General Information

LIBRARY RE-LOCATION (TEMPORARY)

As a result of **building renovations** centering on the West Windsor Campus Student Center (SC) and Library (LB), Library Services -- previously in the Library building (LB) -- is now located in the **temporary trailers** adjacent to the Administration building (AD), across from the Business building (BS).

For services available and additional information concerning the Library relocation, [click here](#).

Due to the construction going on in the library the college has purchased an **ebrary** collection of electronic books. The **ebrary** adds approximately 18,000 titles to the library's collection. Additionally, students and faculty have access to even more e-books through **E-Books (Net Library)**.

Libraries are located at both the West Windsor and James Kerney campuses; a small library is available at the Dempster Fire Training Center. An extensive collection of print and nonprint resources are available to the college community for study, research, and enjoyment.

Included are more than 65,000 books in addition to audiovisual resources such as audio and videocassettes, phono, laser, and compact discs. Numerous **electronic databases** provide access to well over 7,500 journal articles, many in full text, available in the libraries, classrooms, and from home.

Reference staff are available to answer questions, and you can **e-mail questions to library staff**.

A large, open computer lab is located in the West Windsor library and a smaller lab is available in the James Kerney Campus library. Its primary use is for the completion of class assignments or to access specific information related to classes such as the reserve collection or specialized instructor-assigned websites.
