

Attend evening/weekend classes at Mercer!

# Complete Your Degree in Two Years!

Complete an associate degree in two years by taking courses in the evenings and on weekends! You can complete the Business Administration Associate in Science degree or the Liberal Arts Associate in Arts degree. Both of these degrees prepare you to transfer to a four-year college or university.

### **Business Administration A.S.**

The Business Administration program is designed for the student who plans to earn a business-related bachelor's degree at a four-year college or university.

Program graduates have successfully transferred to a wide variety of colleges and universities all over the United States, including Rutgers University, Rider University, The College of New Jersey, Drexel University, Temple University and New York University. Admission to the Business Administration program requires a high school diploma or its equivalent. A strong background in mathematics is helpful.

For more information, contact Dee Smith-Johns, Student Advocate, Division of Business and Technology, at [johnsd@mccc.edu](mailto:johnsd@mccc.edu) or 609.570.3449.

### **Liberal Arts A.A.**

The Liberal Arts program prepares students to transfer to a four-year college or university in fields such as English, history, humanities, journalism, foreign languages, pre-law, literature, psychology, sociology, political science, philosophy, and education.

Program graduates have successfully transferred to colleges and universities throughout New Jersey and across the country. Students intending to transfer to a particular college should work with an advisor or someone in Transfer Services early in their course of study to determine whether the transfer institution would prefer that particular courses be taken as electives.

For more information, contact Marge Archer, Student Advocate, Division of Liberal Arts, at [archerm@mccc.edu](mailto:archerm@mccc.edu) or 609.570.3268.
