

PRINCETON UNIVERSITY MATERIALS ACADEMY

July 8–26, 2024

A 3-week materials science & engineering program with inquiry-based, hands-on labs, and project-based learning, supported by lectures and interactions with Princeton faculty, postdocs and graduate students.

- Free summer program
- Breakfast and lunch provided
- Poster presentation session on last day

Application deadline: April 30th

Space is limited!

Questions?: dentons@mccc.edu or pccmapps@princeton.edu

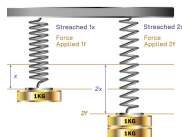

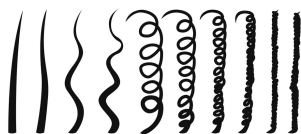

2024 THEME:

The materials science of *HAIR*

Hair is a fascinating and complex material. Join us for a research-based project learning experience as we investigate the mechanics, structure and chemistry of hair.
