***Special Program Note on Attendance:***

Public Speaking is a **performance** course.

Full, on-time attendance to all sessions is mandatory in Communication courses because of the live performance, listening, group, speech and class participation factors. Students’ individual performance, and the observation of peer performance are equally essential to reinforcing theory and concept. Skills are built over time. Each session is crucial. Missed time directly results in missed performance goals. Extensive lates or absences can result in significant point penalties, instructor-initiated withdrawal, or failure of the course. These policies are communicated to the student in writing and live, in class, at the beginning of the course term and throughout it. For more information about the attendance policies in a communication course, please contact the Communication Program or the specific Course Coordinator.
