102, THR 152 with a minimum C grade

Fundamentals of lighting design. Analysis of a script for lighting and development of a workable design concept. Through this concept and an evaluation of the performers' spatial relationships in the production, students generate light plots and the associated paperwork common to a production. Students are required to work as a lighting designer at approved venues. 2 lecture / 2 laboratory hours
### VPA — VISUAL AND PERFORMING ARTS

**VPA 228**  
Artistic Collaboration Workshop  
3 credits

*Prerequisite: ENG 101*

Open to actors, dancers, musicians, media professionals, and fine artists. Alternates between generating new performance work and examining the history of collaboration among established artists of different disciplines in Modernist and Postmodernist movements. Students work with the materials of their specific craft while taking inspiration from the other artistic movements. Participants must attend all sessions, and all assignments require rehearsals outside of class time. [Fall offering]  
*

2 lecture / 2 laboratory hours

---

### WGS — WOMEN’S AND GENDER STUDIES

**Diversity and Global Perspective**

**WGS 132**  
Introduction to Women’s and Gender Studies  
3 credits

*Corequisite: ENG 101 or college-level eligibility*

[also offered as SOC 132] An introduction to major theories and ideas developed within feminism and the field of gender studies. Specific topics include theoretical explanations of gender; representations of gender; economic, social, and political implications of gender constructs; and cross-cultural perspectives on gender. Texts, films, and other resources contribute toward an understanding of these issues.  

3 lecture hours

**WGS 221**  
Seminar in Women’s and Gender Studies  
3 credits

*Prerequisites: ENG 102 with a minimum C grade; 9 credits of electives as listed in the Women’s and Gender Studies guidelines*

An in-depth interdisciplinary exploration of the contributions of the social sciences, the behavioral sciences, literature, and the arts to the study of gender in society. Specific topics include feminist theories, feminist methodologies, and women and gender issues in relation to culture, politics, and the economy. Texts, films, and other resources contribute toward an understanding of these issues.  

3 lecture hours
