

All courses within the nursing program MUST be completed within 6 semesters of beginning NRS110 for the first time. A C+ is the lowest acceptable grade to be successful in nursing courses. Any student not successful in a nursing course (C or lower) will not progress to the next nursing course and will be required to apply for reinstatement (See Reinstatement to Nursing Policy). Any student who is unsuccessful (C or lower) in two (2) nursing courses, either the same nursing course twice or a nursing course in each of two different semesters, in the professional curriculum will be permanently dismissed from the nursing program.

For students who have been permanently dismissed from the nursing program for multiple course failures or exceeding the required six (6) semesters, but have extenuating circumstances, see the “Readmission for Permanently Dismissed Students” policy.

For those students who have been permanently dismissed from the nursing program, a second-chance option is available beginning with the fall 2013 semester. See the “Second Chance” policy.

All students returning to any course in the nursing program will be held to the current policies/ standards in effect at the time of their return.
