PHYSICAL EXAMINATION REPORT INSTRUCTIONS

The enclosed Physical Examination Report must be completed by your healthcare provider. The form must be submitted to the Nursing Education office no later than **August 15, 2011**. Students who do not submit this information will be unable to begin Nursing I.

Required Immunizations

- ❖ Tetanus/Diphtheria - Every student must have received a tetanus shot within the last 10 years. If you do not know your status, you **must** be immunized. We require the DTap vaccine.
- ❖ Hepatitis B - A series of three (3) vaccinations is highly recommended for healthcare professionals. If you have completed the series, the dates need to be indicated and a blood test (titer) is required to show immunity status. If you have not begun the series, you may do so now or if you chose not to be immunized for Hepatitis B, you must sign a declination form. These forms are available in the Nursing Education office.
- ❖ H1N1 – Every student must provide proof of H1N1 vaccination.

Required Labs

- ❖ CBC - A complete blood count is required and must be dated within 1 year of beginning Nursing I. A copy of the actual lab report must be included.
- ❖ Urinalysis - A complete blood count is required and must be dated within 1 year of beginning Nursing I. A copy of the actual lab report must be included.
- ❖ Rubella, Rubeola, Varicella - Proof of immunity must be verified by a blood test (titer). A copy of the actual lab report must be included. Any student who does not demonstrate immunity should be revaccinated.
- ❖ Recent urine drug screen (either 5 or 7 panel) and submit lab results

Mantoux (PPD)

A two (2) stage PPD is required for your initial health record. Copies of the PPD results must be submitted.

For students who have received a BCG or have a positive PPD, a chest x-ray report must be submitted.

A single stage PPD or chest x-ray must be submitted annually, while enrolled.
