GOALS:

1. To assist students of all levels in the nursing program to learn key strategies useful when reading NCLEX test questions
2. To provide effective study strategies to assist students to narrow down large volumes of reading materials, lectures, notes
3. To provide flexibility of available time slots specific to the various levels of students in the nursing program – time slots will vary every other week allowing for more flexibility around work and school schedule.

STUDENT RESPONSIBILITY:

1. Notify tutor 2 days in advance to assist in planning for any handouts. (*Student can still attend workshop if the decision to attend was a last minute choice*). Identify yourself and the course you are currently enrolled. Identify if you are between courses.
2. Complete an information form ONCE at first time attending the workshops
3. Following the workshop, complete a short form indicating if needs were met.

Any student who finds the times defined below difficult to meet due to work/home/family commitments, you may join the defined times. Focus of those times will be for content specific to the courses in that level, but learning test taking strategies/study strategies is possible from all sessions.
