

This is the reading assignment for Nursing 222. We are using a new book this semester that is available in the bookstore. It is a softcover book that doesn't look like the typical textbook. You will also have readings from the Concept Based Approach to Nursing, Vol. 1.

Module	Concept Based Approach, Vol. 1	Pearson Custom Maternity Newborn
Module 1	pp. 1515-1577	pp. 1-50
Module 2		pp. 51-147
Module 3		pp. 148-221
Module 4		pp. 240-363
Module 5		pp. 222-237, 365-469

In addition, focus on Student Learning Outcomes, Objectives, and Content for each Module listed in the Course Outline.

Please review Female and Fetal Anatomy and Physiology for Class I. Even though it will not be tested on the quiz, there will be questions asked of this content in class. See power points for some of the questions. Bring a copy of the Nursing 222 Supplement to lecture and clinical.
