

S.T.E.M. CAREER DAY!

Considering a career in Science, Technology, Engineering or Mathematics?

*Learn about some of the fastest-growing fields in the U.S.
Learn what skills you need to obtain a job in one of these fields*

***Join us for an information session with MCCC Faculty
and local business representatives***

**Thursday, March 26, 2015
12 noon to 1:30 p.m.
CM 107**

See how your interest in the S.T.E.M. subjects can benefit you in the job market.
Many of these well-paying careers require only an associate degree.

Visit displays and demonstrations about each of the fields in the
Communications Center lobby from 10 a.m. to 12 noon that day.

The panel will be open for questions following the presentation.

Refreshments will be served.
