

## **RESULTS POSTED IN ANGEL.**

### **1. VIEW - DISSECTION / TOPIC - HEAD AND NECK/ANTERIOR**

What is the "kissing" muscle?

### **2. VIEW - DISSECTION / TOPIC - HEAD AND NECK/ANTERIOR**

The action of what muscle can be used to show expression of "horror"?

### **3. VIEW - DISSECTION / TOPIC - HEAD AND NECK/POSTERIOR**

Name the muscle responsible for elevation of the scapula, such as shrugging the shoulders.

### **4. VIEW - DISSECTION / TOPIC - HEAD AND NECK/ANTERIOR**

Name the muscle that when contracted, the head rotates so that the face turns downwards to the opposite side.

### **5. VIEW - DISSECTION / TOPIC - THORAX/ANTERIOR**

Name a muscle that is involved in adduction, extension, and medial rotation of the arm?

### **6. VIEW - DISSECTION / TOPIC - THORAX/ANTERIOR**

Name the muscle that consists of three to four bellies separated by tendinous intersections?

### **7. VIEW - DISSECTION / TOPIC - THORAX/ANTERIOR**

Name the muscle with its origin at the medial clavicle and the manubrium of the sternum and its insertion at the mastoid process.

#### 8. VIEW - DISSECTION / TOPIC - THORAX/ANTERIOR

What muscle is referred to as the "pecs"?

#### 9. VIEW - DISSECTION / TOPIC - ABDOMEN

What abdominal muscle has its fibers running at right angles to the internal oblique?

#### 10. VIEW - DISSECTION / TOPIC - BACK

Name the superficial “kite-shaped” muscle of the back that spans from the occipital bone to vertebrae T12.

#### 11. VIEW - DISSECTION / TOPIC - BACK

Name the superficial muscle whose origin is the spinous process of T2 - T5 vertebrae?

#### 12. VIEW - DISSECTION / TOPIC – SHOULDER AND ARM/POSTERIOR

What specific structure of what bone constitutes the point of the elbow, where the triceps brachii muscle inserts.

#### 13. VIEW - DISSECTION / TOPIC – SHOULDER AND ARM/ANTERIOR

Name the 2 headed muscle that allows flexion of the forearm.

#### 14. VIEW - DISSECTION / TOPIC – SHOULDER AND ARM/POSTERIOR

Name the muscle found in the infraspinous fossa.

15. VIEW - DISSECTION / TOPIC – SHOULDER AND ARM/POSTERIOR

Name the 4 rotator cuff muscles, what is their function?

16. VIEW - DISSECTION / TOPIC – SHOULDER AND ARM/POSTERIOR

Name two muscles with their insertions on the medial border of the scapula.

17. VIEW - DISSECTION / TOPIC – HIP AND THIGH/ANTERIOR

Name the muscle important in assuming "scissor-legged" or "cross-legged" position.

18. VIEW - DISSECTION / TOPIC – HIP AND THIGH/POSTERIOR

Name the two muscles that allow the non-weight-bearing limb to swing during walking.

19. VIEW - DISSECTION / TOPIC – LEG AND FOOT

Name the calf muscle deep to the gastrocnemius.

20. VIEW - DISSECTION / TOPIC – LEG AND FOOT

Name the powerful muscle for “push-off” of the foot during walking or running.
